# **SAFETY DATA SHEET**

Date of issue/Date of revision15 January 2025Version 7

| Section 1. Identification                                  |   |  |
|--|---|--|
| Product code   | : 00280777  |  |
| Product name   | : AMERCOAT 450 E RESIN WINDOW GREY  |  |
| Product type   | : Liquid.   |  |
| Relevant identified uses o                                 | f the substance or mixture and uses advised against   |  |
| Product use  | Coating.<br>Professional applications, Used by spraying.  |  |
| Supplier's details   | : PPG Industries (Singapore) Pte. Ltd., No. 1 Tuas Basin Close, Singapore 638803.<br>Tel +65 68653737 |  |
| Emergency telephone<br>number (with hours of<br>operation) | : CHEMTREC +(65)-31581349 (CCN 17704)   |  |

| Classification of the substance or mixture | : FLAMMABLE LIQUIDS - Category 3<br>SKIN SENSITIZATION - Category 1   |
|--|---|
|  | SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Narcotic effects) - |
|  | Category 3  |

GHS label elements, including precautionary statements

÷.

#### Hazard pictograms

| Signal word<br>Hazard statements | Varning<br>Tammable liquid and vapor.<br>May cause an allergic skin reaction.<br>May cause drowsiness or dizziness.  |           |
|----------------------------------|--|-----------|
|                                  | hay cause drowsiness of dizziness.   |           |
| Precautionary statements         |  |           |
| Prevention                       | $\overline{N}$ ear protective gloves. Keep away from heat, hot surfaces, sparks, op<br>and other ignition sources. No smoking. Avoid breathing vapor.  | en flames |
| Response                         | INHALED: Call a POISON CENTER or doctor if you feel unwell. IF C<br>Vash with plenty of water. If skin irritation or rash occurs: Get medical<br>attention. Take off contaminated clothing and wash it before reuse. |           |
| Storage                          | fore in a well-ventilated place. Keep container tightly closed.  |           |

Product code 00280777

Product name AMERCOAT 450 E RESIN WINDOW GREY

Date of issue 15 January 2025 Version 7

### Section 2. Hazards identification

Disposal

: Not applicable.

**Other hazards which do not** : **P**rolonged or repeated contact may dry skin and cause irritation. **result in classification** 

### Section 3. Composition/information on ingredients

Substance/mixture : Mixture

#### CAS number/other identifiers

| CAS number : Not applicable.                     |            |            |
|--|------------|------------|
| EC number : Mixture.                             |            |            |
| Ingredient name                                  | %          | CAS number |
| p-butyl acetate                                  | 10 - <20   | 123-86-4   |
| 2-methoxy-1-methylethyl acetate                  | 10 - <20   | 108-65-6   |
| xylene   | 5 - <10    | 1330-20-7  |
| Defoamer   | 1 - <3     | SUB100145  |
| ethylbenzene                                     | 1 - <3     | 100-41-4   |
| bis(1,2,2,6,6-pentamethyl-4-piperidyl) sebacate  | 0.1 - <0.3 | 41556-26-7 |
| Fatty acids, C14-18 and C16-18-unsatd., maleated | 0.1 - <0.3 | 85711-46-2 |
| methyl methacrylate                              | 0.1 - <0.3 | 80-62-6    |
| 2-hydroxyethyl methacrylate                      | 0.1 - <0.3 | 868-77-9   |
| maleic anhydride                                 | <0.1       | 108-31-6   |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

### Section 4. First aid measures

| Eye contact  | <ul> <li>sary first aid measures</li> <li>Remove contact lenses, irrigate copiously with clean, fresh water, holding the</li> </ul>  |
|--------------|--|
| Lyccontact   | eyelids apart for at least 10 minutes and seek immediate medical advice.   |
| Inhalation   | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |
| Skin contact | : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.   |
| Ingestion    | <ul> <li>If swallowed, seek medical advice immediately and show this container or label.</li> <li>Keep person warm and at rest. Do NOT induce vomiting.</li> </ul>                               |

| Potential acute health | n effects   |
|------------------------|---|
| Eye contact            | : No known significant effects or critical hazards.                                     |
| Inhalation             | : Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness. |

| Singapore | English (US) | Page: 2/14 |
|-----------|--------------|------------|
|-----------|--------------|------------|

Date of issue 15 January 2025 Version 7

#### Product name AMERCOAT 450 E RESIN WINDOW GREY

| Section 4. First aid measures  |   |  |  |
|--|---|--|--|
| Skin contact   | : Defatting to the skin. May cause skin dryness and irritation. May cause an allergic skin reaction.  |  |  |
| Ingestion  | : 🔀an cause central nervous system (CNS) depression.  |  |  |
| Over-exposure signs/symp   | <u>ptoms</u>  |  |  |
| Eye contact  | : No specific data.   |  |  |
| Inhalation   | : Adverse symptoms may include the following:<br>nausea or vomiting<br>headache<br>drowsiness/fatigue<br>dizziness/vertigo<br>unconsciousness   |  |  |
| Skin contact   | : Adverse symptoms may include the following:<br>irritation<br>redness<br>dryness<br>cracking   |  |  |
| Ingestion  | : No specific data.   |  |  |
| Indication of immediate medical attention and special treatment needed, if necessary |   |  |  |
| Notes to physician   | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul>   |  |  |
| Specific treatments  | : No specific treatment.  |  |  |
| Protection of first-aiders   | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |  |  |

#### See toxicological information (Section 11)

# Section 5. Fire-fighting measures

| Extinguishing media                        |   |
|--|---|
| Suitable extinguishing media               | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.  |
| Unsuitable extinguishing media             | : Do not use water jet.   |
| Specific hazards arising from the chemical | : Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard.<br>In a fire or if heated, a pressure increase will occur and the container may burst, with<br>the risk of a subsequent explosion. |
| Hazardous thermal decomposition products   | : Decomposition products may include the following materials:<br>carbon oxides<br>sulfur oxides<br>metal oxide/oxides   |

Date of issue 15 January 2025 Version 7

Product name AMERCOAT 450 E RESIN WINDOW GREY

### Section 5. Fire-fighting measures

| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. |
|--|--|
| Special protective equipment for fire-fighters | <ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained<br/>breathing apparatus (SCBA) with a full face-piece operated in positive pressure<br/>mode.</li> </ul>  |

# Section 6. Accidental release measures

| Personal precautions, protect  | ve equipment and emergency procedures   |
|--------------------------------|---|
| For non-emergency<br>personnel | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Shut off all ignition sources.<br>No flares, smoking or flames in hazard area. Avoid breathing vapor or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment. |
| For emergency responders       | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| Environmental precautions      | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).   |
| Methods and materials for co   | tainment and cleaning up  |
| Small spill                    | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.  |

| Large spill | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |
|-------------|--|
|             | energency contact mormation and Section 15 for waste disposal.   |

### Section 7. Handling and storage

#### Precautions for safe handling

| Protective measures  | : Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|--|--|
| Advice on general occupational hygiene                             | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |
| Conditions for safe storage,<br>including any<br>incompatibilities | : Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.  |

### Section 8. Exposure controls/personal protection

#### **Control parameters**

**Occupational exposure limits** 

| Ingredient name | Exposure limits  |
|-----------------|--|
| n-butyl acetate | Workplace Safety and Health Act (Singapore, 2/2006)  |
|                 | PEL (long term) 8 hours: 150 ppm.<br>PEL (long term) 8 hours: 713 mg/m <sup>3</sup> .<br>PEL (short term) 15 minutes: 950 mg/m <sup>3</sup> .<br>PEL (short term) 15 minutes: 200 ppm. |
| xylene          | Workplace Safety and Health Act<br>(Singapore, 2/2006) [Xylene]  |
|                 | PEL (long term) 8 hours: 100 ppm.<br>PEL (long term) 8 hours: 434 mg/m <sup>3</sup> .<br>PEL (short term) 15 minutes: 651 mg/m <sup>3</sup> .<br>PEL (short term) 15 minutes: 150 ppm. |
| ethylbenzene    | Workplace Safety and Health Act (Singapore, 2/2006)  |

Product name AMERCOAT 450 E RESIN WINDOW GREY

# Section 8. Exposure controls/personal protection

|                                     | · · ·   |
|-------------------------------------|---|
| methyl methacrylate                 | PEL (long term) 8 hours: 100 ppm.<br>PEL (long term) 8 hours: 434 mg/m <sup>3</sup> .<br>PEL (short term) 15 minutes: 543 mg/m <sup>3</sup> .<br>PEL (short term) 15 minutes: 125 ppm.<br>Workplace Safety and Health Act<br>(Singapore, 2/2006)<br>PEL (long term) 8 hours: 100 ppm.<br>PEL (long term) 8 hours: 410 mg/m <sup>3</sup> .   |
| maleic anhydride                    | Workplace Safety and Health Act<br>(Singapore, 2/2006)<br>PEL (long term) 8 hours: 0.25 ppm.<br>PEL (long term) 8 hours: 1 mg/m <sup>3</sup> .  |
| Recommended monitoring procedures   | : Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.   |
| Appropriate engineering<br>controls | : Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.   |
| Environmental exposure controls     | : Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels.   |
| Individual protection measure       | <u>S</u>  |
| Hygiene measures                    | : Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Contaminated work clothing should not be allowed out of the workplace. Wash<br>contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location.   |
| Eye/face protection                 | : Safety glasses with side shields.   |
| Skin protection                     |   |
| Hand protection                     | : Chemical-resistant, impervious gloves complying with an approved standard should<br>be worn at all times when handling chemical products if a risk assessment indicates<br>this is necessary. Considering the parameters specified by the glove manufacturer,<br>check during use that the gloves are still retaining their protective properties. It<br>should be noted that the time to breakthrough for any glove material may be<br>different for different glove manufacturers. In the case of mixtures, consisting of<br>several substances, the protection time of the gloves cannot be accurately<br>estimated. |
| Gloves                              | : butyl rubber  |

Product name AMERCOAT 450 E RESIN WINDOW GREY

# Section 8. Exposure controls/personal protection

| -                      | • •  |
|------------------------|--|
| Body protection        | : Personal protective equipment for the body should be selected based on the task<br>being performed and the risks involved and should be approved by a specialist<br>before handling this product. When there is a risk of ignition from static electricity,<br>wear anti-static protective clothing. For the greatest protection from static<br>discharges, clothing should include anti-static overalls, boots and gloves.          |
| Other skin protection  | <ul> <li>Appropriate footwear and any additional skin protection measures should be<br/>selected based on the task being performed and the risks involved and should be<br/>approved by a specialist before handling this product.</li> </ul>  |
| Respiratory protection | : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. |

# Section 9. Physical and chemical properties

| <u>Appearance</u>         |   |  |                         |

# Section 10. Stability and reactivity

|                                    | -   |
|------------------------------------|---|
| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.  |
| Chemical stability                 | : The product is stable.  |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.   |
| Conditions to avoid                | : When exposed to high temperatures may produce hazardous decomposition products.   |
| Incompatible materials             | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.      |
| Hazardous decomposition products   | : Depending on conditions, decomposition products may include the following materials: carbon oxides sulfur oxides metal oxide/oxides |

# Section 11. Toxicological information

#### Information on toxicological effects

#### Acute toxicity

| Product/ingredient name                             | Result                | Species | Dose                    | Exposure |

# Section 11. Toxicological information

| Information on the likely routes of exposure | : Not available.  |
|--|---|
| Potential acute health effect                | ts  |
| Eye contact                                  |   |
| Inhalation                                   | : Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness.   |
| Skin contact                                 | : Defatting to the skin. May cause skin dryness and irritation. May cause an allergic skin reaction.  |
| Ingestion                                    | : 🗹 an cause central nervous system (CNS) depression.   |
| Symptoms related to the ph                   | ysical, chemical and toxicological characteristics  |
| Eye contact                                  | : No specific data.   |
| Inhalation                                   | : Adverse symptoms may include the following:<br>nausea or vomiting<br>headache<br>drowsiness/fatigue<br>dizziness/vertigo<br>unconsciousness   |
| Skin contact                                 | : Adverse symptoms may include the following:<br>irritation<br>redness<br>dryness<br>cracking   |
| Ingestion                                    | : No specific data.   |
| Delayed and immediate effe                   | cts and also chronic effects from short and long term exposure  |
| Short term exposure                          |   |
| Potential immediate effects                  | : Not available.  |
| Potential delayed effects                    | : Not available.  |
| Long term exposure                           |   |
| Potential immediate effects                  | : Not available.  |
| Potential delayed effects                    | : Not available.  |
| Potential chronic health eff                 | ects  |
| General                                      | : Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/<br>or dermatitis. Once sensitized, a severe allergic reaction may occur when<br>subsequently exposed to very low levels. |
| Carcinogenicity                              | : No known significant effects or critical hazards.   |
| Mutagenicity                                 | : No known significant effects or critical hazards.   |
| Reproductive toxicity                        | : No known significant effects or critical hazards.   |

#### Numerical measures of toxicity

| Singapore | English (US) | Page: 10/14 |
|-----------|--------------|-------------|
| Jungaporo | g            |             |

### Section 11. Toxicological information

#### Acute toxicity estimates

| Route                        | ATE value      |
|------------------------------|----------------|
| Øermal                       | 22005.63 mg/kg |
| Inhalation (vapors)          | 86.01 mg/l     |
| Inhalation (dusts and mists) | 11.03 mg/l     |

#### Other information

Prolonged or repeated contact may dry skin and cause irritation. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing.

### Section 12. Ecological information

#### **Toxicity**

| Product/ingredient name         | Result   | Species  | Exposure      |

Other adverse effects : No known significant effects or critical hazards.

### Section 13. Disposal considerations

| Disposal methods | : The generation of waste should be avoided or minimized wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation and<br>any regional local authority requirements. Dispose of surplus and non-recyclable<br>products via a licensed waste disposal contractor. Waste should not be disposed of<br>untreated to the sewer unless fully compliant with the requirements of all authorities<br>with jurisdiction. Waste packaging should be recycled. Incineration or landfill<br>should only be considered when recycling is not feasible. This material and its<br>container must be disposed of in a safe way. Care should be taken when handling<br>emptied containers that have not been cleaned or rinsed out. Empty containers or<br>liners may retain some product residues. Vapor from product residues may create a<br>highly flammable or explosive atmosphere inside the container. Do not cut, weld or<br>grind used containers unless they have been cleaned thoroughly internally. Avoid<br>dispersal of spilled material and runoff and contact with soil, waterways, drains and |
|------------------|--|
|                  | sewers.  |

#### **Additional information**

- UN : This class 3 viscous liquid is not subject to regulation in packagings up to 450 L according to 2.3.2.5.1.
- IMDG : This class 3 viscous liquid is not subject to regulation in packagings up to 450 L according to 2.3.2.5.
- IATA : None identified.

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments

### Section 15. Regulatory information

Singapore - hazardous chemicals under government control

None.

International regulations

Date of issue/Date of

Montreal Protocol

Not listed.

#### Stockholm Convention on Persistent Organic Pollutants

Not listed.
