# **SAFETY DATA SHEET**

Date of issue/Date of revision4 December 2024Version 2.01

| Section 1. Identification           |  |
|-------------------------------------|--|
| Product name                        | : PPG PITT-CHAR CF-1 SCRIM MESH  |
| Product code                        | : 00473461   |
| Other means of<br>identification    | : Not available.   |
| Product type                        | : Powder.  |
| Relevant identified uses of         | the substance or mixture and uses advised against  |
| Product use                         | : Professional applications.   |
| Use of the substance/<br>mixture    | : Coating.   |
| Uses advised against                | : Not applicable.  |
| Manufacturer<br>Emergency telephone | <ul> <li>PPG Industries, Inc.</li> <li>One PPG Place</li> <li>Pittsburgh, PA 15272</li> <li>: (412) 434-4515 (U.S.)</li> </ul>       |
| number                              | (514) 645-1320 (Canada)<br>SETIQ Interior de la República: 800-00-214-00 (México)<br>SETIQ Ciudad de México: (55) 5559-1588 (México) |
| <b>Technical Phone Number</b>       | : 888-977-4762   |

## Section 2. Hazards identification

| OSHA/HCS status                            | <ul> <li>This material is considered hazardous by the OSHA Hazard Communication Standard<br/>(29 CFR 1910.1200).</li> </ul>                            |
|--|--|
| Classification of the substance or mixture | : COMBUSTIBLE DUSTS<br>EYE IRRITATION - Category 2A<br>SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract<br>irritation) - Category 3 |
|  | Percentage of the mixture consisting of ingredient(s) of unknown acute toxicity: 99.5% (oral), 99.5% (dermal), 99.5% (inhalation)                      |
| GHS label elements                         |  |
| Hazard pictograms                          |  |
| Signal word                                | : Warning  |

Product name PPG PITT-CHAR CF-1 SCRIM MESH

### Section 2. Hazards identification

| Hazard statements                   | : Causes serious eye irritation.<br>May cause respiratory irritation.<br>May form combustible dust concentrations in air.  |
|-------------------------------------|--|
| Precautionary statements            |  |
| Prevention                          | : Wear eye or face protection. Use only outdoors or in a well-ventilated area. Avoid breathing dust or mist. Wash thoroughly after handling.   |
| Response                            | : IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor if you feel unwell. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.  |
| Storage                             | : Store locked up. Store in a well-ventilated place. Keep container tightly closed.  |
| Disposal                            | <ul> <li>Dispose of contents and container in accordance with all local, regional, national and<br/>international regulations.</li> </ul>  |
| Supplemental label<br>elements      | : Keep container tightly closed. Keep away from heat, sparks, open flames and hot<br>surfaces No smoking. Prevent dust accumulation. Emits toxic fumes when heated.<br>DANGER - RAGS, STEEL WOOL OR WASTE SOAKED WITH THIS PRODUCT MAY<br>SPONTANEOUSLY CATCH FIRE IF IMPROPERLY DISCARDED. IMMEDIATELY<br>AFTER EACH USE, PLACE RAGS, STEEL WOOL OR WASTE IN A SEALED WATER-<br>FILLED METAL CONTAINER. |
| Hazards not otherwise<br>classified | : Fine dust clouds may form explosive mixtures with air. Handling and/or processing of this material may generate a dust which can cause mechanical irritation of the eyes, skin, nose and throat.   |

### Section 3. Composition/information on ingredients

| Substance/mixture | : Mixture                      |    |
|-------------------|--------------------------------|----|
| Product name      | : PPG PITT-CHAR CF-1 SCRIM MES | SH |

| Ingredient name | %   | CAS number |
|-----------------|-----|------------|
| Farbon          | ≥90 | 7440-44-0  |

SUB codes represent substances without registered CAS Numbers.

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

If ingestion, irritation, any type of overexposure or symptoms of overexposure occur during or persists after use of this product, contact a POISON CONTROL CENTER, EMERGENCY ROOM OR PHYSICIAN immediately; have Safety Data Sheet information available. Never give anything by mouth to an unconscious or convulsing person.

#### Description of necessary first aid measures

Eye contact

: Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice.

### Product name PPG PITT-CHAR CF-1 SCRIM MESH

### Section 4. First aid measures

| Inhalation               | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |
|--------------------------|--|
| Skin contact             | : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water<br>or use recognized skin cleanser. Do NOT use solvents or thinners.  |
| Ingestion                | <ul> <li>If swallowed, seek medical advice immediately and show this container or label. Keep<br/>person warm and at rest. Do NOT induce vomiting.</li> </ul>                                    |
| Most important sympton   | ns/effects, acute and delayed  |
| Potential acute health e | effects  |

| Fotential acute fiealth en |   |
|----------------------------|---|
| Eye contact                | : Causes serious eye irritation.                    |
| Inhalation                 | : May cause respiratory irritation.                 |
| Skin contact               | : No known significant effects or critical hazards. |
| Ingestion                  | : No known significant effects or critical hazards. |

#### **Over-exposure signs/symptoms**

| Eye contact  | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness |
|--------------|--|
| Inhalation   | : Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing  |
| Skin contact | : No specific data.  |
| Ingestion    | : No specific data.  |

#### Indication of immediate medical attention and special treatment needed, if necessary

| Notes to physician         | : Treat symptomatically. Contact poison treatment specialist immediately if large<br>quantities have been ingested or inhaled.   |
|----------------------------|--|
| Specific treatments        | : No specific treatment.   |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. |

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

| Extinguishing media                        |   |
|--|---|
| Suitable extinguishing media               | : Use dry chemical powder.  |
| Unsuitable extinguishing media             | : Avoid high pressure media which could cause the formation of a potentially explosible dust-air mixture. |
| Specific hazards arising from the chemical | : Fine dust clouds may form explosive mixtures with air.  |

#### Product name PPG PITT-CHAR CF-1 SCRIM MESH

### Section 5. Fire-fighting measures

| Hazardous thermal decomposition products       | : | Decomposition products may include the following materials: carbon oxides  |
|--|---|--|
| Special protective actions for fire-fighters   | : | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. |
| Special protective equipment for fire-fighters | 1 | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.  |

### Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

| For non-emergency<br>personnel | <ul> <li>No action shall be taken involving any personal risk or without suitable training.<br/>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br/>entering. Do not touch or walk through spilled material. Shut off all ignition sources.<br/>No flares, smoking or flames in hazard area. Avoid breathing dust. Provide adequate<br/>ventilation. Wear appropriate respirator when ventilation is inadequate. Put on<br/>appropriate personal protective equipment.</li> </ul> |
|--------------------------------|---|
| For emergency responders       | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| Environmental precautions      | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).   |
| Methods and materials for co   | ntainment and cleaning up   |
| Small spill                    | : Move containers from spill area. Use spark-proof tools and explosion-proof equipment.<br>Avoid dust generation. Using a vacuum with HEPA filter will reduce dust dispersal.<br>Place spilled material in a designated, labeled waste container. Dispose of via a<br>licensed waste disposal contractor.   |
| Large spill                    | : Move containers from spill area. Use spark-proof tools and explosion-proof equipment.<br>Approach release from upwind. Prevent entry into sewers, water courses, basements<br>or confined areas. Avoid dust generation. Do not dry sweep. Vacuum dust with<br>equipment fitted with a HEPA filter and place in a closed, labeled waste container.<br>Avoid creating dusty conditions and prevent wind dispersal. Dispose of via a licensed  |

Avoid creating dusty conditions and prevent wind dispersal. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

#### Precautions for safe handling

Protective measures
 Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing dust. Avoid the creation of dust when handling and avoid all possible sources of ignition (spark or flame). Prevent dust accumulation. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Electrical equipment and lighting should be protected to appropriate standards to prevent dust

United States Page: 4/12

#### Product name PPG PITT-CHAR CF-1 SCRIM MESH

## Section 7. Handling and storage

|  | coming into contact with hot surfaces, sparks or other ignition sources. Take<br>precautionary measures against electrostatic discharges. To avoid fire or explosion,<br>dissipate static electricity during transfer by grounding and bonding containers and<br>equipment before transferring material. Empty containers retain product residue and<br>can be hazardous. Do not reuse container.   |
|--|---|
| Special precautions  | : Materials such as cleaning rags, paper wipes and protective clothing, which are contaminated with the product may spontaneously self-ignite some hours later. To avoid the risks of fires, all contaminated materials should be stored in purpose-built containers or in metal containers with tight-fitting, self-closing lids. Contaminated materials should be removed from the workplace at the end of each working day and be stored outside.  |
| Advice on general<br>occupational hygiene                          | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |
| Conditions for safe storage,<br>including any<br>incompatibilities | : Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. |

### Section 8. Exposure controls/personal protection

#### **Control parameters**

#### **Occupational exposure limits**

| Ingredient name  |  | Exp  | Exposure limits                               |  |
|--|--|--|---|--|
| <mark>∉</mark> arbon   |  | ACGIH TLV (United States)<br>TWA: 10 mg/m <sup>3</sup> (Inhalable).<br>TWA: 3 mg/m <sup>3</sup> (Respirable dust). |   |  |

# procedures

**Recommended monitoring** : Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

Product name PPG PITT-CHAR CF-1 SCRIM MESH

## Section 8. Exposure controls/personal protection

| Appropriate engineering controls | : Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor<br>or mist, use process enclosures, local exhaust ventilation or other engineering controls<br>to keep worker exposure to airborne contaminants below any recommended or statutory<br>limits. The engineering controls also need to keep gas, vapor or dust concentrations<br>below any lower explosive limits. Use explosion-proof ventilation equipment.   |  |  |
|----------------------------------|--|--|--|
| Environmental exposure controls  | : Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process equipment<br>will be necessary to reduce emissions to acceptable levels.  |  |  |
| Individual protection meas       | <u>ures</u>  |  |  |
| Hygiene measures                 | : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.  |  |  |
| Eye/face protection              | : Chemical splash goggles.   |  |  |
| Skin protection                  |  |  |  |
| Hand protection                  | Chemical-resistant, impervious gloves complying with an approved standard should be<br>worn at all times when handling chemical products if a risk assessment indicates this is<br>necessary. Considering the parameters specified by the glove manufacturer, check<br>during use that the gloves are still retaining their protective properties. It should be<br>noted that the time to breakthrough for any glove material may be different for different<br>glove manufacturers. In the case of mixtures, consisting of several substances, the<br>protection time of the gloves cannot be accurately estimated. |  |  |
| Body protection                  | : Personal protective equipment for the body should be selected based on the task beir performed and the risks involved and should be approved by a specialist before handling this product.   |  |  |
| Other skin protection            | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |  |  |
| Respiratory protection           | : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. The respiratory protection shall be in accordance to 29 CFR 1910.134.   |  |  |

## Section 9. Physical and chemical properties

## Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.  |
|------------------------------------|---|
| Chemical stability                 | : The product is stable.  |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.   |
| Conditions to avoid                | : When exposed to high temperatures may produce hazardous decomposition products.<br>Refer to protective measures listed in sections 7 and 8. |
| Incompatible materials             | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.              |
| Hazardous decomposition products   | : Depending on conditions, decomposition products may include the following materials: carbon oxides  |

Product name PPG PITT-CHAR CF-1 SCRIM MESH

## Section 11. Toxicological information

#### Information on toxicological effects

| Acute toxicity            |  |
|---------------------------|--|
| <b>Conclusion/Summary</b> | : There are no data available on the mixture itself. |
| Irritation/Corrosion      |  |
| Conclusion/Summary        |  |
| Skin                      | : There are no data available on the mixture itself. |
| Eyes                      | : There are no data available on the mixture itself. |
| Respiratory               | : There are no data available on the mixture itself. |
| Sensitization             |  |
| Conclusion/Summary        |  |
| Skin                      | : There are no data available on the mixture itself. |
| Respiratory               | : There are no data available on the mixture itself. |
| <b>Mutagenicity</b>       |  |
| <b>Conclusion/Summary</b> | : There are no data available on the mixture itself. |
| <b>Carcinogenicity</b>    |  |
| <b>Conclusion/Summary</b> | : There are no data available on the mixture itself. |
| Reproductive toxicity     |  |
| <b>Conclusion/Summary</b> | : There are no data available on the mixture itself. |
| <b>Teratogenicity</b>     |  |
| <b>Conclusion/Summary</b> | : There are no data available on the mixture itself. |
| Specific target organ tox | <u>icity (single exposure)</u>                       |
|                           |  |

| Name   | •••        | Route of exposure | Target organs                |
|--------|------------|-------------------|------------------------------|
| carbon | Category 3 | -                 | Respiratory tract irritation |

#### Specific target organ toxicity (repeated exposure)

Not available.

**Target organs** 

: Contains material which may cause damage to the following organs: lungs, cardiovascular system, upper respiratory tract.

#### Aspiration hazard

Not available.

#### Information on the likely routes of exposure

#### Potential acute health effects

| Eye contact  | : Causes serious eye irritation.                    |
|--------------|---|
| Inhalation   | : May cause respiratory irritation.                 |
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion    | : No known significant effects or critical hazards. |

#### **Over-exposure signs/symptoms**

Product name PPG PITT-CHAR CF-1 SCRIM MESH

## Section 11. Toxicological information

|                                |      | 0  |
|--------------------------------|------|--|
| Eye contact                    |      | Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness   |
| Inhalation                     |      | Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing  |
| Skin contact                   | 1    | No specific data.  |
| Ingestion                      | :    | No specific data.  |
| Delayed and immediate effec    | ts a | and also chronic effects from short and long term exposure   |
| Conclusion/Summary             |      | There are no data available on the mixture itself. Repeated exposure of the eyes to a low level of dust can produce eye irritation. Repeated or prolonged inhalation of dust may lead to chronic respiratory irritation. Ingestion may cause nausea, diarrhea and vomiting. This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact. |
| Short term exposure            |      |  |
| Potential immediate<br>effects | :    | There are no data available on the mixture itself.   |
| Potential delayed effects      | :    | There are no data available on the mixture itself.   |
| Long term exposure             |      |  |
| Potential immediate<br>effects | :    | There are no data available on the mixture itself.   |
| Potential delayed effects      | :    | There are no data available on the mixture itself.   |
| Potential chronic health effe  | ects |  |
| General                        | 1    | Repeated or prolonged inhalation of dust may lead to chronic respiratory irritation.   |
| Carcinogenicity                | 1    | No known significant effects or critical hazards.  |
| Mutagenicity                   | 1    | No known significant effects or critical hazards.  |
| Reproductive toxicity          | :    | No known significant effects or critical hazards.  |
|                                |      |  |

## Section 12. Ecological information

#### **Toxicity**

Not available.

#### Persistence and degradability

Not available.

#### **Bioaccumulative potential**

Not available.

Product name PPG PITT-CHAR CF-1 SCRIM MESH

## Section 12. Ecological information

Mobility in soil Soil/water partition coefficient (Koc)

: Not available.

## Section 13. Disposal considerations

**Disposal methods** 

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures
