# **SAFETY DATA SHEET**

Date of issue	20 June 2024

Version 2

### Section 1. Product and company identification

Product name	: SIGMACOVER 805 BASE BLACK	
Product code	: 000001011195	
Other means of identification	: 00182349; 00182739; 00202652; 00220292; 00223948; 00223952; 00224217; 00227891; 00241767; 00271144	
Product type	: Liquid.	

#### Relevant identified uses of the substance or mixture and uses advised against

#### Identified uses

Coating. Paints. Painting-related materials.

Uses advised against	Reason
Not applicable.	

Supplier's details:	
Supplier	: PPG Industries Colombia Ltda Calle 51 # 40-13 Municipio de Itagüí Antioquia, Colombia (57) (4) 3787400 (Porteria)
Email address:	: HazComLatam@ppg.com
Emergency telephone number	: Colombia: 01 8000 916012 (CISPROQUIM) + 571 288 6012 (CISPROQUIM) Ecuador: 1800-59-3005 (CISPROQUIM) Peru: 080-050-847 (CISPROQUIM)

### Section 2. Hazards identification

Classification of the substance or mixture	<ul> <li>AMMABLE LIQUIDS - Category 3 SKIN IRRITATION - Category 2 EYE IRRITATION - Category 2A SKIN SENSITIZATION - Category 1 CARCINOGENICITY - Category 1A SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract irritation) - Category 3 AQUATIC HAZARD (ACUTE) - Category 2 AQUATIC HAZARD (I ONG-TERM) - Category 2</li> </ul>
	AQUATIC HAZARD (LONG-TERM) - Category 2

2

Target organs	: Contains material which causes damage to the following organs: blood, liver, heart brain. Contains material which may cause damage to the following organs: kidneys, lungs the nervous system, cardiovascular system, upper respiratory tract, skin, central nervous system (CNS), eye, lens or cornea, stomach.
	Percentage of the mixture consisting of ingredient(s) of unknown hazards to the aquatic environment: 23.7%
GHS label elements	
Hazard pictograms	
Signal word	: Danger
Hazard statements	<ul> <li>Mammable liquid and vapor.</li> <li>Causes skin irritation.</li> <li>May cause an allergic skin reaction.</li> <li>Causes serious eye irritation.</li> <li>May cause respiratory irritation.</li> </ul>
	May cause cancer. Toxic to aquatic life with long lasting effects.
Precautionary statements	
Prevention	: Obtain special instructions before use. Wear protective gloves, protective clothing and eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use explosion-proof electrical, ventilating or lighting equipment. Use non-sparking tools. Take action to prevent static discharges. Avoid release to the environment. Avoid breathing vapor. Was thoroughly after handling.
Response	: Collect spillage. IF exposed or concerned: Get medical advice or attention. IF INHALED: Call a POISON CENTER or doctor if you feel unwell. Take off contaminated clothing and wash it before reuse. IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice or attention. IF IN EYES Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.
Storage	: Store in a well-ventilated place. Keep container tightly closed. Keep cool.
Disposal	: Dispose of contents and container in accordance with all local, regional, national and international regulations.
Other hazards which do not result in classification	: Prolonged or repeated contact may dry skin and cause irritation.

SIGMACOVER 805 BASE BLACK

### Section 3. Composition/information on ingredients

#### Substance/mixture Other means of identification

**CAS** number

- : Mixture

- : 00182349; 00182739; 00202652; 00220292; 00223948; 00223952; 00224217; 00227891; 00241767; 00271144

#### **CAS number/other identifiers**

: Not applicable.

Ingredient name	%	CAS number
s-[4-(2,3-epoxipropoxi)phenyl]propane	30 - <60	1675-54-3
Kaolin	30 - <60	1332-58-7
Talc , not containing asbestiform fibres	12.5 - <15	14807-96-6
xylene	5 - <7	1330-20-7
benzyl alcohol	2 - <3	100-51-6
2-methylpropan-1-ol	2 - <3	78-83-1
12-hydroxyoctadecanoic acid, reaction products with 1,3-benzenedimethanamine and hexamethylenediamine	1 - <2	220926-97-6
ethylbenzene crystalline silica, respirable powder (<10 microns)	0.5 - <1 0.2 - <0.5	100-41-4 14808-60-7

Date of issue

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

### Section 4. First aid measures

<b>Description of necessary first</b>	a	id measures
Eye contact	:	Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice.
Inhalation	:	Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.
Skin contact	:	Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.
Ingestion	:	If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting.
Indication of immediate media	ca	l attention and special treatment needed, if necessary
Notes to physician Specific treatments		In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours. No specific treatment.
Protection of first-aiders	:	No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.
Potential acute health effects		
Eye contact		Causes serious eye irritation.
Inhalation	÷	May cause respiratory irritation.

Code	00000101	1195	Date of issue	20 June 2024	Version	2
Product nam	е	SIGMACOVER 805 BASE BLACK				

### Section 4. First aid measures

- Skin contact Ingestion
- Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction.
  No known significant effects or critical hazards.

#### See toxicological information (Section 11)

### Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.
Unsuitable extinguishing media	: Do not use water jet.
Specific hazards arising from the chemical	: Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. This material is toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.
Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon oxides nitrogen oxides metal oxide/oxides
Special protective actions for fire-fighters	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

### Section 6. Accidental release measures

Personal precautions, protect	Personal precautions, protective equipment and emergency procedures				
For non-emergency personnel	:	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.			
For emergency responders	:	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".			
Environmental precautions	:	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Collect spillage.			

Methods and materials for containment and cleaning up

Code 00000 Product name	1011195 SIGMACOVER 805 BASE E	Date of issue BLACK	20 June 2024	Version	2
Section 6.	Accidental rele	ase measures			
Small spill	and explose Alternative	if without risk. Move con sion-proof equipment. Di ely, or if water-insoluble, a e waste disposal contain	lute with water and mop bsorb with an inert dry	o up if water-solu material and pla	ıble. ce in an
<ul> <li>Large spill</li> <li>Stop leak if without risk. Move containers from spill area. Use spark-proof too and explosion-proof equipment. Approach release from upwind. Prevent entry sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous and place in container for disposal according to local regulations (see Section Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section</li> </ul>			entry into an with non- ous earth ion 13). pent		

emergency contact information and Section 13 for waste disposal.

### Section 7. Handling and storage

Precautions for safe : handling	Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container.
Conditions for safe storage, : including any incompatibilities	Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

### Section 8. Exposure controls/personal protection

<u>Control parameters</u> <u>Occupational exposure limits</u>

# Section 8. Exposure controls/personal protection

Date of issue

Ingredient name		Exposure limits
Kaolin Talc , not containing asbestife	orm fibres	ACGIH TLV (United States, 7/2023). TWA: 2 mg/m <sup>3</sup> 8 hours. Form: Respirable fraction ACGIH TLV (United States, 7/2023).
		TWA: 2 mg/m <sup>3</sup> 8 hours. Form: Respirable
xylene		ACGIH TLV (United States, 7/2023). [p- xylene and mixtures containing p-xylene Ototoxicant.
2-methylpropan-1-ol		TWA: 20 ppm 8 hours. <b>ACGIH TLV (United States, 7/2023).</b> TWA: 152 mg/m <sup>3</sup> 8 hours.
12-hydroxyoctadecanoic acid	reaction products with	TWA: 50 ppm 8 hours. ACGIH TLV (United States).
1,3-benzenedimethanamine		TWA: 10 mg/m <sup>3</sup> Form: Inhalable particle TWA: 3 mg/m <sup>3</sup> , (inhalable dust) Form: Respirable particle
Recommended monitoring procedures		propriate monitoring standards. Reference to methods for the determination of hazardous
Appropriate engineering controls Environmental exposure controls	<ul> <li>ventilation or other engineering of contaminants below any recommalso need to keep gas, vapor or limits. Use explosion-proof venti</li> <li>Emissions from ventilation or wo they comply with the requirement</li> </ul>	rk process equipment should be checked to ensu ts of environmental protection legislation. In some
ndividual protection measur	equipment will be necessary to re	engineering modifications to the process educe emissions to acceptable levels.
Hygiene measures		thoroughly after handling chemical products,
	before eating, smoking and using Appropriate techniques should b Contaminated work clothing sho contaminated clothing before reu showers are close to the worksta	g the lavatory and at the end of the working period e used to remove potentially contaminated clothin uld not be allowed out of the workplace. Wash ising. Ensure that eyewash stations and safety
Eye protection <u>Skin protection</u>	: Chemical splash goggles.	
Hand protection	be worn at all times when handlin this is necessary. Considering th check during use that the gloves should be noted that the time to different for different glove manu	loves complying with an approved standard shoung chemical products if a risk assessment indicate the parameters specified by the glove manufacture are still retaining their protective properties. It breakthrough for any glove material may be facturers. In the case of mixtures, consisting of on time of the gloves cannot be accurately
	estimated.	

English (US)

Section 8. Expos	ure controls/personal protection
Body protection	: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear anti-static protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves.
Other skin protection	<ul> <li>Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.</li> </ul>
Respiratory protection	: Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.

# Section 9. Physical and chemical properties

<u>Appearance</u>					
Physical state	:	Liquid.			
Color	1	Black.			
Odor	1	Aromatic. [Strong]			
рН	1	Not applicable.			
Melting point	1	Not available.			
Boiling point	:	>37.78°C (>100°F)			
Flash point	1	Closed cup: 30°C (86°F)			
Evaporation rate	1	Not available.	Not available.		
Flammability (solid, gas)	:	Not available.			
Lower and upper explosive (flammable) limits	:	Not available.			
Vapor pressure	:	Not available.			
Vapor density	:	Not available.			
Relative density	:	1.52			
Solubility(ies)		Media	Result		
oordonity(ics)		cold water	Not soluble		
Partition coefficient: n- octanol/water	:	Not applicable.			
Auto-ignition temperature	:	270°C (518°F)			
Decomposition temperature	:	Not available.			
Viscosity	:	Kinematic (40°C (104°F)):	>21 mm²/s (>21 cSt)		
Viscosity		60 - 100 s (ISO 6mm)			
-					

# Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: When exposed to high temperatures may produce hazardous decomposition products.
Incompatible materials	: Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.
Hazardous decomposition products	: Depending on conditions, decomposition products may include the following materials: carbon oxides nitrogen oxides metal oxide/oxides

### Section 11. Toxicological information

### Section 11. Toxicological information

#### **Teratogenicity**

Not available.

#### **Conclusion/Summary** : There are no data available on the mixture itself.

#### Specific target organ toxicity (single exposure)

Name	Category	Route of exposure	Target organs
√alc , not containing asbestiform fibres	Category 3	-	Respiratory tract irritation
xylene	Category 3	-	Respiratory tract irritation
2-methylpropan-1-ol	Category 3	-	Respiratory tract irritation
	Category 3		Narcotic effects

#### Specific target organ toxicity (repeated exposure)

Name	Category	Route of exposure	Target organs
12-hydroxyoctadecanoic acid, reaction products with 1,3-benzenedimethanamine and hexamethylenediamine	Category 2	inhalation	lungs
ethylbenzene crystalline silica, respirable powder (<10 microns)	Category 2 Category 1	- inhalation	hearing organs -

#### Target organs

: Contains material which causes damage to the following organs: blood, liver, heart, brain.

Contains material which may cause damage to the following organs: kidneys, lungs, the nervous system, cardiovascular system, upper respiratory tract, skin, central nervous system (CNS), eye, lens or cornea, stomach.

#### Aspiration hazard

Name	Result
5	ASPIRATION HAZARD - Category 1 ASPIRATION HAZARD - Category 2
	ASPIRATION HAZARD - Category 2 ASPIRATION HAZARD - Category 1

### Information on the likely

: Not available.

#### routes of exposure

Eye contact

Ingestion

Potential acute health effects

: Causes serious eye irritation.

- Inhalation : May cause respiratory irritation.
- Skin contact : Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction.
  - : No known significant effects or critical hazards.

#### Symptoms related to the physical, chemical and toxicological characteristics

20

Date of issue

2

# Section 11. Toxicological information

Eye contact	: Adverse symptoms may include the following: pain or irritation watering redness
Inhalation	: Adverse symptoms may include the following: respiratory tract irritation coughing
Skin contact	: Adverse symptoms may include the following: irritation redness dryness cracking
Ingestion	: No specific data.

#### Delayed and immediate effects and also chronic effects from short and long term exposure

Conclusion/Summary	silica dura appli state muc kidno dizzi cons throu vapo expe caus vom and	e are no data available on the mixture itself. This product contains crystalline which can cause lung cancer or silicosis. The risk of cancer depends on the tion and level of exposure to dust from sanding surfaces or mist from spray cations. Exposure to component solvent vapor concentrations in excess of the d occupational exposure limit may result in adverse health effects such as ous membrane and respiratory system irritation and adverse effects on the eys, liver and central nervous system. Symptoms and signs include headache, ness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of ciousness. Solvents may cause some of the above effects by absorption ugh the skin. There is some evidence that repeated exposure to organic solvent rs in combination with constant loud noise can cause greater hearing loss than octed from exposure to noise alone. If splashed in the eyes, the liquid may e irritation and reversible damage. Ingestion may cause nausea, diarrhea and ting. This takes into account, where known, delayed and immediate effects also chronic effects of components from short-term and long-term exposure by inhalation and dermal routes of exposure and eye contact.
<u>Short term exposure</u>		
Potential immediate effects	: Ther	e are no data available on the mixture itself.
Potential delayed effects	: Ther	e are no data available on the mixture itself.
Long term exposure		
Potential immediate effects	: Ther	e are no data available on the mixture itself.
Potential delayed effects	: Ther	e are no data available on the mixture itself.
Potential chronic health eff	<u>cts</u>	
Not available.		
General	or de	onged or repeated contact can defat the skin and lead to irritation, cracking and/ ermatitis. Once sensitized, a severe allergic reaction may occur when equently exposed to very low levels.
Carcinogenicity		cause cancer. Risk of cancer depends on duration and level of exposure.
Mutagenicity	: No k	nown significant effects or critical hazards.
Reproductive toxicity	: No k	nown significant effects or critical hazards.

Other adverse effects : No known significant effects or critical hazards.

### Section 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

### Section 14. Transport information

Code	00000101	1195	Date of issue	20 June 2024	Version	2
Product nam	e	SIGMACOVER 805 BASE BLACK				

### Section 14. Transport information

	UN	Brazil (ANTT)	IMDG	ΙΑΤΑ
UN number	UN1263	UN1263	UN1263	UN1263
UN proper shipping name	PAINT	PAINT	PAINT	PAINT
Transport hazard class(es)	3	3	3	3
Packing group	III	III	III	III
Environmental hazards	Yes. The environmentally hazardous substance mark is not required.	Yes. The environmentally hazardous substance mark is not required.	Yes.	Yes. The environmentally hazardous substance mark is not required.
Marine pollutant substances	Not applicable.	Not applicable.	(bis-[4- (2,3-epoxipropoxi) phenyl]propane)	Not applicable.

#### Additional information

UN	: None identified.
Brazil	: None identified.
<b>Risk number</b>	: 30
IMDG	: The marine pollutant mark is not required when transported in sizes of ≤5 L or ≤5 kg.
ΙΑΤΑ	: The environmentally hazardous substance mark may appear if required by other transportation regulations.

# Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments

### Section 15. Regulatory information

Safety, health and	1	No known specific national and/or regional regulations applicable to this product
environmental regulations		(including its ingredients).
specific for the product		

### Section 16. Other information

#### History

Date of previous issue	:	7/7/2021
