# **SAFETY DATA SHEET**

#### The information in this Safety Data Sheet is required pursuant to Hazardous Product Regulations 2015.

Date of issue/Date of revision 3 September 2023 Version 5

| Section 1. Identification        |   |  |  |  |
|----------------------------------|---|--|--|--|
| Product name                     | : MEGASEAL SFT610 Base Non Slip Waterbased Epoxy Safety Yellow  |  |  |  |
| Product code                     | : 00366373  |  |  |  |
| Other means of identification    | : Not available.  |  |  |  |
| Product type                     | : Liquid.   |  |  |  |
| Relevant identified uses of      | the substance or mixture and uses advised against   |  |  |  |
| Product use                      | : Professional applications, Used by spraying.  |  |  |  |
| Use of the substance/<br>mixture | : Coating.  |  |  |  |
| Uses advised against             | : Not applicable.   |  |  |  |
| Supplier                         | <ul> <li>PPG Architectural Coatings Canada, Inc.<br/>1550, rue Ampère, bureau 500<br/>Boucherville (Québec) J4B 7L4<br/>Canada<br/>+1 450-655-3121</li> </ul>   |  |  |  |
|                                  | PPG Industries, Inc.<br>One PPG Place<br>Pittsburgh, PA 15272   |  |  |  |
| Emergency telephone<br>number    | : (412) 434-4515 (U.S.)<br>(514) 645-1320 (Canada)<br>SETIQ Interior de la República: 800-00-214-00 (México)<br>SETIQ Ciudad de México: (55) 5559-1588 (México) |  |  |  |
| Technical Phone Number           | : 888-977-4762  |  |  |  |

# Section 2. Hazard identification

| Classification of the substance or mixture | : SKIN IRRITATION - Category 2<br>EYE IRRITATION - Category 2A  |
|--|---|
|  | SKIN SENSITIZATION - Category 1B  |
|  | CARCINOGENICITY - Category 1  |
|  | his product contains TiO2 which has been classified as a GHS Carcinogen   |
|  | Category 2 based on its IARC 2B classification. For many products, TiO2 is utilized<br>as a raw material in a liquid coating formulation. In this case, the TiO2 particles are<br>bound in a matrix with no meaningful potential for human exposure to unbound<br>particles of TiO2 when the product is applied with a brush or roller. Sanding the<br>coating surface or mist from spray applications may be harmful depending on the<br>duration and level of exposure and require the use of appropriate personal<br>protective equipment and/or engineering controls (see Section 8). |
| GHS label elements                         |   |

### Product name MEGASEAL SFT610 Base Non Slip Waterbased Epoxy Safety Yellow

### Section 2. Hazard identification

| Hazard pictograms              |   |
|--------------------------------|---|
| Signal word                    | : Danger  |
| Hazard statements              | <ul> <li>Causes skin irritation.</li> <li>May cause an allergic skin reaction.</li> <li>Causes serious eye irritation.</li> <li>May cause cancer.</li> </ul>  |
| Precautionary statements       |   |
| Prevention                     | : Øbtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing and eye or face protection. Avoid breathing vapor. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace.   |
| Response                       | : F exposed or concerned: Get medical advice or attention. Take off contaminated clothing and wash it before reuse. IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.  |
| Storage                        | : Store locked up.  |
| Disposal                       | : Dispose of contents and container in accordance with all local, regional, national<br>and international regulations.  |
| Supplemental label<br>elements | : Sanding and grinding dusts may be harmful if inhaled. This product contains crystalline silica which can cause lung cancer or silicosis. The risk of cancer depends on the duration and level of exposure to dust from sanding surfaces or mist from spray applications. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Emits toxic fumes when heated. |
|                                | (oral), 59.5% (dermal), 72.2% (inhalation)  |

# Section 3. Composition/information on ingredients

| Substance/mixture                | : Mixture  |
|----------------------------------|--|
| Product name                     | : MEGASEAL SFT610 Base Non Slip Waterbased Epoxy Safety Yellow |
| Other means of<br>identification | : Not available.   |

#### **CAS number/other identifiers**

| Ingredient name                                       | Synonyms  | % (w/w)  | CAS number      |
|---|---|----------|-----------------|
| rystalline silica, respirable powder<br>(>10 microns) | alpha-quartz; Silica, crystalline (quartz);<br>Silica, Crystalline Quartz; SILICA,<br>CRYSTALLINE, QUARTZ; Silica-<br>Crystalline, Quartz; Silica - Crystalline<br>Quartz; Silica-Crystalline : Quartz; Silica,<br>crystalline - quartz | 30 - 60* | 14808-60-7      |
| Epoxy resin (MW  ≤ 700)                               | reaction product : bisphenol a-<br>(epichlorhydrin) ; epoxy resin ( number  | 7 - 13*  | 25068-38-6      |
|   |   | Ca       | nada Page: 2/14 |

### Product name MEGASEAL SFT610 Base Non Slip Waterbased Epoxy Safety Yellow

### Section 3. Composition/information on ingredients

|                      | average molecular weight <= 700)   |            | I          |
|----------------------|--|------------|------------|
| 1-methoxy-2-propanol | monopropylene glycol methyl ether;   | 1 - 5*     | 107-98-2   |
| r-memoxy-z-propanor  | 1-methoxypropan-2-ol; 2-Propanol,<br>1-methoxy-; Propylene glycol monomethyl<br>ether; Dowtherm 209; Propylene glycol<br>methyl ether; 1-Methoxy-<br>2-hydroxypropane; 2-Methoxy-<br>1-methylethanol; PGME; mixture<br>containing by weight: — 69 % or more but<br>not more than 71 % of 1-methoxypropan-<br>2-ol (CAS RN 107-98-2), — 29 % or more<br>but not more than 31 % of 2-methoxy-<br>1-methylethyl acetate (CAS RN 108-65-6);<br>methoxyisopropanol  | 1-5        | 107-98-2   |
| benzyl alcohol       | Benzenemethanol; .alpha<br>Hydroxytoluene; Phenylcarbinol;<br>Phenylmethanol; E 1519; α-<br>hydroxytoluene; Phenylmethyl alcohol;<br>toluenol, alpha-; (hydroxymethyl)benzene;<br>BENZENECARBINOL; alpha-<br>Hydroxytoluene  | 0.5 - 1.5* | 100-51-6   |
| titanium dioxide     | Titanium oxide; Titanium oxide (TiO2); CI<br>77891; Titanium peroxide; Rutile; C.I.<br>Pigment White 6; titanium dioxide coated<br>with isopropoxytitanium triisostearate,<br>containing by weight 1,5 % or more but<br>not more than 2,5 % of<br>isopropoxytitanium triisostearate; glass<br>flakes (CAS RN 65997-17-3): — of a<br>thickness of 0,3 $\mu$ m or more but not more<br>than 10 $\mu$ m, and — coated with titanium<br>dioxide (CAS RN 13463-67-7) or iron<br>oxide (CAS RN 18282- 10-5); titanium<br>dioxide, other than those of heading 3206<br>11 00; C.I. 77891; E 171; titanium(IV)<br>oxide, other than those of heading 3206<br>11 00 | 0.5 - 1.5* | 13463-67-7 |

\*Ranges if listed above for hazardous ingredient(s) are prescribed ranges. The actual concentration(s) or actual concentration range(s) are being withheld as a trade secret.

SUB codes represent substances without registered CAS Numbers.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Product name MEGASEAL SFT610 Base Non Slip Waterbased Epoxy Safety Yellow

### Section 4. First-aid measures

If ingestion, irritation, any type of overexposure or symptoms of overexposure occur during or persists after use of this product, contact a POISON CONTROL CENTER, EMERGENCY ROOM OR PHYSICIAN immediately; have Safety Data Sheet information available. Never give anything by mouth to an unconscious or convulsing person.

#### Description of necessary first aid measures

| Eye contact  | <ul> <li>Remove contact lenses, irrigate copiously with clean, fresh water, holding the<br/>eyelids apart for at least 10 minutes and seek immediate medical advice.</li> </ul>  |
|--------------|--|
| Inhalation   | <ul> <li>Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is<br/>irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by<br/>trained personnel.</li> </ul> |
| Skin contact | <ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and<br/>water or use recognized skin cleanser. Do NOT use solvents or thinners.</li> </ul>   |
| Ingestion    | <ul> <li>If swallowed, seek medical advice immediately and show this container or label.</li> <li>Keep person warm and at rest. Do NOT induce vomiting.</li> </ul>   |

#### Most important symptoms/effects, acute and delayed

| wost important symptoms/    | <u>ects, acute and delayed</u>  |   |
|-----------------------------|---|---|
| Potential acute health effe | <u>s</u>  |   |
| Eye contact                 | : Causes serious eye irritation.  |   |
| Inhalation                  | : No known significant effects or critical hazards.   |   |
| Skin contact                | : Causes skin irritation. May cause an allergic skin reaction.  |   |
| Ingestion                   | : No known significant effects or critical hazards.   |   |
| Over-exposure signs/sym     | <u>oms</u>  |   |
| Eye contact                 | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness  |   |
| Inhalation                  | : No specific data.   |   |
| Skin contact                | : Adverse symptoms may include the following:<br>irritation<br>redness  |   |
| Ingestion                   | : No specific data.   |   |
| Indication of immediate me  | cal attention and special treatment needed, if necessary  |   |
| Notes to physician          | : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.   |   |
| Specific treatments         | : No specific treatment.  |   |
| Protection of first-aiders  | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. | t |

See toxicological information (Section 11)

### Product name MEGASEAL SFT610 Base Non Slip Waterbased Epoxy Safety Yellow

### Section 5. Fire-fighting measures

| Extinguishing media                            |   |
|--|---|
| Suitable extinguishing media                   | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                 | : None known.   |
| Specific hazards arising from the chemical     | : In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon oxides<br>halogenated compounds<br>metal oxide/oxides   |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.   |
| Special protective equipment for fire-fighters | <ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained<br/>breathing apparatus (SCBA) with a full face-piece operated in positive pressure<br/>mode.</li> </ul> |

### Section 6. Accidental release measures

| Personal precautions, protect  | :tiv | e equipment and emergency procedures   |
|--------------------------------|------|--|
| For non-emergency<br>personnel | :    | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Avoid breathing vapor or<br>mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment. |
| For emergency responders       | :    | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| Environmental precautions      | :    | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).  |
| Methods and materials for co   | ont  | ainment and cleaning up  |
| Small spill                    | :    | Stop leak if without risk. Move containers from spill area. Dilute with water and mop<br>up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry<br>material and place in an appropriate waste disposal container. Dispose of via a<br>licensed waste disposal contractor.   |
| Large spill                    | :    | Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth,  |

vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

### Product name MEGASEAL SFT610 Base Non Slip Waterbased Epoxy Safety Yellow

### Section 6. Accidental release measures

|  |   | during normal use the material presents a respiratory hazard, use only with<br>adequate ventilation or wear appropriate respirator. Keep in the original container or<br>an approved alternative made from a compatible material, kept tightly closed when<br>not in use. Empty containers retain product residue and can be hazardous. Do not<br>reuse container.  |
|--|---|---|
| Special precautions  | : | If this material is part of a multiple component system, read the Safety Data Sheet(s) for the other component or components before blending as the resulting mixture may have the hazards of all of its parts.   |
| Advice on general<br>occupational hygiene                          | : | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |
| Conditions for safe storage,<br>including any<br>incompatibilities | : | Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. |

# Section 8. Exposure controls/personal protection

#### Control parameters

**Occupational exposure limits** 

| Ingredient name                                    | Exposure limits  |  |  |
|--|--|--|--|
| rystalline silica, respirable powder (>10 microns) | CA British Columbia Provincial (Canada,<br>6/2022). [Silica, Crystalline - alpha quartz<br>and Cristobalite Respirable]<br>TWA: 0.025 mg/m <sup>3</sup> 8 hours. Form:<br>Respirable<br>CA Ontario Provincial (Canada, 6/2019).<br>[Silica, Crystalline (Quartz/Tripoli)]<br>TWA: 0.1 mg/m <sup>3</sup> 8 hours. |                  |   |

#### Consult local authorities for acceptable exposure limits.

| Recommended monitoring procedures | : | Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.   |
|-----------------------------------|---|---|
| Appropriate engineering controls  | : | If user operations generate dust, fumes, gas, vapor or mist, use process enclosures,<br>local exhaust ventilation or other engineering controls to keep worker exposure to<br>airborne contaminants below any recommended or statutory limits.  |
| Environmental exposure controls   | : | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels. |

Individual protection measures

### Product name MEGASEAL SFT610 Base Non Slip Waterbased Epoxy Safety Yellow

### Section 8. Exposure controls/personal protection

| Hygiene measures       | : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.  |
|------------------------|---|
| Eye/face protection    | : Chemical splash goggles.  |
| Skin protection        |   |
| Hand protection        | : Chemical-resistant, impervious gloves complying with an approved standard should<br>be worn at all times when handling chemical products if a risk assessment indicates<br>this is necessary. Considering the parameters specified by the glove manufacturer,<br>check during use that the gloves are still retaining their protective properties. It<br>should be noted that the time to breakthrough for any glove material may be<br>different for different glove manufacturers. In the case of mixtures, consisting of<br>several substances, the protection time of the gloves cannot be accurately<br>estimated. |
| Gloves                 | : butyl rubber  |
| Body protection        | : Personal protective equipment for the body should be selected based on the task<br>being performed and the risks involved and should be approved by a specialist<br>before handling this product.   |
| Other skin protection  | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |
| Respiratory protection | : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.  |

# Section 9. Physical and chemical properties

**Conclusion/Summary** : There are no data available on the mixture itself.

#### **Teratogenicity**

**Conclusion/Summary** : There are no data available on the mixture itself.

#### Specific target organ toxicity (single exposure)

| Name                                |            | Route of exposure | Target organs    |
|-------------------------------------|------------|-------------------|------------------|
| <mark>I∕-</mark> methoxy-2-propanol | Category 3 | -                 | Narcotic effects |

#### Specific target organ toxicity (repeated exposure)

Not available.

Target organs

: Contains material which causes damage to the following organs: blood, liver, heart, spleen, brain, bone marrow.

Contains material which may cause damage to the following organs: kidneys, lungs, upper respiratory tract, immune system, skin, central nervous system (CNS), eye, lens or cornea.

#### Aspiration hazard

### Product name MEGASEAL SFT610 Base Non Slip Waterbased Epoxy Safety Yellow

## Section 11. Toxicological information

Not available.

#### Information on the likely routes of exposure

| Potential acute health effects |   |  |
|--------------------------------|---|--|
| Eye contact                    | : | Causes serious eye irritation.                               |
| Inhalation                     | : | No known significant effects or critical hazards.            |
| Skin contact                   | 1 | Causes skin irritation. May cause an allergic skin reaction. |
| Ingestion                      | 1 | No known significant effects or critical hazards.            |
|                                |   |  |

#### **Over-exposure signs/symptoms**

| Eye contact  | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness |
|--------------|--|
| Inhalation   | : No specific data.  |
| Skin contact | : Adverse symptoms may include the following:<br>irritation<br>redness                     |
| Ingestion    | : No specific data.  |

### Delayed and immediate effects and also chronic effects from short and long term exposure

| Conclusion/Summary          | : There are no data available on the mixture itself. This product contains crystalline silica which can cause lung cancer or silicosis. The risk of cancer depends on the duration and level of exposure to dust from sanding surfaces or mist from spray applications. This product contains TiO2 which has been classified as a GHS Carcinogen Category 2 based on its IARC 2B classification. For many products, TiO2 is utilized as a raw material in a liquid coating formulation. In this case, the TiO2 particles are bound in a matrix with no meaningful potential for human exposure to unbound particles of TiO2 when the product is applied with a brush or roller. Sanding the coating surface or mist from spray applications may be harmful depending on the duration and level of exposure and require the use of appropriate personal protective equipment and/or engineering controls (see Section 8). Exposure to component solvent vapor concentrations in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of consciousness. Solvents may cause some of the above effects by absorption through the skin. There is some evidence that repeated exposure to organic solvent vapors in combination with constant loud noise can cause greater hearing loss than expected from exposure to noise alone. If splashed in the eyes, the liquid may cause irritation and reversible damage. Ingestion may cause nausea, diarrhea and vomiting. This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact. |
|-----------------------------|---|
| <u>Short term exposure</u>  |   |
| Potential immediate effects | : There are no data available on the mixture itself.  |
| Potential delayed effects   | : There are no data available on the mixture itself.  |

### Product name MEGASEAL SFT610 Base Non Slip Waterbased Epoxy Safety Yellow

### Section 11. Toxicological information

| <u>Long term exposure</u>    |   |
|------------------------------|---|
| Potential immediate effects  | : There are no data available on the mixture itself.  |
| Potential delayed effects    | : There are no data available on the mixture itself.  |
| Potential chronic health eff | ects  |
| General                      | : Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels. |
| Carcinogenicity              | : May cause cancer. Risk of cancer depends on duration and level of exposure.                         |
| Mutagenicity                 | : No known significant effects or critical hazards.   |
| Reproductive toxicity        | : No known significant effects or critical hazards.   |
|                              |   |

Product name MEGASEAL SFT610 Base Non Slip Waterbased Epoxy Safety Yellow

### Section 12. Ecological information

#### Mobility in soil

Soil/water partition coefficient (Koc)

: Not available.

# Section 13. Disposal considerations

| Disposal methods | : The generation of waste should be avoided or minimized wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation<br>and any regional local authority requirements. Dispose of surplus and non-<br>recyclable products via a licensed waste disposal contractor. Waste should not be<br>disposed of untreated to the sewer unless fully compliant with the requirements of<br>all authorities with jurisdiction. Waste packaging should be recycled. Incineration or<br>landfill should only be considered when recycling is not feasible. This material and<br>its container must be disposed of in a safe way. Care should be taken when<br>handling emptied containers that have not been cleaned or rinsed out. Empty<br>containers or liners may retain some product residues. Avoid dispersal of spilled |
|------------------|--|
|                  | material and runoff and contact with soil, waterways, drains and sewers.   |

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures

### Section 14. Transport information

National Inventory List

Canada inventory (DSL)

: All components are listed or exempted.

### Section 16. Other information

Hazardous Material Information System (U.S.A.)

Health : 3 \* Flammability : 1 Physical hazards : 0

(\*) - Chronic effects

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on MSDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.
