

## MP23X Series 2K Urethane Sealers

**MP231—White**

**MP235—Gray**

**MP237—Dark Gray**

Designed for use in National Rule areas, MP23X Series 2K Urethane Sealers are the ideal addition to the OMNI® Plus refinish system. These fast-drying sealers will provide an excellent foundation for creating smooth topcoat finishes with excellent gloss holdout. They can be used over unsanded e-coat, sanded original finishes or properly prepared bare steel, aluminum, fiberglass and plastic. Available in white, gray and dark gray, these sealers can be blended to achieve varying shades of gray for better hiding.

### Product Features:

- **Air dries in as little as 15 minutes**
- **Impressive color holdout**
- **Excellent flow and leveling**
- **Easy to apply**
- **Simple 4:1:1 mix ratio**
- **Available in quarts and gallons**
- **Uses MH283 and MH284 hardeners**
