# **SECTION 2: Hazards identification**

## 2.1 Classification of the substance or mixture

Product definition : Mixture Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Fam. Liq. 3, H226
Skin Irrit. 2, H315
Eye Irrit. 2, H319
Skin Sens. 1, H317
Carc. 2, H351
Aquatic Chronic 3, H412
The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

The product is classified as hazardous according to Regulation (EC) 1272/2006 as ame

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

2.2 Label elements Hazard pictograms

<sup>:</sup> Warning

# **SECTION 2: Hazards identification**

| Hazard statements   | <ul> <li>Fammable liquid and vapour.</li> <li>Causes skin irritation.</li> <li>May cause an allergic skin reaction.</li> <li>Causes serious eye irritation.</li> <li>Suspected of causing cancer.</li> <li>Harmful to aquatic life with long lasting effects.</li> </ul>             |
|---|--|
| Precautionary statements  |  |
| Prevention  | : Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing and eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Avoid release to the environment. |
| Response  | : F exposed or concerned: Get medical advice or attention.   |
| Storage   | : Not applicable.  |
| Disposal  | <ul> <li>Dispose of contents and container in accordance with all local, regional, national and<br/>international regulations.</li> <li>P202, P280, P210, P273, P308 + P313, P501</li> </ul>   |
| Supplemental label elements   | : Contains epoxy constituents. May produce an allergic reaction.   |
| Annex XVII - Restrictions<br>on the manufacture,<br>placing on the market and<br>use of certain dangerous<br>substances, mixtures and<br>articles | : Not applicable.  |
| Special packaging requirem  | <u>ients</u>   |
| Containers to be fitted<br>with child-resistant<br>fastenings   | : Not applicable.  |
| Tactile warning of danger   | : Not applicable.  |
| 2.3 Other hazards   |  |
| Product meets the criteria<br>for PBT or vPvB   | : This mixture does not contain any substances that are assessed to be a PBT or a vPvB.  |
| Other hazards which do not result in classification   | : Prolonged or repeated contact may dry skin and cause irritation.   |
|   |  |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

Occupational exposure limits, if available, are listed in Section 8.

## **SECTION 4: First aid measures** . . . . . .

. . .

. . . .

| 4.1 Description of first aid m | leasures  |
|--------------------------------|---|
| Eye contact                    | : Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice.   |
| Inhalation                     | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is<br>irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained<br>personnel.  |
| Skin contact                   | : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognised skin cleanser. Do NOT use solvents or thinners.  |
| Ingestion                      | : If swallowed, seek medical advice immediately and show the container or label. Keep person warm and at rest. Do NOT induce vomiting.  |
| Protection of first-aiders     | : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

 SIGMACOVER 555 BASE BLACK

## **SECTION 4: First aid measures**

| Eye contact         | : Causes serious eye irritation.  |
|---------------------|---|
| Inhalation          | : No known significant effects or critical hazards.   |
| Skin contact        | : Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction          |
| Ingestion           | : No known significant effects or critical hazards.   |
| Over-exposure signs | /symptoms   |
| Eye contact         | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness    |
| Inhalation          | : No specific data.   |
| Skin contact        | : Adverse symptoms may include the following:<br>irritation<br>redness<br>dryness<br>cracking |
| Ingestion           | : No specific data.   |

## 4.3 Indication of any immediate medical attention and special treatment needed

| Notes to physician  | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul> |
|---------------------|---|
| Specific treatments | : No specific treatment.  |

# **SECTION 5: Firefighting measures**

| 5.1 Extinguishing media               |  |
|---------------------------------------|--|
| Suitable extinguishing media          | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.   |
| Unsuitable extinguishing media        | : Do not use water jet.  |
| 5.2 Special hazards arising f         | rom the substance or mixture   |
| Hazards from the substance or mixture | : Flammable liquid and vapour. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. This material is harmful to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain. |
| Hazardous combustion<br>products      | : Decomposition products may include the following materials:<br>carbon oxides<br>sulfur oxides<br>halogenated compounds<br>metal oxide/oxides   |
| 5.3 Advice for firefighters           |  |
| Special precautions for fire-fighters | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.   |

| Conforms to Regulation (E<br>2020/878            | C) No. 1907/2006 (REACH), Annex II, as amended by Commission Regul   | ation (EU)                                      |
|--|--|---|

| <b>SECTION 6: Accide</b>                         | ntal release measures  |   |
| 6.1 Personal precautions, J                      | protective equipment and emergency procedures  |   |
| For non-emergency<br>personnel                   | : No action shall be taken involving any personal risk or without suitable<br>Evacuate surrounding areas. Keep unnecessary and unprotected persentering. Do not touch or walk through spilt material. Shut off all igniti<br>flares, smoking or flames in hazard area. Avoid breathing vapour or m<br>adequate ventilation. Wear appropriate respirator when ventilation is i<br>on appropriate personal protective equipment. | sonnel from<br>ion sources. No<br>nist. Provide |

- **For emergency responders** : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
- **6.2 Environmental precautions** : Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.

## 6.3 Methods and material for containment and cleaning up

| Small spill                     | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |
|---------------------------------|--|
| Large spill                     | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilt product. |
| 6.4 Reference to other sections | <ul> <li>See Section 1 for emergency contact information.</li> <li>See Section 8 for information on appropriate personal protective equipment.</li> <li>See Section 13 for additional waste treatment information.</li> </ul>  |

# **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

## 7.1 Precautions for safe handling

| history of skin sensitization problems should not be employed in any process in which<br>this product is used. Avoid exposure - obtain special instructions before use. Do not<br>handle until all safety precautions have been read and understood. Do not get in eyes<br>or on skin or clothing. Do not ingest. Avoid breathing vapour or mist. Avoid release to<br>the environment. Use only with adequate ventilation. Wear appropriate respirator whe<br>ventilation is inadequate. Do not enter storage areas and confined spaces unless<br>adequately ventilated. Keep in the original container or an approved alternative made<br>from a compatible material, kept tightly closed when not in use. Store and use away<br>from heat, sparks, open flame or any other ignition source. Use explosion-proof<br>electrical (ventilating, lighting and material handling) equipment. Use only non-sparking<br>tools. Take precautionary measures against electrostatic discharges. Empty container | handle until all safety precautions have been read and understood. Do r<br>or on skin or clothing. Do not ingest. Avoid breathing vapour or mist. A<br>the environment. Use only with adequate ventilation. Wear appropriate<br>ventilation is inadequate. Do not enter storage areas and confined spac<br>adequately ventilated. Keep in the original container or an approved alte<br>from a compatible material, kept tightly closed when not in use. Store a<br>from heat, sparks, open flame or any other ignition source. Use explosite<br>electrical (ventilating, lighting and material handling) equipment. Use on | ocess in which<br>e use. Do not<br>not get in eyes<br>Avoid release to<br>e respirator when<br>ces unless<br>ternative made<br>and use away<br>ion-proof<br>nly non-sparking |

| SECTION 7: Handli  | ing and storage  |
|  | retain product residue and can be hazardous. Do not reuse container.   |
| Advice on general occupational hygiene                                 | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |
| 7.2 Conditions for safe<br>storage, including any<br>incompatibilities | : Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidising materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See |

## 7.3 Specific end use(s)

See Section 1.2 for Identified uses.

## **SECTION 8: Exposure controls/personal protection**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

Section 10 for incompatible materials before handling or use.

## 8.1 Control parameters

#### **Occupational exposure limits**

| Product/ingredient name                             | Exposure limit values   |             |

# **SECTION 9: Physical and chemical properties**

## 9.2 Other information

No additional information.

| <b>SECTION 10: Stabilit</b>                | y and reactivity  |
|--|---|
| 10.1 Reactivity                            | : No specific test data related to reactivity available for this product or its ingredients.  |
| 10.2 Chemical stability                    | : The product is stable.  |
| 10.3 Possibility of<br>hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.   |
| 10.4 Conditions to avoid                   | : When exposed to high temperatures may produce hazardous decomposition products.<br>Refer to protective measures listed in sections 7 and 8.               |
| 10.5 Incompatible materials                | : Keep away from the following materials to prevent strong exothermic reactions: oxidising agents, strong alkalis, strong acids.                            |
| 10.6 Hazardous<br>decomposition products   | : Depending on conditions, decomposition products may include the following materials: carbon oxides sulfur oxides halogenated compounds metal oxide/oxides |

| SIGMACOVE | R 555 BASE BLACK |                                |                   |

## **SECTION 11: Toxicological information**

| Potential delayed effects     | : Not available.   |
|-------------------------------|--|
| Long term exposure            |  |
| Potential immediate effects   | : Not available.   |
| Potential delayed effects     | : Not available.   |
| Potential chronic health effe | <u>cts</u>   |
| Not available.                |  |
| <b>Conclusion/Summary</b>     | : Not available.   |
| General                       | : Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels. |
| Carcinogenicity               | : Suspected of causing cancer. Risk of cancer depends on duration and level of exposure.   |
| Mutagenicity                  | : No known significant effects or critical hazards.  |
| Reproductive toxicity         | : No known significant effects or critical hazards.  |
| Other information             | : Not available.   |

Prolonged or repeated contact may dry skin and cause irritation. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapour/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing.

## 11.2 Information on other hazards

11.2.1 Endocrine disrupting properties Not available.

11.2.2 Other information

Not available.

# SECTION 12: Ecological information

## 12.1 Toxicity

| Product/ingredient name                 | Result                               | Species                                  | Exposure |

## 12.3 Bioaccumulative potential

| Product/ingredient name | LogPow | BCF         | Potential |
|-------------------------|--------|-------------|-----------|
| 4-methylpentan-2-one    | 1.9    | -           | Low       |
| xylene                  | 3.12   | 7.4 to 18.5 | Low       |
| 1-methoxy-2-propanol    | <1     | -           | Low       |
| ethylbenzene            | 3.6    | 79.43       | Low       |

## 12.4 Mobility in soil

| Soil/water partition | : Not available. |
|----------------------|------------------|
| coefficient (Koc)    |                  |
| Mobility             | : Not available. |

## 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

## 12.6 Endocrine disrupting properties

Not available.

## 12.7 Other adverse effects

No known significant effects or critical hazards.

## **SECTION 13: Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

## 13.1 Waste treatment methods

| Product                |   |
|------------------------|---|
| Methods of disposal    | : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. |
| Hazardous waste        | : Yes.  |
| European waste catalog | <u>jue (EWC)</u>  |

| Waste code          | Waste designation  |
|---------------------|--|
| 08 01 11*           | waste paint and varnish containing organic solvents or other hazardous substances  |
| Packaging           |  |
| Methods of disposal | : The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. |
