

# Shop-Line® Plus JBPX 3.5 VOC Acrylic Urethane Basecoat

**The low-VOC, solventborne basecoat system offering the ideal balance of performance and price.**

Available exclusively from your PPG Platinum Distributor, SHOP-LINE® Plus JBPX 3.5 VOC Acrylic Urethane Basecoat is a fast-drying, solventborne basecoat system that offers the proven performance of PPG's *Shop-Line* urethane technology while meeting all VOC compliance requirements.

*Shop-Line Plus* JBPX low-VOC basecoat offers color matching for today's OEM finishes. Together with a complete line of compliant clearcoats and support products, the JBPX basecoat system delivers everything you need to perform quality and efficient refinish repairs.

- Chromatically arranged color deck with over 2,100 sprayed chips, including tri-coats
- Color matches for today's finishes, including tri-coats and colors containing unique pigments
- Formulas dating back over three decades
- Eight Diamond toners that provide unique brilliance and sparkle frequently seen in OEM finishes
- Fast dry times
- Formulated to match OEM colors in as few coats as possible
- Enhanced durability
- Sprays like conventional solvent
- No special equipment required
- Easy-to-use, compact system

For more information regarding products, refer to the *Shop-Line* compliant brochure available through your PPG Platinum Distributor or Territory Manager.
