# **SAFETY DATA SHEET**

#### The information in this Safety Data Sheet is required pursuant to Hazardous Product Regulations 2023.

Date of issue/Date of revision 16 February 2025 Version 13

Section 1. Identification		
Product name	: AMERCOAT 428PCLO RAILCAR BLUE RESIN	
Product code	: AT428-419/TT	
Other means of identification	: Not available.	
Product type	: Liquid.	
Relevant identified uses of	the substance or mixture and uses advised against	
Product use	: Industrial applications, Used by spraying.	
Use of the substance/ mixture	: Coating.	
Uses advised against	: Not applicable.	
Supplier	<ul> <li>PPG Architectural Coatings Canada, Inc. 1550, rue Ampère, bureau 500 Boucherville (Québec) J4B 7L4 Canada +1 450-655-3121</li> </ul>	
	PPG Industries, Inc. One PPG Place Pittsburgh, PA 15272	
Emergency telephone number	: (412) 434-4515 (U.S.) (514) 645-1320 (Canada) SETIQ Interior de la República: 800-00-214-00 (México) SETIQ Ciudad de México: (55) 5559-1588 (México)	
Technical Phone Number	: 888-977-4762	

## Section 2. Hazard identification

Classification of the	: SKIN IRRITATION - Category 2
substance or mixture	EYE IRRITATION - Category 2A
	SKIN SENSITIZATION - Category 1
	CARCINOGENICITY - Category 1A
	SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 1
	This product contains TiO2 which has been classified as a GHS Carcinogen
	Category 2 based on its IARC 2B classification. For many products, TiO2 is utilized
	as a raw material in a liquid coating formulation. In this case, the TiO2 particles are
	bound in a matrix with no meaningful potential for human exposure to unbound
	particles of TiO2 when the product is applied with a brush or roller. Sanding the
	coating surface or mist from spray applications may be harmful depending on the
	duration and level of exposure and require the use of appropriate personal
	protective equipment and/or engineering controls (see Section 8).
GHS label elements	

Canada Page: 1/15

Product name AMERCOAT 428PCLO RAILCAR BLUE RESIN

### Section 2. Hazard identification

Hazard pictograms	
Signal word	: Danger
Hazard statements	<ul> <li>Causes skin irritation.</li> <li>May cause an allergic skin reaction.</li> <li>Causes serious eye irritation.</li> <li>May cause cancer.</li> <li>Causes damage to organs through prolonged or repeated exposure.</li> </ul>
Precautionary statements	
Prevention	: Øbtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing and eye or face protection. Do not breathe vapor. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace.
Response	: IF exposed or concerned: Get medical advice or attention. IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice or attention. Take off contaminated clothing and wash it before reuse. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.
Storage	: Store locked up.
Disposal	: Dispose of contents and container in accordance with all local, regional, national and international regulations.
Supplemental label elements	<ul> <li>Sanding and grinding dusts may be harmful if inhaled. This product contains crystalline silica which can cause lung cancer or silicosis. The risk of cancer depends on the duration and level of exposure to dust from sanding surfaces or mist from spray applications. This product either contains formaldehyde or is capable of releasing formaldehyde above 0.5 ppm under certain conditions. Formaldehyde is a known cancer hazard, a skin sensitizer and a respiratory sensitizer. Emits toxic fumes when heated.</li> <li>Fercentage of the mixture consisting of ingredient(s) of unknown acute toxicity: 27.4% (oral), 27.4% (dermal), 92.8% (inhalation)</li> </ul>
Other hazards which do not result in classification	: None known.

## Section 3. Composition/information on ingredients

Substance/mixture	: Mixture
Product name	: AMERCOAT 428PCLO RAILCAR BLUE RESIN
Other means of identification	: Not available.

**CAS number/other identifiers** 

### Product name AMERCOAT 428PCLO RAILCAR BLUE RESIN

## Section 3. Composition/information on ingredients

propane       (4,1-phenyleneoxymethylene)[bisoxirane; Oxirane; 22:(1-methylethyldene)bis (4,1-phenyleneoxymethylene)[bis; Bisphenol A diglycidyl ether; Bisphenol A, diglycidyl ether; Bis-[4-2,3-epoxypropoxy) phenyl]gropane; 2,2-bis[4- (2,3-epoxypropoxy)phenyl]propane; Propane; 2,2-bis[4- (2,3-epoxypropoxy)phenyl]propane bis (2,3-epoxypropoxy)phenyl]bis(oxirane); 2,2-bis (4-hydroxyphenyl) propane bis (2,3-epoxypropy) ether; Araidite quartz; Silica, crystalline (quartz); Silica, Crystalline, Quartz; Silica, Crystalline, Quartz; Silica - Crystalline Quartz; Silica - Crystalline; Quartz; Silica, crystalline quartz; Silica, Crystalline; Quartz; Silica, Crystalline, Quartz; Silica, Crystalline; Quartz; Silica, Crystalline; Quartz; Silica, crystalline; Quartz; Silica, Crystalline; Quartz; Silica, Crystalline; Quartz; Silica, crystalline; Quartz; Silica, Crystalline; Quartz; Silica, Crystalline; (Cyclohexane; 1,4-dis[4]) (Cyclohexane; 1,4-dis[4]) (Cyclohexane; 1,4-dis[4]) (Cyclohexane; 1,4-bis[4]) (Cyclohexane; 1,4-bis[4]) (Cyclohexane; 2,2'(1,4-Cyclohexanedi)) (Cyclohexane; 1,4-bis[4]) (Cyclohexane; 2,2'(1,4-Cyclohexanedi)) (Cyclohexane; 1,4-bis[4]) (Cyclohexane; 2,2'(1,4-Cyclohexanedi)) (Cyclohexane; 2,2'(1,4-Cyclohexanedi)) (Cyclohexane; 1,4-bis[4]) (Cyclohexane; 2,	edient name Sy	ynonyms	% (w/w)	CAS number

### Section 3. Composition/information on ingredients

titanium dioxide	Titanium oxide; Titanium oxide (TiO2); CI	3 - 7*	13463-67-7
	77891; Titanium peroxide; Rutile; C.I.	-	
	Pigment White 6; titanium dioxide coated		
	with isopropoxytitanium triisostearate,		
	containing by weight 1,5 % or more but		
	not more than 2,5 % of		
	isopropoxytitanium triisostearate; glass		
	flakes (CAS RN 65997-17-3): — of a		
	thickness of 0,3 µm or more but not more		
	than 10 $\mu$ m, and — coated with titanium		
	dioxide (CAS RN 13463-67-7) or iron		
	oxide (CAS RN 18282- 10-5); titanium		
	dioxide, other than those of heading 3206		
	11 00; C.I. 77891; E 171; titanium(IV)		
	oxide, other than those of heading 3206		
	11 00		
2,3-epoxypropyl neodecanoate	Neodecanoic acid, 2-oxiranylmethyl ester;	0.1 - 1*	26761-45-5
	Neodecanoic acid, oxiranylmethyl ester;	-	
	Neodecanoic acid, 2,3-epoxypropyl ester;		
	2,3-epoxypropyl neo-decanoate; Oxiran-		
	2-ylmethyl neodecanoate; Oxyranylmethyl		
	neododecanoate; Glycidyl alkanoate (or		
	alkenoate,C5-20); 2,3-epoxypropyl		
	alkanoate(C10, isomer mixture);		
	2,3-epoxypropyl 7,7-dimehyloctanoate;		
	Neodecanoic acid 2,3-epoxypropyl ester;		
	NEODECANOIC ACID, GLYCIDYL		
	ESTER		

Ranges if listed above for hazardous ingredient(s) are prescribed ranges. The actual concentration(s) or actual concentration range(s) are being withheld as a trade secret.

SUB codes represent substances without registered CAS Numbers.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First-aid measures

If ingestion, irritation, any type of overexposure or symptoms of overexposure occur during or persists after use of this product, contact a POISON CONTROL CENTER, EMERGENCY ROOM OR PHYSICIAN immediately; have Safety Data Sheet information available. Never give anything by mouth to an unconscious or convulsing person.

#### Description of necessary first aid measures

Eye contact	<ul> <li>Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice.</li> </ul>
Inhalation	: Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.
Skin contact	<ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.</li> </ul>
Ingestion	: If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting.

### Section 4. First-aid measures

Most important symptoms/effects, acute and delayed			
Potential acute health effects			
Eye contact Inhalation		Causes serious eye irritation. No known significant effects or critical hazards.	
Skin contact		Causes skin irritation. May cause an allergic skin reaction.	
Ingestion	4	No known significant effects or critical hazards.	
Over-exposure signs/symp	ton	<u>15</u>	
Eye contact	:	Adverse symptoms may include the following: pain or irritation watering redness	
Inhalation	1	No specific data.	
Skin contact	:	Adverse symptoms may include the following: irritation redness	
Ingestion	1	No specific data.	
Indication of immediate med	ica	l attention and special treatment needed, if necessary	
Notes to physician	:	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.	
Specific treatments	1	No specific treatment.	
Protection of first-aiders	:	No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.	

#### See toxicological information (Section 11)

## Section 5. Fire-fighting measures

Extinguishing media		
Suitable extinguishing media	:	Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	:	None known.
Specific hazards arising from the chemical	:	In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	:	Decomposition products may include the following materials: carbon oxides metal oxide/oxides Formaldehyde.
Special protective actions for fire-fighters	:	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	:	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
		Canada Page: 5/15

## Section 6. Accidental release measures

Personal precautions, protec	ive equipment and emergency procedures
For non-emergency personnel	: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders	: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions	: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods and materials for co	ntainment and cleaning up
Small spill	: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

Precautions for safe handling	
Protective measures :	Fut on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
Special precautions :	Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. Vapors are heavier than air and may spread along floors. If this material is part of a multiple component system, read the Safety Data Sheet(s) for the other component or components before blending as the resulting mixture may have the hazards of all of its parts.
Advice on general : occupational hygiene	Wash hands thoroughly after handling.

#### Product name AMERCOAT 428PCLO RAILCAR BLUE RESIN

### Section 7. Handling and storage

	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	: Do not store above the following temperature: 50°C (122°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## Section 8. Exposure controls/personal protection

#### **Control parameters**

#### **Occupational exposure limits**

Ingredient name	Exposure limits
pis-[4-(2,3-epoxipropoxi)phenyl]propane crystalline silica, respirable powder (<10 microns)	None.CA Alberta Provincial (Canada, 3/2023)OEL 8 hours: 0.025 mg/m³. Product name AMERCOAT 428PCLO RAILCAR BLUE RESIN

### Section 8. Exposure controls/personal protection

 STEL 15 minutes: 20 mg/m³.

 TWA 8 hours: 10 mg/m³.

 2,3-epoxypropyl neodecanoate

 None.

#### Consult local authorities for acceptable exposure limits.

Recommended monitoring procedures	:	Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.
Appropriate engineering controls	:	Vuser operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.
Environmental exposure controls	:	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measure	<u>s</u>
Hygiene measures	<ul> <li>Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.</li> <li>Appropriate techniques should be used to remove potentially contaminated clothing.</li> <li>Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.</li> </ul>
Eye/face protection	Chemical splash goggles.
Skin protection	
Hand protection	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
Gloves	butyl rubber
Body protection	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.

## **Section 9. Physical and chemical properties**

#### **Appearance**

Physical state	1	Liquid.

## Section 10. Stability and reactivity

		Canada Page: 9/15
Hazardous decomposition products	:	Depending on conditions, decomposition products may include the following materials carbon oxides Formaldehyde. metal oxide/oxides
Incompatible materials	:	Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.
Conditions to avoid	:	When exposed to high temperatures may produce hazardous decomposition products. Refer to protective measures listed in sections 7 and 8.
Possibility of hazardous reactions	:	Under normal conditions of storage and use, hazardous reactions will not occur.
Chemical stability	:	The product is stable.
Reactivity	:	No specific test data related to reactivity available for this product or its ingredients.

## Section 11. Toxicological information

#### Information on toxicological effects

#### **Acute toxicity**

Product/ingredient name	Result	Dose
bis-[4-(2,3-epoxipropoxi)phenyl]propane	Rabbit - Dermal - LD50	23000 mg/kg
	Rat - Oral - LD50	15000 mg/kg
1,4-bis[(2,3-epoxypropoxy)methyl]	Rat - Female - Oral - LD50	1098 mg/kg
cyclohexane		
	Rabbit - Female - Dermal - LD50	>2000 mg/kg
titanium dioxide	Rat - Oral - LD50	>5000 mg/kg
	Rabbit - Dermal - LD50	>5000 mg/kg
	Rat - Inhalation - LC50 Dusts and	>6.82 mg/l [4 hours]
	mists	
2,3-epoxypropyl neodecanoate	Rat - Oral - LD50	9.6 g/kg
	Rat - Dermal - LD50	3800 mg/kg

Product Conclusion	:	There are no data available on the mixture itself.
--------------------	---	--

#### **Skin corrosion/irritation**

Product/ingredient name	Species	Dose	Score
bis-[4-(2,3-epoxipropoxi) phenyl]propane	Rabbit - Skin - Erythema/ Eschar	Duration of treatment/exposure: 4 hours	Irritation score: 0.8
	Rabbit - Skin - Edema	Duration of treatment/exposure: 4 hours	Irritation score: 0.5
	Rabbit - Skin - Mild irritant	Duration of treatment/exposure: 4 hours	-

**Conclusion/Summary** There are no data available on the mixture itself. 1

#### Serious eye damage/eye irritation

Product/ingredient name	Species	Dose	Score
øís-[4-(2,3-epoxipropoxi) phenyl]propane	Rabbit - Eyes - Redness of the conjunctivae Rabbit - Eyes - Mild irritant	Duration of treatment/exposure: 24 hours Duration of treatment/exposure: 24 hours Fully reversible in 7 days or less	Irritation score: 0.4 -

Conclusion/Summary	1.1	There are no data available on the mixture itself.
--------------------	-----	--

#### **Respiratory corrosion/irritation Conclusion/Summary**

	Conclusion/Summary	: Т	There are no data available on the mixture itself.	
<u>S</u>	<u>ensitization</u>			
	Product/ingredient name		Species	Result
	s-[4-(2,3-epoxipropoxi)phenyl]propane		Mouse - skin	Result: Sensitizing

Skin Conclusion/Summary	:	There are no data available on the mixtu	ure itself.
Respiratory Conclusion/Summary		There are no data available on the mixtu	ıre itself
Mutagenicity	-		
Conclusion/Summary Carcinogenicity	:	There are no data available on the mixtu	ure itself.
Conclusion/Summary Classification	:	There are no data available on the mixtu	ure itself.

## Section 11. Toxicological information

Product/ingredient name	OSHA	IARC	NTP	
bis-[4-(2,3-epoxipropoxi)phenyl] - propane		3	-	
	+	1	Known to be a human carcinogen.	
titanium dioxide	-	2B	-	
Carcinogen Classification IARC: 1, 2A, 2 code: NTP: Known OSHA: + Not listed/not	to be a hu		gen; Reasonably anticipated to be a human carcinogen	
Reproductive toxicity				
Conclusion/Summary	: The	re are no d	ata available on the mixture itself.	
Specific target organ toxicity (single	exposur	<u>e)</u>		
Product/ingredient name Result				
Formaldehyde, polymer with 1,3-dimethylbenzene		SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract irritation) - Category 3		
Specific target organ toxicity (repeat	ed expo	sure)		
Product/ingredient name		Result		
vystalline silica, respirable powder (<10 microns)		SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) (inhalation) - Category 1		
Target organs       : Contains material which causes damage to the following organs: liver, spleen, skin, bone marrow.         Contains material which may cause damage to the following organs: kidneys, lungs, upper respiratory tract, immune system, eyes.				

#### Information on the likely routes of exposure

### Potential acute health effects

Eye contact Inhalation	<ul> <li>Causes serious eye irritation.</li> <li>No known significant effects or critical hazards.</li> </ul>
Skin contact Ingestion	<ul> <li>Causes skin irritation. May cause an allergic skin reaction.</li> <li>No known significant effects or critical hazards.</li> </ul>

#### **Over-exposure signs/symptoms**

Eye contact	: Adverse symptoms may include the following: pain or irritation watering redness
Inhalation	: No specific data.
Skin contact	: Adverse symptoms may include the following: irritation redness
Ingestion	: No specific data.
<b>Delayed and immediat</b>	e effects and also chronic effects from short and long term exposure

#### Product name AMERCOAT 428PCLO RAILCAR BLUE RESIN

## Section 11. Toxicological information

Conclusion/Summary	:	There are no data available on the mixture itself. This product either contains formaldehyde or is capable of releasing formaldehyde above 0.5 ppm under certain conditions. Formaldehyde is a known cancer hazard, a skin sensitizer and a respiratory sensitizer. This product contains crystalline silica which can cause lung cancer or silicosis. The risk of cancer depends on the duration and level of exposure to dust from sanding surfaces or mist from spray applications. This product contains TiO2 which has been classified as a GHS Carcinogen Category 2 based on its IARC 2B classification. For many products, TiO2 is utilized as a raw material in a liquid coating formulation. In this case, the TiO2 particles are bound in a matrix with no meaningful potential for human exposure to unbound particles of TiO2 when the product is applied with a brush or roller. Sanding the coating surface or mist from spray applications may be harmful depending on the duration and level of exposure and require the use of appropriate personal protective equipment and/ or engineering controls (see Section 8). If splashed in the eyes, the liquid may cause irritation and reversible damage. Ingestion may cause nausea, diarrhea and vomiting. This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact.
Short term exposure		
Potential immediate effects	:	There are no data available on the mixture itself.
Potential delayed effects	:	There are no data available on the mixture itself.
Long term exposure		
Potential immediate effects	:	There are no data available on the mixture itself.
Potential delayed effects	:	There are no data available on the mixture itself.
Potential chronic health effe	ect	<u>s</u>
Conclusion/Summary		: There are no data available on the mixture itself.
General	:	Causes damage to organs through prolonged or repeated exposure. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.
Carcinogenicity	:	May cause cancer. Risk of cancer depends on duration and level of exposure.
Mutagenicity	:	No known significant effects or critical hazards.
Reproductive toxicity		No known significant effects or critical hazards.
Numerical measures of toxic		·

#### Acute toxicity estimates

## Section 13. Disposal considerations

**Disposal methods** 

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and

Product name AMERCOAT 428PCLO RAILCAR BLUE RESIN

### Section 13. Disposal considerations

its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

#### Disposal should be in accordance with applicable regional, national and local laws and regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures

#### **Additional information**

Additional into	
TDG	: Non-bulk packages of this product are not regulated as dangerous goods when transported by road or rail.
IMDG	This product is not regulated as a dangerous good when transported in sizes of ≤5 L or ≤5 kg, provided the packagings meet the general provisions of 4.1.1.1, 4.1.1.2 and 4.1.1.4 to 4.1.1.8.
ΙΑΤΑ	: This product is not regulated as a dangerous good when transported in sizes of ≤5 L or ≤5 kg, provided the packagings meet the general provisions of 5.0.2.4.1, 5.0.2.6.1.1 and 5.0.2.8.
Special precau	tions for user : <b>Transport within user's premises</b> : always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.
Proof of classif statement	ication : Product classified as per the following sections of the Transportation of Dangerous Goods Regulations: 2.43-2.45 (Class 9), 2.7 (Marine pollutant mark).
