# SAFETY DATA SHEET

The information in this Safety Data Sheet is required pursuant to GHS UN rev. 7

Date of issue/Date of revision 23 October 2023

Version 13

| Section 1. Ident                            | ification  |
|---|--|
| Product code                                | : 00323231   |
| Product name                                | : SIGMAFAST 278 BASE MIOCOAT DARK GREY   |
| Product type                                | : Liquid.  |
| Other means of identifica<br>Not available. | tion   |
| Relevant identified uses of                 | of the substance or mixture and uses advised against   |
| Product use                                 | Coating.<br>Professional applications, Used by spraying.   |
| Uses advised against                        | : Product is not intended, labelled or packaged for consumer use.  |
| Company/undertaking<br>identification       | : PPG Industries Sales, Inc. and PPG Coatings (Philippines), Inc.<br>3rd Floor First Life Center<br>174 Salcedo St., Legaspi Village<br>Makati City 1229, Philippines<br>Tel # 00632- 752-6773/ Fax # 00632-752-6771 |
| Emergency telephone<br>number               | : CHEMTREC +(63) 2-395-3308 (CCN 17704)  |

# Section 2. Hazards identification

| Classification of the substance or mixture     | <ul> <li>AMMABLE LIQUIDS - Category 3<br/>ACUTE TOXICITY (dermal) - Category 5<br/>SKIN CORROSION/IRRITATION - Category 1<br/>SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 1<br/>SKIN SENSITIZATION - Category 1<br/>TOXIC TO REPRODUCTION - Category 2<br/>SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 2<br/>AQUATIC HAZARD (ACUTE) - Category 1<br/>AQUATIC HAZARD (LONG-TERM) - Category 1</li> <li>Percentage of the mixture consisting of ingredient(s) of unknown acute dermal<br/>toxicity: 63.7%</li> <li>Percentage of the mixture consisting of ingredient(s) of unknown hazards to the<br/>aquatic environment: 43.6%</li> </ul> |
|--|--|
| <u>GHS label elements</u><br>Hazard pictograms |  |
| Signal word                                    | : Danger   |

Date of issue 23 October 2023

Product name SIGMAFAST 278 BASE MIOCOAT DARK GREY

### Section 2. Hazards identification

| Hazard statements                                   | : | <ul> <li>Fammable liquid and vapor.</li> <li>May be harmful in contact with skin.</li> <li>Causes severe skin burns and eye damage.</li> <li>May cause an allergic skin reaction.</li> <li>Suspected of damaging fertility or the unborn child.</li> <li>May cause damage to organs through prolonged or repeated exposure.</li> <li>Very toxic to aquatic life with long lasting effects.</li> </ul>  |  |  |  |  |
|---|---|--|--|--|--|--|
| Precautionary statements                            |   |  |  |  |  |  |
| Prevention  | : | Obtain special instructions before use. Do not handle until all safety precautions<br>have been read and understood. Wear protective gloves, protective clothing and<br>eye or face protection. Keep away from heat, hot surfaces, sparks, open flames<br>and other ignition sources. No smoking. Avoid release to the environment. Do not<br>breathe vapor. Wash thoroughly after handling. Contaminated work clothing should<br>not be allowed out of the workplace.   |  |  |  |  |
| Response  | : | Collect spillage. IF exposed or concerned: Get medical advice or attention. IF<br>INHALED: Remove person to fresh air and keep comfortable for breathing.<br>Immediately call a POISON CENTER or doctor. IF SWALLOWED: Immediately call<br>a POISON CENTER or doctor. Rinse mouth. Do NOT induce vomiting. IF ON<br>SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water.<br>Immediately call a POISON CENTER or doctor. Wash contaminated clothing<br>before reuse. IF ON SKIN: Call a POISON CENTER or doctor if you feel unwell.<br>Wash with plenty of water. If skin irritation or rash occurs: Get medical advice or<br>attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove<br>contact lenses, if present and easy to do. Continue rinsing. Immediately call a<br>POISON CENTER or doctor. |  |  |  |  |
| Storage   | 1 | Store locked up.   |  |  |  |  |
| Disposal  | : | Dispose of contents and container in accordance with all local, regional, national and international regulations.  |  |  |  |  |
| Other hazards which do not result in classification | : | Causes digestive tract burns. Prolonged or repeated contact may dry skin and cause irritation.   |  |  |  |  |

# Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

#### **CAS number/other identifiers**

| <b>CAS number</b> : Not applicable.                 |          |            |
|---|----------|------------|
| Ingredient name                                     | %        | CAS number |
| s-[4-(2,3-epoxipropoxi)phenyl]propane               | 10 - <20 | 1675-54-3  |
| Talc , not containing asbestiform fibres            | 5 - <10  | 14807-96-6 |
| xylene  | 5 - <10  | 1330-20-7  |
| 4-nonylphenol, branched                             | 5 - <10  | 84852-15-3 |
| crystalline silica, respirable powder (<10 microns) | 5 - <10  | 14808-60-7 |
| 1-methoxy-2-propanol                                | 1 - <3   | 107-98-2   |
| ethylbenzene  | 1 - <3   | 100-41-4   |
| oxirane, mono[(C12-14-alkyloxy)methyl] derivs.      | 0.3 - <1 | 68609-97-2 |
| trizinc bis(orthophosphate)                         | 0.3 - <1 | 7779-90-0  |
| maleic anhydride                                    | <0.1     | 108-31-6   |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

# Section 4. First aid measures

| Description of necessary first aid measures |  |  |  |  |  |
|---|--|--|--|--|--|
| Eye contact                                 | <ul> <li>Check for and remove any contact lenses. Immediately flush eyes with running<br/>water for at least 15 minutes, keeping eyelids open. Seek immediate medical<br/>attention.</li> </ul>  |  |  |  |  |
| Inhalation                                  | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |  |  |  |  |
| Skin contact                                | <ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and<br/>water or use recognized skin cleanser. Do NOT use solvents or thinners.</li> </ul>                       |  |  |  |  |
| Ingestion                                   | <ul> <li>If swallowed, seek medical advice immediately and show this container or label.<br/>Keep person warm and at rest. Do NOT induce vomiting.</li> </ul>                                    |  |  |  |  |

| Most important symptoms/       | effects, acute and delayed  |
|--------------------------------|---|
| Potential acute health effe    | <u>cts</u>  |
| Eye contact                    | : Causes serious eye damage.  |
| Inhalation                     | : No known significant effects or critical hazards.   |
| Skin contact                   | : Causes severe burns. May be harmful in contact with skin. Defatting to the skin. May cause an allergic skin reaction.   |
| Ingestion                      | : 🖉 orrosive to the digestive tract. Causes burns.  |
| <u>Over-exposure signs/sym</u> | <u>otoms</u>  |
| Eye contact                    | : Adverse symptoms may include the following:<br>pain<br>watering<br>redness  |
| Inhalation                     | : Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations   |
| Skin contact                   | : Adverse symptoms may include the following:<br>pain or irritation<br>redness<br>dryness<br>cracking<br>blistering may occur<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations   |
| Ingestion                      | : Adverse symptoms may include the following:<br>stomach pains<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations  |
| Indication of immediate me     | dical attention and special treatment needed, if necessary  |
| Notes to physician             | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul>   |
| Specific treatments            | : No specific treatment.  |
| Protection of first-aiders     | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

See toxicological information (Section 11)

Date of issue 23 October 2023

Version 13

# Section 5. Fire-fighting measures

| -  |  |
|--|--|
| Extinguishing media                            |  |
| Suitable extinguishing media                   | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.   |
| Unsuitable extinguishing media                 | : Do not use water jet.  |
| Specific hazards arising from the chemical     | : Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard.<br>In a fire or if heated, a pressure increase will occur and the container may burst, with<br>the risk of a subsequent explosion. This material is very toxic to aquatic life with<br>long lasting effects. Fire water contaminated with this material must be contained<br>and prevented from being discharged to any waterway, sewer or drain. |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon oxides<br>halogenated compounds<br>metal oxide/oxides  |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.   |
| Special protective equipment for fire-fighters | <ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained<br/>breathing apparatus (SCBA) with a full face-piece operated in positive pressure<br/>mode.</li> </ul>  |

# Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

|                                | Philippines Page: 4/1  |
|--------------------------------|--|
| Large spill                    | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |
| Small spill                    | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble.<br>Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.  |
| Methods and materials for co   |  |
| Environmental precautions      | : Avoid dispersal of spilled material and runoff and contact with soil, waterways,<br>drains and sewers. Inform the relevant authorities if the product has caused<br>environmental pollution (sewers, waterways, soil or air). Water polluting material.<br>May be harmful to the environment if released in large quantities. Collect spillage.  |
| For emergency responders       | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| For non-emergency<br>personnel | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Shut off all ignition sources.<br>No flares, smoking or flames in hazard area. Do not breathe vapor or mist. Provide<br>adequate ventilation. Wear appropriate respirator when ventilation is inadequate.<br>Put on appropriate personal protective equipment.   |

Product code 00323231 Dat Product name SIGMAFAST 278 BASE MIOCOAT DARK GREY

Date of issue 23 October 2023

# Section 7. Handling and storage

| Precautions for safe handling                                      |   |  |  |  |  |
|--|---|--|--|--|--|
| Protective measures  | Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container. |  |  |  |  |
| Advice on general<br>occupational hygiene                          | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |  |  |  |  |
| Conditions for safe storage,<br>including any<br>incompatibilities | Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.   |  |  |  |  |

# Section 8. Exposure controls/personal protection

#### **Control parameters**

**Occupational exposure limits** 

| Ingredient name                                     | Exposure limits                                      |
|---|--|
| ✓alc , not containing asbestiform fibres            | TLV (Philippines, 4/2016).                           |
|   | TLV: 20 mppf 8 hours. Form: Dust                     |
| xylene  | TLV (Philippines, 4/2016). [Xylene]                  |
|   | TLV: 0.1 mg/m <sup>3</sup> 8 hours.                  |
| crystalline silica, respirable powder (<10 microns) | TLV (Philippines, 4/2016).                           |
|   | TLV: 10 mg/m <sup>3</sup> / (%SiO2+2) 8 hours. Form: |
|   | Respirable dust                                      |
| 1-methoxy-2-propanol                                | ACGIH TLV (United States, 1/2022).                   |
|   | STEL: 369 mg/m <sup>3</sup> 15 minutes.              |
|   | STEL: 100 ppm 15 minutes.                            |
|   | TWA: 184 mg/m <sup>3</sup> 8 hours.                  |
|   | TWA: 50 ppm 8 hours.                                 |
| ethylbenzene  | TLV (Philippines, 4/2016).                           |
|   | TLV-Ceiling: 435 mg/m <sup>3</sup> 8 hours.          |
|   | TLV-Ceiling: 100 ppm 8 hours.                        |
| maleic anhydride                                    | TLV (Philippines, 4/2016).                           |
|   | TLV: 1 mg/m <sup>3</sup> 8 hours.                    |
|   | TLV: 0.25 ppm 8 hours.                               |

Product name SIGMAFAST 278 BASE MIOCOAT DARK GREY

# Section 8. Exposure controls/personal protection

| Recommended monitoring procedures   | ■ Reference should be made to appropriate monitoring standards. Reference to<br>national guidance documents for methods for the determination of hazardous<br>substances will also be required.   |  |  |  |  |  |
|---|---|--|--|--|--|--|
| Appropriate engineering<br>controls : Use only with adequate ventilation. Use process enclosures, local exhaust<br>ventilation or other engineering controls to keep worker exposure to airborn<br>contaminants below any recommended or statutory limits. The engineering<br>also need to keep gas, vapor or dust concentrations below any lower explo<br>limits. Use explosion-proof ventilation equipment. |   |  |  |  |  |  |
| Environmental exposure controls   | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels.   |  |  |  |  |  |
| Individual protection measure   | <u>8</u>  |  |  |  |  |  |
|   | Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Contaminated work clothing should not be allowed out of the workplace. Wash<br>contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location.   |  |  |  |  |  |
| Eye/face protection   | Safety eyewear complying with an approved standard should be used when a risk<br>assessment indicates this is necessary to avoid exposure to liquid splashes, mists,<br>gases or dusts. If contact is possible, the following protection should be worn,<br>unless the assessment indicates a higher degree of protection: chemical splash<br>goggles and/or face shield. If inhalation hazards exist, a full-face respirator may be<br>required instead.   |  |  |  |  |  |
| Skin protection   |   |  |  |  |  |  |
| Hand protection   | Chemical-resistant, impervious gloves complying with an approved standard should<br>be worn at all times when handling chemical products if a risk assessment indicates<br>this is necessary. Considering the parameters specified by the glove manufacturer,<br>check during use that the gloves are still retaining their protective properties. It<br>should be noted that the time to breakthrough for any glove material may be<br>different for different glove manufacturers. In the case of mixtures, consisting of<br>several substances, the protection time of the gloves cannot be accurately<br>estimated. |  |  |  |  |  |
|   | butyl rubber  |  |  |  |  |  |
| Body protection   | Personal protective equipment for the body should be selected based on the task<br>being performed and the risks involved and should be approved by a specialist<br>before handling this product. When there is a risk of ignition from static electricity,<br>wear anti-static protective clothing. For the greatest protection from static<br>discharges, clothing should include anti-static overalls, boots and gloves.   |  |  |  |  |  |
| Other skin protection   | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |  |  |  |  |  |
| Respiratory protection  | Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.  |  |  |  |  |  |

# Numerical measures of toxicity

Acute toxicity estimates

### Section 11. Toxicological information

| Route                        | ATE value     |  |
|------------------------------|---------------|--|
| Øral                         | 8942.43 mg/kg |  |
| Dermal                       | 4902.26 mg/kg |  |
| Inhalation (vapors)          | 55.26 mg/l    |  |
| Inhalation (dusts and mists) | 7.09 mg/l     |  |

#### Other information

Causes digestive tract burns. Prolonged or repeated contact may dry skin and cause irritation. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing.

# Section 12. Ecological information

Version 13

Date of issue 23 October 2023

Version 13

Product name SIGMAFAST 278 BASE MIOCOAT DARK GREY

# Section 12. Ecological information

| Mobility in soil<br>Soil/water partition<br>coefficient (Koc) | : Not available.                                    |
|---|---|
| Other adverse effects   | : No known significant effects or critical hazards. |

# Section 13. Disposal considerations

| •                 | n of waste should be avoided or minimized wherever possible.<br>s product, solutions and any by-products should at all times comply<br>ements of environmental protection and waste disposal legislation and |
|-------------------|--|
| with the require  | cal authority requirements. Dispose of surplus and non-recyclable  |
| any regional lo   | licensed waste disposal contractor. Waste should not be disposed of  |
| products via a    | e sewer unless fully compliant with the requirements of all authorities  |
| untreated to th   | n. Waste packaging should be recycled. Incineration or landfill  |
| with jurisdiction | considered when recycling is not feasible. This material and its   |
| should only be    | be disposed of in a safe way. Care should be taken when handling   |
| container must    | ners that have not been cleaned or rinsed out. Empty containers or   |
| emptied contai    | in some product residues. Vapor from product residues may create a   |
| liners may reta   | ble or explosive atmosphere inside the container. Do not cut, weld or  |
| highly flammat    | tainers unless they have been cleaned thoroughly internally. Avoid   |
| grind used con    | illed material and runoff and contact with soil, waterways, drains and   |

# Section 14. Transport information

|                                | UN   | IMDG  | IATA   |
|--------------------------------|--|---|--|
| UN number                      | UN3470   | UN3470  | UN3470   |
| UN proper<br>shipping name     | PAINT, CORROSIVE,<br>FLAMMABLE   | PAINT, CORROSIVE,<br>FLAMMABLE  | PAINT, CORROSIVE,<br>FLAMMABLE                                     |
| Transport hazard<br>class(es)  | 8 (3)  | 8 (3)   | 8 (3)  |
| Packing group                  | II   | II  | II   |
| Environmental<br>hazards       | Yes. The environmentally<br>hazardous substance mark is<br>not required. | Yes.  | Yes. The environmentally hazardous substance mark is not required. |
| Marine pollutant<br>substances | Not applicable.  | (bis-[4-(2,3-epoxipropoxi)<br>phenyl]propane, 4-nonylphenol,<br>branched) | Not applicable.  |

#### Additional information

| UN   | : None identified.   |
|------|--|
| IMDG | : The marine pollutant mark is not required when transported in sizes of $\leq$ 5 L or $\leq$ 5 kg.        |
| ΙΑΤΑ | : The environmentally hazardous substance mark may appear if required by other transportation regulations. |

# **Special precautions for user** :**Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Date of issue 23 October 2023 Product name SIGMAFAST 278 BASE MIOCOAT DARK GREY

Version 13

# Section 14. Transport information

Transport in bulk according : Not applicable. to IMO instruments

## Section 15. Regulatory information

International regulations

**Montreal Protocol** 

Not listed.

Stockholm Convention on Persistent Organic Pollutants Not listed.

# Section 16. Other information

| <u>History</u>                 |   |
|--------------------------------|---|
| Date of issue/Date of revision | : 23 October 2023   |
| Date of previous issue         | : 5/20/2021   |
| Version                        | : 13  |
| Prepared by                    | : EHS   |
| key to abbreviations           | <ul> <li>ATE = Acute Toxicity Estimate<br/>BCF = Bioconcentration Factor<br/>GHS = Globally Harmonized System of Classification and Labelling of Chemicals<br/>IATA = International Air Transport Association<br/>IBC = International Air Transport Association<br/>IBC = International Maritime Dangerous Goods<br/>LogPow = logarithm of the octanol/water partition coefficient<br/>MARPOL = International Convention for the Prevention of Pollution From Ships,<br/>1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution)<br/>UN = United Nations</li> </ul> |

#### Procedure used to derive the classification

| Classification  | Justification         |
|---|-----------------------|
| AMMABLE LIQUIDS - Category 3                                    | On basis of test data |
| ACUTE TOXICITY (dermal) - Category 5                            | Calculation method    |
| SKIN CORROSION/IRRITATION - Category 1                          | Calculation method    |
| SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 1                 | Calculation method    |
| SKIN SENSITIZATION - Category 1                                 | Calculation method    |
| TOXIC TO REPRODUCTION - Category 2                              | Calculation method    |
| SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 2 | Calculation method    |
| AQUATIC HAZARD (ACUTE) - Category 1                             | Calculation method    |
| AQUATIC HAZARD (LONG-TERM) - Category 1                         | Calculation method    |

Indicates information that has changed from previously issued version.

#### Notice to reader

The information contained in this data sheet is based on present scientific and technical knowledge. The purpose of this information is to draw attention to the health and safety aspects concerning the products supplied by us, and to recommend precautionary measures for the storage and handling of the products. No warranty or guarantee is given in respect of the properties of the products. No liability can be accepted for any failure to observe the precautionary measures described in this data sheet or for any misuse of the products.
