# **SAFETY DATA SHEET**

Date of issue 14 March 2024

Version 10.04

## Section 1. Product and company identification

| Product name                  |
|-------------------------------|
| Product code                  |
| Other means of identification |
| Product type                  |

- : SIGMACOVER 256 BASE BASE Z
- : 00175854
- : Not available.
- : Liquid.

### Relevant identified uses of the substance or mixture and uses advised against

### **Identified uses**

Coating. Paints. Painting-related materials.

| Uses advised against | Reason |
|----------------------|--------|
| Not applicable.      |        |

| Supplier's details:        |   |
|----------------------------|---|
| Supplier                   | <ul> <li>PPG Industries Colombia Ltda<br/>Calle 51 # 40-13<br/>Municipio de Itagüí<br/>Antioquia, Colombia<br/>(57) (4) 3787400 (Porteria)</li> </ul> |
| Email address:             | : HazComLatam@ppg.com   |
| Emergency telephone number | :<br>Colombia: 01 8000 916012 (CISPROQUIM)<br>+ 571 288 6012 (CISPROQUIM)<br>Ecuador: 1800-59-3005 (CISPROQUIM)<br>Peru: 080-050-847 (CISPROQUIM)     |

## Section 2. Hazards identification

| Classification of the substance or mixture | : FLAMMABLE LIQUIDS - Category 3<br>ACUTE TOXICITY (dermal) - Category 5<br>ACUTE TOXICITY (inhalation) - Category 4<br>SKIN IRRITATION - Category 2<br>EYE IRRITATION - Category 2A<br>SKIN SENSITIZATION - Category 1<br>CARCINOGENICITY - Category 1A<br>TOXIC TO REPRODUCTION - Category 2<br>SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract<br>irritation) - Category 3<br>AQUATIC HAZARD (ACUTE) - Category 2 |
|--|--|
|  | AQUATIC HAZARD (ACUTE) - Category 2<br>AQUATIC HAZARD (LONG-TERM) - Category 2   |

| English (US) | Colombia |

| Townot overse                                       | s identification  |
|---|---|
| Target organs                                       | : Contains material which causes damage to the following organs: brain.<br>Contains material which may cause damage to the following organs: blood, kidneys<br>lungs, the nervous system, liver, cardiovascular system, upper respiratory tract, ski<br>central nervous system (CNS), ears, eye, lens or cornea, stomach.   |
|   | Percentage of the mixture consisting of ingredient(s) of unknown acute dermal toxicity: 69.7%   |
|   | Percentage of the mixture consisting of ingredient(s) of unknown acute inhalation toxicity: 47.5%   |
|   | Percentage of the mixture consisting of ingredient(s) of unknown hazards to the aquatic environment: 41.4%  |
| GHS label elements                                  |   |
| Hazard pictograms                                   |   |
| Signal word   | : Danger  |
| Hazard statements                                   | <ul> <li>Flammable liquid and vapor.<br/>May be harmful in contact with skin.<br/>Causes skin irritation.<br/>May cause an allergic skin reaction.<br/>Causes serious eye irritation.<br/>Harmful if inhaled.</li> </ul>  |
|   | May cause respiratory irritation.<br>May cause cancer.<br>Suspected of damaging fertility or the unborn child.<br>Toxic to aquatic life with long lasting effects.  |
| Precautionary statements                            |   |
| Prevention  | : Obtain special instructions before use. Wear protective gloves, protective clothing<br>and eye or face protection. Keep away from heat, hot surfaces, sparks, open<br>flames and other ignition sources. No smoking. Use explosion-proof electrical,<br>ventilating or lighting equipment. Use non-sparking tools. Take action to prevent<br>static discharges. Avoid release to the environment. Avoid breathing vapor. Wash<br>thoroughly after handling.   |
| Response  | : Collect spillage. IF exposed or concerned: Get medical advice or attention. IF<br>INHALED: Call a POISON CENTER or doctor if you feel unwell. Take off<br>contaminated clothing and wash it before reuse. IF ON SKIN: Call a POISON<br>CENTER or doctor if you feel unwell. Wash with plenty of water. If skin irritation or<br>rash occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with<br>water for several minutes. Remove contact lenses, if present and easy to do.<br>Continue rinsing. If eye irritation persists: Get medical advice or attention. |
| Storage   | : Store in a well-ventilated place. Keep container tightly closed. Keep cool.   |
| Disposal  | : Dispose of contents and container in accordance with all local, regional, national and international regulations.   |
| Other hazards which do not result in classification | : Prolonged or repeated contact may dry skin and cause irritation.  |

## Section 3. Composition/information on ingredients

#### Substance/mixture Other means of identification

**CAS number** 

: Mixture

: Not available.

### **CAS number/other identifiers**

: Not applicable.

| Ingredient name   | %          | CAS number  |
|---|------------|-------------|
| Epoxy Resin   | 20 - <30   | SUB110652   |
| xylene  | 15 - <20   | 1330-20-7   |
| Kaolin  | 15 - <20   | 1332-58-7   |
| Talc , not containing asbestiform fibres  | 15 - <20   | 14807-96-6  |
| trizinc bis(orthophosphate)   | 7 - <10    | 7779-90-0   |
| Epoxy resin (MW $\leq$ 700)   | 5 - <7     | 25068-38-6  |
| ethylbenzene  | 3 - <5     | 100-41-4    |
| Reaction products of 12-hydroxyoctadecanoic acid and octadecanoic acid and 1,3-phenylenedimethanamine | 1 - <2     | 911674-82-3 |
| 4-nonylphenol, branched   | 0.5 - <1   | 84852-15-3  |
| crystalline silica, respirable powder (<10 microns)   | 0.1 - <0.2 | 14808-60-7  |
| zinc oxide  | 0.1 - <0.2 | 1314-13-2   |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

## Section 4. First aid measures

| Description of necessary first            | a         | id measures   |
|---|-----------|---|
| Eye contact                               | :         | Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice.   |
| Inhalation                                | :         | Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.  |
| Skin contact                              | :         | Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.  |
| Ingestion                                 | :         | If swallowed, seek medical advice immediately and show this container or label.<br>Keep person warm and at rest. Do NOT induce vomiting.  |
| Indication of immediate medio             | <u>ca</u> | l attention and special treatment needed, if necessary  |
| Notes to physician<br>Specific treatments |           | In case of inhalation of decomposition products in a fire, symptoms may be delayed.<br>The exposed person may need to be kept under medical surveillance for 48 hours.<br>No specific treatment.  |
| Protection of first-aiders                | :         | No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |
| Potential acute health effects            |           |   |

### Potential acute health effects

| Code        | 00175854 |                            | Date of issue | 14 March 2024 | Version | 10.04 |
|-------------|----------|----------------------------|---------------|---------------|---------|-------|
| Product nam | e        | SIGMACOVER 256 BASE BASE Z |               |               |         |       |

# Section 4. First aid measures

| Eye contact  | : Causes serious eye irritation.   |
|--------------|--|
| Inhalation   | : Harmful if inhaled. May cause respiratory irritation.  |
| Skin contact | <ul> <li>May be harmful in contact with skin. Causes skin irritation. Defatting to the skin.<br/>May cause an allergic skin reaction.</li> </ul> |
| Ingestion    | : No known significant effects or critical hazards.  |

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

| Extinguishing media                            |   |
|--|---|
| Suitable extinguishing media                   | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.  |
| Unsuitable extinguishing media                 | : Do not use water jet.   |
| Specific hazards arising from the chemical     | : Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard.<br>In a fire or if heated, a pressure increase will occur and the container may burst,<br>with the risk of a subsequent explosion. This material is toxic to aquatic life with<br>long lasting effects. Fire water contaminated with this material must be contained<br>and prevented from being discharged to any waterway, sewer or drain. |
| Hazardous thermal<br>decomposition products    | : Decomposition products may include the following materials:<br>carbon oxides<br>nitrogen oxides<br>phosphorus oxides<br>halogenated compounds<br>metal oxide/oxides   |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.  |
| Special protective equipment for fire-fighters | <ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained<br/>breathing apparatus (SCBA) with a full face-piece operated in positive pressure<br/>mode.</li> </ul>   |

## Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

| For non-emergency<br>personnel |   | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Shut off all ignition sources.<br>No flares, smoking or flames in hazard area. Avoid breathing vapor or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment. |
|--------------------------------|---|---|
| For emergency responders       | : | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| Environmental precautions      |   | Avoid dispersal of spilled material and runoff and contact with soil, waterways,<br>drains and sewers. Inform the relevant authorities if the product has caused<br>environmental pollution (sewers, waterways, soil or air). Water polluting material.<br>May be harmful to the environment if released in large quantities. Collect spillage.   |
|                                |   |   |

### Section 6. Accidental release measures

#### Methods and materials for containment and cleaning up

| Small spill | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools<br>and explosion-proof equipment. Dilute with water and mop up if water-soluble.<br>Alternatively, or if water-insoluble, absorb with an inert dry material and place in an<br>appropriate waste disposal container. Dispose of via a licensed waste disposal<br>contractor.  |
|-------------|---|
| Large spill | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools<br>and explosion-proof equipment. Approach release from upwind. Prevent entry into<br>sewers, water courses, basements or confined areas. Wash spillages into an<br>effluent treatment plant or proceed as follows. Contain and collect spillage with non-<br>combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth<br>and place in container for disposal according to local regulations (see Section 13).<br>Dispose of via a licensed waste disposal contractor. Contaminated absorbent<br>material may pose the same hazard as the spilled product. Note: see Section 1 for<br>emergency contact information and Section 13 for waste disposal. |

## Section 7. Handling and storage

| Precautions for safe :<br>handling                                   | Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|--|--|
| Conditions for safe storage, :<br>including any<br>incompatibilities | Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.  |

## Section 8. Exposure controls/personal protection

Control parameters Occupational exposure limits

# Section 8. Exposure controls/personal protection

|   |            |   | Exposure limits  |

## Section 8. Exposure controls/personal protection

| Body protection        | : Personal protective equipment for the body should be selected based on the task<br>being performed and the risks involved and should be approved by a specialist<br>before handling this product. When there is a risk of ignition from static electricity,<br>wear anti-static protective clothing. For the greatest protection from static<br>discharges, clothing should include anti-static overalls, boots and gloves.          |
|------------------------|--|
| Other skin protection  | <ul> <li>Appropriate footwear and any additional skin protection measures should be<br/>selected based on the task being performed and the risks involved and should be<br/>approved by a specialist before handling this product.</li> </ul>  |
| Respiratory protection | : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. |

## Section 9. Physical and chemical properties

| <u>Appearance</u>                            |   |                           |                     |

| Disposal methods: The generation of waste should be avoided or minimized wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comp<br>with the requirements of environmental protection and waste disposal legislation<br>and any regional local authority requirements. Dispose of surplus and non-<br>recyclable products via a licensed waste disposal contractor. Waste should not<br>disposed of untreated to the sewer unless fully compliant with the requirements<br>all authorities with jurisdiction. Waste packaging should be recycled. Incineration<br>or landfill should only be considered when recycling is not feasible. This materia<br>and its container must be disposed of in a safe way. Care should be taken whe<br>handling emptied containers that have not been cleaned or rinsed out. Empty<br>containers or liners may retain some product residues. Vapor from product<br>residues may create a highly flammable or explosive atmosphere inside the<br>container. Do not cut, weld or grind used containers unless they have been<br>cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and<br>contact with soil, waterways, drains and sewers. |                             |                                      |                          |
