SAFETY DATA SHEET

Date of issue/Date of revision

: 18 May 2021

Version : 3

SECTION 1: Identification of the substance/mixture and of the company/ undertaking

1.1 Product identifier	
Product name	: SIGMACOVER 410 Y BASE RAL 7046
Product code	: 00435467
Product type	: Liquid.
Other means of identification	on
Not available.	
1.2 Relevant identified uses	of the substance or mixture and uses advised against
Product use	: Professional applications, Used by spraying.
Use of the substance/ mixture	: Coating.
Uses advised against	: Product is not intended, labelled or packaged for consumer use.
1.3 Details of the supplier of	the safety data sheet
Sigma Paint Saudi Arabia Ltd PO Box 7509 Dammam 31472 Saudi Arabia Tel: 00966 138 47 31 00 Fax: 00966 138 47 17 34	
e-mail address of person responsible for this SDS	: ndpic@sfda.gov.sa

1.4 Emergency telephone : 00966 138473100 extn 1001 number

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Product definition : Mixture Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Fam. Liq. 3, H226 Skin Irrit. 2, H315 Eye Dam. 1, H318 Skin Sens. 1, H317 Repr. 2, H361fd STOT RE 1, H372 Aquatic Acute 1, H400 Aquatic Chronic 1, H410

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

2.2 Label elements

Code : 00435467	Date of issue/Date of revision : 18 May 2021
SIGMACOVER 410 Y BASE R	-
SECTION 2: Hazards	identification
Hazard pictograms	
Signal word	: Danger
Hazard statements	 Fammable liquid and vapour. Causes skin irritation. May cause an allergic skin reaction. Causes serious eye damage. Suspected of damaging fertility. Suspected of damaging the unborn child. Causes damage to organs through prolonged or repeated exposure. Very toxic to aquatic life with long lasting effects.
Precautionary statements	, , , , , , , , , , , , , , , , , , , ,
Prevention	: Wear protective gloves, protective clothing and eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Avoid release to the environment. Do not breathe vapour.
Response	: Collect spillage. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
Storage	: Not applicable.
Disposal	: Not applicable.
Hazardous ingredients	: Quartz (SiO2) bis-[4-(2,3-epoxipropoxi)phenyl]propane 4-nonylphenol, branched Epoxy Resin (700 <mw<=1100)< td=""></mw<=1100)<>
Supplemental label elements	: Contains epoxy constituents. May produce an allergic reaction.
Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles	: Not applicable.
Special packaging requirem	ients
Containers to be fitted with child-resistant fastenings	: Not applicable.
Tactile warning of danger	: Not applicable.
2.3 Other hazards	
Product meets the criteria for PBT or vPvB	: This mixture does not contain any substances that are assessed to be a PBT or a vPvI
Other hazards which do not result in classification	: Causes digestive tract burns. Prolonged or repeated contact may dry skin and cause irritation.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

: Mixture

Date of issue/Date of revision

: 18 May 2021

See Section 16 for the full text of the H statements declared above.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

Type

- [1] Substance classified with a health or environmental hazard
- [2] Substance with a workplace exposure limit
- [3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII
- [4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII
- [5] Substance of equivalent concern
- [6] Additional disclosure due to company policy

Occupational exposure limits, if available, are listed in Section 8.

Code : 00435467 SIGMACOVER 410 Y BASE RAL 7046 Date of issue/Date of revision

: 18 May 2021

SECTION 3: Composition/information on ingredients

SUB codes represent substances without registered CAS Numbers.

SECTION 4: First aid measures

4.1 Description of first aid measures

an Booonphon of mot and n	
Eye contact	: Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Seek immediate medical attention.
Inhalation	 Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.
Skin contact	: Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognised skin cleanser. Do NOT use solvents or thinners.
Ingestion	 If swallowed, seek medical advice immediately and show the container or label. Keep person warm and at rest. Do NOT induce vomiting.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

4.2 Most important symptoms and effects, both acute and delayed

Potential acute health effects Eye contact : Causes serious eye damage. Inhalation : No known significant effects or critical hazards. : Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction. **Skin contact** Ingestion : Corrosive to the digestive tract. Causes burns. **Over-exposure signs/symptoms** Eye contact : Adverse symptoms may include the following: pain watering redness Inhalation : Adverse symptoms may include the following: reduced foetal weight increase in foetal deaths skeletal malformations **Skin contact** : Adverse symptoms may include the following: pain or irritation redness dryness cracking blistering may occur reduced foetal weight increase in foetal deaths skeletal malformations Ingestion : Adverse symptoms may include the following: stomach pains reduced foetal weight increase in foetal deaths skeletal malformations 4.3 Indication of any immediate medical attention and special treatment needed Notes to physician : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. : No specific treatment. **Specific treatments**

SECTION 5: Firefighting measures

: 00435467

SIGMACOVER 410 Y BASE RAL 7046

Code

5.1 Extinguishing media	
Suitable extinguishing media	: Use dry chemical, CO ₂ , water spray (fog) or foam.
Unsuitable extinguishing media	: Do not use water jet.
5.2 Special hazards arising	from the substance or mixture
Hazards from the substance or mixture	: Flammable liquid and vapour. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. This material is very toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.
Hazardous combustion products	: Decomposition products may include the following materials: carbon oxides metal oxide/oxides
5.3 Advice for firefighters	
Special precautions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water

 spray to keep fire-exposed containers cool.
 Special protective equipment for fire-fighters
 Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	:	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Do not breathe vapour or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders	:	If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
6.2 Environmental precautions	:	Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Collect spillage.
6.3 Methods and material for	со	ntainment and cleaning up

Small spill: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and
explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively,
or if water-insoluble, absorb with an inert dry material and place in an appropriate waste
disposal container. Dispose of via a licensed waste disposal contractor.

Conforms to Regu	lation (EC) No	. 1907/2006 (REACH), Annex II	
Code : 004	135467	Date of issue/Date of revision	: 18 May 2021
SIGMACOVER 410	Y BASE RAL	7046	
SECTION 6: A	Accidental	release measures	
Large spill	:	Stop leak if without risk. Move containers from spill area. Us explosion-proof equipment. Approach the release from upwir sewers, water courses, basements or confined areas. Wash treatment plant or proceed as follows. Contain and collect sp combustible, absorbent material e.g. sand, earth, vermiculite place in container for disposal according to local regulations. waste disposal contractor. Contaminated absorbent material hazard as the spilt product.	nd. Prevent entry into spillages into an effluent illage with non- or diatomaceous earth and Dispose of via a licensed
6.4 Reference to o sections	ther :	See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protect See Section 13 for additional waste treatment information.	ive equipment.

SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

7.1 Precautions for safe handling

Protective measures	: Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapour or mist. Do not ingest. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container.
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
7.2 Conditions for safe storage, including any incompatibilities	: Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidising materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.
7.3 Specific end use(s)	

See Section 1.2 for Identified uses.

Recommendations	: Not available.
Industrial sector specific	: Not available.

SECTION 8: Exposu	re con	trols/personal protection
	(brea The prod	In only brief contact is expected, a glove with a protection class of 2 or higher akthrough time greater than 30 minutes according to EN 374) is recommended. User must check that the final choice of type of glove selected for handling this uct is the most appropriate and takes into account the particular conditions of use, included in the user's risk assessment.
Gloves	: buty	rubber
Body protection	perfo hano statio shou	onal protective equipment for the body should be selected based on the task being ormed and the risks involved and should be approved by a specialist before dling this product. When there is a risk of ignition from static electricity, wear anti- c protective clothing. For the greatest protection from static discharges, clothing ild include anti-static overalls, boots and gloves. Refer to European Standard EN of further information on material and design requirements and test methods.
Other skin protection	base	opriate footwear and any additional skin protection measures should be selected ad on the task being performed and the risks involved and should be approved by a sialist before handling this product.
Respiratory protection	haza are e certi	birator selection must be based on known or anticipated exposure levels, the ards of the product and the safe working limits of the selected respirator. If workers exposed to concentrations above the exposure limit, they must use appropriate, fied respirators. Use a properly fitted, air-purifying or air-fed respirator complying an approved standard if a risk assessment indicates this is necessary.
Environmental exposure controls	they case	ssions from ventilation or work process equipment should be checked to ensure comply with the requirements of environmental protection legislation. In some s, fume scrubbers, filters or engineering modifications to the process equipment be necessary to reduce emissions to acceptable levels.

SECTION 9: Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

9.1 Information on basic physical and chemical properties

9.1 Information on basic physic	ai a	nu chemical propert	les					
<u>Appearance</u>								
Physical state	:	Liquid.						
Colour	:	Grey.	Brey.					
Odour	:	Aromatic. [Strong]						
Odour threshold	:	Not available.						
рН	:	insoluble in water.						
Melting point/freezing point		May start to solidify at the following temperature: 8 to 12°C (46.4 to 53.6°F) This is based on data for the following ingredient: bis-[4-(2,3-epoxipropoxi)phenyl]propane. Weighted average: -28.55°C (-19.4°F)						
Initial boiling point and boiling range	:	>37.78°C						
Flash point	1	Closed cup: 34°C						
Evaporation rate	:	Highest known value: 0.77 (xylene) Weighted average: 0.45compared with butyl acetate						
Flammability (solid, gas)	1	liquid						
Upper/lower flammability or explosive limits	-	Greatest known rang	le: Lower:	1.3% L	Jpper: 13% (b	enzyl alco	ohol)	
Vapour pressure	:		Vapour Pressure at 20°C			Vapour pressure at 50°C		
		Ingredient name	mm Hg	kPa	Method	mm Hg	kPa	Method
		-methylpropan-1-ol	<12	<1.6	DIN EN 13016-2

SIGMACOVER 410 Y BASE RAL	704	6			
SECTION 9: Physical a	nd	chemical propertie	s		
Relative density	:	1.72			
Solubility(ies)	:	Insoluble in the following ma	terials: cold v	vater.	
Partition coefficient: n-octanol	:	Not applicable.			
Auto-ignition temperature	:	Ingredient name	°C	°F	Method
		∲ nonylphenol, branched	372	701.6	ASTM E 659
Decomposition temperature	:	Stable under recommended	storage and	handling condit	ions (see Section 7).
Viscosity	1	Kinematic (40°C): >21 mm ² /s	S		
Viscosity	:	60 - 100 s (ISO 6mm)			
Explosive properties	:	Product does not present an	explosion ha	azard.	
Oxidising properties	1	Product does not present an	oxidizing ha	zard.	

9.2 Other information

No additional information.

SECTION 10: Stabilit	y and reactivity
10.1 Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
10.2 Chemical stability	: The product is stable.
10.3 Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
10.4 Conditions to avoid	: When exposed to high temperatures may produce hazardous decomposition products. Refer to protective measures listed in sections 7 and 8.
10.5 Incompatible materials	: Keep away from the following materials to prevent strong exothermic reactions: oxidising agents, strong alkalis, strong acids.
10.6 Hazardous decomposition products	: Depending on conditions, decomposition products may include the following materials: carbon oxides metal oxide/oxides

SECTION 11: Toxicological information

Aspiration hazard

Product/i	ngredient name	Result					
xylene		ASPIRATION HAZARD - Category 1					
Information on likely routes of exposure	: Not available.						
Potential acute health effect	<u>ts</u>						
Inhalation	: No known significant effects of	No known significant effects or critical hazards.					
Ingestion	: Corrosive to the digestive trac	t. Causes burns.					
Skin contact	: Causes skin irritation. Defatti	ng to the skin. May cause an allergic skin reactio	n.				
Eye contact	: Causes serious eye damage.						
Symptoms related to the ph	ysical, chemical and toxicologi	cal characteristics					
Inhalation	: Adverse symptoms may inclu reduced foetal weight increase in foetal deaths skeletal malformations	de the following:					
Ingestion	: Adverse symptoms may inclu stomach pains reduced foetal weight increase in foetal deaths skeletal malformations	de the following:					
Skin contact	: Adverse symptoms may inclu pain or irritation redness dryness cracking blistering may occur reduced foetal weight increase in foetal deaths skeletal malformations	de the following:					
Eye contact	: Adverse symptoms may inclu pain watering redness	de the following:					
Delayed and immediate effe	ects as well as chronic effects fi	om short and long-term exposure					
<u>Short term exposure</u>							
Potential immediate effects	: Not available.						
Potential delayed effects	: Not available.						
Long term exposure							
Potential immediate effects	: Not available.						
Potential delayed effects	: Not available.						
Potential chronic health effe	ects						
Not available.							
Conclusion/Summary	: Not available.						
General	: Causes damage to organs the repeated contact can defat the	rough prolonged or repeated exposure. Prolonge e skin and lead to irritation, cracking and/or derma ergic reaction may occur when subsequently expo	atitis.				
Carcinogenicity	: No known significant effects of	or critical hazards.					
Mutagenicity	: No known significant effects of

SECTION 11: Toxicological informat	ion					
SIGMACOVER 410 Y BASE RAL 7046						
Code : 00435467	Date of issue/Date of revision	: 18 May 2021				
Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II						

Reproductive toxicity

: Suspected of damaging fertility. Suspected of damaging the unborn child.

Other information

Not available.

Causes digestive tract burns. Prolonged or repeated contact may dry skin and cause irritation. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapour/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing.

SECTION 12: Ecological information

12.1 Toxicity

Product/ingredient name	Result	Species	Exposure
s-[4-(2,3-epoxipropoxi)phenyl]propane	Acute LC50 1.8 mg/l Fresh	Daphnia - daphnia	48 hours
	water	magna	
	Chronic NOEC 0.3 mg/l	Daphnia	21 days
4-nonylphenol, branched	Acute EC50 0.04 mg/l	Algae -	72 hours
		Pseudokirchneriella	
		subcapitata	
	Acute EC50 0.044 mg/l	Crustaceans - Moina	48 hours
	<u> </u>	macrocopa	
	Acute LC50 0.221 mg/l	Fish	96 hours
2-methylpropan-1-ol	Acute EC50 1100 mg/l	Daphnia	48 hours
Phenol, 2-nonyl-, branched	Acute LC50 0.017 mg/l	Fish - Pleuronectes	96 hours
		americanus	

Conclusion/Summary

: There are no data available on the mixture itself.

12.2 Persistence and degradability

Conclusion/Summary : There are no data available on the mixture itself.

Product/ingredient name	Aquatic half-life	Photolysis	Biodegradability
s-[4-(2,3-epoxipropoxi)phenyl]propane	-	-	Not readily
xylene	-	-	Readily
benzyl alcohol	-	-	Readily

12.3 Bioaccumulative potential

Product/ingredient name	LogPow	BCF	Potential
-nonylphenol, branched	5.4	251.19	low
xylene	3.12	7.4 to 18.5	low
benzyl alcohol	0.87	-	low
2-methylpropan-1-ol	1	-	low

12.4 Mobility in soil	
Soil/water partition coefficient (Koc)	: Not available.
Mobility	: Not available.

12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

12.6 Other adverse effects : No known significant effects or critical hazards.

Code : 00435467 SIGMACOVER 410 Y BASE RAL 7046 Date of issue/Date of revision

SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

13.1 Waste treatment methods

Product	
Methods of disposal	: The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.
Hazardous waste	: Yes.

European waste catalogue (EWC)

Waste code	Waste designation		
08 01 11*	waste paint and varnish containing organic solvents or other hazardous substances		
Packaging	· · · · · · · · · · · · · · · · · · ·		
Methods of disposal	 The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. 		
Type of packaging	European waste catalogue (EWC)		
Container	15 01 06 mixed packaging		
Special precautions	: This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapour from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.		

SECTION 14: Transport information

	ADR/RID	IMDG	ΙΑΤΑ
14.1 UN number	UN1263	UN1263	UN1263
14.2 UN proper shipping name	PAINT	PAINT	PAINT
14.3 Transport hazard class(es)	3	3	3
14.4 Packing group		111	Ш
14.5 Environmental hazards	Yes.	Yes.	Yes. The environmentally hazardous substance mark is not required.
Marine pollutant substances	Not applicable.	(bis-[4-(2,3-epoxipropoxi) phenyl]propane, 4-nonylphenol, branched)	Not applicable.

Additional information

ADR/RID	The environmentally hazardous substance mark is not required when transported in sizes of ≤5 L or ≤5 kg.
Tunnel code	: (D/E)
IMDG	: The marine pollutant mark is not required when transported in sizes of ≤5 L or ≤5 kg.

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II		
Code	: 00435467	Date of issue/Date of revision : 18 May 2021
SIGMACO	VER 410 Y BASE RA	NL 7046
SECTIO	N 14: Transpo	ort information
ΙΑΤΑ	: The enviro regulations	nmentally hazardous substance mark may appear if required by other transportation s.
14.6 Specia user	al precautions for	: Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.
14.7 Trans according instrument		: Not applicable.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture <u>EU Regulation (EC) No. 1907/2006 (REACH)</u>

Annex XIV - List of substances subject to authorisation

Annex XIV

None of the components are listed.

Substances of very high concern

Intrinsic property	Ingredient name	Status	Reference number	Date of revision
Substance of equivalent concern for environment	4-nonylphenol, branched and linear substances with a linear and/or branched alkyl chain with a carbon number of 9 covalently bound in position 4 to phenol, covering also UVCB- and well-defined substances which include any of the individual isomers or a combination thereof 4-Nonylphenol, branched and linear [substances with a linear and/or branched alkyl chain with a carbon number of 9 covalently bound in position 4 to phenol, covering also UVCB- and well-defined substances which include any of the individual isomers or a combination thereof]	Candidate Candidate	ED/169/2012 ED/169/2012	12/19/2012

Annex XVII - Restrictions : Not applicable.

on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

Other national and international regulations.

Ozone depleting substances (1005/2009/EU)

Not listed.

: No Chemical Safety Assessment has been carried out.

15.2 Chemical safety assessment
