SAFETY DATA SHEET

PPG

Date of issue/Date of revision 11 December 2024

Version2.01

Section 1. Identification

Product code	: 00476647
Product name	: SIGMAPRIME 200 K BASE GREY 9515
CAS number	: Not applicable.
EC number	: Mixture.
Product type	: Liquid.
Relevant identified uses	of the substance or mixture and uses advised against
Product use	Coating. Professional applications, Used by spraying.
Uses advised against	: Product is not intended, labelled or packaged for consumer use.
Supplier's details	: PPG Yung Chi Coatings Co. Ltd Lot 219, Amata Street, Long Binh IZ Bien Hoa City, Dong Nai Province Vietnam Tel : +84 61 3936121/22
Emergency telephone number (with hours of operation)	: CHEMTREC +(84)-444581938 (CCN 17704)

Section 2. Hazards identification

	Viet Nam Page: 1/13
Signal word	: Warning
Hazard pictograms	
GHS label elements	
	Percentage of the mixture consisting of ingredient(s) of unknown hazards to the aquatic environment: 71.9%
	Percentage of the mixture consisting of ingredient(s) of unknown acute inhalation toxicity: 69.4%
	toxicity: 59.4%
	AQUATIC TOXICITY (CHRONIC) - Category 3 Percentage of the mixture consisting of ingredient(s) of unknown acute dermal
	irritation) - Category 3 AQUATIC TOXICITY (ACUTE) - Category 3
	SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract
	EYE IRRITATION - Category 2A SKIN SENSITIZATION - Category 1
	SKIN IRRITATION - Category 2
substance or mixture	ACUTE TOXICITY (dermal) - Category 5 ACUTE TOXICITY (inhalation) - Category 4
Classification of the	: FLAMMABLE LIQUIDS - Category 3

Product code 00476647

Product name SIGMAPRIME 200 K BASE GREY 9515

Section 2. Hazards identification

Hazard statements:Flammable liquid and vapor. May be harmful in contact with skin. Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation. Harmful if inhaled. May cause respiratory irritation. Harmful to aquatic life with long lasting effects.Precautionary statements:Precautionary statementsPrevention:Wear protective gloves, protective clothing and eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Avoid breathing vapor. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace.Response:IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor if you feel unwell. If Skin irritation or rash occurs: Get medical advice or attention. If IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.Storage:Store locked up. Store in a well-ventilated place. Keep container tightly closed.Disposal:Not available.Routes of entry:Not available.Other hazards which do not result in classification:Prolonged or repeated contact may dry skin and cause irritation.			
Prevention: Wear protective gloves, protective clothing and eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Avoid breathing vapor. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace.Response: IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor if you feel unwell. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. IF ON SKIN: Call a POISON CENTER or doctor if you feel unwell. If skin irritation or rash occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.Storage: Store locked up. Store in a well-ventilated place. Keep container tightly closed.Disposal: Dispose of contents and container in accordance with all local, regional, national and international regulations.Routes of entry: Not available.Other hazards which do not: Prolonged or repeated contact may dry skin and cause irritation.	Hazard statements	:	May be harmful in contact with skin. Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation. Harmful if inhaled. May cause respiratory irritation.
Response: IF INHALED: Remove person to fresh air and keep comfortable for breathing. Contaminated work clothing should not be allowed out of the workplace.Response: IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor if you feel unwell. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. IF ON SKIN: Call a POISON CENTER or doctor if you feel unwell. If skin irritation or rash occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.Storage: Store locked up. Store in a well-ventilated place. Keep container tightly closed.Disposal: Dispose of contents and container in accordance with all local, regional, national and international regulations.Routes of entry: Not available.Other hazards which do not: Prolonged or repeated contact may dry skin and cause irritation.	Precautionary statements		
 a POISON CENTER or doctor if you feel unwell. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. IF ON SKIN: Call a POISON CENTER or doctor if you feel unwell. If skin irritation or rash occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. Storage Store locked up. Store in a well-ventilated place. Keep container tightly closed. Disposal Store of contents and container in accordance with all local, regional, national and international regulations. Routes of entry Not available. Prolonged or repeated contact may dry skin and cause irritation. 	Prevention	:	from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Avoid breathing vapor. Wash thoroughly after handling.
Disposal : Dispose of contents and container in accordance with all local, regional, national and international regulations. Routes of entry : Not available. Other hazards which do not : Prolonged or repeated contact may dry skin and cause irritation.	Response	:	a POISON CENTER or doctor if you feel unwell. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. IF ON SKIN: Call a POISON CENTER or doctor if you feel unwell. If skin irritation or rash occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye
Routes of entry: Not available.Other hazards which do not: Prolonged or repeated contact may dry skin and cause irritation.	Storage	:	Store locked up. Store in a well-ventilated place. Keep container tightly closed.
Other hazards which do not : Prolonged or repeated contact may dry skin and cause irritation.	Disposal	:	
Other hazards which do not : Prolonged or repeated contact may dry skin and cause irritation.	Routes of entry	:	Not available.
	Other hazards which do not	:	Prolonged or repeated contact may dry skin and cause irritation.

Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

CAS number/other identifiers

CAS number: Not applicable.EC number: Mixture.			
Ingredient name	CAS number	Chemical formula	%
Talc , not containing asbestiform fibres	14807-96-6	H2-03-Si.3/4Mg	≥25 - ≤50
Epoxy Resin (700 <mw<=1100)< td=""><td>25036-25-3</td><td>(C21H24O4. C15H16O2)x</td><td>≥10 - ≤24</td></mw<=1100)<>	25036-25-3	(C21H24O4. C15H16O2)x	≥10 - ≤24
xylene	1330-20-7	C8-H10	≤10
Solvent naphtha (petroleum), heavy arom.	64742-94-5	-	≤10
ethylbenzene	100-41-4	C8-H10	≤8.1
1-methoxy-2-propanol	107-98-2	C4-H10-O2	≤3
Phenol, styrenated	61788-44-1	-	≤2.1
2-methylpropan-1-ol	78-83-1	C4-H10-O	≤1.5

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

SUB codes represent substances without registered CAS Numbers.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary fi	aid measures
Eye contact	Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice.
Inhalation	 Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing i irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.
Skin contact	Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.
Ingestion	If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting.
Most important symptoms/	cts, acute and delayed
Potential acute health effe	
Eye contact	Causes serious eye irritation.
Inhalation	Harmful if inhaled. May cause respiratory irritation.
Skin contact	May be harmful in contact with skin. Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction.
Ingestion	No known significant effects or critical hazards.
Over-exposure signs/sym	<u>ns</u>
Eye contact	Adverse symptoms may include the following: pain or irritation watering redness
Inhalation	Adverse symptoms may include the following: respiratory tract irritation coughing
Skin contact	Adverse symptoms may include the following: irritation redness dryness cracking
Ingestion	No specific data.
Indication of immediate me	al attention and special treatment needed, if necessary
Notes to physician	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	No specific treatment.
Protection of first-aiders	No action shall be taken involving any personal risk or without suitable training. If is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person

providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing

thoroughly with water before removing it, or wear gloves.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use dry chemical, CO ₂ , water spray (fog) or foam.
Unsuitable extinguishing media	: Do not use water jet.
Specific hazards arising from the chemical	: Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. This material is harmful to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.
Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon oxides metal oxide/oxides
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

contractor.

For non-emergency personnel	:	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders	:	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions	:	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.
Methods and materials for co	nt	ainment and cleaning up
Small spill	:	Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble.

Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal

Section 6. Accidental release measures

Large spill : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with noncombustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling	L	
Protective measures	:	Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container.
Advice on general occupational hygiene	:	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	:	Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Section 8. Exposure controls/personal protection

Control parameters

Ingredient name	Exposure limits	
Talc , not containing asbestiform fibres	Ministry of Health (Viet Nam, 6/2019) TWA 8 hours: 3 mg/m ³ . Form: inhalable dust. TWA 8 hours: 1 mg/m ³ . Form: respirable dust. TWA 8 hours: 2 mg/m ³ . Form: total dust concentration.	
xylene	Ministry of Health (Viet Nam, 6/2019)	

Section 8. Exposure controls/personal protection

•		[xylene]		
		TWA 8 hours: 100 mg/m ³ .		
		STEL 15 minutes: 300 mg/m ³ .		
ethylbenzene		ACGIH TLV (United States, 7/2023)		
		Ototoxicant.		
		TWA 8 hours: 20 ppm.		
1-methoxy-2-propanol		ACGIH TLV (United States, 7/2023)		
		TWA 8 hours: 50 ppm.		
		TWA 8 hours: 184 mg/m ³ .		
		STEL 15 minutes: 100 ppm.		
		STEL 15 minutes: 369 mg/m ³ .		
2-methylpropan-1-ol		Ministry of Health (Viet Nam, 6/2019)		
		[butanols]		
		TWA 8 hours: 150 mg/m ³ .		
		STEL 15 minutes: 250 mg/m ³ .		
Recommended monitoring procedures	:	Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.		
Appropriate engineering	:	Use only with adequate ventilation. Use process enclosures, local exhaust		
controls		ventilation or other engineering controls to keep worker exposure to airborne		
		contaminants below any recommended or statutory limits. The engineering controls		
		also need to keep gas, vapor or dust concentrations below any lower explosive		
		limits. Use explosion-proof ventilation equipment.		
Environmental exposure	1	Emissions from ventilation or work process equipment should be checked to ensure		
controls		they comply with the requirements of environmental protection legislation. In some		
		cases, fume scrubbers, filters or engineering modifications to the process		
		equipment will be necessary to reduce emissions to acceptable levels.		
Individual protection measu	res			
Hygiene measures		Wash hands, forearms and face thoroughly after handling chemical products, before		
33 1 1 1 1 1 1 1 1 1 1		eating, smoking and using the lavatory and at the end of the working period.		
		Appropriate techniques should be used to remove potentially contaminated clothing.		
		Contaminated work clothing should not be allowed out of the workplace. Wash		
		contaminated clothing before reusing. Ensure that eyewash stations and safety		
		showers are close to the workstation location.		
Eye/face protection	1	Chemical splash goggles.		
Skin protection				
Hand protection	۰.	Chemical-resistant, impervious gloves complying with an approved standard should		
hand protection	1	be worn at all times when handling chemical products if a risk assessment indicates		
		this is necessary. Considering the parameters specified by the glove manufacturer,		
		check during use that the gloves are still retaining their protective properties. It		
		should be noted that the time to breakthrough for any glove material may be		
		different for different glove manufacturers. In the case of mixtures, consisting of		
		several substances, the protection time of the gloves cannot be accurately		
		estimated.		
Gloves	:	butyl rubber		
Body protection	:	Personal protective equipment for the body should be selected based on the task		
		being performed and the risks involved and should be approved by a specialist		
		before handling this product. When there is a risk of ignition from static electricity,		
		wear anti-static protective clothing. For the greatest protection from static		
		discharges, clothing should include anti-static overalls, boots and gloves.		
		Viet Nam Page: 6/1		

Product code 00476647

Product name SIGMAPRIME 200 K BASE GREY 9515

Section 8. Exposure controls/personal protection

Other skin protection	: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	: Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.

Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.

Section 10. Stability and reactivity

Conditions to avoid	:	When exposed to high temperatures may produce hazardous decomposition products.
Incompatible materials	;	Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.
Hazardous decomposition products	:	Depending on conditions, decomposition products may include the following materials: carbon oxides metal oxide/oxides

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

Numerical measures of toxicity

Acute toxicity estimates

Reproductive toxicity

Route	ATE value	
Oral	6330.84 mg/kg	
Dermal	3076.66 mg/kg	
Inhalation (vapors)	26.85 mg/l	
Inhalation (dusts and mists)	3.06 mg/l	

: No known significant effects or critical hazards.

Other information

Prolonged or repeated contact may dry skin and cause irritation. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing.

Soil/water partition coefficient (Koc)	: Not available.

Other adverse effects

: No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods :	The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
