SAFETY DATA SHEET

Safety Data Sheet according to GB/T 16483-2008 and GB/T 17519-2013

Date of issue/Date of revision 11 July 2024

| Version | 9.14 |
|---------|------|
|---------|------|

| Section 1. Chemi | cal product and company identification |
|--|---|
| Product code | : 00149924 |
| Product name | : SIGMACOVER 456 BASE BASE Z |
| Product name | : SIGMACOVER 456 BASE BASE Z |
| Product type | : Liquid. |
| Relevant identified uses of | the substance or mixture and uses advised against |
| Product use | : Professional applications, Used by spraying. |
| Use of the substance/ mixture | : Coating. |
| Uses advised against | : Not applicable. |
| Supplier's details | : PPG Coatings (Kunshan) Co., Ltd 53 Jinyang Road, Lujia Town, 215331 Kunshan City, Jiangsu Province, P.R. China Tel: 86 512 57678859 Fax: 86 512 57678857 |
| Emergency telephone number (with hours of operation) | : 00 86 532 83889090 |

Section 2. Hazards identification

Classification of the substance or mixture according to GB 13690-2009 and GB 30000-2013

Emergency overview Liquid. Various Characteristic. Flammable liquid and vapor. May be harmful in contact with skin. Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation. Harmful if inhaled. Suspected of causing cancer. Toxic to aquatic life. Harmful to aquatic life with long lasting effects. Prolonged or repeated contact may dry skin and cause irritation.

IF exposed or concerned: Get medical advice or attention. IF INHALED: Call a POISON CENTER or doctor if you feel unwell. IF ON SKIN: Call a POISON CENTER or doctor if you feel unwell. If skin irritation or rash occurs: Get medical advice or attention. If eye irritation persists: Get medical advice or attention.

See Section 12 for environmental precautions.

China Page: 1/14

Section 2. Hazards identification

| Classification of the substance or mixture | FLAMMABLE LIQUIDS - Category 3 ACUTE TOXICITY (dermal) - Category 5 ACUTE TOXICITY (inhalation) - Category 4 SKIN CORROSION/IRRITATION - Category 2 SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A SKIN SENSITIZATION - Category 1 CARCINOGENICITY - Category 2 AQUATIC HAZARD (ACUTE) - Category 2 AQUATIC HAZARD (LONG-TERM) - Category 3 Percentage of the mixture consisting of ingredient(s) of unknown acute dermal toxicity: 29.4% Percentage of the mixture consisting of ingredient(s) of unknown acute inhalation toxicity: 35.2% Percentage of the mixture consisting of ingredient(s) of unknown hazards to the aquatic environment: 57.5% |
|---|---|
| GHS label elements | |
| Hazard pictograms | |
| Signal word | : Warning |
| Hazard statements | Flammable liquid and vapor. May be harmful in contact with skin. Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation. Harmful if inhaled. Suspected of causing cancer. Toxic to aquatic life. Harmful to aquatic life with long lasting effects. |
| Precautionary statements | |
| Prevention | : Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing and eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use explosion-proof electrical, ventilating or lighting equipment. Use non-sparking tools. Take action to prevent static discharges. Keep container tightly closed. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Avoid breathing vapor. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. |
| Response | : IF exposed or concerned: Get medical advice or attention. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor if you feel unwell. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. IF ON SKIN: Call a POISON CENTER or doctor if you feel unwell. Wash with plenty of water. If skin irritation or rash occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. |
| Suitable extinguishing media | : Use dry chemical, CO ₂ , water spray (fog) or foam. |
| Storage | : Store locked up. Store in a well-ventilated place. Keep cool. |

Date of issue 11 July 2024

Product name SIGMACOVER 456 BASE BASE Z

Section 2. Hazards identification

| Disposal | : | Dispose of contents and container in accordance with all local, regional, national and international regulations. |
|---|-----|---|
| Physical and chemical hazards | : | Flammable liquid and vapor. |
| Health hazards | : | Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation. Harmful if inhaled. Suspected of causing cancer. Prolonged or repeated contact may dry skin and cause irritation. |
| Symptoms related to the phy | sic | al, chemical and toxicological characteristics |
| Eye contact | : | Adverse symptoms may include the following: pain or irritation watering redness |
| Inhalation | 1 | No specific data. |
| Skin contact | : | Adverse symptoms may include the following: irritation redness dryness cracking |
| Ingestion | : | No specific data. |
| Delayed and immediate effec | ts | and also chronic effects from short and long term exposure |
| Short term exposure | | |
| Potential immediate effects | : | Not available. |
| Potential delayed effects | 1 | Not available. |
| <u>Long term exposure</u> | | |
| Potential immediate effects | 1 | Not available. |
| Potential delayed effects | 1 | Not available. |
| Environmental hazards | : | Toxic to aquatic life. Harmful to aquatic life with long lasting effects. |
| Other hazards which do not result in classification | : | Prolonged or repeated contact may dry skin and cause irritation. |

Section 3. Composition/information on ingredients

Not applicable.

| Substance/mixture | : Mixture |
|-------------------|-----------|
|-------------------|-----------|

| CAS number/other identifiers | |
|------------------------------|---|
| CAS number | ÷ |

Version 9.14

Product name SIGMACOVER 456 BASE BASE Z

Section 3. Composition/information on ingredients

| Ingredient name | % | CAS number |
|--|----------|------------|
| Epoxy Resin | 10 - <25 | SUB110652 |
| xylene isomers mixture | 10 - <25 | 1330-20-7 |
| barium sulfate | 10 - <25 | 7727-43-7 |
| Talc , not containing asbestiform fibres | 1 - <10 | 14807-96-6 |
| Epoxy resin (MW ≤ 700) | 1 - <10 | 25068-38-6 |
| ethylbenzene | 1 - <10 | 100-41-4 |
| 2-methoxy-1-methylethyl acetate | 1 - <10 | 108-65-6 |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

Section 4. First aid measures

| Description of necessary | first aid measures |
|----------------------------|--|
| Eye contact | : Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice. |
| Inhalation | Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |
| Skin contact | : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners. |
| Ingestion | : If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting. |
| Most important symptoms | /effects, acute and delayed |
| Potential acute health eff | ects |
| Eye contact | : Causes serious eye irritation. |
| Inhalation | : Harmful if inhaled. |
| Skin contact | : May be harmful in contact with skin. Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction. |
| Ingestion | : No known significant effects or critical hazards. |
| Over-exposure signs/syn | n <u>ptoms</u> |
| Eye contact | : Adverse symptoms may include the following: pain or irritation watering redness |
| Inhalation | : No specific data. |
| Skin contact | : Adverse symptoms may include the following: irritation redness dryness cracking |
| Ingestion | : No specific data. |

Indication of immediate medical attention and special treatment needed, if necessary

Date of issue 11 July 2024

Version 9.14

Product name SIGMACOVER 456 BASE BASE Z

Section 4. First aid measures

| Notes to physician | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |
|----------------------------|---|
| Specific treatments | : No specific treatment. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

See toxicological information (Section 11)

Section 5. Fire-fighting measures

| Extinguishing media | |
|--|--|
| Suitable extinguishing media | : Use dry chemical, CO ₂ , water spray (fog) or foam. |
| Unsuitable extinguishing media | : Do not use water jet. |
| Specific hazards arising from the chemical | : Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. This material is toxic to aquatic life. This material is harmful to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain. |
| Hazardous thermal decomposition products | : Decomposition products may include the following materials: carbon oxides sulfur oxides halogenated compounds metal oxide/oxides |
| Special protective actions for fire-fighters | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

Section 6. Accidental release measures

| Personal precautions, protectiv | ve equipment and emergency procedures | | |
|---------------------------------|--|--|-------------------------------------|
| For non-emergency series on nel | No action shall be taken involving any personal risk or withou Evacuate surrounding areas. Keep unnecessary and unprot entering. Do not touch or walk through spilled material. Shu No flares, smoking or flames in hazard area. Avoid breathing Provide adequate ventilation. Wear appropriate respirator w inadequate. Put on appropriate personal protective equipment | ected perso t off all ignit g vapor or n hen ventilat | onnel from ion sources. nist. |
| For emergency responders | If specialized clothing is required to deal with the spillage, tak information in Section 8 on suitable and unsuitable materials information in "For non-emergency personnel". | | |
| | | China | Page: 5/14 |

Version 9.14

Product name SIGMACOVER 456 BASE BASE Z

Section 6. Accidental release measures

| Environmental precautions | 1 | Avoid dispersal of spilled material and runoff and contact with soil, waterways, |
|----------------------------------|---|---|
| | | drains and sewers. Inform the relevant authorities if the product has caused |
| | | environmental pollution (sewers, waterways, soil or air). Water polluting material. |
| | | May be harmful to the environment if released in large quantities. |

| Methods and materia | Is for containment and cleaning up |
|---------------------|--|
| Small spill | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| Large spill | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

Section 7. Handling and storage

| Precautions for safe handling | - | Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|--|---|---|
| Conditions for safe storage, including any incompatibilities | : | Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

| | | Exposure limits |
|-----------------------------------|---|---|
| xylene isomers mixture | | GBZ 2.1 (China, 11/2022). [Xylene] PC-STEL: 100 mg/m ³ 15 minutes. PC-TWA: 50 mg/m ³ 8 hours. |
| barium sulfate | | GBZ 2.1 (China, 11/2022). PC-TWA: 10 mg/m ³ , (as Ba) 8 hours. |
| Talc , not containing asbesti | form fibres | GBZ 2.1 (China, 11/2022). PC-TWA: 1 mg/m ³ 8 hours. Form: respirable dust PC-TWA: 3 mg/m ³ 8 hours. Form: total dust |
| ethylbenzene | | GBZ 2.1 (China, 11/2022). PC-STEL: 150 mg/m ³ 15 minutes. PC-TWA: 100 mg/m ³ 8 hours. |
| Recommended monitoring procedures | | be made to appropriate monitoring standards. Reference to documents for methods for the determination of hazardous o be required. |
| Appropriate engineering controls | ventilation or other contaminants below also need to keep g | uate ventilation. Use process enclosures, local exhaust engineering controls to keep worker exposure to airborne <i>w</i> any recommended or statutory limits. The engineering controls gas, vapor or dust concentrations below any lower explosive on-proof ventilation equipment. |
| Environmental exposure controls | they comply with th cases, fume scrubl | ntilation or work process equipment should be checked to ensure be requirements of environmental protection legislation. In some bers, filters or engineering modifications to the process necessary to reduce emissions to acceptable levels. |
| ndividual protection measu | ires | |
| Hygiene measures | eating, smoking an Appropriate technic | arms and face thoroughly after handling chemical products, before ad using the lavatory and at the end of the working period. ques should be used to remove potentially contaminated clothing. < clothing should not be allowed out of the workplace. Wash |
| | contaminated cloth | ing before reusing. Ensure that eyewash stations and safety to the workstation location. |
| Eye protection | contaminated cloth | ing before reusing. Ensure that eyewash stations and safety to the workstation location. |
| Eye protection Skin protection | contaminated cloth showers are close | ing before reusing. Ensure that eyewash stations and safety to the workstation location. |
| | contaminated cloth showers are close Chemical splash ge Chemical-resistant be worn at all times this is necessary. O check during use th should be noted that different for different | ing before reusing. Ensure that eyewash stations and safety to the workstation location. |

Section 8. Exposure controls/personal protection

| • | • • |
|------------------------|--|
| Body protection | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear anti-static protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves. |
| Other skin protection | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Respiratory protection | : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. |

Section 9. Physical and chemical properties

| <u>Appearance</u> | |
|--|---|
| Physical state | Liquid. |
| Color | Various |
| Odor | Characteristic. |
| Boiling point | >37.78°C (>100°F) |
| Flash point | Closed cup: 27°C (80.6°F) |
| Lower and upper explosive (flammable) limits | Greatest known range: Lower: 0.8% Upper: 6.7% (xylene) |
| Relative density | |
| Solubility(ies) | Media Result |
| oordonity(ies) | cold water Not soluble |
| Viscosity | Kinematic (room temperature): >400 mm²/s Kinematic (40°C): >21 mm²/s |

| Section 10. Stability and reactivity | | | | |
|--------------------------------------|--|--|--|--|
| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. | | | |
| Chemical stability | : The product is stable. | | | |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. | | | |
| Conditions to avoid | : When exposed to high temperatures may produce hazardous decomposition products. | | | |
| Incompatible materials | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids. | | | |

Product name SIGMACOVER 456 BASE BASE Z

Section 10. Stability and reactivity

Hazardous decomposition products

: Depending on conditions, decomposition products may include the following materials: carbon oxides sulfur oxides halogenated compounds metal oxide/ oxides

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

| Product/ingredient name | Result | Species | Dose | Exposure |
|---------------------------------|-----------------------|---------|-------------|----------|
| xylene isomers mixture | LD50 Dermal | Rabbit | 1.7 g/kg | - |
| - | LD50 Oral | Rat | 4.3 g/kg | - |
| barium sulfate | LD50 Dermal | Rat | >2000 mg/kg | - |
| | LD50 Oral | Rat | >5000 mg/kg | - |
| Epoxy resin (MW ≤ 700) | LD50 Dermal | Rabbit | >2 g/kg | - |
| | LD50 Oral | Rat | >2 g/kg | - |
| ethylbenzene | LC50 Inhalation Vapor | Rat | 17.8 mg/l | 4 hours |
| | LD50 Dermal | Rabbit | 17.8 g/kg | - |
| | LD50 Oral | Rat | 3.5 g/kg | - |
| 2-methoxy-1-methylethyl acetate | LC50 Inhalation Vapor | Rat | 30 mg/l | 4 hours |
| <u>.</u> | LD50 Dermal | Rabbit | >5 g/kg | - |
| | LD50 Oral | Rat | 6190 mg/kg | - |

Irritation/Corrosion

| Product/ingredient name | Result | Species | Score | Exposure | Observation |
|-------------------------|--|------------------|-------|--------------------|-------------|
| xylene isomers mixture | Skin - Moderate irritant | Rabbit | - | 24 hours 500 mg | - |
| Epoxy resin (MW ≤ 700) | Eyes - Mild irritant Skin - Mild irritant | Rabbit Rabbit | - | - - | - - |

Sensitization

| Product/ingredient name | Route of exposure | Species | Result |
|-------------------------|----------------------|---------|-------------|
| Epoxy resin (MW ≤ 700) | skin | Mouse | Sensitizing |

Mutagenicity

Not available.

Carcinogenicity

Not available.

Reproductive toxicity

Not available.

Teratogenicity

Not available.

Specific target organ toxicity (single exposure)

| Name | | Route of exposure | Target organs |
|--|------------|----------------------|------------------------------|
| Talc , not containing asbestiform fibres | Category 3 | - | Respiratory tract irritation |
| 2-methoxy-1-methylethyl acetate | Category 3 | - | Narcotic effects |

| China | Page: 9/14 |
|-------|------------|
| | |

Section 11. Toxicological information

Specific target organ toxicity (repeated exposure)

Product name SIGMACOVER 456 BASE BASE Z

| Name | ••• | Route of exposure | Target organs |

| ethylbenzene | Category 2 | - | - |

Aspiration hazard

| Name | Result |
|--------------|--------------------------------|
| ethylbenzene | ASPIRATION HAZARD - Category 1 |

| Information on the likely routes of exposure | : Not available. |
|--|--|
| Potential acute health effects | <u>></u> |
| Eye contact | : Causes serious eye irritation. |
| Inhalation | : Harmful if inhaled. |
| Skin contact | : May be harmful in contact with skin. Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction. |
| Ingestion | : No known significant effects or critical hazards. |
| Symptoms related to the phy | vsical, chemical and toxicological characteristics |
| Eye contact | : Adverse symptoms may include the following: pain or irritation watering redness |
| Inhalation | : No specific data. |
| Skin contact | : Adverse symptoms may include the following: irritation redness dryness cracking |
| Ingestion | : No specific data. |
| Delayed and immediate effect | ts and also chronic effects from short and long term exposure |
| Short term exposure | |
| Potential immediate effects | : Not available. |
| Potential delayed effects | : Not available. |
| Long term exposure | |
| Potential immediate effects | : Not available. |
| Potential delayed effects | : Not available. |
| Potential chronic health eff | <u>ects</u> |
| General | Prolonged or repeated contact can defat the skin and lead to irritation, cracking and or dermatitis. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels. |
| Carcinogenicity | : Suspected of causing cancer. Risk of cancer depends on duration and level of exposure. |
| | |

Section 11. Toxicological information

Mutagenicity

- : No known significant effects or critical hazards.
- **Reproductive toxicity**
- No known significant effects of childran hazards
- ity : No known significant effects or critical hazards.

Numerical measures of toxicity

Other information

Prolonged or repeated contact may dry skin and cause irritation. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing.

: No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
