Version 18.01

### Section 1. Chemical product and company identification

| Α. | Product name | 1 | SIGMAGUARD 720 BASE |
|----|--------------|---|---------------------|
|    | Product code | 1 | 00155092            |

#### B. Relevant identified uses of the substance or mixture and uses advised against

| Product use                             | : Professional applications, Used by spraying.   |
|---|--|
| Use of the substance/<br>mixture        | : Coating.   |
| Uses advised against                    | : Product is not intended, labelled or packaged for consumer use.                                      |
| C. Supplier's or Importer's information | : PPG SSC<br>(680-090)<br>19, Yeocheon-ro 217beon-gil, Nam-gu,<br>Ulsan, Korea<br>Tel: +82-52-210-8222 |
| Email Address                           | Korea.MSDS@PPG.COM   |
| Emergency telephone<br>number:          | : +82-52-210-8222  |

# Section 2. Hazards identification

| A. Hazard classification | : FLAMMABLE LIQUIDS - Category 3                                |
|--------------------------|---|
|                          | SKIN IRRITATION - Category 2                                    |
|                          | EYE IRRITATION - Category 2A                                    |
|                          | SKIN SENSITIZATION - Category 1                                 |
|                          | CARCINOGENICITY - Category 1A                                   |
|                          | SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 2 |
|                          | AQUATIC HAZARD (ACUTE) - Category 1                             |
|                          | AQUATIC HAZARD (LONG-TERM) - Category 1                         |
|                          |   |

This product is classified in accordance with the Industrial Safety and Health Act and the Chemical Control Act.

#### B. GHS label elements, including precautionary statements ÷

**Symbol** 

Signal word

: Danger

Date of issue 8/30/2023 (month/day/year)

Product name SIGMAGUARD 720 BASE

|  | Section 2. Hazard | s i | identification   |  |  |
|--|-------------------|-----|--|--|--|
|  | Hazard statements | - : | H226 - Flammable liquid and vapor.<br>H315 - Causes skin irritation. |  |  |

- H317 May cause an allergic skin reaction.
- H319 Causes serious eye irritation.
- H350 May cause cancer.
  - H373 May cause damage to organs through prolonged or repeated exposure.
  - (central nervous system (CNS), kidneys, liver)

H410 - Very toxic to aquatic life with long lasting effects.

#### Precautionary statements

| Precautionary statements             |  |
|--------------------------------------|--|
| Prevention                           | <ul> <li>P202 - Do not handle until all safety precautions have been read and understood.<br/>P280 - Wear protective gloves, protective clothing and eye or face protection.<br/>P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.<br/>P241 - Use explosion-proof electrical, ventilating or lighting equipment.<br/>P242 - Use non-sparking tools.<br/>P243 - Take action to prevent static discharges.<br/>P273 - Avoid release to the environment.<br/>P260 - Do not breathe vapor.<br/>P264 - Wash thoroughly after handling.</li> </ul>                                   |
| Response                             | <ul> <li>P391 - Collect spillage.</li> <li>P308 + P313 - IF exposed or concerned: Get medical advice or attention.</li> <li>P362 + P364 - Take off contaminated clothing and wash it before reuse.</li> <li>P302 + P352 - IF ON SKIN: Wash with plenty of water.</li> <li>P333 + P313 - If skin irritation or rash occurs: Get medical advice or attention.</li> <li>P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes.</li> <li>Remove contact lenses, if present and easy to do. Continue rinsing.</li> <li>P337 + P313 - If eye irritation persists: Get medical advice or attention.</li> </ul> |
| Storage                              | : P403 + P235 - Store in a well-ventilated place. Keep cool.   |
| Disposal                             | : P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.   |
| Other hazards which do not result in | : Causes digestive tract burns. Prolonged or repeated contact may dry skin and cause irritation.   |

# Section 3. Composition/information on ingredients

#### **CAS number/other identifiers**

#### **CAS** number

classification

| ETHYLBENZENE                          | CAS: 100-41-4  | 1 - <5   |
|                                       | ISOBUTYL ALCOHOL<br>12-hydroxyoctadecanoic acid, reaction<br>products with<br>1,3-benzenedimethanamine and<br>hexamethylenediamine | ISOBUTYL ALCOHOL<br>12-hydroxyoctadecanoic acid, reaction<br>products with<br>1,3-benzenedimethanamine and<br>hexamethylenediamine |

# There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

| Α. | Eye contact                | : | Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Seek immediate medical attention.   |
|----|----------------------------|---|---|
| В. | Skin contact               | : | Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.  |
| C. | Inhalation                 | : | Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.  |
| D. | Ingestion                  | : | If swallowed, seek medical advice immediately and show this container or label.<br>Keep person warm and at rest. Do NOT induce vomiting.  |
| Ε. | Notes to physician         | : | In case of inhalation of decomposition products in a fire, symptoms may be delayed.<br>The exposed person may need to be kept under medical surveillance for 48 hours.  |
|    | Specific treatments        | 1 | No specific treatment.  |
|    | Protection of first-aiders | : | No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

See toxicological information (Section 11)

# Section 5. Fire-fighting measures

| Α. | Extinguishing media               |  |
|----|-----------------------------------|--|
|    | Suitable extinguishing media      | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam. |
|    | Unsuitable<br>extinguishing media | : Do not use water jet.  |

#### Product name SIGMAGUARD 720 BASE

# Section 5. Fire-fighting measures

| В. | Specific hazards arising from the chemical | : | Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard.<br>In a fire or if heated, a pressure increase will occur and the container may burst, with<br>the risk of a subsequent explosion. This material is very toxic to aquatic life with<br>long lasting effects. Fire water contaminated with this material must be contained<br>and prevented from being discharged to any waterway, sewer or drain. |
|----|--|---|--|
|    | Hazardous thermal decomposition products   | : | Decomposition products may include the following materials:<br>carbon oxides<br>nitrogen oxides<br>halogenated compounds<br>metal oxide/oxides   |
| C. | Special equipment for fire-fighting        | : | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.  |
|    | Fire-fighting procedures                   | : | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.   |

# Section 6. Accidental release measures

| A. Personal precautions,<br>protective equipment and<br>emergency procedures | :  | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Shut off all ignition sources.<br>No flares, smoking or flames in hazard area. Avoid breathing vapor or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment.   |
|--|----|---|
| B. Environmental precautions   | :  | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Collect spillage.  |
| C. Methods and materials for   | co | ntainment and cleaning up   |
| Small spill  | :  | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble.<br>Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |
| Large spill  | :  | Stop leak if without risk. Move containers from spill area. Use spark-proof tools<br>and explosion-proof equipment. Approach release from upwind. Prevent entry into<br>sewers, water courses, basements or confined areas. Wash spillages into an<br>effluent treatment plant or proceed as follows. Contain and collect spillage with non-<br>combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth<br>and place in container for disposal according to local regulations (see Section 13).<br>Dispose of via a licensed waste disposal contractor. Contaminated absorbent<br>material may pose the same hazard as the spilled product. Note: see Section 1 for<br>emergency contact information and Section 13 for waste disposal. |

### Section 7. Handling and storage

| Α. | Precautions for safe<br>handling | : Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|----|----------------------------------|--|
|----|----------------------------------|--|

B. Conditions for safe storage, including any incompatibilities
 Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

### Section 8. Exposure controls/personal protection

#### A. Occupational exposure limits

| Ingredient name                                     | Exposure limits                                     |  |  |  |  |  |
|---|---|--|--|--|--|--|
| rystalline silica, respirable powder (>10 microns)  | Ministry of Employment and Labor                    |  |  |  |  |  |

Method

# Section 10. Stability and reactivity

| Α. | Chemical stability                  | 1 | The product is stable.   |
|----|-------------------------------------|---|--|
|    | Possibility of hazardous reactions  | : | Under normal conditions of storage and use, hazardous reactions will not occur.  |
| В. | Conditions to avoid                 | : | When exposed to high temperatures may produce hazardous decomposition products.  |
| C. | Incompatible materials              | : | Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.                               |
| D. | Hazardous<br>decomposition products | : | Depending on conditions, decomposition products may include the following materials: carbon oxides nitrogen oxides halogenated compounds metal oxide/ oxides |

### Section 11. Toxicological information

| A. Information on the likely routes of exposure | Not available.  |
|---|---|
| Potential acute health effe                     | <u>cts</u>  |
| Inhalation :                                    | No known significant effects or critical hazards.   |
| Ingestion :                                     | Corrosive to the digestive tract. Causes burns.   |
| Skin contact :                                  | Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction.         |
| Eye contact :                                   | Causes serious eye irritation.  |
| Over-exposure signs/symp                        | <u>otoms</u>  |
| Inhalation :                                    | No specific data.   |
| Ingestion :                                     | Adverse symptoms may include the following:<br>stomach pains                                |
| Skin contact :                                  | Adverse symptoms may include the following:<br>irritation<br>redness<br>dryness<br>cracking |

Eye contact : Adverse symptoms may include the following: pain or irritation watering redness

| 12-hydroxyoctadecanoic acid reaction products with 1,3-benzenedimethanamine and hexamethylenediamine | Category 2     | -                 | -  |

#### **Aspiration hazard**

| Name | Result   |
|------|--|
|      | ASPIRATION HAZARD - Category 2<br>ASPIRATION HAZARD - Category 1 |

#### Potential chronic health effects

| General                               | : May cause damage to organs through prolonged or repeated exposure. Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels. |
|---------------------------------------|---|
| Carcinogenicity                       | <ul> <li>May cause cancer. Risk of cancer depends on duration and level of exposure.</li> <li>No known significant effects or critical hazards.</li> </ul>  |
| Mutagenicity<br>Reproductive toxicity | : No known significant effects or critical hazards.   |

#### **Additional information**

Causes digestive tract burns. Prolonged or repeated contact may dry skin and cause irritation. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing.

# Section 12. Ecological information

### D. <u>Mobility in soil</u>

Soil/water partition : Not available. coefficient (Koc)

E. <u>Other adverse effects</u> : No known significant effects or critical hazards.

### Section 13. Disposal considerations

- A. Disposal methods
   The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.
- B. Disposal precautions
   This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

### Section 14. Transport information

|                                      | UN   | IMDG  | ΙΑΤΑ   |
|--------------------------------------|--|---|--|
| A. UN number                         | UN1263   | UN1263  | UN1263   |
| B. UN proper shipping name           | PAINT  | PAINT   | PAINT  |
| C. Transport<br>hazard class(es)     | 3  | 3   | 3  |
| D. Packing group                     | III  | III   | III  |
| Environmental<br>hazards             | Yes. The environmentally<br>hazardous substance mark is<br>not required. | Yes.  | Yes. The environmentally<br>hazardous substance mark is<br>not required. |
| E. Marine<br>pollutant<br>substances | Not applicable.  | (bis-[4-(2,3-epoxipropoxi)<br>phenyl]propane, 4-nonylphenol,<br>branched) | Not applicable.  |

#### **Additional information**

| UN   | : None identified.   |
|------|--|
| IMDG | : The marine pollutant mark is not required when transported in sizes of ≤5 L or ≤5 kg.                    |
| ΙΑΤΑ | : The environmentally hazardous substance mark may appear if required by other transportation regulations. |

### Section 14. Transport information

F. Special precaution which a user to be aware of or needs to comply with in connection with transport or transportation

**Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments

### Section 15. Regulatory information

| Α.  | Regulation according to ISHA  |  |  |
|---|---|--|--|
|   | ISHA article 117<br>(Harmful substances<br>prohibited from<br>manufacture)                              | : None of the components are listed.   |  |
