number (with hours of operation)

## Section 2. Hazards identification

Classification of the substance or mixture according to GB 13690-2009 and GB 30000-2013

Emergency overview Liquid. Off-white. Characteristic. Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation. Suspected of causing cancer. Suspected of damaging fertility or the unborn child. Very toxic to aquatic life. Toxic to aquatic life with long lasting effects.

F exposed or concerned: Get medical advice or attention. If skin irritation or rash occurs: Get medical advice or attention. If eye irritation persists: Get medical advice or attention.

### See Section 12 for environmental precautions.

#### Section 2. Hazards identification : SKIN CORROSION/IRRITATION - Category 2 **Classification of the** SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A substance or mixture **SKIN SENSITIZATION - Category 1** CARCINOGENICITY - Category 2 **TOXIC TO REPRODUCTION - Category 2** AQUATIC HAZARD (ACUTE) - Category 1 AQUATIC HAZARD (LONG-TERM) - Category 2 Percentage of the mixture consisting of ingredient(s) of unknown hazards to the aquatic environment: 11.9% **GHS label elements** Hazard pictograms Signal word : Warning ÷. Causes skin irritation. **Hazard statements** May cause an allergic skin reaction. Causes serious eve irritation. Suspected of causing cancer. Suspected of damaging fertility or the unborn child. Very toxic to aquatic life. Toxic to aquatic life with long lasting effects. **Precautionary statements Prevention** : Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing and eve or face protection. Avoid release to the environment. Avoid breathing vapor. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Response ÷. Collect spillage. IF exposed or concerned: Get medical advice or attention. IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice or attention. Take off contaminated clothing and wash it before reuse. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. Suitable extinguishing : Use an extinguishing agent suitable for the surrounding fire. media **Storage** : Store locked up. **Disposal** : Dispose of contents and container in accordance with all local, regional, national and international regulations. **Physical and chemical** : No known significant effects or critical hazards. hazards **Health hazards** : Zauses skin irritation. May cause an allergic skin reaction. Causes serious eye irritation. Suspected of causing cancer. Suspected of damaging fertility or the unborn child.

Symptoms related to the physical, chemical and toxicological characteristics

## Section 2. Hazards identification

| Eye contact  | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness   |
|--------------|--|
| Inhalation   | : Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations                          |
| Skin contact | : Adverse symptoms may include the following:<br>irritation<br>redness<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations |
| Ingestion    | : Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations                          |

| Delayed and immediate effec                         | ts and also chronic effects from short and long term exposure                  |
|---|--|
| <u>Short term exposure</u>                          |  |
| Potential immediate effects                         | : Not available.   |
| Potential delayed effects                           | : Not available.   |
| Long term exposure                                  |  |
| Potential immediate effects                         | : Not available.   |
| Potential delayed effects                           | : Not available.   |
| Environmental hazards                               | : Very toxic to aquatic life. Toxic to aquatic life with long lasting effects. |
| Other hazards which do not result in classification | : None known.  |

## Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

### CAS number/other identifiers

| CAS number | : Not applicable. |
|------------|-------------------|
|------------|-------------------|

| Ingredient name  | %        | CAS number       |
|--|----------|------------------|
| A sexaboron dizinc undecaoxide   | 10 - <25 | 12767-90-7       |
| Borate(5-), bis[µ-oxotetraoxodiborato(4-)]-, ammonium tetrahydrogen, dihydrate, (T-4)- | 10 - <25 | 12046-04-7       |
| bis-[4-(2,3-epoxipropoxi)phenyl]propane  | 10 - <25 | 1675-54-3        |
| tris(2-chloro-1-methylethyl) phosphate   | 1 - <10  | 13674-84-5       |
| Polyphosphoric acids, ammonium salts   | 1 - <10  | 68333-79-9       |
| triphenyl phosphate  | 1 - <10  | 115-86-6         |
| Epoxy resin (MW $\leq$ 700)  | 1 - <10  | 25068-38-6       |
| cashew nut shell oil   | 1 - <10  | 8007-24-7        |
| 2,2-bis(acryloyloxymethyl)butyl acrylate   | 1 - <10  | 15625-89-5       |
|  |          | China Page: 3/14 |

Product name PITT-CHAR NX BASE OFFWHITE

### Section 3. Composition/information on ingredients

Quaternary ammonium compounds, benzylbis(hydrogenated tallow alkyl)0.1 - <1</th>61789-73-9methyl, chlorides61789-73-9

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

### Section 4. First aid measures

### Description of necessary first aid measures

| Eye contact  |               | ntact lenses, irrigate copiously with clean, fresh water, holding the t for at least 10 minutes and seek immediate medical advice.   |
|--------------|---------------|--|
|              | of UV light a | ccidental eye contact, avoid direct exposure to the sun or other sources<br>s severe irritation including burns may result. These reactions can be<br>et medical attention if pain, irritation or blistering occurs after contact. |
| Inhalation   |               | resh air. Keep person warm and at rest. If not breathing, if breathing is<br>f respiratory arrest occurs, provide artificial respiration or oxygen by<br>onnel.  |
| Skin contact |               | ntaminated clothing and shoes. Wash skin thoroughly with soap and recognized skin cleanser. Do NOT use solvents or thinners.   |
| Ingestion    |               | , seek medical advice immediately and show this container or label.<br>warm and at rest. Do NOT induce vomiting.   |

#### Most important symptoms/effects, acute and delayed

| Potential acute health effect |  |
|-------------------------------|--|
| Eye contact                   | Causes serious eye irritation.   |
| Inhalation                    | No known significant effects or critical hazards.  |
| Skin contact                  | Causes skin irritation. May cause an allergic skin reaction.   |
| Ingestion                     | No known significant effects or critical hazards.  |
| Over-exposure signs/symp      | <u>ns</u>  |
| Eye contact                   | Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness   |
| Inhalation                    | Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations                          |
| Skin contact                  | Adverse symptoms may include the following:<br>irritation<br>redness<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations |
| Ingestion                     | Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations                          |

China Page: 4/14

Date of issue 24 October 2024 Version 6

Product name PITT-CHAR NX BASE OFFWHITE

### Section 4. First aid measures

| Indication of immediate med | ical attention and special treatment needed, if necessary   |
|-----------------------------|---|
| Notes to physician          | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul>   |
| Specific treatments         | : No specific treatment.  |
| Protection of first-aiders  | : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

| Extinguishing media                               |   |
|---|---|
| Suitable extinguishing media                      | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                    | : None known.   |
| Specific hazards arising from the chemical        | : In a fire or if heated, a pressure increase will occur and the container may burst.<br>This material is very toxic to aquatic life. This material is toxic to aquatic life with<br>long lasting effects. Fire water contaminated with this material must be contained<br>and prevented from being discharged to any waterway, sewer or drain. |
| Hazardous thermal decomposition products          | : Decomposition products may include the following materials:<br>carbon oxides<br>phosphorus oxides<br>halogenated compounds<br>metal oxide/oxides  |
| Special protective actions for fire-fighters      | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.   |
| Special protective<br>equipment for fire-fighters | <ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained<br/>breathing apparatus (SCBA) with a full face-piece operated in positive pressure<br/>mode.</li> </ul>   |

## Section 6. Accidental release measures

| Personal precautions, protective equipment and emergency procedures |  |  |
|---|--|--|
| For non-emergency<br>personnel                                      | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Avoid breathing vapor or<br>mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment. |  |
| For emergency responders  | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |  |

Product name PITT-CHAR NX BASE OFFWHITE

### Section 6. Accidental release measures

| Methods and material | s for containment and cleaning up   |
|----------------------|---|
| Small spill          | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop<br>up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry<br>material and place in an appropriate waste disposal container. Dispose of via a<br>licensed waste disposal contractor.  |
| Large spill          | : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

### Section 7. Handling and storage

Precautions for safe handling
 Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Avoid release to the environment. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

**Conditions for safe storage, including any incompatibilities incompatibilities** 

## Section 8. Exposure controls/personal protection

### **Control parameters**

### **Occupational exposure limits**

| Ingredient name  |            |  | Exposure limits   |  |  |
|--|------------|--|---|--|--|
| Fexaboron dizinc undecaoxide<br>Borate(5-), bis[μ-oxotetraoxodiborato(4-)]-, ammonium tetrahydroge<br>dihydrate, (T-4)-<br>triphenyl phosphate |            |  | ACGIH TLV (United States, 1/2013)<br>TWA: 3 mg/m <sup>3</sup> (Dusts and mists). Form:<br>Respirable fraction.<br>TWA: 10 mg/m <sup>3</sup> (Dusts and mists). Form:<br>Inhalable fraction.   |  |  |
|  |            |  | riate monitoring standards. Reference to nods for the determination of hazardous  |  |  |
|  |            |  | es, gas, vapor or mist, use process enclosures<br>neering controls to keep worker exposure to<br>ommended or statutory limits.  |  |  |
| Environmental exposure controls : Emissions from ventilation or they comply with the requirer cases, fume scrubbers, filters                   |            |  | ocess equipment should be checked to ensure<br>environmental protection legislation. In some<br>neering modifications to the process<br>e emissions to acceptable levels.   |  |  |

## Section 8. Exposure controls/personal protection

## Section 9. Physical and chemical properties

| <u>Appearance</u>                            |   |  |  |
|--|---|--|--|
| Physical state                               | Liquid.   |  |  |
| Color  | Off-white.  |  |  |
| Odor   | Characteristic.   |  |  |
| Boiling point                                | >37.78°C (>100°F)   |  |  |
| Flash point                                  | Closed cup: Not applicable.   |  |  |
| Lower and upper explosive (flammable) limits | Not available.  |  |  |
| Relative density                             | 1.56  |  |  |
| Solubility(ies)                              | Media         Result           cold water         Not soluble   |  |  |
| Viscosity                                    | Øynamic (room temperature): Not available.<br>Kinematic (room temperature): Not available.<br>Kinematic (40°C): >21 mm²/s |  |  |

## Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.   |    |
|------------------------------------|--|----|
| Chemical stability                 | : The product is stable.   |    |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.  |    |
| Conditions to avoid                | : When exposed to high temperatures may produce hazardous decomposition products.  |    |
| Incompatible materials             | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.                               |    |
| Hazardous decomposition products   | : Depending on conditions, decomposition products may include the following materials: carbon oxides phosphorus oxides halogenated compounds metal oxic oxides | e/ |

### Section 11. Toxicological information

### Information on toxicological effects

### Acute toxicity

| Product/ingredient name                          | Result                          | Species | Dose        | Exposure |
|--|---------------------------------|---------|-------------|----------|

### Section 11. Toxicological information

### **Mutagenicity**

Not available.

Carcinogenicity

Not available.

**Reproductive toxicity** 

| Product/ingredient name         | Maternal toxicity | Fertility | Development toxin | Species | Dose               | Exposure                       |
|---------------------------------|-------------------|-----------|-------------------|---------|--------------------|--------------------------------|
| hexaboron dizinc<br>undecaoxide | Positive          | Positive  | Positive          | Rat     | Oral: 375<br>mg/kg | 90 days; 7<br>days per<br>week |

### **Teratogenicity**

Not available.

### Specific target organ toxicity (single exposure)

| Name                 | • •        | Route of<br>exposure | Target organs                |
|----------------------|------------|----------------------|------------------------------|
| cashew nut shell oil | Category 3 | -                    | Respiratory tract irritation |

### Specific target organ toxicity (repeated exposure)

Not available.

#### Aspiration hazard

Not available.

### Information on the likely : Not available. routes of exposure

#### Potential acute health effects

| Eye contact  | : Causes serious eye irritation.                               |
|--------------|--|
| Inhalation   | : No known significant effects or critical hazards.            |
| Skin contact | : Causes skin irritation. May cause an allergic skin reaction. |
| Ingestion    | : No known significant effects or critical hazards.            |

### Symptoms related to the physical, chemical and toxicological characteristics

| Eye contact  | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness   |
|--------------|--|
| Inhalation   | : Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations                          |
| Skin contact | : Adverse symptoms may include the following:<br>irritation<br>redness<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations |

Product name PITT-CHAR NX BASE OFFWHITE

### Section 11. Toxicological information

|                                |     | 5   |
|--------------------------------|-----|---|
| Ingestion                      | :   | Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations |
| Delayed and immediate effect   | ts  | and also chronic effects from short and long term exposure  |
| Short term exposure            |     |   |
| Potential immediate<br>effects | 1   | Not available.  |
| Potential delayed effects      | 1   | Not available.  |
| <u>Long term exposure</u>      |     |   |
| Potential immediate<br>effects | 1   | Not available.  |
| Potential delayed effects      | 1   | Not available.  |
| Potential chronic health eff   | ect | <u>s</u>  |
| General                        | 1   | Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.                       |
| Carcinogenicity                | :   | Suspected of causing cancer. Risk of cancer depends on duration and level of exposure.                                    |
| Mutagenicity                   | :   | No known significant effects or critical hazards.   |
| Reproductive toxicity          | :   | Suspected of damaging fertility or the unborn child.  |
|                                |     |   |

#### Other information

Sanding and grinding dusts may be harmful if inhaled. Acrylate components of the mixture have irritating properties. Prolonged or repeated contact with skin or mucous membrane may result in irritation symptoms, such as redness, blistering, dermatitis etc. May cause allergic skin reactions with repeated exposure. The inhalation of airborne droplets or aerosols may cause irritation of the respiratory tract. Ingestion may cause nausea, weakness and central nervous system effects. In case of accidental skin contact, avoid direct exposure to the sun or other sources of UV light as severe irritation including burns may result. These reactions can be delayed – get medical attention if pain, irritation, rash or blistering occurs after contact.

#### Mobility in soil

# Soil/water partition coefficient (Koc)

: Not available.

#### Other adverse effects

: No known significant effects or critical hazards.

### Section 13. Disposal considerations

**Disposal methods** 

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
