

MC262 2.1 VOC 4+1 Urethane Clear

MC262 is an economical, two-component, acrylic urethane clear that you'll find outperforms competitive, comparably priced clearcoats. This versatile clear can be flattened and used as a specialty coating for low gloss interior and exterior applications. There's also a choice of three hardeners so you can easily adjust this clearcoat to job size and working conditions.

Product Features:

- **Excellent value**
- **Fast force dry—20 minutes at 140°F (60°C)**
- **Impressive gloss**
- **Low gloss option for interior and exterior applications**
- **Versatile range of hardeners to fit job size and conditions**
