OLYMPIC® House Wash

GENERAL DESCRIPTION

OLYMPIC® House Wash is a unique cleaning formula designed to clean vinyl, wood, aluminum, masonry, stucco, brick, and previously painted surfaces. It's excellent cleaning action and easy to use garden hose spray applicator combine for a quick and effective way to clean and brighten the siding of your home without scrubbing. Ordinary household cleaners and detergents are not specifically formulated to clean siding. They are difficult to apply and can leave a film. Just hosing siding off with water alone will not remove tough stains. OLYMPIC House Wash is specifically formulated to clean dirt, grime, chalk, soot, bird droppings, and other stains from all exterior surfaces. It cleans without the use of harsh solvents or bleach. OLYMPIC House Wash will not harm glass, bare aluminum, or stainless steel surfaces. The OLYMPIC House Wash unit, when used with normal water pressure, will reach heights up to 25 feet (7.62 meters) eliminating the use of ladders in most cases.

RECOMMENDED USES

Vinyl	Stucco
Wood	Brick
Aluminum	Previously Painted Surfaces
Masonry	

FEATURES / BENEFITS

Easy Garden Hose Application
Spray On, Rinse Off
Removes Stains, Dirt & Grime
Sprays up to 25 feet high
Covers up to 1,500 sq. ft.

GENERAL SURFACE PREPARATION

Spray all plants and vegetation liberally with water before and after application. Cover delicate vegetation to avoid damage. Remove or cover all fabric such as deck furniture pads, umbrellas and awnings prior to application. Close all windows and doors.

Pretest: Always test a small hidden area to ensure that no discoloration or other problems arise when applying this product.

PRODUCT INFORMATION

52140 House Wash

PRODUCT DATA

WEIGHT/GALLON: 9.9 lbs. (4.5 kg) +/- 0.2 lbs. (91 g)

FLASH POINT: Over 200°F (93°C)

COVERAGE: OLYMPIC House Wash will clean approximately 1500 sq. ft. (139 sq. meters) per container. Although coverage needs vary, standard guidelines are as follows: a single story home typically requires one container; a two story home requires two containers; larger homes, such as two story home with an attached garage, will require two or more containers.

STORAGE

Store in a cool dry place. Do not reuse container. Rinse container thoroughly prior to disposal. **STORE IN AN UPRIGHT POSITION.**

KEEP FROM FREEZING.

PACKAGING

Available in a convenient, ready-to-use 56 fl. oz. container, which will clean approximately 1500 sq. ft. (139 sq. meters).

OLYMPIC® House Wash

GENERAL SURFACE PREPARATION

1. Important - Remove the white pin located in front of the red valve (side).
2. Make sure both valves on the nozzle are in the OFF and CLOSED positions, then simply attach a garden hose to the back of the nozzle. For best results, make sure water pressure is at full force.
3. With the nozzle pointing away from you, turn the green valve (top) to the ON position to start spraying the water. Make sure the red valve (side) is in the CLOSED position. Wet down all exposed plants and vegetation. Cover delicate vegetation.
4. To start cleaning, stand approximately 15 feet (4.57 meters) away from the surface to be cleaned and point the nozzle toward the surface. Turn the red valve (side) to the OPEN position. Both valves should now be OPEN. You are now applying OLYMPIC House Wash. Apply the product from the top of the surface down. Once the area has been treated, turn valves to the OFF and CLOSED positions while waiting 10 minutes for OLYMPIC House Wash to penetrate and loosen the dirt.
5. After 10 minutes, rinse the treated area with water from the top down. To rinse, have the green valve (top) ON and the red valve (side) CLOSED. Thoroughly rinse windows to avoid spotting.
6. When moving to a new location such as around the side of the house, turn both valves to the OFF and CLOSED positions. Then repeat steps 3 through 5.
7. For extra tough dirt or mildew stains, a second application, or scrubbing may be required.
8. When finished, uncover all vegetation and rinse with water.

LIMITATIONS OF USE

Use only on exterior surfaces. Follow recommended storage procedures.

SAFETY PRECAUTIONS

Do not mix with other chemicals or detergents. Wear a long sleeve shirt, pants, safety goggles and gloves when applying this product.

Before using the products listed in this publication, carefully read each product label and follow directions for its use. Please read and observe all the warnings and precautionary information on the product labels. Material Safety Data Sheets are available through our Sales Representative, Retailer or by calling (412) 492-5555.

Spray equipment must be handled with due care and in accordance with manufacturer's recommendations. High pressure injection of coatings into the skin by airless equipment may cause serious injury.

USE WITH ADEQUATE VENTILATION. KEEP OUT OF REACH OF CHILDREN.
