# **SAFETY DATA SHEET**

### Conforms to Official Mexican Standard NOM-018-STPS-2015

Date of revision 22 October 2024

Version 3

Date of issue 22 October 2024

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

| Product name                                | : 2550 WB URETHANE GLOSS CATALYST - B   |
|---|---|
| Product code                                | : 00462416  |
| Other means of<br>identification            | : Not applicable.   |
| Product type                                | : Liquid.   |
| Relevant identified uses o                  | f the substance or mixture and uses advised against   |
| Product use                                 | : Industrial applications, Professional applications, Used by spraying.   |
| Use of the substance/<br>mixture            | : Hardener.   |
| Uses advised against                        | : Not applicable.   |
| Manufacturer                                | : PPG Industries, Inc.<br>One PPG Place<br>Pittsburgh, PA 15272   |
| <u>Emergency telephone</u><br><u>number</u> | : (412) 434-4515 (U.S.)<br>(514) 645-1320 (Canada)<br>SETIQ Interior de la República: 800-00-214-00 (México)<br>SETIQ Ciudad de México: (55) 5559-1588 (México) |
| <b>Technical Phone Number</b>               | : 888-977-4762  |

# **SECTION 2: Hazards identification**

| Classification of the substance or mixture | <ul> <li>ACUTE TOXICITY (dermal) - Category 5         <ul> <li>ACUTE TOXICITY (inhalation) - Category 4</li> <li>SKIN IRRITATION - Category 2</li> <li>EYE IRRITATION - Category 2A</li> <li>RESPIRATORY SENSITIZATION - Category 1</li> <li>SKIN SENSITIZATION - Category 1</li> <li>SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract irritation) - Category 3</li> <li>Percentage of the mixture consisting of ingredient(s) of unknown acute dermal toxicity: 18.6%</li> </ul> </li> </ul> |
|--|--|
| GHS label elements                         |  |

Hazard pictograms

Product name 2550 WB URETHANE GLOSS CATALYST - B

# **SECTION 2: Hazards identification**

| Signal word   | :    | Danger  |
|---|------|---|
| Hazard statements                                   | :    | <ul> <li>H313 - May be harmful in contact with skin.</li> <li>H315 - Causes skin irritation.</li> <li>H317 - May cause an allergic skin reaction.</li> <li>H319 - Causes serious eye irritation.</li> <li>H332 - Harmful if inhaled.</li> <li>H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled.</li> <li>H335 - May cause respiratory irritation.</li> </ul>  |
| Precautionary statements                            |      |   |
| Prevention  | •    | <ul> <li>P280 - Wear protective gloves. Wear eye or face protection.</li> <li>P284 - Wear respiratory protection.</li> <li>P271 - Use only outdoors or in a well-ventilated area.</li> <li>P261 - Avoid breathing vapor.</li> <li>P264 - Wash thoroughly after handling.</li> <li>P272 - Contaminated work clothing should not be allowed out of the workplace.</li> </ul>  |
| Response  | :    | <ul> <li>P304 + P340, P312 - IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor if you feel unwell.</li> <li>P342 + P311 - If experiencing respiratory symptoms: Call a POISON CENTER or doctor.</li> <li>P302 + P312, P352 - IF ON SKIN: Call a POISON CENTER or doctor if you feel unwell. Wash with plenty of water.</li> <li>P333 + P313 - If skin irritation or rash occurs: Get medical advice or attention.</li> <li>P362 + P354 - Take off contaminated clothing and wash it before reuse.</li> <li>P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes.</li> <li>Remove contact lenses, if present and easy to do. Continue rinsing.</li> <li>P337 + P313 - If eye irritation persists: Get medical advice or attention.</li> </ul>  |
| Storage   | :    | P405 - Store locked up.<br>P403 + P233 - Store in a well-ventilated place. Keep container tightly closed.   |
| Disposal  | :    | P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.  |
| Other hazards which do not result in classification | :    | Skin contact to isocyanate monomer may lead to allergic lung reaction. Based on<br>the properties of the isocyanate components and considering toxicological data on<br>similar mixtures, this mixture may cause acute irritation and/or sensitization of the<br>respiratory system, leading to an asthmatic condition, wheezing and tightness of the<br>chest. Sensitized persons may subsequently show asthmatic symptoms when<br>exposed to atmospheric concentrations well below the OEL. Persons with a history<br>of skin sensitization problems or asthma, allergies or chronic or recurrent respiratory<br>disease should not be employed in any process in which this product is used.<br>Repeated exposure may lead to permanent respiratory disability. Moisture-sensitive<br>material. Emits toxic fumes when heated. |
| See toxicological information                       | า (S | Section 11)   |

See toxicological information (Section 11)

# **SECTION 3: Composition/information on ingredients**

| Substance/mixture             | : Mixture                             |
|-------------------------------|---------------------------------------|
| Product name                  | : 2550 WB URETHANE GLOSS CATALYST - B |
| Other means of identification | : Not applicable.                     |

Mexico Page: 2/13

### Product name 2550 WB URETHANE GLOSS CATALYST - B

# **SECTION 3: Composition/information on ingredients**

| Ingredient name  | %                      | CAS number                |
|--|------------------------|---------------------------|
| <ul> <li>Rexamethylene diisocyanate, oligomers (Iminooxadiazindione type)</li> <li>Cyclohexanamine, N,N-dimethyl-, compds. with 3-(cyclohexylamino)</li> <li>-1-propanesulfonic acid-blocked 1,6-diisocyanatohexane homopolymer</li> </ul> | ≥75 - ≤90<br>≥10 - ≤20 | 28182-81-2<br>666723-27-9 |
| cyclohexyldimethylamine<br>hexamethylene-di-isocyanate   | ≤1.1<br><1.0           | 98-94-2<br>822-06-0       |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

# **SECTION 4: First aid measures**

#### Description of necessary first aid measures

| Eye contact  | <ul> <li>Remove contact lenses, irrigate copiously with clean, fresh water, holding the<br/>eyelids apart for at least 10 minutes and seek immediate medical advice.</li> </ul>  |
|--------------|--|
| Inhalation   | <ul> <li>Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is<br/>irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by<br/>trained personnel.</li> </ul> |
| Skin contact | <ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and<br/>water or use recognized skin cleanser. Do NOT use solvents or thinners.</li> </ul>   |
| Ingestion    | <ul> <li>If swallowed, seek medical advice immediately and show this container or label.</li> <li>Keep person warm and at rest. Do NOT induce vomiting.</li> </ul>   |

### Most important symptoms/effects, acute and delayed

#### Potential acute health effects

| Eye contact  | : Causes serious eye irritation.   |
|--------------|--|
| Inhalation   | <ul> <li>Harmful if inhaled. May cause respiratory irritation. May cause allergy or asthma<br/>symptoms or breathing difficulties if inhaled.</li> </ul> |
| Skin contact | : May be harmful in contact with skin. Causes skin irritation. May cause an allergic skin reaction.  |
| Ingestion    | : No known significant effects or critical hazards.  |

#### **Over-exposure signs/symptoms**

See toxicological information (Section 11)

#### Indication of immediate medical attention and special treatment needed, if necessary

| Notes to physician         | <ul> <li>In case of inhalation of decomposition products in a fire, symptoms may be delayed.</li></ul>  |
|----------------------------|---|
| Specific treatments        | The exposed person may need to be kept under medical surveillance for 48 hours. <li>No specific treatment.</li>   |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

### Product name 2550 WB URETHANE GLOSS CATALYST - B

# **SECTION 5: Firefighting measures**

| Extinguishing media                          |   |
|--|---|
| Suitable extinguishing media                 | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media               | : None known.   |
| Specific hazards arising from the chemical   | : In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous thermal                            | : Decomposition products may include the following materials:   |
| decomposition products                       | carbon oxides<br>nitrogen oxides  |
|  | sulfur oxides   |
|  | Cyanate and isocyanate.<br>hydrogen cyanide   |
|  | nydrogen cyanide  |
| Special protective actions for fire-fighters | <ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if<br/>there is a fire. No action shall be taken involving any personal risk or without<br/>suitable training.</li> </ul> |
| Special protective                           | : Fire-fighters should wear appropriate protective equipment and self-contained   |
| equipment for fire-fighters                  | breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.   |

# **SECTION 6: Accidental release measures**

### Personal precautions, protective equipment and emergency procedures

| For non-emergency<br>personnel | :  | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Avoid breathing vapor or<br>mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment.  |
|--------------------------------|----|---|
| For emergency responders       | :  | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| Environmental precautions      | :  | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).   |
| Methods and materials for co   | nt | ainment and cleaning up   |
| Small spill                    | :  | Stop leak if without risk. Move containers from spill area. Dilute with water and mop<br>up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry<br>material and place in an appropriate waste disposal container. Dispose of via a<br>licensed waste disposal contractor.  |
| Large spill                    | :  | Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

### Product name 2550 WB URETHANE GLOSS CATALYST - B

# SECTION 6: Accidental release measures

# **SECTION 7: Handling and storage**

### Precautions for safe handling

| : Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems or asthma, allergies or chronic or recurrent respiratory disease should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.  |
|---|
| : Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. Vapors are heavier than air and may spread along floors. If this material is part of a multiple component system, read the Safety Data Sheet(s) for the other component or components before blending as the resulting mixture may have the hazards of all of its parts.   |
| : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |
| : Do not store above the following temperature: 50°C (122°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. Precautions should be taken to minimize exposure to atmospheric humidity or water. CO <sub>2</sub> will be formed, which, in closed containers, could result in pressurization. |
|   |

Product name 2550 WB URETHANE GLOSS CATALYST - B

# SECTION 8: Exposure controls/personal protection

#### **Control parameters**

С

IPEL

#### **Occupational exposure limits**

= Ceiling Limit

**Skin protection** 

**Body protection** 

= Internal Permissible Exposure Limit

| Ingredient name   | Exposure limits  |
|---|--|
| examethylene diisocyanate, oligomers (Iminooxadiazindione type)   | <b>IPEL (-)</b><br>TWA: 0.5 mg/m³.<br>STEL: 1 mg/m³.                   |
| Cyclohexanamine, N,N-dimethyl-, compds. with 3-(cyclohexylamino)<br>-1-propanesulfonic acid-blocked 1,6-diisocyanatohexane<br>homopolymer | None.  |
| cyclohexyldimethylamine<br>hexamethylene-di-isocyanate  | None.<br>NOM-010-STPS-2014 (Mexico, 4/2016)<br>TWA 8 hours: 0.005 ppm. |

#### Key to abbreviations

STEL = Short term exposure limit

= Threshold Limit Value TLV TWA = Time Weighted Average

#### Consult local authorities for acceptable exposure limits

| Consult local authorities for     | a         |   |
|-----------------------------------|-----------|---|
| Recommended monitoring procedures | :         | Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.   |
| Appropriate engineering controls  | :         | Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.   |
| Environmental exposure controls   | :         | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels.   |
| Individual protection measure     | <u>es</u> |   |
| Hygiene measures                  | :         | Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Contaminated work clothing should not be allowed out of the workplace. Wash<br>contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location. |
| Eye/face protection               | ÷         | Chemical splash goggles.  |

: Chemical splash goggles.

**Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. Gloves

- butyl rubber 2
- Personal protective equipment for the body should be selected based on the task t being performed and the risks involved and should be approved by a specialist before handling this product.

### Product name 2550 WB URETHANE GLOSS CATALYST - B

# **SECTION 8: Exposure controls/personal protection**

| Other skin protection  | <ul> <li>Appropriate footwear and any additional skin protection measures should be<br/>selected based on the task being performed and the risks involved and should be<br/>approved by a specialist before handling this product.</li> </ul>   |
|------------------------|---|
| Respiratory protection | : Use an air-fed respirator unless a site-specific assessment determines that an air-<br>fed respirator is not necessary, in which case the results of the risk assessment<br>should be utilized to determine whether respiratory protection is necessary and what<br>type of protection is appropriate. Respirator selection must be based on known or<br>anticipated exposure levels, the hazards of the product and the safe working limits<br>of the selected respirator. |
| Restrictions on use    | <ul> <li>Persons with a history of asthma, allergies or chronic or recurrent respiratory<br/>disease should not be employed in any process in which this product is used.</li> </ul>  |

# **SECTION 9: Physical and chemical properties**

| Appearance                                   |   |   |
|--|---|---|
| Physical state                               | 1 | Liquid.   |
| Color  | 1 | Yellow. [Light]   |
| Odor   | 1 | Characteristic.   |
| Odor threshold                               | 1 | Not available.  |

### Product name 2550 WB URETHANE GLOSS CATALYST - B

# **SECTION 10: Stability and reactivity**

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.  |
|------------------------------------|---|
| Chemical stability                 | : The product is stable.  |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.   |
| Conditions to avoid                | : In a fire, hazardous decomposition products may be produced.<br>Refer to protective measures listed in sections 7 and 8.  |
| Incompatible materials             | : Keep away from: oxidizing agents, strong alkalis, strong acids, amines, alcohols, water. Uncontrolled exothermic reactions occur with amines and alcohols.                      |
| Hazardous decomposition products   | : Depending on conditions, decomposition products may include the following materials:<br>Cyanate and isocyanate. carbon oxides nitrogen oxides sulfur oxides hydrogen<br>cyanide |

# **SECTION 11: Toxicological information**

## Information on toxicological effects

Acute toxicity

| Product/ingredient name   | Result  | Species               | Dose                              | Exposure          |

### Specific target organ toxicity (single exposure)

| Name  | Category   | Route of exposure | Target organs                |
|---|------------|-------------------|------------------------------|
| Hexamethylene diisocyanate, oligomers<br>(Iminooxadiazindione type)   | Category 3 | -                 | Respiratory tract irritation |
| Cyclohexanamine, N,N-dimethyl-, compds. with 3-<br>(cyclohexylamino)-1-propanesulfonic acid-blocked<br>1,6-diisocyanatohexane homopolymer | Category 3 | -                 | Respiratory tract irritation |
| hexamethylene-di-isocyanate   | Category 3 | -                 | Respiratory tract irritation |

#### Specific target organ toxicity (repeated exposure)

Not available.

Target organs

: Contains material which may cause damage to the following organs: upper respiratory tract, skin, central nervous system (CNS).

#### **Aspiration hazard**

Not available.

#### Information on the likely routes of exposure

### Potential acute health effects

| Eye contact                | s serious eye irritation.  |                                |
|----------------------------|--|--------------------------------|
| Inhalation                 | ul if inhaled. May cause respiratory irritation. May cause a one of the second se | allergy or asthma              |
| Skin contact               | e harmful in contact with skin. Causes skin irritation. May action.  | <sup>,</sup> cause an allergic |
| Ingestion                  | own significant effects or critical hazards.   |                                |
| Over-exposure signs/sympto |  |                                |
| Eye contact                | e symptoms may include the following:<br>irritation<br>ng<br>s   |                                |
| Inhalation                 | e symptoms may include the following:<br>tory tract irritation<br>ng<br>ing and breathing difficulties<br>a  |                                |

Product name 2550 WB URETHANE GLOSS CATALYST - B

# **SECTION 11: Toxicological information**

|                                |            | <b>.</b>   |
|--------------------------------|------------|--|
| Skin contact                   | :          | Adverse symptoms may include the following:<br>irritation<br>redness   |
| Ingestion                      | :          | No specific data.  |
| Delayed and immediate effe     | <u>cts</u> | and also chronic effects from short and long term exposure   |
| Conclusion/Summary             | :          | There are no data available on the mixture itself. Skin contact to isocyanate<br>monomer may lead to allergic lung reaction. Based on the properties of the<br>isocyanate components and considering toxicological data on similar mixtures, this<br>mixture may cause acute irritation and/or sensitization of the respiratory system,<br>leading to an asthmatic condition, wheezing and tightness of the chest. Repeated<br>exposure may lead to permanent respiratory disability. If splashed in the eyes, the<br>liquid may cause irritation and reversible damage. Ingestion may cause nausea,<br>diarrhea and vomiting. This takes into account, where known, delayed and<br>immediate effects and also chronic effects of components from short-term and long-<br>term exposure by oral, inhalation and dermal routes of exposure and eye contact. |
| Short term exposure            |            |  |
| Potential immediate<br>effects | :          | There are no data available on the mixture itself.   |
| Potential delayed effects      | 1          | There are no data available on the mixture itself.   |
| Long term exposure             |            |  |
| Potential immediate<br>effects | :          | There are no data available on the mixture itself.   |
| Potential delayed effects      | :          | There are no data available on the mixture itself.   |
| Potential chronic health effe  | ects       |  |
| General                        | :          | Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.  |
| Carcinogenicity                | :          | No known significant effects or critical hazards.  |
| Mutagenicity                   | :          | No known significant effects or critical hazards.  |
| Reproductive toxicity          | :          | No known significant effects or critical hazards.  |
|                                |            |  |

### Mobility in soil

Soil/water partition coefficient (Koc)

: Not available.

Product name 2550 WB URETHANE GLOSS CATALYST - B

# **SECTION 12: Ecological information**

Other adverse effects

: No known significant effects or critical hazards.

### SECTION 13: Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures
