

MC2800 EUROPLUS® Speed Clear

Delivering performance and value for the cost-conscious repair shop, MC2800 EUROPLUS® Speed Clear is a high solids clearcoat offering excellent gloss and appearance. As part of the OMNI® Plus product line, MC2800 provides fast cycle times—including a 15-minute short bake option and the ability to air dry and buff the same day.

Ease of use and flexibility are also strong suits of MC2800. In addition to a simple 2:1 mix ratio, MC2800 can adjust to production conditions, such as the size of the job or temperature, with the two available activators: MH2880 and MH2890 High Temperature.

- **Fast dry times—increased productivity**
- **Excellent gloss and DOI**
- **4.2 lbs./gal. VOC**
- **2:1 mix ratio**
- **Two activators available**
- **Outstanding results at an economical price**
