

The OMNI® Plus MBP basecoat system

MBP ACRYLIC URETHANE BASECOAT

The perfect value-minded choice for matching today's vehicle colors with fast throughput performance.

Taking advantage of OMNI® Plus high-strength and Diamond toners, MBP is the top-of-the-line acrylic urethane basecoat for matching the latest sophisticated vehicle finishes. With its fast throughput, high-hiding coverage and a complete system of compatible clears and support products, it's the ideal choice for today's value-conscious collision shop.

- **Chromatically arranged color deck—over 2,100 sprayed chips**
- **Color matches for the latest OEM finishes, including tri-coats and colors containing unique pigments**
- **Diamond toners provide the brilliance and sparkle seen on today's OEM finishes**
- **Compact system, easy to use**
- **Formulated to match modern finishes in as few coats as possible**
- **Fast dry times**
