# **SAFETY DATA SHEET**

Date of issue/Date of revision 30 May 2024 Version 1.02

| Section 1. Identification   |   |  |
|---|---|--|
| Product code  | : 00445417  |  |
| Product name  | : SIGMASHIELD 880 BASE REDBROWN   |  |
| Product type  | : Liquid.   |  |
| Relevant identified uses of the substance or mixture and uses advised against |   |  |
| Product use   | Coating.<br>Professional applications, Used by spraying.  |  |
| Supplier's details  | : PPG Industries (Singapore) Pte. Ltd., No. 1 Tuas Basin Close, Singapore 638803.<br>Tel +65 68653737 |  |
| Emergency telephone<br>number (with hours of<br>operation)                    | : CHEMTREC +(65)-31581349 (CCN 17704)   |  |

# Section 2. Hazards identification

| Classification of the substance or mixture | <ul> <li>FLAMMABLE LIQUIDS - Category 3<br/>SKIN CORROSION/IRRITATION - Category 2<br/>SERIOUS EYE DAMAGE/EYE IRRITATION - Category 2A<br/>SKIN SENSITISATION - Category 1<br/>GERM CELL MUTAGENICITY - Category 2<br/>SPECIFIC TARGET ORGAN TOXICITY - SINGLE EXPOSURE (Respiratory tract<br/>irritation) - Category 3</li> </ul> |
|--|--|
|  | initiation) category c   |

**GHS label elements, including precautionary statements** 

÷

Hazard pictograms

| Signal word       | : Warning  |
|-------------------|--|
| Hazard statements | <ul> <li>Flammable liquid and vapour.<br/>Causes skin irritation.<br/>May cause an allergic skin reaction.<br/>Causes serious eye irritation.<br/>May cause respiratory irritation.<br/>Suspected of causing genetic defects.</li> </ul> |

#### **Precautionary statements**

# Section 2. Hazards identification

| Prevention | Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing and eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Avoid breathing vapour. Wash thoroughly after handling.   |
|------------|--|
| Response   | : IF exposed or concerned: Get medical advice or attention. IF INHALED: Call a POISON CENTER or doctor if you feel unwell. Take off contaminated clothing and wash it before reuse. IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. |
| Storage    | : Store in a well-ventilated place. Keep container tightly closed.   |
| Disposal   | : Not applicable.  |

result in classification

**Other hazards which do not** : Prolonged or repeated contact may dry skin and cause irritation.

# Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

#### **CAS** number/other identifiers

| CAS number | : Not applicable. |  |
|------------|-------------------|--|
| EC number  | : Mixture.        |  |

#### Ingredient name % **CAS** number reaction product: bisphenol-A-(epichlorohydrin); epoxy resin 20 - <25 25068-38-6 Talc, not containing asbestiform fibres 10 - <20 14807-96-6 5 - <10 1330-20-7 xylene Epoxy Resin (700<MW<=1100) 3 - <5 25036-25-3 Phenol, methylstyrenated 3 - <5 68512-30-1 2-methylpropan-1-ol 1 - <3 78-83-1 2,3-epoxypropyl neodecanoate 26761-45-5 1 - <3 Reaction products of 12-hydroxyoctadecanoic acid and octadecanoic acid 0.3 - <1 911674-82-3 and 1,3-phenylenedimethanamine

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

# Section 4. First aid measures

#### Description of necessary first aid measures Eye contact : Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice. : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is Inhalation irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.

| Singapore | English (GB) | Page: 2/14 |
|-----------|--------------|------------|
|-----------|--------------|------------|

### Section 4. First aid measures

| Skin contact                   | : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognised skin cleanser. Do NOT use solvents or thinners.   |
|--------------------------------|--|
| Ingestion                      | : If swallowed, seek medical advice immediately and show the container or label.<br>Keep person warm and at rest. Do NOT induce vomiting.  |
| Most important symptoms/       | effects, acute and delayed   |
| Potential acute health effe    | <u>cts</u>   |
| Eye contact                    | : Causes serious eye irritation.   |
| Inhalation                     | : May cause respiratory irritation.  |
| Skin contact                   | : Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction.  |
| Ingestion                      | : No known significant effects or critical hazards.  |
| <u>Over-exposure signs/sym</u> | <u>otoms</u>   |
| Eye contact                    | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness   |
| Inhalation                     | : Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing  |
| Skin contact                   | : Adverse symptoms may include the following:<br>irritation<br>redness<br>dryness<br>cracking  |
| Ingestion                      | : No specific data.  |
| Indication of immediate me     | dical attention and special treatment needed, if necessary   |
| Notes to physician             | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul>  |
| Specific treatments            | : No specific treatment.   |
| Protection of first-aiders     | : No action shall be taken involving any personal risk or without suitable training. If is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing |

thoroughly with water before removing it, or wear gloves.

See toxicological information (Section 11)

# Section 5. Firefighting measures

| Extinguishing media            |  |
|--------------------------------|--|
| Suitable extinguishing media   | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam. |
| Unsuitable extinguishing media | : Do not use water jet.  |

# Section 5. Firefighting measures

| _  |  |
|--|--|
| Specific hazards arising from the chemical     | : Flammable liquid and vapour. Runoff to sewer may create fire or explosion hazard.<br>In a fire or if heated, a pressure increase will occur and the container may burst, with<br>the risk of a subsequent explosion.   |
| Hazardous thermal decomposition products       | <ul> <li>Decomposition products may include the following materials:<br/>carbon oxides<br/>sulfur oxides<br/>halogenated compounds<br/>metal oxide/oxides</li> </ul>   |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. |
| Special protective equipment for fire-fighters | <ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained<br/>breathing apparatus (SCBA) with a full face-piece operated in positive pressure<br/>mode.</li> </ul>  |

# Section 6. Accidental release measures

| Personal precautions, protect  | ve equipment and emergency procedures  |
|--------------------------------|--|
| For non-emergency<br>personnel | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilt material. Shut off all ignition sources.<br>No flares, smoking or flames in hazard area. Avoid breathing vapour or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment.   |
| For emergency responders       | If specialised clothing is required to deal with the spillage, take note of any<br>information in Section 8 on suitable and unsuitable materials. See also the<br>information in "For non-emergency personnel".  |
| Environmental precautions      | : Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).  |
| Methods and material for cont  | ainment and cleaning up  |
| Small spill                    | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |
| Large spill                    | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spill product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

### Section 6. Accidental release measures

# Section 7. Handling and storage

| Precautions for safe handling                                      | L |  |
|--|---|--|
| Protective measures  | : | Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapour or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container. |
| Advice on general occupational hygiene                             | : | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |
| Conditions for safe storage,<br>including any<br>incompatibilities | : | Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidising materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.   |

# Section 8. Exposure controls/personal protection

#### **Control parameters**

#### **Occupational exposure limits**

| Ingredient name                          | Exposure limits                                      |  |  |  |
|--|--|--|--|--|
| ▼alc , not containing asbestiform fibres | Workplace Safety and Health Act (Singapore, 2/2006). |  |  |  |

|   | Other skin protection  | :         |  | nal skin protection measures should be<br>formed and the risks involved and should be<br>ing this product.   |

Product name SIGMASHIELD 880 BASE REDBROWN

# Section 8. Exposure controls/personal protection

| Respiratory protection | : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. |
|------------------------|--|
|------------------------|--|

# Section 9. Physical and chemical properties

| <u>Appearance</u>         |     |   |  |  |
|---------------------------|-----|---|--|--|
| Physical state            | :   | Liquid.   |  |  |
| Colour                    | :   | Brownish-red.   |  |  |
| Odour                     | :   | Characteristic.   |  |  |
| рН                        | :   | insoluble in water.   |  |  |
| Boiling point             | :   | >37.78°C (>100°F)   |  |  |
| Flash point               | :   | Closed cup: 33°C (91.4°F)   |  |  |
| Evaporation rate          |     | Highest known value: 0.77 (xylene) Weighted average: 0.73compared with butyl acetate  |  |  |
| Flammability (solid, gas) | :   | liquid  |  |  |
| Vapour pressure           |     | Highest known value: <1.6 kPa (<12 mm Hg) (at 20°C) (2-methylpropan-1-ol).<br>Weighted average: 0.59 kPa (4.43 mm Hg) (at 20°C) |  |  |
| Vapour density            | :   | Highest known value: 3.7 (Air = 1) (xylene). Weighted average: 3.37 (Air = 1)   |  |  |
| Relative density          | :   | 7.48  |  |  |
| Solubility(ies)           | . [ | Media Result  |  |  |
| Solubility(les)           | •   | cold water Not soluble  |  |  |
| Auto-ignition temperature | :   | Lowest known value: 276°C (528.8°F) (2,3-epoxypropyl neodecanoate).   |  |  |
| Viscosity                 | :   | Kinematic (40°C (104°F)): >21 mm²/s (>21 cSt)   |  |  |

# Section 10. Stability and reactivity

| Reactivity                         | : | No specific test data related to reactivity available for this product or its ingredients.                                     |
|------------------------------------|---|--|
| Chemical stability                 | : | The product is stable.   |
| Possibility of hazardous reactions | : | Under normal conditions of storage and use, hazardous reactions will not occur.  |
| Conditions to avoid                | : | When exposed to high temperatures may produce hazardous decomposition products.  |
| Incompatible materials             | : | Keep away from the following materials to prevent strong exothermic reactions: oxidising agents, strong alkalis, strong acids. |

#### Product code 00445417

Version 1.02

Product name SIGMASHIELD 880 BASE REDBROWN

# Section 11. Toxicological information

Prolonged or repeated contact may dry skin and cause irritation. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapour/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing.

# Section 12. Ecological information

# Section 13. Disposal considerations

| Disposal methods | : The generation of waste should be avoided or minimised wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation and<br>any regional local authority requirements. Dispose of surplus and non-recyclable<br>products via a licensed waste disposal contractor. Waste should not be disposed of<br>untreated to the sewer unless fully compliant with the requirements of all authorities<br>with jurisdiction. Waste packaging should be recycled. Incineration or landfill<br>should only be considered when recycling is not feasible. This material and its<br>container must be disposed of in a safe way. Care should be taken when handling<br>emptied containers that have not been cleaned or rinsed out. Empty containers or<br>liners may retain some product residues. Vapour from product residues may create<br>a highly flammable or explosive atmosphere inside the container. Do not cut, weld<br>or grind used containers unless they have been cleaned thoroughly internally. Avoid<br>dispersal of spilt material and runoff and contact with soil, waterways, drains and |
|------------------|---|
|                  | sewers.   |
