# **SAFETY DATA SHEET**

Safety Data Sheet according to GB/T 16483-2008 and GB/T 17519-2013

Date of issue/Date of revision 17 January 2025

Version 13.04

# Section 1. Chemical product and company identification

| Product code  | : AT235-9   |  |  |
|---|---|--|--|
| Product name  | : AMERCOAT 235 BLACK 235B9903 RESIN   |  |  |
| Product name  | : AMERCOAT 235 BLACK 235B9903 RESIN   |  |  |
| Product type  | : Liquid.   |  |  |
| Relevant identified uses of the substance or mixture and uses advised against |   |  |  |
| Product use   | : Industrial applications.  |  |  |
| Use of the substance/<br>mixture  | : Coating. Paints. Painting-related materials.  |  |  |
| Uses advised against  | : Not applicable.   |  |  |
| Supplier's details  | : PPG Coatings (Kunshan) Co., Ltd<br>53 Jinyang Road, Lujia Town,<br>215331 Kunshan City, Jiangsu Province, P.R. China<br>Tel: 86 512 57678859 Fax: 86 512 57678857 |  |  |
| Emergency telephone<br>number (with hours of<br>operation)                    | : 00 86 532 83889090  |  |  |

# Section 2. Hazards identification

Classification of the substance or mixture according to GB 13690-2009 and GB 30000-2013

Emergency overview Liquid. Black. Flammable liquid and vapor. Causes skin irritation. May cause an allergic skin reaction. Causes serious eye damage. May cause respiratory irritation. Toxic to aquatic life. Toxic to aquatic life with long lasting effects. Prolonged or repeated contact may dry skin and cause irritation.

IF INHALED: Call a POISON CENTER or doctor if you feel unwell. If skin irritation or rash occurs: Get medical advice or attention. IF IN EYES: Immediately call a POISON CENTER or doctor.

## See Section 12 for environmental precautions.

## Product name AMERCOAT 235 BLACK 235B9903 RESIN

| Section 2. Hazaru                             | Is identification   |
|---|---|
| Classification of the<br>substance or mixture | <ul> <li>FLAMMABLE LIQUIDS - Category 3<br/>SKIN CORROSION/IRRITATION - Category 2<br/>SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 1<br/>SKIN SENSITIZATION - Category 1<br/>SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract<br/>irritation) - Category 3<br/>AQUATIC HAZARD (ACUTE) - Category 2<br/>AQUATIC HAZARD (LONG-TERM) - Category 2</li> <li>Fercentage of the mixture consisting of ingredient(s) of unknown hazards to the<br/>aquatic environment: 47%</li> </ul>                          |
| GHS label elements                            |   |
| Hazard pictograms                             |   |
| Signal word                                   | : Danger  |
| Hazard statements                             | <ul> <li>Flammable liquid and vapor.<br/>Causes skin irritation.</li> <li>May cause an allergic skin reaction.</li> <li>Causes serious eye damage.</li> <li>May cause respiratory irritation.</li> <li>Toxic to aquatic life.</li> <li>Toxic to aquatic life with long lasting effects.</li> </ul>  |
| Precautionary statements                      |   |
| Prevention                                    | : Wear protective gloves, protective clothing and eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use explosion-proof electrical, ventilating or lighting equipment. Use non-sparking tools. Take action to prevent static discharges. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Avoid breathing vapor. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. |
| Response                                      | <ul> <li>Collect spillage. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor if you feel unwell. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. If skin irritation or rash occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor.</li> </ul>             |
| Suitable extinguishing media                  | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.  |
| Storage                                       | : Store locked up. Store in a well-ventilated place. Keep container tightly closed. Keep cool.  |
| Disposal                                      | : Dispose of contents and container in accordance with all local, regional, national and international regulations.   |
| Physical and chemical hazards                 | : Flammable liquid and vapor.   |
| Health hazards                                | : Causes skin irritation. May cause an allergic skin reaction. Causes serious eye damage. May cause respiratory irritation. Prolonged or repeated contact may dry skin and cause irritation.  |
|   |   |

## Section 2. Hazards identification

#### Symptoms related to the physical, chemical and toxicological characteristics

| Eye contact                | : Adverse symptoms may include the following:<br>pain<br>watering<br>redness  |
|----------------------------|---|
| Inhalation                 | : Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing                                     |
| Skin contact               | : Adverse symptoms may include the following:<br>pain or irritation<br>redness<br>dryness<br>cracking<br>blistering may occur |
| Ingestion                  | : Adverse symptoms may include the following: stomach pains   |
| Delayed and immediate ef   | fects and also chronic effects from short and long term expo  |
| <u>Short term exposure</u> |   |
| Potential immediate        | : Not available.  |

| Potential immediate<br>effects                      | : | Not available.  |
|---|---|---|
| Potential delayed effects                           | : | Not available.  |
| Long term exposure                                  |   |   |
| Potential immediate<br>effects                      | : | Not available.  |
| Potential delayed effects                           | : | Not available.  |
| Environmental hazards                               | : | Toxic to aquatic life. Toxic to aquatic life with long lasting effects. |
| Other hazards which do not result in classification | : | Prolonged or repeated contact may dry skin and cause irritation.        |

# Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

## CAS number/other identifiers

| CAS number |
|------------|

Product name AMERCOAT 235 BLACK 235B9903 RESIN

# Section 3. Composition/information on ingredients

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

# Section 4. First aid measures

| Description of necessary first aid measures |  |  |
|---|--|--|
| Eye contact                                 | <ul> <li>Check for and remove any contact lenses. Immediately flush eyes with running<br/>water for at least 15 minutes, keeping eyelids open. Seek immediate medical<br/>attention.</li> </ul>  |  |
| Inhalation                                  | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |  |
| Skin contact                                | : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.   |  |
| Ingestion                                   | : If swallowed, seek medical advice immediately and show this container or label.<br>Keep person warm and at rest. Do NOT induce vomiting.   |  |

#### Most important symptoms/effects, acute and delayed

| Potential acute health e  | <u>ffects</u>   |
|---------------------------|---|
| Eye contact               | : Causes serious eye damage.  |
| Inhalation                | : May cause respiratory irritation.   |
| Skin contact              | : Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction.   |
| Ingestion                 | : No known significant effects or critical hazards.   |
| Over-exposure signs/sy    | <u>mptoms</u>   |
| Eye contact               | : Adverse symptoms may include the following:<br>pain<br>watering<br>redness  |
| Inhalation                | : Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing   |
| Skin contact              | : Adverse symptoms may include the following:<br>pain or irritation<br>redness<br>dryness<br>cracking<br>blistering may occur                     |
| Ingestion                 | : Adverse symptoms may include the following: stomach pains   |
| Indication of immediate r | nedical attention and special treatment needed, if necessary  |
| Notes to physician        | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul> |
| Specific treatments       | : No specific treatment.  |
|                           |   |

## Section 4. First aid measures

| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thereughly with water before removing it or wear along. |
|----------------------------|---|
|                            | thoroughly with water before removing it, or wear gloves.   |

#### See toxicological information (Section 11)

## Section 5. Fire-fighting measures

| Extinguishing media                            |   |
|--|---|
| Suitable extinguishing media                   | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.  |
| Unsuitable extinguishing media                 | : Do not use water jet.   |
| Specific hazards arising from the chemical     | : Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard.<br>In a fire or if heated, a pressure increase will occur and the container may burst, with<br>the risk of a subsequent explosion. This material is toxic to aquatic life with long<br>lasting effects. Fire water contaminated with this material must be contained and<br>prevented from being discharged to any waterway, sewer or drain. |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon oxides<br>halogenated compounds<br>metal oxide/oxides<br>Cyanate and isocyanate.<br>hydrogen cyanide  |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.  |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.   |

## Section 6. Accidental release measures

# Personal precautions, protective equipment and emergency proceduresFor non-emergency<br/>personnel: No action shall be taken involving any personal risk or without suitable training.<br/>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br/>entering. Do not touch or walk through spilled material. Shut off all ignition sources.<br/>No flares, smoking or flames in hazard area. Do not breathe vapor or mist. Provide<br/>adequate ventilation. Wear appropriate respirator when ventilation is inadequate.<br/>Put on appropriate personal protective equipment.For emergency responders: If specialized clothing is required to deal with the spillage, take note of any<br/>information in Section 8 on suitable and unsuitable materials. See also the<br/>information in "For non-emergency personnel".

#### Product name AMERCOAT 235 BLACK 235B9903 RESIN

## Section 6. Accidental release measures

| Environmental precautions | 1 | Avoid dispersal of spilled material and runoff and contact with soil, waterways,     |
|---------------------------|---|--|
|                           |   | drains and sewers. Inform the relevant authorities if the product has caused         |
|                           |   | environmental pollution (sewers, waterways, soil or air). Water polluting material.  |
|                           |   | May be harmful to the environment if released in large quantities. Collect spillage. |

#### Methods and materials for containment and cleaning up **Small spill** : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. Large spill Stop leak if without risk. Move containers from spill area. Use spark-proof tools and • explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with noncombustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

| Precautions for safe :<br>handling                                   | Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|--|---|
| Conditions for safe storage, :<br>including any<br>incompatibilities | Do not store above the following temperature: 50°C (122°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.   |

# Section 8. Exposure controls/personal protection

## **Control parameters**

#### **Occupational exposure limits**

| Ingredient name                             |  | Exposure limits   |  |  |
|---|--|---|--|--|
| <mark>™</mark> alc , not containing asbesti | iform fibres   | GBZ 2.1 (China, 11/2022)<br>PC-TWA 8 hours: 3 mg/m <sup>3</sup> . Form: total<br>dust.<br>PC-TWA 8 hours: 1 mg/m <sup>3</sup> . Form:<br>respirable dust.   |  |  |
| butan-1-ol                                  |  | GBZ 2.1 (China, 11/2022)<br>PC-TWA 8 hours: 100 mg/m <sup>3</sup> .   |  |  |
| 1,2,4-trimethylbenzene                      |  | ACGIH TLV (United States, 7/2023)<br>TWA 8 hours: 10 ppm.   |  |  |
| heptan-2-one                                |  | ACGIH TLV (United States, 7/2023)<br>TWA 8 hours: 50 ppm.<br>TWA 8 hours: 233 mg/m <sup>3</sup> .   |  |  |
| Recommended monitoring procedures           |  | nade to appropriate monitoring standards. Reference to uments for methods for the determination of hazardous e required.  |  |  |
| Appropriate engineering controls            | ventilation or other eng<br>contaminants below ar<br>also need to keep gas,                                    | Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.   |  |  |
| Environmental exposure controls             | they comply with the re<br>cases, fume scrubbers   | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels.   |  |  |
| ndividual protection measu                  | ires   |   |  |  |
| Hygiene measures                            | eating, smoking and us<br>Appropriate techniques<br>Contaminated work clo<br>contaminated clothing             | s and face thoroughly after handling chemical products, before<br>sing the lavatory and at the end of the working period.<br>s should be used to remove potentially contaminated clothing.<br>othing should not be allowed out of the workplace. Wash<br>before reusing. Ensure that eyewash stations and safety<br>ne workstation location.  |  |  |
| Eye protection                              | : Chemical splash goggl  | es and face shield.   |  |  |
| Skin protection                             |  |   |  |  |
| Hand protection                             |  | Chemical-resistant, impervious gloves complying with an approved standard should<br>be worn at all times when handling chemical products if a risk assessment indicates<br>this is necessary. Considering the parameters specified by the glove manufacturer,<br>check during use that the gloves are still retaining their protective properties. It<br>should be noted that the time to breakthrough for any glove material may be<br>different for different glove manufacturers. In the case of mixtures, consisting of<br>several substances, the protection time of the gloves cannot be accurately<br>estimated. |  |  |
|   | check during use that the<br>should be noted that the<br>different for different glues several substances, the | the gloves are still retaining their protective properties. # Section 8. Exposure controls/personal protection

| •                      | -  |
|------------------------|--|
| Body protection        | : Personal protective equipment for the body should be selected based on the task<br>being performed and the risks involved and should be approved by a specialist<br>before handling this product. When there is a risk of ignition from static electricity,<br>wear anti-static protective clothing. For the greatest protection from static<br>discharges, clothing should include anti-static overalls, boots and gloves.          |
| Other skin protection  | <ul> <li>Appropriate footwear and any additional skin protection measures should be<br/>selected based on the task being performed and the risks involved and should be<br/>approved by a specialist before handling this product.</li> </ul>  |
| Respiratory protection | : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. |

# Section 9. Physical and chemical properties

| <u>Appearance</u>                            |  |  |  |
|--|--|--|--|
| Physical state                               | Liquid.  |  |  |
| Color  | Black.   |  |  |
| Boiling point                                | 7.78°C (>100°F)  |  |  |
| Flash point                                  | osed cup: 36.67°C (98°F)   |  |  |
| Evaporation rate                             | 36 (butyl acetate = 1)   |  |  |
| Lower and upper explosive (flammable) limits | Lower: 1%  |  |  |
| Vapor pressure                               | 0.79 kPa (5.9 mm Hg)   |  |  |
| Relative density                             | 41   |  |  |

| Viscosity                                    | /namic (room temperature): Not available.<br>nematic (room temperature): Not available.<br>nematic (40°C): >21 mm²/s |  |  |

# Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.                                     |
|------------------------------------|--|
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.  |
| Conditions to avoid                | : When exposed to high temperatures may produce hazardous decomposition products.  |
| Incompatible materials             | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids. |

## Section 10. Stability and reactivity

Hazardous decomposition products

: Depending on conditions, decomposition products may include the following materials: Cyanate and isocyanate. carbon oxides nitrogen oxides halogenated compounds hydrogen cyanide metal oxide/oxides

# Section 11. Toxicological information

### Information on toxicological effects

#### Acute toxicity

| Product/ingredient name        | Result                | Species | Dose                    | Exposure |
|--------------------------------|-----------------------|---------|-------------------------|----------|
| s-[4-(2,3-epoxipropoxi)phenyl] | LD50 Dermal           | Rabbit  | 23000 mg/kg             | -        |

|   | Skin - Erythema/Eschar             | Rabbit  | 0.8   | 4 hours  | -           |
|   | Skin - Mild irritant               | Rabbit  | -     | 4 hours  | -           |
| 4-nonylphenol, branched                     | Skin - Erythema/Eschar             | Rabbit  | 4     | -        | -           |

#### **Sensitization**

| Product/ingredient name                     | Route of exposure | Species | Result      |
|---|-------------------|---------|-------------|
| bis-[4-(2,3-epoxipropoxi)<br>phenyl]propane | skin              | Mouse   | Sensitizing |

#### **Mutagenicity**

Not available.

#### **Carcinogenicity**

Not available.

#### Reproductive toxicity

Not available.

#### **Teratogenicity**

## Section 11. Toxicological information

#### Not available.

#### Specific target organ toxicity (single exposure)

| Name  | Category   | Route of exposure | Target organs                   |
|---|------------|-------------------|---------------------------------|
| Talc , not containing asbestiform fibres    | Category 3 | -                 | Respiratory tract irritation    |
| n-butanol                                   | Category 3 | -                 | Respiratory tract irritation    |
|   | Category 3 |                   | Narcotic effects                |
| Solvent naphtha (petroleum), light aromatic | Category 3 | -                 | Narcotic effects                |
| Polyisocyanate, Alkyl Phenol Blocked        | Category 3 | -                 | Respiratory tract<br>irritation |
| 1,2,4-trimethylbenzene                      | Category 3 | -                 | Respiratory tract irritation    |

#### Specific target organ toxicity (repeated exposure)

Not available.

#### **Aspiration hazard**

| Name  | Result                         |
|---|--------------------------------|
| Solvent naphtha (petroleum), light aromatic | ASPIRATION HAZARD - Category 1 |

| Information on the likely routes of exposure | : Not available.  |
|--|---|
| Potential acute health effect                | <u>s</u>  |
| Eye contact                                  | : Causes serious eye damage.  |
| Inhalation                                   | : May cause respiratory irritation.   |
| Skin contact                                 | : Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction.   |
| Ingestion                                    | : No known significant effects or critical hazards.   |

#### Other information

Frolonged or repeated contact may dry skin and cause irritation. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing.

## Section 12. Ecological information

|  |                  |  |

**Other adverse effects** : No known significant effects or critical hazards.

## Section 13. Disposal considerations

**Disposal methods** 2 The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

|                                | China   | UN  | IMDG  | ΙΑΤΑ  |
|--------------------------------|---|---|---|---|
| UN number                      | UN1263  | UN1263  | UN1263  | UN1263  |

| Packing group                  | Ш   | Ш   | Ш   | Ш   |
| Environmental<br>hazards       | Yes. The<br>environmentally<br>hazardous substance<br>mark is not required. | Yes. The<br>environmentally<br>hazardous substance<br>mark is not required. | Yes.  | Yes. The<br>environmentally<br>hazardous substance<br>mark is not required. |
| Marine pollutant<br>substances | Not applicable.   | Not applicable.   | (bis-[4-<br>(2,3-epoxipropoxi)<br>phenyl]propane) | Not applicable.   |

## **Additional information**

| CN   | : None identified.   |
|------|--|
| UN   | : None identified.   |
| IMDG | : The marine pollutant mark is not required when transported in sizes of $\leq$ 5 L or $\leq$ 5 kg.        |
| ΙΑΤΑ | : The environmentally hazardous substance mark may appear if required by other transportation regulations. |
|      |  |

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments
