SAFETY DATA SHEET

United Arab Emirates

Date of issue/Date of revision

: 31 October 2024

Version

: 1.05

| SECTION 1: Identif undertaking | ication of the substance/mixture and of the company/ |
|---|---|
| 1.1 Product identifier | |
| Product name | : PPG AQUACOVER 200/400 HARDENER |
| Product code | : 000001103715 |
| Other means of identifica 00220698; 00226419 | ition |
| 1.2 Relevant identified use | s of the substance or mixture and uses advised against |
| Product use | : Professional applications, Used by spraying. |
| Use of the substance/ mixture | : Hardener. |
| Uses advised against | : Product is not intended, labelled or packaged for consumer use. |
| 1.3 Details of the supplier | of the safety data sheet |
| Sigma Paint Saudi Arabia L PO Box 7509 Dammam 31472 Saudi Arabia Tel: 00966 138 47 31 00 Fax: 00966 138 47 17 34 | .td. |
| e-mail address of person responsible for this SDS | : ndpic@sfda.gov.sa |
| 1.4 Emergency telephone number | : 00966 138473100 extn 1001 |

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture **Product definition** : Mixture Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS] Skin Irrit, 2, H315 Eye Irrit. 2, H319 Skin Sens. 1, H317 Aquatic Chronic 2, H411

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

2.2 Label elements Hazard pictograms

Signal word

| Code : 000001103715 | | Date of issue/Date of revision | : 31 October 2024 |
|---|--|--|--------------------------|
| PPG AQUACOVER 200/400 H | ARDENER | | |
| SECTION 2: Hazards | identification | | |
| Hazard statements | : Causes skin irritation. May cause an allergic s Causes serious eye irrit Toxic to aquatic life with | tation. | |
| Precautionary statements | | | |
| Prevention | | . Wear eye or face protection. Avoid re . Wash thoroughly after handling. | lease to the environment |
| Response | : Collect spillage. | | |
| Storage | : Not applicable. | | |
| Disposal | : Dispose of contents and international regulations P280, P273, P261, P26 | | regional, national and |
| Supplemental label elements | : Contains epoxy constitu | uents. May produce an allergic reaction. | |
| Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles | : Not applicable. | | |
| Special packaging requirem | ents | | |
| Containers to be fitted with child-resistant fastenings | : Not applicable. | | |
| Tactile warning of danger | : Not applicable. | | |
| 2.3 Other hazards | | | |
| Product meets the criteria for PBT or vPvB | : This mixture does not c | ontain any substances that are assess | ed to be a PBT or a vPvB |

Other hazards which do : None known. not result in classification

SECTION 3: Composition/information on ingredients

| 3.2 Mixtures | : Mixture | | | | |
|---|--|------------|--|---|------|
| Product/ingredient name | Identifiers | % | Classification | Specific Conc. Limits, M-factors and ATEs | Туре |
| bis-[4-(2,3-epoxipropoxi) phenyl]propane | REACH #: 01-2119456619-26 EC: 216-823-5 CAS: 1675-54-3 Index: 603-073-00-2 | ≥50 - ≤75 | Skin Irrit. 2, H315 Eye Irrit. 2, H319 Skin Sens. 1, H317 Aquatic Chronic 2, H411 | Skin Irrit. 2, H315: C ≥ 5% Eye Irrit. 2, H319: C ≥ 5% | [1] |
| bisphenol F diglycidyl ether, isomer mixture | CAS: SUB140549 | ≥10 - ≤25 | Skin Irrit. 2, H315 Skin Sens. 1, H317 Aquatic Chronic 2, H411 | - | [1] |
| oxirane, mono[(C12-14-alkyloxy)methyl] derivs. | REACH #: 01-2119485289-22 EC: 271-846-8 | ≥5.0 - ≤10 | Skin Irrit. 2, H315 Skin Sens. 1, H317 | - | [1] |

|-------------------------|--|---|-------------------|--|
| PPG AQUACOVER 200/400 I | HARDENER | | | |
| SECTION 3: Compo | sition/information | on ingredients | | |
| | CAS: 68609-97-2 Index: 603-103-00-4 | See Section 16 for the full text of the H statements declared above. | | |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

[1] Substance classified with a health or environmental hazard

Occupational exposure limits, if available, are listed in Section 8.

SECTION 4: First aid measures

| 4.1 Description of first aid n | neasures |
|--------------------------------|---|
| Eye contact | : Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice. |
| Inhalation | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |
| Skin contact | : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognised skin cleanser. Do NOT use solvents or thinners. |
| Ingestion | : If swallowed, seek medical advice immediately and show the container or label. Keep person warm and at rest. Do NOT induce vomiting. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

4.2 Most important symptoms and effects, both acute and delayed

| Potential acute health effect | <u>8</u> |
|-------------------------------|---|
| Eye contact | : Causes serious eye irritation. |
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : Causes skin irritation. May cause an allergic skin reaction. |
| Ingestion | : No known significant effects or critical hazards. |
| Over-exposure signs/sympt | oms |
| Eye contact | : Adverse symptoms may include the following: pain or irritation watering redness |
| Inhalation | : No specific data. |
| Skin contact | : Adverse symptoms may include the following: irritation redness |
| Ingestion | : No specific data. |
| 4.3 Indication of any immedia | te medical attention and special treatment needed |
| Notes to physician | : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |
| Specific treatments | : No specific treatment. |

| PPG AQUACOVER 200/400 HARDENER | |
|----------------------------------|--|
| SECTION 5: Firefighting measures | |

| 5.1 Extinguishing media | |
|---|---|
| Suitable extinguishing media | : Use an extinguishing agent suitable for the surrounding fire. |
| Unsuitable extinguishing media | : None known. |
| 5.2 Special hazards arising fi | om the substance or mixture |
| Hazards from the substance or mixture | : In a fire or if heated, a pressure increase will occur and the container may burst. This material is toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain. |
| Hazardous combustion products | : Decomposition products may include the following materials: carbon oxides halogenated compounds |
| 5.3 Advice for firefighters | |
| Special precautions for fire-fighters | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents. |

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

| For non-emergency personnel | : | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Avoid breathing vapour or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. |
|--------------------------------|----|---|
| For emergency responders | : | If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| 6.2 Environmental precautions | : | Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Collect spillage. |
| 6.3 Methods and material for | со | ntainment and cleaning up |
| Small spill | : | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| Large spill | - | Stop leak if without risk. Move containers from spill area. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spill product. |

PPG AQUACOVER 200/400 HARDENER

: 31 October 2024

SECTION 6: Accidental release measures

6.4 Reference to other ÷ sections

See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information.

SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

7.1 Precautions for safe handling

| Protective measures | : Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapour or mist. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|--|---|
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |
| 7.2 Conditions for safe storage, including any incompatibilities | : Store between the following temperatures: 5 to 35°C (41 to 95°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

7.3 Specific end use(s)

See Section 1.2 for Identified uses.

SECTION 8: Exposure controls/personal protection

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

8.1 Control parameters

Occupational exposure limits

No exposure indices known.

Recommended monitoring procedures

: Reference should be made to monitoring standards, such as the following: European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

8.2 Exposure controls

| Conforms to Regulation (EC) 2020/878 |) No. 1 | 907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) |
|---|---|---|
| Code : 00000110371 PPG AQUACOVER 200/400 H | | Date of issue/Date of revision : 31 October 2024 |
| Appropriate engineering controls | : G | ood general ventilation should be sufficient to control worker exposure to airborne ontaminants. |
| Individual protection measu | ures | |
| Hygiene measures | : W ea A C co | /ash hands, forearms and face thoroughly after handling chemical products, before ating, smoking and using the lavatory and at the end of the working period. ppropriate techniques should be used to remove potentially contaminated clothing. ontaminated work clothing should not be allowed out of the workplace. Wash ontaminated clothing before reusing. Ensure that eyewash stations and safety nowers are close to the workstation location. |
| Eye/face protection Skin protection | : C | hemical splash goggles. |
| Hand protection | W ne du no gl pr fre (b W (b T I pr | hemical-resistant, impervious gloves complying with an approved standard should be orn at all times when handling chemical products if a risk assessment indicates this is ecessary. Considering the parameters specified by the glove manufacturer, check uring use that the gloves are still retaining their protective properties. It should be oted that the time to breakthrough for any glove material may be different for different ove manufacturers. In the case of mixtures, consisting of several substances, the rotection time of the gloves cannot be accurately estimated. When prolonged or equently repeated contact may occur, a glove with a protection class of 6 breakthrough time greater than 480 minutes according to EN 374) is recommended. When only brief contact is expected, a glove with a protection class of 2 or higher breakthrough time greater than 30 minutes according to EN 374) is recommended. The user must check that the final choice of type of glove selected for handling this roduct is the most appropriate and takes into account the particular conditions of use, is included in the user's risk assessment. |
| Gloves | : bı | utyl rubber |
| Body protection | pe | ersonal protective equipment for the body should be selected based on the task being erformed and the risks involved and should be approved by a specialist before andling this product. |
| Other skin protection | ba | ppropriate footwear and any additional skin protection measures should be selected ased on the task being performed and the risks involved and should be approved by a pecialist before handling this product. |
| Respiratory protection | 1 | |
| Environmental exposure controls | th ca | missions from ventilation or work process equipment should be checked to ensure bey comply with the requirements of environmental protection legislation. In some ases, fume scrubbers, filters or engineering modifications to the process equipment ill be necessary to reduce emissions to acceptable levels. |

SECTION 9: Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

9.1 Information on basic physical and chemical properties

| Appearance | |
|---|--|
| Physical state | : Liquid. |
| Colour | : Colourless. |
| Odour | : Amine-like. |
| Odour threshold | : Not available. |
| Melting point/freezing point | : Not determined. |
| Initial boiling point and boiling range | : >37.78°C |
| Flammability | : Not determined. There are no data available on the mixture itself. |
| Upper/lower flammability or explosive limits | : Not available. |
| Flash point | : Closed cup: Not applicable. |
| Auto-ignition temperature | : Not available. |

No additional information.

| SECTION 10: Stability and reactivity | | | | |
|--|---|--|--|--|
| 10.1 Reactivity | : No specific test data related to reactivity available for this product or its ingredients. | | | |
| 10.2 Chemical stability | : The product is stable. | | | |
| 10.3 Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. | | | |
| 10.4 Conditions to avoid | : When exposed to high temperatures may produce hazardous decomposition products. Refer to protective measures listed in sections 7 and 8. | | | |
| 10.5 Incompatible materials | : Keep away from the following materials to prevent strong exothermic reactions: oxidising agents, strong alkalis, strong acids. | | | |
| 10.6 Hazardous decomposition products | : Depending on conditions, decomposition products may include the following materials: carbon oxides halogenated compounds | | | |

SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

13.1 Waste treatment methods

| <u>Product</u> | |
|------------------------|---|
| Methods of disposal | : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. |
| Hazardous waste | : Yes. |
| European waste catalog | ue <u>(EWC)</u> |

| Waste code | Waste designation |
|----------------------------------|--|
| 08 01 11* | waste paint and varnish containing organic solvents or other hazardous substances |
| Packaging Methods of disposal | The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. |
| Type of packaging | European waste catalogue (EWC) |

| Container | 15 01 06 | mixed packaging |
|---------------------|------------------------------|--|
| Special precautions | taken when h Empty contai | and its container must be disposed of in a safe way. Care should be nandling emptied containers that have not been cleaned or rinsed out. ners or liners may retain some product residues. Avoid dispersal of spilt runoff and contact with soil, waterways, drains and sewers. |
