# **SAFETY DATA SHEET**

Date of issue 18 June 2024

Version 1

| Section 1. Identification     |  |  |
|-------------------------------|--|--|
| Chemical name                 | : PPG VIKOTE 56 BUFF 3142  |  |
| GHS product identifier        | : PPG VIKOTE 56 BUFF 3142  |  |
| Code                          | : 00445466   |  |
| Relevant identified uses o    | f the substance or mixture and uses advised against  |  |
| Product use                   | Coating.<br>Professional applications, Used by spraying.   |  |
| Supplier's details            | : PPG Industries International Inc. Taiwan Branch.<br>No.209, Hong Tzuenn Rd Ping Chen City, Taoyuan County, Taiwan<br>Tel: 886 3 3663922<br>886 3 3751639 (Automotive OEM Coatings Products).<br>Fax: 886 3 2182667 |  |
| Emergency telephone<br>number | : North: +886-3-3663922<br>North : +886-911998320<br>South: +886-7-8718105<br>South : +886-932793707   |  |

# Section 2. Hazards identification

| <b>Classification of the</b> | : FLAMMABLE LIQUIDS - Category 3  |
|------------------------------|---|
| substance or mixture         | ACUTE TOXICITY (dermal) - Category 5  |
|                              | ACUTE TOXICITY (inhalation) - Category 4  |
|                              | SKIN CORROSION/IRRITATION - Category 2  |
|                              | SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A                                  |
|                              | CARCINOGENICITY - Category 1B   |
|                              | TOXIC TO REPRODUCTION - Effects on or via lactation                               |
|                              | SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract               |
|                              | irritation) - Category 3  |
|                              | SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Narcotic effects) -             |
|                              | Category 3  |
|                              | AQUATIC TOXICITY (ACUTE) - Category 1   |
|                              | AQUATIC TOXICITY (CHRONIC) - Category 1   |
|                              | Percentage of the mixture consisting of ingredient(s) of unknown acute dermal     |
|                              | toxicity: 47.2%   |
|                              | Percentage of the mixture consisting of ingredient(s) of unknown acute inhalation |
|                              | toxicity: 50.8%   |
|                              | Percentage of the mixture consisting of ingredient(s) of unknown hazards to the   |
|                              | aquatic environment: 26.9%  |
| GHS label elements           |   |

Product name PPG VIKOTE 56 BUFF 3142

# Section 2. Hazards identification

| Hazard pictograms                                   |   |
|---|---|
| Signal word   | Danger  |
| Hazard statements                                   | Flammable liquid and vapor.<br>May be harmful in contact with skin.<br>Causes skin irritation.<br>Causes serious eye irritation.<br>Harmful if inhaled.<br>May cause respiratory irritation.<br>May cause drowsiness or dizziness.<br>May cause cancer.<br>May cause harm to breast-fed children.<br>Very toxic to aquatic life with long lasting effects.  |
| Precautionary statements                            |   |
| Prevention  | Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing and eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use explosion-proof electrical, ventilating or lighting equipment. Use non-sparking tools. Take action to prevent static discharges. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Avoid breathing vapor. Avoid contact during pregnancy or while nursing. Do not eat, drink or smoke when using this product. Wash thoroughly aft handling.       |
| Response  | Collect spillage. IF exposed or concerned: Get medical advice or attention. IF<br>INHALED: Remove person to fresh air and keep comfortable for breathing. Call a<br>POISON CENTER or doctor if you feel unwell. IF ON SKIN (or hair): Take off<br>immediately all contaminated clothing. Rinse skin with water. IF ON SKIN: Call a<br>POISON CENTER or doctor if you feel unwell. Wash with plenty of water. If skin<br>irritation occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with<br>water for several minutes. Remove contact lenses, if present and easy to do.<br>Continue rinsing. If eye irritation persists: Get medical advice or attention. |
| Storage   | Store locked up. Store in a well-ventilated place. Keep container tightly closed.<br>Keep cool.   |
| Disposal  | Dispose of contents and container in accordance with all local, regional, national and international regulations.   |
| Other hazards which do not result in classification | Prolonged or repeated contact may dry skin and cause irritation.  |

# Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

Taiwan GHSPage: 2/16

## Section 3. Composition/information on ingredients

| Hazardous ingredients  | Concentration %  | CAS number   |
|--|--|--|
| Solvent naphtha (petroleum), light aromatic  | 20 - <25   | 64742-95-6   |
| xylene   | 10 - <20   | 1330-20-7  |
| 1,2,4-trimethylbenzene   | 10 - <20   | 95-63-6  |
| ethylbenzene   | 3 - <5   | 100-41-4   |
| alkanes, C14-17, chloro  | 3 - <5   | 85535-85-9   |
| mesitylene   | 1 - <3   | 108-67-8   |
| propylbenzene  | 1 - <3   | 103-65-1   |
| 1,2,3-trimethylbenzene   | 1 - <3   | 526-73-8   |
| cumene   | 0.3 - <1   | 98-82-8  |
| toluene  | 0.1 - <0.3   | 108-88-3   |
| Hazardous ingredients  | <b>Concentration %</b>                                       | CAS number   |
|  |  |  |
| Solvent naphtha (petroleum), light aromatic  | 20 - <25   | 64742-95-6   |
| Solvent naphtha (petroleum), light aromatic<br>xylene  | 20 - <25<br>10 - <20   | 64742-95-6<br>1330-20-7  |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

### Section 4. First aid measures

| Description of necessary first | aid measures   |
|--------------------------------|--|
| Inhalation                     | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |
| Ingestion                      | : If swallowed, seek medical advice immediately and show this container or label.<br>Keep person warm and at rest. Do NOT induce vomiting.   |
| Skin contact                   | <ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and<br/>water or use recognized skin cleanser. Do NOT use solvents or thinners.</li> </ul>                       |
| Eye contact                    | <ul> <li>Remove contact lenses, irrigate copiously with clean, fresh water, holding the<br/>eyelids apart for at least 10 minutes and seek immediate medical advice.</li> </ul>                  |
| Most important symptoms/effe   | ects, acute and delayed  |
| Potential acute health effects |  |
| Eye contact                    | : Causes serious eye irritation.   |
| Inhalation                     | : Harmful if inhaled. Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness. May cause respiratory irritation.  |
| Skin contact                   | : May be harmful in contact with skin. Causes skin irritation. Defatting to the skin.  |
| Ingestion                      | : Can cause central nervous system (CNS) depression.   |

Product name PPG VIKOTE 56 BUFF 3142

### Section 4. First aid measures

#### Over-exposure signs/symptoms

| Eye contact             | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness  |
|-------------------------|---|
| Inhalation              | : Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing<br>nausea or vomiting<br>headache<br>drowsiness/fatigue<br>dizziness/vertigo<br>unconsciousness<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations |
| Skin contact            | : Adverse symptoms may include the following:<br>irritation<br>redness<br>dryness<br>cracking<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations   |
| Ingestion               | : Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations   |
| Indication of immediate | medical attention and special treatment needed, if necessary  |
| Notes to physician      | : Treat symptomatically. Contact poison treatment specialist immediately if large<br>quantities have been ingested or inhaled.  |

- **Specific treatments** : No specific treatment.
- **Protection of first-aiders** No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

See toxicological information (Section 11)

# Section 5. Fire-fighting measures

# Extinguishing mediaSuitable: Use dry chemical, CO2, water spray (fog) or foam.Not suitable: Do not use water jet.

Product name PPG VIKOTE 56 BUFF 3142

# Section 5. Fire-fighting measures

| Specific hazards arising from the chemical        | : Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard.<br>In a fire or if heated, a pressure increase will occur and the container may burst, with<br>the risk of a subsequent explosion. This material is very toxic to aquatic life with<br>long lasting effects. Fire water contaminated with this material must be contained<br>and prevented from being discharged to any waterway, sewer or drain. |
|---|--|
| Hazardous thermal decomposition products          | : Decomposition products may include the following materials:<br>carbon oxides<br>metal oxide/oxides   |
| Special protective actions for fire-fighters      | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.   |
| Special protective<br>equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.  |

# Section 6. Accidental release measures

| Personal precautions,<br>protective equipment and<br>emergency procedures | :    | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Shut off all ignition sources.<br>No flares, smoking or flames in hazard area. Avoid breathing vapor or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment.  |
|---|------|--|
| Environmental precautions   | :    | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Collect spillage.   |
| Methods and materials for co  | onta | ainment and cleaning up  |
| Large spill   | -    | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |
| Small spill   | :    | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |

Product name PPG VIKOTE 56 BUFF 3142

## Section 7. Handling and storage

| Precautions for safe<br>handling                                   | Put on appropriate personal protective equipment (see Section 8). Avoid exposure -<br>obtain special instructions before use. Avoid contact during pregnancy or while<br>nursing. Do not handle until all safety precautions have been read and understood.<br>Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or<br>mist. Avoid release to the environment. Use only with adequate ventilation. Wear<br>appropriate respirator when ventilation is inadequate. Do not enter storage areas<br>and confined spaces unless adequately ventilated. Keep in the original container or<br>an approved alternative made from a compatible material, kept tightly closed when<br>not in use. Store and use away from heat, sparks, open flame or any other ignition<br>source. Use explosion-proof electrical (ventilating, lighting and material handling)<br>equipment. Use only non-sparking tools. Take precautionary measures against<br>electrostatic discharges. Empty containers retain product residue and can be<br>hazardous. Do not reuse container. |
|--|---|
| Conditions for safe storage,<br>including any<br>incompatibilities | Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.   |

# Section 8. Exposure controls/personal protection

### Control parameters

#### **Occupational exposure limits**

| Ingredient name        | Exposure limits  |
|------------------------|--|
| xylene                 | TW Minstry of Labor, labor permissible<br>workplace exposure standards, allowable<br>concentration (Taiwan, 3/2018). [xylenes]<br>STEL: 542.5 mg/m <sup>3</sup> 15 minutes.<br>STEL: 125 ppm 15 minutes.<br>TWA: 434 mg/m <sup>3</sup> 8 hours.<br>TWA: 100 ppm 8 hours.             |
| 1,2,4-trimethylbenzene | TW Minstry of Labor, labor permissible<br>workplace exposure standards, allowable<br>concentration (Taiwan, 3/2018).<br>[Trimethylbenzene]<br>STEL: 184.5 mg/m <sup>3</sup> 15 minutes.<br>STEL: 37.5 ppm 15 minutes.<br>TWA: 123 mg/m <sup>3</sup> 8 hours.<br>TWA: 25 ppm 8 hours. |
| ethylbenzene           | TW Minstry of Labor, labor permissible<br>workplace exposure standards, allowable<br>concentration (Taiwan, 3/2018).<br>STEL: 542.5 mg/m <sup>3</sup> 15 minutes.<br>STEL: 125 ppm 15 minutes.<br>TWA: 434 mg/m <sup>3</sup> 8 hours.<br>TWA: 100 ppm 8 hours.                       |
|                        | Taiwan GHS Page: 6/16  |

Product name PPG VIKOTE 56 BUFF 3142

# Section 8. Exposure controls/personal protection

| mesitylene                       | TW Minstry of Labor, labor permissible<br>workplace exposure standards, allowable<br>concentration (Taiwan, 3/2018).<br>[Trimethylbenzene]<br>STEL: 184.5 mg/m <sup>3</sup> 15 minutes.<br>STEL: 37.5 ppm 15 minutes.<br>TWA: 123 mg/m <sup>3</sup> 8 hours.<br>TWA: 25 ppm 8 hours.   |
|----------------------------------|--|
| 1,2,3-trimethylbenzene           | TW Minstry of Labor, labor permissible<br>workplace exposure standards, allowable<br>concentration (Taiwan, 3/2018).<br>[Trimethylbenzene]<br>STEL: 184.5 mg/m <sup>3</sup> 15 minutes.<br>STEL: 37.5 ppm 15 minutes.<br>TWA: 123 mg/m <sup>3</sup> 8 hours.<br>TWA: 25 ppm 8 hours.   |
| cumene                           | TW Minstry of Labor, labor permissible<br>workplace exposure standards, allowable<br>concentration (Taiwan, 3/2018). Absorbed<br>through skin.<br>STEL: 369 mg/m <sup>3</sup> 15 minutes.<br>STEL: 75 ppm 15 minutes.<br>TWA: 246 mg/m <sup>3</sup> 8 hours.<br>TWA: 50 ppm 8 hours.   |
| toluene                          | TW Minstry of Labor, labor permissible<br>workplace exposure standards, allowable<br>concentration (Taiwan, 3/2018). Absorbed<br>through skin.<br>STEL: 470 mg/m <sup>3</sup> 15 minutes.<br>STEL: 125 ppm 15 minutes.<br>TWA: 376 mg/m <sup>3</sup> 8 hours.<br>TWA: 100 ppm 8 hours.   |
| Appropriate engineering controls | : Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.  |
| Individual protection measure    | S  |
| Respiratory protection           | Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. |

Product name PPG VIKOTE 56 BUFF 3142

# Section 8. Exposure controls/personal protection

| Hand protection  | : Chemical-resistant, impervious gloves complying with an approved standard should<br>be worn at all times when handling chemical products if a risk assessment indicates<br>this is necessary. Considering the parameters specified by the glove manufacturer,<br>check during use that the gloves are still retaining their protective properties. It<br>should be noted that the time to breakthrough for any glove material may be<br>different for different glove manufacturers. In the case of mixtures, consisting of<br>several substances, the protection time of the gloves cannot be accurately<br>estimated. |
|------------------|---|
| Gloves           | : For prolonged or repeated handling, use the following type of gloves:   |
|                  | May be used: nitrile rubber   |
|                  | Recommended: polyvinyl alcohol (PVA), Viton®  |
| Skin protection  | <ul> <li>Appropriate footwear and any additional skin protection measures should be<br/>selected based on the task being performed and the risks involved and should be<br/>approved by a specialist before handling this product.</li> </ul>   |
| Eye protection   | : Chemical splash goggles.  |
| Hygiene measures | : Wash hands, forearms and face thoroughly after handling chemical products,<br>before eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and<br>safety showers are close to the workstation location.   |

# Section 9. Physical and chemical properties

| <u>Appearance</u>                            |                             |
|--|-----------------------------|
| Physical state                               | : Liquid.                   |
| Color  | : Yellow.                   |
| Odor   | : Aromatic.                 |
| Odor threshold                               | : Not available.            |
| рН   | : Not applicable.           |
| Melting point                                | : Not available.            |
| Boiling point                                | : >37.78°C (>100°F)         |
| Flash point                                  | : Closed cup: 37°C (98.6°F) |
| Flammability (solid, gas)                    | : Not available.            |
| Burning time                                 | : Not applicable.           |
| Burning rate                                 | : Not applicable.           |
| Decomposition temperature                    | : Not available.            |
| Evaporation rate                             | : Not available.            |
| Lower and upper explosive (flammable) limits | : Not available.            |

| Information on the likely :<br>routes of exposure | Not available.  |
|---|---|
| Potential acute health effects                    |   |
|   | Harmful if inhaled. Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness. May cause respiratory irritation. |
| Ingestion :                                       | Can cause central nervous system (CNS) depression.  |
| Skin contact :                                    | May be harmful in contact with skin. Causes skin irritation. Defatting to the skin.   |
| Eye contact :                                     | Causes serious eye irritation.  |

#### Symptoms related to the physical, chemical and toxicological characteristics

| Eyes       | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness  |
|------------|---|
| Inhalation | : Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing<br>nausea or vomiting<br>headache<br>drowsiness/fatigue<br>dizziness/vertigo<br>unconsciousness<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations |
| Skin       | : Adverse symptoms may include the following:<br>irritation<br>redness<br>dryness<br>cracking<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations   |
| Ingestion  | : Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations   |

### Section 11. Toxicological information

Delayed and immediate effects and also chronic effects from short and long term exposure

| Short term exposure         |  |
|-----------------------------|--|
| Potential immediate effects | : Not available.   |
| Potential delayed effects   | : Not available.   |
| Long term exposure          |  |
| Potential immediate effects | : Not available.   |
| Potential delayed effects   | : Not available.   |
| Potential chronic health ef | fects  |
| Not available.              |  |
| General                     | : Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/<br>or dermatitis. |
| Carcinogenicity             | : May cause cancer. Risk of cancer depends on duration and level of exposure.                              |
| Mutagenicity                | : No known significant effects or critical hazards.  |
| Reproductive toxicity       | : May cause harm to breast-fed children.   |
| Inhalation                  | : No known significant effects or critical hazards.  |
| Ingestion                   | : No known significant effects or critical hazards.  |
| Skin contact                | : No known significant effects or critical hazards.  |
| Eye contact                 | : No known significant effects or critical hazards.  |

#### Other information

2

Prolonged or repeated contact may dry skin and cause irritation. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing.

### Section 12. Ecological information

#### **Toxicity**

| Product/ingredient name                     | Result   | Species  | Exposure      |
|---|--|--|---------------|
| Solvent naphtha (petroleum), light aromatic | Acute LC50 8.2 mg/l  | Fish   | 96 hours      |
| ethylbenzene                                | Acute EC50 1.8 mg/l Fresh water<br>Chronic NOEC 1 mg/l Fresh water | Daphnia<br>Daphnia - <i>Ceriodaphnia dubia</i> | 48 hours<br>- |

| 1,2,3-trimethylbenzene  | 3.66       | 194.98      | Low       |
| cumene                  | 3.55       | 35.48       | Low       |
| toluene                 | 2.73       | 8.32        | Low       |

#### Mobility in soil

Soil/water partition coefficient (Koc)

: Not available.

**Other adverse effects** : No known significant effects or critical hazards.

### Section 13. Disposal considerations

| Disposal methods : | The generation of waste should be avoided or minimized wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation and<br>any regional local authority requirements. Dispose of surplus and non-recyclable<br>products via a licensed waste disposal contractor. Waste should not be disposed of<br>untreated to the sewer unless fully compliant with the requirements of all authorities<br>with jurisdiction. Waste packaging should be recycled. Incineration or landfill<br>should only be considered when recycling is not feasible. This material and its<br>container must be disposed of in a safe way. Care should be taken when handling |
|--------------------|--|
|--------------------|--|

Taiwan GHS Page: 13/16

Product name PPG VIKOTE 56 BUFF 3142

### Section 13. Disposal considerations

emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

# Section 14. Transport information

|                                | UN   | IMDG   | ΙΑΤΑ   |
|--------------------------------|--|--|--|
| UN number                      | UN1263   | UN1263   | UN1263   |
| UN proper<br>shipping name     | PAINT  | PAINT  | PAINT  |
| Transport hazard<br>class(es)  | 3  | 3  | 3  |
| Packing group                  |  | III  | III  |
| Environmental<br>hazards       | Yes. The environmentally<br>hazardous substance mark is<br>not required. | Yes.   | Yes. The environmentally<br>hazardous substance mark is<br>not required. |
| Marine pollutant<br>substances | Not applicable.  | (Solvent naphtha (petroleum),<br>light aromatic) | Not applicable.  |

#### **Additional information**

- UN: None identified.IMDG: The marine pollutant mark is not required when transported in sizes of ≤5 L or ≤5 kg.IATA: The environmentally hazardous substance mark may appear if required by other transportation regulations.
- Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments

### Section 15. Regulatory information

#### **TCCSCA List of toxic chemicals**

Not applicable.

#### **TCCSCA List of concerned chemicals**

Not applicable.

Product name PPG VIKOTE 56 BUFF 3142

### Section 15. Regulatory information

List of chemicals for which manufacturing or handling is defined as "work specially hazardous to health" : This product contains substances "Specially hazardous to health": xylene, cyclohexanone, toluene, n-butyl acetate, methanol, acetone, butan-1-ol.

**Regulations Applicable:** 

- 1. Rules for Occupational Safety and Health Facilities
- 2. Regulations for the Labeling and Hazard Communication of Hazardous Chemicals
- 3. Prevention Rules for Organic Solvent Intoxication/Poisoning.
- 4. Standards of Permissible Exposure Limits of Airborne Hazardous Substances in Workplace
- 5. Traffic Safety Regulation of Road.
