SAFETY DATA SHEET

PSX 700 BASE OEM BLACK N61/RAL 9005

Date of issue 30 May 2024

Version 5

1. Product and company identification

| in roduct and company identification | | | | |
|--------------------------------------|--|--|--|--|
| Product name | : PSX 700 BASE OEM BLACK N61/RAL 9005 | | | |
| Product code | : 00373527 | | | |
| Product type | : Liquid. | | | |
| Relevant identified uses | of the substance or mixture and uses advised against | | | |
| Product use | : Professional applications, Used by spraying. | | | |
| Use of the substance/ mixture | : Coating. | | | |
| Uses advised against | : Not applicable. | | | |
| Supplier's details | : ₱PG PMC Japan Co., Ltd., 8F, Shintetsu Bldg., 1-1, Daikaidori 1-chome, Kobe 652-0803 Japan; Tel: +81-78-574-2777 | | | |
| Emergency telephone number | : 078 574 2777 | | | |

| 2. Hazards identification | | | | |
|---------------------------|--|--|--|--|
| GHS Classification | AMMABLE LIQUIDS - Category 4 SKIN SENSITIZATION - Category 1 CARCINOGENICITY - Category 2 SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 1 HAZARDOUS TO THE AQUATIC ENVIRONMENT - ACUTE HAZARD - Category 3 HAZARDOUS TO THE AQUATIC ENVIRONMENT - CHRONIC HAZARD - Category 3 | | | |
| GHS label elements | | | | |
| Hazard pictograms | | | | |
| Signal word | : Danger | | | |
| Hazard statements | Combustible liquid. May cause an allergic skin reaction. Suspected of causing cancer. Causes damage to organs through prolonged or repeated exposure. (respiratory organs) Harmful to aquatic life with long lasting effects. | | | |
| Precautionary statements | | | | |
| | | | | |

| 2. Hazards identification | | | | |
|---|---|---|--|--|
| Prevention | : | Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing and eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Avoid release to the environment. Do not breathe vapor. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. | | |
| Response | : | IF exposed or concerned: Get medical advice or attention. Take off contaminated clothing and wash it before reuse. IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice or attention. | | |
| Storage | : | Store locked up. | | |
| Disposal | : | Dispose of contents and container in accordance with all local, regional, national and international regulations. | | |
| Other hazards which do not result in classification | : | None known. | | |

3. Composition/information on ingredients

Substance/mixture

: Mixture

CAS number/other identifiers

| CAS number | : Not applicable. |
|-------------|-------------------|
| CSCL number | : Not available. |

| Ingredient name | % | CAS number | CSCL |
|--|------------|------------|----------------|
| 4'-Isopropylidenedicyclohexanol, oligomeric reaction products with 1-chloro-2,3-epoxypropane | 25 - <50 | 30583-72-3 | 7-1282 |
| barium sulfate | 25 - <50 | 7727-43-7 | 1-89 |
| bis(1,2,2,6,6-pentamethyl-4-piperidyl) sebacate | 1 - <2 | 41556-26-7 | 5-5501 |
| carbon black | 1 - <2 | 1333-86-4 | 5-3328; 5-5222 |
| methyl 1,2,2,6,6-pentamethyl-4-piperidyl sebacate | 0.2 - <0.5 | 82919-37-7 | 5-5593 |
| Xylene | 0.1 - <0.2 | 1330-20-7 | 3-3; 3-60 |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

4. First aid measures

| Description of necessary first aid measures | | | |
|---|--|--|--|
| Eye contact | Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice. | | |
| Inhalation | Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. | | |
| Skin contact | Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners. | | |
| Ingestion | If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting. | | |

Most important symptoms/effects, acute and delayed Potential acute health effects

Product name PSX 700 BASE OEM BLACK N61/RAL 9005

| 4. First aid measu | Ires | | | |
|----------------------------|---|--|--|--|
| Eye contact | : No known significant effects or critical hazards. | | | |
| Inhalation | : No known significant effects or critical hazards. | | | |
| Skin contact | May cause an allergic skin reaction. | | | |
| Ingestion | : No known significant effects or critical hazards. | | | |
| Over-exposure signs/sym | <u>otoms</u> | | | |
| Eye contact | : No specific data. | | | |
| Inhalation | : No specific data. | | | |
| Skin contact | : Adverse symptoms may include the following: irritation redness | | | |
| Ingestion | : No specific data. | | | |
| Indication of immediate me | dical attention and special treatment needed, if necessary | | | |
| Notes to physician | In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours. | | | |
| Specific treatments | : No specific treatment. | | | |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. | | | |
| | | | | |

See toxicological information (Section 11)

5. Fire-fighting measures **Extinguishing media** Suitable extinguishing : Use dry chemical, CO₂, water spray (fog) or foam. media : Do not use water jet. **Unsuitable extinguishing** media Specific hazards arising : Combustible liquid. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a from the chemical subsequent explosion. This material is harmful to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain. **Hazardous thermal** : Decomposition products may include the following materials: decomposition products carbon oxides nitrogen oxides sulfur oxides halogenated compounds metal oxide/oxides **Special protective actions** Promptly isolate the scene by removing all persons from the vicinity of the incident if ż. there is a fire. No action shall be taken involving any personal risk or without suitable for fire-fighters training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. **Special protective** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. equipment for fire-fighters

6 Accidental release measures

| 0. Accidental rele | |
|--------------------------------|--|
| Personal precautions, prote | ctive equipment and emergency procedures |
| For non-emergency personnel | : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. |
| For emergency responders | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| Environmental precautions | s : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. |
| Methods and materials for c | containment and cleaning up |
| Small spill | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| Large spill | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

7. Handling and storage

| Precautions for safe | Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|-----------------------------|--|
| Conditions for safe storage | Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See |

7. Handling and storage

Section 10 for incompatible materials before handling or use.

8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

| | | Exposure limits | | |
|-----------------------------------|---|--|--|--|
| ₩ylene | | Industrial Safety and Health Act (Japan, 6/2020). [xylene] TWA: 50 ppm 8 hours. Japan Society for Occupational Health (Japan, 5/2023). OEL-M: 50 ppm 8 hours. OEL-M: 217 mg/m ³ 8 hours. | | |
| Recommended monitoring procedures | Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required. | | | |
| Appropriate engineering controls | or other engineering controls to keep wo below any recommended or statutory lin | Se only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment. | | |
| Environmental exposure controls | : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. | | | |
| Individual protection measu | ires | | | |
| Hygiene measures | eating, smoking and using the lavatory a | to remove potentially contaminated clothing. be allowed out of the workplace. Wash Ensure that eyewash stations and safety | | |
| Eye protection | : Safety glasses with side shields. | | | |
| Skin protection | | | | |

Product name PSX 700 BASE OEM BLACK N61/RAL 9005

8. Exposure controls/personal protection

Respiratory protection

: Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.

9. Physical and chemical properties

Appearance Physical state : Liquid. Color : Black. Odor : Characteristic. : >37.78°C (>100°F) **Boiling point** : Closed cup: 70°C (158°F) **Flash point Relative density** : 1.43 **Media** Result Solubility(ies) cold water Not soluble

| 10. Stability and reactivity | | | | |
|------------------------------------|---|--|--|--|
| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. | | | |
| Chemical stability | : The product is stable. | | | |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. | | | |
| Conditions to avoid | : When exposed to high temperatures may produce hazardous decomposition products. | | | |
| Incompatible materials | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids. | | | |
| Hazardous decomposition products | Depending on conditions, decomposition products may include the following materials: carbon oxides nitrogen oxides sulfur oxides halogenated compounds metal oxide/oxides | | | |

| <u>Mobility in soil</u> | |
|--|---|
| Soil/water partition coefficient (Koc) | : Not available. |
| Mobility | : Not available. |
| Other adverse effects | : No known significant effects or critical hazards. |

13. Disposal considerations

| Disposal methods | : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a |
|------------------|---|
| | liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |

14. Transport information
