SAFETY DATA SHEET

Date of issue/Date of revision25 September 2024Version 10

| Section 1. Identification | |
|--|---|
| Product name | : PSX 700 NEUTRAL TINT RESIN USA |
| Product code | : 19A199410 |
| Other means of identification | : Not available. |
| Product type | : Liquid. |
| Relevant identified uses of | the substance or mixture and uses advised against |
| Product use | : Consumer applications. |
| Use of the substance/ mixture | : Coating. |
| Uses advised against | : Not applicable. |
| Manufacturer | : Comercial Mexicana de Pinturas S.A. de C.V. Marcos Achar Lobatón, No. 6 Tepexpan, Acolman, Estado de México CP. 55885 Tel. (55)1669-1400 (México) |
| Emergency telephone number | : Mexico: 01-800-00-214-00, (+)(52(55) 5559-1588 |
| Customer Service / Technical Phone Number | : 800 7126-639 (México) |

Section 2. Hazards identification

| OSHA/HCS status | This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). |
|--|--|
| Classification of the substance or mixture | : EYE IRRITATION - Category 2A SKIN SENSITIZATION - Category 1 CARCINOGENICITY - Category 1A TOXIC TO REPRODUCTION - Category 2 |
| | Percentage of the mixture consisting of ingredient(s) of unknown acute toxicity: 92.7% (oral), 94.7% (dermal), 73.6% (inhalation) |
| GHS label elements | |
| Hazard pictograms | |
| Signal word | : Danger |

Product name PSX 700 NEUTRAL TINT RESIN USA

Section 2. Hazards identification

| Hazard statements | : May cause an allergic skin reaction. Causes serious eye irritation. May cause cancer. Suspected of damaging fertility or the unborn child. |
|-------------------------------------|---|
| Precautionary statements | |
| Prevention | : Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing and eye or face protection. Avoid breathing vapor. Wash thoroughly after handling. |
| Response | : IF exposed or concerned: Get medical advice or attention. Wash contaminated clothing before reuse. IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. |
| Storage | : Store locked up. |
| Disposal | : Dispose of contents and container in accordance with all local, regional, national and international regulations. |
| Supplemental label elements | : Sanding and grinding dusts may be harmful if inhaled. This product contains crystalline silica which can cause lung cancer or silicosis. The risk of cancer depends on the duration and level of exposure to dust from sanding surfaces or mist from spray applications. Trimethoxysilanes are capable of forming methanol if hydrolyzed or ingested. If swallowed, methanol may be harmful or fatal or cause blindness. Emits toxic fumes when heated. |
| Hazards not otherwise classified | : None known. |

Section 3. Composition/information on ingredients

| Substance/mixture | 4 | Mixture |
|-------------------|---|--------------------------------|
| Product name | 4 | PSX 700 NEUTRAL TINT RESIN USA |

| Ingredient name | % | CAS number |
|--|--------------|------------|
| | ≥20 - ≤50 | 30583-72-3 |
| Wollastonite | ≥20 - ≤50 | 13983-17-0 |
| bis(1,2,2,6,6-pentamethyl-4-piperidyl) sebacate | ≥0.10 - ≤2.5 | 41556-26-7 |
| Poly(oxy-1,2-ethanediyl), α-(nonylphenyl)-ω-hydroxy-, branched, phosphates | ≥1.0 - <3.0 | 68412-53-3 |
| crystalline silica, respirable powder (<10 microns) | <1.0 | 14808-60-7 |
| methyl 1,2,2,6,6-pentamethyl-4-piperidyl sebacate | <1.0 | 82919-37-7 |

SUB codes represent substances without registered CAS Numbers.

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Product name PSX 700 NEUTRAL TINT RESIN USA

Section 4. First aid measures

If ingestion, irritation, any type of overexposure or symptoms of overexposure occur during or persists after use of this product, contact a POISON CONTROL CENTER, EMERGENCY ROOM OR PHYSICIAN immediately; have Safety Data Sheet information available. Never give anything by mouth to an unconscious or convulsing person. **Description of necessary first aid measures**

| Eye contact | : Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice. |
|--------------|--|
| Inhalation | Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |
| Skin contact | Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners. |
| Ingestion | : If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting. |

Most important symptoms/effects, acute and delayed

| Potential acute health effe | <u>cts</u> |
|-----------------------------|--|
| Eye contact | : Causes serious eye irritation. |
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : May cause an allergic skin reaction. |
| Ingestion | : No known significant effects or critical hazards. |
| Over-exposure signs/symp | <u>otoms</u> |
| Eye contact | : Adverse symptoms may include the following: pain or irritation watering redness |
| Inhalation | : Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations |
| Skin contact | : Adverse symptoms may include the following: irritation redness reduced fetal weight increase in fetal deaths skeletal malformations |
| Ingestion | : Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations |
| Indication of immediate med | dical attention and special treatment needed, if necessary |
| Notes to physician | : In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours. |
| Specific treatments | : No specific treatment. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. If it is |

ection of first-aiders
 No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

United States

Page: 3/14

Product name PSX 700 NEUTRAL TINT RESIN USA

Section 4. First aid measures

See toxicological information (Section 11)

Section 5. Fire-fighting measures

| Extinguishing media | |
|--|---|
| Suitable extinguishing media | : Use an extinguishing agent suitable for the surrounding fire. |
| Unsuitable extinguishing media | : None known. |
| Specific hazards arising from the chemical | : In a fire or if heated, a pressure increase will occur and the container may burst. Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. |
| Hazardous thermal decomposition products | : Decomposition products may include the following materials: carbon oxides nitrogen oxides halogenated compounds metal oxide/oxides |
| Special protective actions for fire-fighters | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

Section 6. Accidental release measures

disposal contractor.

| Personal precautions, protec | tive equipment and emergency procedures |
|--------------------------------|--|
| For non-emergency personnel | : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. |
| For emergency responders | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| Environmental precautions | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| Methods and materials for co | ntainment and cleaning up |
| Small spill | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste |

Product name PSX 700 NEUTRAL TINT RESIN USA

Section 6. Accidental release measures

Large spill

: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling

| Protective measures | histo this (expo and brea use (conta close | on appropriate personal protective equipment (see Section 8). Persons with a bry of skin sensitization problems should not be employed in any process in which product is used. Avoid exposure - obtain special instructions before use. Avoid osure during pregnancy. Do not handle until all safety precautions have been read understood. Do not get in eyes or on skin or clothing. Do not ingest. Avoid thing vapor or mist. If during normal use the material presents a respiratory hazard, only with adequate ventilation or wear appropriate respirator. Keep in the original ainer or an approved alternative made from a compatible material, kept tightly ed when not in use. Empty containers retain product residue and can be hazardous. not reuse container. |
|--|---|---|
| Special precautions | sour floor Shee | ors may accumulate in low or confined areas or travel a considerable distance to a ce of ignition and flash back. Vapors are heavier than air and may spread along s. If this material is part of a multiple component system, read the Safety Data et(s) for the other component or components before blending as the resulting ure may have the hazards of all of its parts. |
| Advice on general occupational hygiene | hanc drink ente | ng, drinking and smoking should be prohibited in areas where this material is lled, stored and processed. Workers should wash hands and face before eating, king and smoking. Remove contaminated clothing and protective equipment before ring eating areas. See also Section 8 for additional information on hygiene sures. |
| Conditions for safe storage, including any incompatibilities | local and and Cont prev | tot store above the following temperature: 50°C (122°F). Store in accordance with regulations. Store in original container protected from direct sunlight in a dry, cool well-ventilated area, away from incompatible materials (see Section 10) and food drink. Store locked up. Keep container tightly closed and sealed until ready for use. tainers that have been opened must be carefully resealed and kept upright to ent leakage. Do not store in unlabeled containers. Use appropriate containment to d environmental contamination |

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

Date of issue 25 September 2024Version 10

Product name PSX 700 NEUTRAL TINT RESIN USA

Section 8. Exposure controls/personal protection

| Ingredient name | Exposure limits |
|--|---|
| 4,4'-Isopropylidenedicyclohexanol, oligomeric reaction products with 1-chloro-2,3-epoxypropane | None. |
| Wollastonite | ACGIH TLV (United States, 7/2023). TWA: 1 mg/m ³ 8 hours. Form: Inhalable |
| | fraction |
| bis(1,2,2,6,6-pentamethyl-4-piperidyl) sebacate | None. |
| Poly(oxy-1,2-ethanediyl), α-(nonylphenyl)-ω-hydroxy-, branched, phosphates | None. |
| crystalline silica, respirable powder (<10 microns) | ACGIH TLV (United States, 7/2023). [Silica, |
| | crystalline] |
| | TWA: 0.025 mg/m ³ 8 hours. Form: |
| | Respirable |
| | OSHA PEL Z3 (United States, 6/2016). |
| | TWA: 10 mg/m ³ / (%SiO ₂ +2) 8 hours. Form |
| | Respirable |
| | TWA: 250 mppcf / (%SiO ₂ +5) 8 hours. Forn |
| | Respirable |
| | OSHA PEL (United States, 5/2018). [Silica, |
| | crystalline] |
| | TWA: 50 µg/m³ 8 hours. Form: Respirable dust |
| methyl 1,2,2,6,6-pentamethyl-4-piperidyl sebacate | None. |
| | |
| A = Acceptable Maximum Peak | S = Potential skin absorption |

| C = Ceiling Limit | SS = Skin sensitization |
| F = Fume PEL = Internal Permissible Exposure Limit | STEL = Short term Exposure limit values TD = Total dust |
| DSHA = Occupational Safety and Health Administration. | TLV = Threshold Limit Value |
| R = Respirable | TWA = Time Weighted Average |
| Z = OSHA 29 CFR 1910.1200 Subpart Z - Toxic and Hazardous Substances | |
| onsult local authorities for acceptable exposure limits. | |
| Reference should be made to appropri guidance documents for methods for t also be required. | iate monitoring standards. Reference to national he determination of hazardous substances will |
| | s, gas, vapor or mist, use process enclosures, |
| | eering controls to keep worker exposure to |
| airborne contaminants below any reconvironmental exposure : Emissions from ventilation or work pro | cess equipment should be checked to ensure |
| ntrols they comply with the requirements of e | ervironmental protection legislation. In some eering modifications to the process equipment |

Individual protection measures

Product name PSX 700 NEUTRAL TINT RESIN USA

Section 8. Exposure controls/personal protection

| Hygiene measures | : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
|------------------------|--|
| Eye/face protection | : Chemical splash goggles. |
| Skin protection | |
| Hand protection | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. |
| Gloves | : butyl rubber |
| Body protection | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Other skin protection | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Respiratory protection | : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. The respiratory protection shall be in accordance to 29 CFR 1910.134. |

Section 9. Physical and chemical properties

| <u>Appearance</u> | |
|---------------------------|------------------------------|
| Physical state | : Liquid. |
| Color | : Not available. |
| Odor | : Not available. |
| Odor threshold | : Not available. |
| рН | : Not applicable. |
| Melting point | : Not available. |
| Boiling point | : >37.78°C (>100°F) |
| Flash point | : Closed cup: 97.2°C (207°F) |
| Auto-ignition temperature | : Not available. |
| Decomposition temperature | : Not available. |
| Flammability | : Not available. |
| Lower and upper explosive | : Not available. |
| (flammable) limits | |
| Evaporation rate | : Not available. |
| Vapor pressure | : Not available. |

Product name PSX 700 NEUTRAL TINT RESIN USA

Section 9. Physical and chemical properties

| Vapor density | : Not available. | | |
|--|----------------------|-----------------------------|--|
| Relative density | : 1.29 | | |
| Density (lbs / gal) | : 10.77 | | |
| | Media | Result | |
| Solubility(ies) | cold water | Not soluble | |
| Partition coefficient: n- octanol/water | : Not applicable. | | |
| Viscosity | : Kinematic (40°C (1 | 04°F)): >21 mm²/s (>21 cSt) | |
| Volatility | : 4% (v/v), 3.11% (w | /w) | |
| % Solid. (w/w) | : 99.43 | | |

Section 10. Stability and reactivity

| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. |
|------------------------------------|---|
| Chemical stability | : The product is stable. |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. |
| Conditions to avoid | : When exposed to high temperatures may produce hazardous decomposition products. Refer to protective measures listed in sections 7 and 8. |
| Incompatible materials | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids. |
| Hazardous decomposition products | : Depending on conditions, decomposition products may include the following materials: carbon oxides nitrogen oxides halogenated compounds metal oxide/oxides |

|--|------|--------|--------------------------------------|
| ₩ollastonite crystalline silica, respirable powder (<10 microns) | -+ | 3 1 | - Known to be a human carcinogen. |

Carcinogen Classification code:

IARC: 1, 2A, 2B, 3, 4 NTP: Known to be a human carcinogen; Reasonably anticipated to be a human carcinogen OSHA: + Not listed/not regulated: -

Reproductive toxicity

| Conclusion/Summary | : There are no data available on the mixture itself. |
|--------------------|--|
|--------------------|--|

Teratogenicity

Conclusion/Summary : There are no data available on the mixture itself.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure)

| Name | | Route of exposure | Target organs |
|---|------------|----------------------|---------------|
| crystalline silica, respirable powder (<10 microns) | Category 1 | inhalation | - |

Target organs

: Contains material which causes damage to the following organs: upper respiratory tract, skin, eyes.

Contains material which may cause damage to the following organs: lungs.

Aspiration hazard

Not available.

Information on the likely routes of exposure

Potential acute health effects

| Eye contact | : Causes serious eye irritation. |
|----------------------------|---|
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : May cause an allergic skin reaction. |
| Ingestion | : No known significant effects or critical hazards. |
| Over-exposure signs | <u>/symptoms</u> |

Product name PSX 700 NEUTRAL TINT RESIN USA

Section 11. Toxicological information

| Eye contact | 1 | Adverse symptoms may include the following: |
|------------------------------|--------------|--|
| | | pain or irritation watering |
| | | redness |
| Inhalation | | Adverse symptoms may include the following: |
| | | reduced fetal weight |
| | | increase in fetal deaths |
| | | skeletal malformations |
| Skin contact | 1 | Adverse symptoms may include the following: |
| | | irritation |
| | | redness reduced fetal weight |
| | | increase in fetal deaths |
| | | skeletal malformations |
| Ingestion | : | Adverse symptoms may include the following: |
| - | | reduced fetal weight |
| | | increase in fetal deaths |
| Deleved and immediate offer | | skeletal malformations |
| | | and also chronic effects from short and long term exposure |
| Conclusion/Summary | 1 | There are no data available on the mixture itself. Trimethoxysilanes are capable of |
| | | forming methanol if hydrolyzed or ingested. If swallowed, methanol may be harmful or fatal or cause blindness. This product contains crystalline silica which can cause lung |
| | | cancer or silicosis. The risk of cancer depends on the duration and level of exposure to |
| | | dust from sanding surfaces or mist from spray applications. If splashed in the eyes, the |
| | | liquid may cause irritation and reversible damage. Ingestion may cause nausea, |
| | | diarrhea and vomiting. This takes into account, where known, delayed and immediate |
| | | effects and also chronic effects of components from short-term and long-term exposure |
| | | by oral, inhalation and dermal routes of exposure and eye contact. |
| Short term exposure | | - |
| Potential immediate | 1 | There are no data available on the mixture itself. |
| effects | | There are no data available on the mixture itself |
| Potential delayed effects | | There are no data available on the mixture itself. |
| Long term exposure | | |
| Potential immediate | 1 | There are no data available on the mixture itself. |
| effects | | |
| Potential delayed effects | | There are no data available on the mixture itself. |
| Potential chronic health eff | ect | |
| General | : | Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels. |
| Carcinogenicity | 1 | May cause cancer. Risk of cancer depends on duration and level of exposure. |
| Mutagenicity | 1 | No known significant effects or critical hazards. |
| Reproductive toxicity | 1 | Suspected of damaging fertility or the unborn child. |
| Numerical measures of toxic | <u>ity</u> : | |
| Acute toxicity estimates | | |
| | | |

Section 13. Disposal considerations

Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures

(*) - Chronic effects

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on MSDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.

National Fire Protection Association (U.S.A.)
