# **SAFETY DATA SHEET**

#### The information in this Safety Data Sheet is required pursuant to Hazardous Product Regulations 2015.

Date of issue/Date of revision6 September 2024Version 9.02

| Section 1. Identification        |   |  |
|----------------------------------|---|--|
| Product name                     | : PSX 700 BASE RAL 9005   |  |
| Product code                     | : 00290887  |  |
| Other means of<br>identification | : Not available.  |  |
| Product type                     | : Liquid.   |  |
| Relevant identified uses of      | f the substance or mixture and uses advised against   |  |
| Product use                      | : Professional applications, Used by spraying.  |  |
| Use of the substance/<br>mixture | : Coating.  |  |
| Uses advised against             | : Not applicable.   |  |
| Supplier                         | <ul> <li>PPG Architectural Coatings Canada, Inc.<br/>1550, rue Ampère, bureau 500<br/>Boucherville (Québec) J4B 7L4<br/>Canada<br/>+1 450-655-3121</li> </ul>   |  |
|                                  | PPG Industries, Inc.<br>One PPG Place<br>Pittsburgh, PA 15272   |  |
| Emergency telephone<br>number    | : (412) 434-4515 (U.S.)<br>(514) 645-1320 (Canada)<br>SETIQ Interior de la República: 800-00-214-00 (México)<br>SETIQ Ciudad de México: (55) 5559-1588 (México) |  |
| Technical Phone Number           | : 888-977-4762  |  |

## Section 2. Hazard identification

|  |  | Canada | Page: 1/14 |
|--|--|--------|------------|
| Signal word                                | : Warning  |        |            |
| GHS label elements<br>Hazard pictograms    |  |        |            |
| Classification of the substance or mixture | : FLAMMABLE LIQUIDS - Category 4<br>EYE IRRITATION - Category 2A<br>SKIN SENSITIZATION - Category 1B<br>CARCINOGENICITY - Category 2<br>TOXIC TO REPRODUCTION - Category 2 |        |            |

Product name PSX 700 BASE RAL 9005

## Section 2. Hazard identification

| Hazard statements                                   | : | Combustible liquid.<br>May cause an allergic skin reaction.<br>Causes serious eye irritation.<br>Suspected of causing cancer.<br>Suspected of damaging fertility or the unborn child.   |
|---|---|---|
| Precautionary statements                            |   |   |
| Prevention  | : | Obtain special instructions before use. Do not handle until all safety precautions<br>have been read and understood. Wear protective gloves, protective clothing and<br>eye or face protection. Keep away from heat, hot surfaces, sparks, open flames<br>and other ignition sources. No smoking. Avoid breathing vapor. Wash thoroughly<br>after handling. Contaminated work clothing should not be allowed out of the<br>workplace. |
| Response  | : | IF exposed or concerned: Get medical advice or attention. Take off contaminated clothing and wash it before reuse. IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.           |
| Storage   | : | Store locked up.  |
| Disposal  | : | Dispose of contents and container in accordance with all local, regional, national and international regulations.   |
| Supplemental label<br>elements                      | : | Trimethoxysilanes are capable of forming methanol if hydrolyzed or ingested. If<br>swallowed, methanol may be harmful or fatal or cause blindness. Emits toxic fumes<br>when heated.<br>Percentage of the mixture consisting of ingredient(s) of unknown acute toxicity:<br>91.6% (oral), 95.4% (dermal), 83.1% (inhalation)  |
| Other hazards which do not result in classification | : | None known.   |

## Section 3. Composition/information on ingredients

| Substance/mixture             | : Mixture               |
|-------------------------------|-------------------------|
| Product name                  | : PSX 700 BASE RAL 9005 |
| Other means of identification | : Not available.        |

#### **CAS number/other identifiers**

| Ingredient name  | Synonyms  | % (w/w) | CAS n  | umber      |
|--|---|---------|--------|------------|
| 4'-Isopropylidenedicyclohexanol,<br>oligomeric reaction products with<br>1-chloro-2,3-epoxypropane | Cyclohexanol, 4,4'-(1-methylethylidene)<br>bis-, polymer with 2-(chloromethyl)oxirane;<br>Cyclohexanol, 4,4'-(1-methylethylidene)<br>bis-, polymer with (chloromethyl)oxirane;<br>2,2-Bis(4-hydroxycyclohexyl)propane,<br>epichlorohydrin polymer; Cyclohexanol,<br>4,4'-(1-methylethylidene)bis-, polymer<br>with epichlorohydrin; 4,4'-<br>(1-Methylethylidene)biscyclohexanol,<br>polymer with (chloromethyl)oxirane; 4,4'-<br>(1-Methylethylidene)biscyclohexanol<br>polymer with (chloromethyl)oxirane;<br>POLYMER, CYCLOHEXANOL, 4,4'-<br>(1-METHYLETHYLIDENE) BIS WITH<br>(CHLOROMETHYL)OXIRANE; | 15 - 40 | 30583- | 72-3       |
|  |   |         | Canada | Page: 2/14 |

Product name PSX 700 BASE RAL 9005

## Section 3. Composition/information on ingredients

|   |   | Car      | ada Page: 3/14 |
|---|---|----------|----------------|
| methyl 1,2,2,6,6-pentamethyl-<br>4-piperidyl sebacate                             | Decanedioic acid, 1-methyl 10-<br>(1,2,2,6,6-pentamethyl-4-piperidinyl) ester;<br>Decanedioic acid, methyl<br>1,2,2,6,6-pentamethyl-4-piperidinyl ester;<br>methyl 1,2,2,6,6-pentamethylpiperidin-4-yl<br>decanedioate; methyl<br>1,2,2,6,6-pentamethylpiperidin-4-yl<br>sebacate; Decanedioic acid methyl  | 0.1 - 1* | 82919-37-7     |
| Poly(oxy-1,2-ethanediyl), α-<br>(nonylphenyl)-ω-hydroxy-, branched,<br>phosphates | Poly(oxy-1,2-ethanediyl), .alpha<br>(nonylphenyl)omegahydroxy-,<br>branched, phosphates; (C9) Branched<br>alkylphenol, ethoxylate, phosphorate; Poly<br>(oxy-1,2-ethanediyl), alpha-(nonylphenyl)-<br>omega-hydroxy-, branched, phosphates;<br>α-Nonylphenol-ω-hydroxy-poly(oxy-<br>1,2-ethanediyl), branched phosphates;<br>POLY(OXY-1,2-ETHANEDIYL), .alpha<br>(NONYLPHENYL) .omegaHYDROXY-,<br>BRANCHED, PHOSPHATES;<br>POLYOXYETHYLENE NONYLPHENOL<br>BRANCHED ETHER PHOSPHATE  | 1 - 5*   | 68412-53-3     |
| bis(1,2,2,6,6-pentamethyl-4-piperidyl)<br>sebacate                                | Decanedioic acid, 1,10-bis<br>(1,2,2,6,6-pentamethyl-4-piperidinyl) ester;<br>Decanedioic acid, bis<br>(1,2,2,6,6-pentamethyl-4-piperidinyl) ester;<br>bis(1,2,2,6,6-pentamethylpiperidin-4-yl)<br>decanedioate; Bis(1,2,2,6,6-pentamethyl-<br>4-piperidinyl) decanedioate; Bis<br>(1,2,2,6,6-pentamethyl-4-piperidyl)<br>decanedioate; Decanedioic acid bis<br>(1,2,2,6,6-pentamethyl-4-piperidinyl) ester;<br>DECANEDIOATE, BIS<br>(1,2,2,6,6-PENTAMETHYL-4-<br>PIPERIDINYL) (PICCS); Bis(N-methyl-<br>2,2,6,6-tetramethyl-4-piperidinyl)<br>sebacate; Bis(1,2,2,6,6-pentamethyl-<br>4-piperidyl) 1,8-octanedicarboxylate; Bis<br>(1,2,2,6,6-pentamethyl-4-piperidinyl)<br>sebacate; DECANEDIOATE, BIS<br>(1,2,2,6,6-PENTAMETHYL-4-<br>PIPERIDINYL) |          | 41556-26-7     |
| carbon black  | Lampblack; Acetylene black; C.I. 77266;<br>C.I. Pigment Black 6; C.I. Pigment Black<br>7; Charcoal  | 1 - 5*   | 1333-86-4      |
| Wollastonite  | Calcium silicate; calcium silicate, naturally<br>occurring as wollastonite; Wollastonite (Ca<br>(SiO3)); Fibres-Natural Mineral Fibres,<br>Wollastonite; Aedelforsite; CALCIUM<br>METASILICATES; wollastonite dust;<br>wollastonie; calcium,dioxido(oxo)silane  | 7 - 13*  | 13983-17-0     |
| -   | Cyclohexanol, 4,4'-(1-methylethylidene)<br>bis-, polymer with 2-(chloromethyl)oxirane   |          |                |

Product name PSX 700 BASE RAL 9005

## Section 3. Composition/information on ingredients

| 1,2,2,6,6-pentamethyl-4-piper<br>Methyl 1,2,2,6,6-pentamethyl-<br>sebacate; Methyl 1,2,2,6,6-pe<br>4-piperidinyl sebacate; DECA<br>METHYL, 1,2,2,6,6-PENTAM<br>4-PIPERIDINYL; Methyl<br>1,2,2,6,6-pentamethyl-4-piper<br>sebacate |
|---|
|---|

\*Ranges if listed above for hazardous ingredient(s) are prescribed ranges. The actual concentration(s) or actual concentration range(s) are being withheld as a trade secret.

SUB codes represent substances without registered CAS Numbers.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First-aid measures

If ingestion, irritation, any type of overexposure or symptoms of overexposure occur during or persists after use of this product, contact a POISON CONTROL CENTER, EMERGENCY ROOM OR PHYSICIAN immediately; have Safety Data Sheet information available. Never give anything by mouth to an unconscious or convulsing person.

#### Description of necessary first aid measures

| Eye contact  | <ul> <li>Remove contact lenses, irrigate copiously with clean, fresh water, holding the<br/>eyelids apart for at least 10 minutes and seek immediate medical advice.</li> </ul>                  |
|--------------|--|
| Inhalation   | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |
| Skin contact | <ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and<br/>water or use recognized skin cleanser. Do NOT use solvents or thinners.</li> </ul>                       |
| Ingestion    | : If swallowed, seek medical advice immediately and show this container or label.<br>Keep person warm and at rest. Do NOT induce vomiting.   |

#### Most important symptoms/effects, acute and delayed

| Potential acute health effects |   |
|--------------------------------|---|
| Eye contact :                  | Causes serious eye irritation.  |
| Inhalation :                   | No known significant effects or critical hazards.   |
| Skin contact :                 | May cause an allergic skin reaction.  |
| Ingestion :                    | No known significant effects or critical hazards.   |
| Over-exposure signs/symptor    | <u>ns</u>   |
| Eye contact :                  | Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness                                  |
| Inhalation :                   | Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations |

#### Product name PSX 700 BASE RAL 9005

## Section 4. First-aid measures

| Skin contact               | : Adverse symptoms may include the following:<br>irritation<br>redness<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations  |
|----------------------------|---|
| Ingestion                  | : Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations   |
| indication of immediate me | dical attention and special treatment needed, if necessary  |
| Notes to physician         | : In case of inhalation of decomposition products in a fire, symptoms may be delayed.<br>The exposed person may need to be kept under medical surveillance for 48 hours.  |
| Specific treatments        | : No specific treatment.  |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |
|                            |   |

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

| Extinguishing media                            |  |
|--|--|
| Suitable extinguishing media                   | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.   |
| Unsuitable extinguishing media                 | : Do not use water jet.  |
| Specific hazards arising from the chemical     | : Combustible liquid. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion.  |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon oxides<br>nitrogen oxides<br>halogenated compounds<br>metal oxide/oxides   |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.  |

Product name PSX 700 BASE RAL 9005

#### Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

| For non-emergency<br>personnel | :         | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Shut off all ignition sources.<br>No flares, smoking or flames in hazard area. Avoid breathing vapor or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment. |
|--------------------------------|-----------|---|
| For emergency responders       | :         | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| Environmental precautions      | :         | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).   |
| Methods and materials for co   | <u>nt</u> | ainment and cleaning up   |
| Small spill                    | :         | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.  |

# Large spill : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

#### Precautions for safe handling

**Protective measures** 

Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Empty containers retain product residue and can be hazardous. Do not reuse container.

Product name PSX 700 BASE RAL 9005

## Section 7. Handling and storage

| Special precautions  | - | Vapors may accumulate in low or confined areas or travel a considerable distance to<br>a source of ignition and flash back. Vapors are heavier than air and may spread<br>along floors. If this material is part of a multiple component system, read the Safety<br>Data Sheet(s) for the other component or components before blending as the<br>resulting mixture may have the hazards of all of its parts.   |
|--|---|---|
| Advice on general  | ; | Wash hands thoroughly after handling.   |
| occupational hygiene   |   | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |
| Conditions for safe storage,<br>including any<br>incompatibilities | : | Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. |

## Section 8. Exposure controls/personal protection

#### **Control parameters**

| Ingredient name  | Exposure limits                                     |
|--|---|
| 4,4'-Isopropylidenedicyclohexanol, oligomeric reaction products with 1-chloro-2,3-epoxypropane | None.   |
| Wollastonite   | CA British Columbia Provincial (Canada, 8/2023).    |
|  | TWA: 1 mg/m <sup>3</sup> 8 hours. Form: Inhalable   |
|  | CA Ontario Provincial (Canada, 6/2019).             |
|  | TWA: 1 mg/m <sup>3</sup> 8 hours. Form: Inhalable   |
|  | particulate matter.                                 |
|  | CA Quebec Provincial (Canada, 7/2023).              |
|  | [Wollastonite]                                      |
|  | TWAEV: 5 mg/m <sup>3</sup> 8 hours. Form:           |
|  | Respirable dust.                                    |
|  | TWAEV: 10 mg/m <sup>3</sup> 8 hours. Form: Total    |
|  | dust.   |
| carbon black   | CA British Columbia Provincial (Canada, 8/2023).    |
|  | TWA: 3 mg/m <sup>3</sup> 8 hours. Form: Inhalable   |
|  | CA Ontario Provincial (Canada, 6/2019).             |
|  | TWA: 3 mg/m <sup>3</sup> 8 hours. Form: Inhalable   |
|  | particulate matter.                                 |
|  | CA Quebec Provincial (Canada, 7/2023).              |
|  | TWAEV: 3 mg/m <sup>3</sup> 8 hours. Form: inhalable |
|  | dust  |
|  | CA Alberta Provincial (Canada, 3/2023).             |
|  | OEL: 3.5 mg/m <sup>3</sup> 8 hours.                 |
|  | CA Saskatchewan Provincial (Canada,                 |
|  | Canada Page: 7/                                     |

Product name PSX 700 BASE RAL 9005

## Section 8. Exposure controls/personal protection

|   | <b>7/2013).</b><br>STEL: 7 mg/m³ 15 minutes.<br>TWA: 3.5 mg/m³ 8 hours. |  |
|---|---|--|
| bis(1,2,2,6,6-pentamethyl-4-piperidyl) sebacate   | None.   |  |
| Poly(oxy-1,2-ethanediyl), $\alpha$ -(nonylphenyl)- $\omega$ -hydroxy-, branched, phosphates | None.   |  |
| methyl 1,2,2,6,6-pentamethyl-4-piperidyl sebacate   | None.   |  |

#### Consult local authorities for acceptable exposure limits.

| Recommended monitoring procedures   | :         | Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.   |
|-------------------------------------|-----------|---|
| Appropriate engineering<br>controls | :         | Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.   |
| Environmental exposure controls     | :         | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels.   |
| Individual protection measur        | <u>es</u> |   |
| Hygiene measures                    | :         | Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Contaminated work clothing should not be allowed out of the workplace. Wash<br>contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location.   |
| Eye/face protection                 | :         | Chemical splash goggles.  |
| Skin protection                     |           |   |
| Hand protection                     | :         | Chemical-resistant, impervious gloves complying with an approved standard should<br>be worn at all times when handling chemical products if a risk assessment indicates<br>this is necessary. Considering the parameters specified by the glove manufacturer,<br>check during use that the gloves are still retaining their protective properties. It<br>should be noted that the time to breakthrough for any glove material may be<br>different for different glove manufacturers. In the case of mixtures, consisting of<br>several substances, the protection time of the gloves cannot be accurately<br>estimated. |
| Gloves                              | 1         | butyl rubber  |
| Body protection                     |           | Personal protective equipment for the body should be selected based on the task<br>being performed and the risks involved and should be approved by a specialist<br>before handling this product.   |
| Other skin protection               | 1         | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |
| Respiratory protection              | :         | Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.  |
|                                     |           | Canada Page: 8/14   |

Product name PSX 700 BASE RAL 9005

## **Section 9. Physical and chemical properties**

#### **Appearance**

## Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredien  | ts.     |
|------------------------------------|--|---------|
| Chemical stability                 | : The product is stable.   |         |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.  |         |
| Conditions to avoid                | : When exposed to high temperatures may produce hazardous decomposition products.<br>Refer to protective measures listed in sections 7 and 8.          |         |
| Incompatible materials             | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.                       |         |
| Hazardous decomposition products   | : Depending on conditions, decomposition products may include the following mat carbon oxides nitrogen oxides halogenated compounds metal oxide/oxides | erials: |

Product name PSX 700 BASE RAL 9005

Carcinogen Classification code:

IARC: 1, 2A, 2B, 3, 4 NTP: Known to be a human carcinogen; Reasonably anticipated to be a human carcinogen OSHA: + Not listed/not regulated: -

#### Reproductive toxicity

**Conclusion/Summary** : There are no data available on the mixture itself.

#### **Teratogenicity**

**Conclusion/Summary** : There are no data available on the mixture itself.

Specific target organ toxicity (single exposure)

Not available.

#### Specific target organ toxicity (repeated exposure)

Not available.

<u>Target organs</u> : Contains material which causes damage to the following organs: upper respiratory tract, skin, eyes. Contains material which may cause damage to the following organs: lungs.

#### Aspiration hazard

Product name PSX 700 BASE RAL 9005

## Section 11. Toxicological information

Not available.

#### Information on the likely routes of exposure

| Potential acute health effects |   |   |
|--------------------------------|---|---|
| Eye contact                    | : | Causes serious eye irritation.                    |
| Inhalation                     | : | No known significant effects or critical hazards. |
| Skin contact                   | : | May cause an allergic skin reaction.              |
| Ingestion                      | : | No known significant effects or critical hazards. |
|                                |   |   |

#### **Over-exposure signs/symptoms**

| Eye contact  | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness   |
|--------------|--|
| Inhalation   | : Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations                          |
| Skin contact | : Adverse symptoms may include the following:<br>irritation<br>redness<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations |
| Ingestion    | : Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations                          |

#### Delayed and immediate effects and also chronic effects from short and long term exposure

| Delayed and initiate circe     | 13  | and also emotic effects from short and long term exposure  |
|--------------------------------|-----|--|
| Conclusion/Summary             | :   | There are no data available on the mixture itself. Trimethoxysilanes are capable of forming methanol if hydrolyzed or ingested. If swallowed, methanol may be harmful or fatal or cause blindness. If splashed in the eyes, the liquid may cause irritation and reversible damage. Ingestion may cause nausea, diarrhea and vomiting. This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact. |
| <u>Short term exposure</u>     |     |  |
| Potential immediate<br>effects | :   | There are no data available on the mixture itself.   |
| Potential delayed effects      | :   | There are no data available on the mixture itself.   |
| <u>Long term exposure</u>      |     |  |
| Potential immediate<br>effects | :   | There are no data available on the mixture itself.   |
| Potential delayed effects      | :   | There are no data available on the mixture itself.   |
| Potential chronic health effe  | ect | 2  |
| General                        | :   | Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.  |

#### Product name PSX 700 BASE RAL 9005

## Section 11. Toxicological information

| Carcinogenicity       | : Suspected of causing cancer. Risk of cancer depends on duration and level of exposure. |
|-----------------------|--|
| Mutagenicity          | : No known significant effects or critical hazards.                                      |
| Reproductive toxicity | : Suspected of damaging fertility or the unborn child.                                   |

Soil/water partition coefficient (Koc)

: Not available.

## Section 13. Disposal considerations

| Disposal methods : | The generation of waste should be avoided or minimized wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation<br>and any regional local authority requirements. Dispose of surplus and non-<br>recyclable products via a licensed waste disposal contractor. Waste should not be<br>disposed of untreated to the sewer unless fully compliant with the requirements of<br>all authorities with jurisdiction. Waste packaging should be recycled. Incineration or<br>landfill should only be considered when recycling is not feasible. This material and<br>its container must be disposed of in a safe way. Care should be taken when<br>handling emptied containers that have not been cleaned or rinsed out. Empty<br>containers or liners may retain some product residues. Vapor from product residues |
|--------------------|---|

Canada Page: 12/14

Product name PSX 700 BASE RAL 9005

## Section 13. Disposal considerations

may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures

## Section 14. Transport information

#### **Additional information**

**TDG** : None identified.

IMDG : None identified.

IATA : None identified.

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments

## Section 15. Regulatory information

#### National Inventory List

Canada inventory (DSL)

: All components are listed or exempted.

## Section 16. Other information

```
Hazardous Material Information System (U.S.A.)Health:3*Flammability:2Physical hazards:1
```

(\*) - Chronic effects

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on MSDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

Canada Page: 13/14

Product name PSX 700 BASE RAL 9005

## Section 16. Other information

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.

National Fire Protection Association (U.S.A.)
