SAFETY DATA SHEET

Date of issue 3/19/2025 (month/day/year)

Version 19

mixture

number:

Section 1. Chemical product and company identification

A. Product name Product code	: AMERLOCK 2/400 GF BASE RAL 7035 : 00327718
B. Relevant identified	uses of the substance or mixture and uses advised against
Product use	: Professional applications, Used by spraying.
Use of the substand	ce/ : Coating.

Uses advised against	: Product is not intended, labelled or packaged for consumer use.			
C. Supplier's or Importer's information	: PPG SSC (680-090) 19, Yeocheon-ro 217beon-gil, Nam-gu, Ulsan, Korea Tel: +82-52-210-8222			
Email Address	Korea.MSDS@PPG.COM			
Emergency telephone	: +82-52-210-8331			

Section 2. Hazards identification

A	. Hazard classification	 FLAMMABLE LIQUIDS - Category 3 ACUTE TOXICITY (inhalation) - Category 1 SKIN IRRITATION - Category 2 EYE IRRITATION - Category 2A SKIN SENSITIZATION - Category 1 CARCINOGENICITY - Category 1A TOXIC TO REPRODUCTION - Category 2 SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 2 AQUATIC HAZARD (LONG-TERM) - Category 2 This product is classified in accordance with the Industrial Safety and Health Act and
		the Chemical Control Act.

B. GHS label elements, including precautionary statements

Signal word

Symbol

: Danger

Date of issue 3/19/2025 (month/day/year)

Product name AMERLOCK 2/400 GF BASE RAL 7035

Section 2. Hazards identification

Hazard statements	: <mark>F</mark> 226 - Flammable liquid and vapor.
	H315 - Causes skin irritation.
	H317 - May cause an allergic skin reaction.
	H319 - Causes serious eye irritation.
	H330 - Fatal if inhaled.
	H350 - May cause cancer.
	H361 - Suspected of damaging fertility or the unborn child.
	H373 - May cause damage to organs through prolonged or repeated exposure.
	(central nervous system (CNS), kidneys, liver)
	H411 - Toxic to aquatic life with long lasting effects.
Precautionary statements	
Prevention	: ₱202 - Do not handle until all safety precautions have been read and understood.
	P280 - Wear protective gloves, protective clothing and eye or face protection.
	P284 - In case of inadequate ventilation wear respiratory protection.
	P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition
	sources. No smoking.
	P241 - Use explosion-proof electrical, ventilating or lighting equipment.
	P241 - Use explosion-proof electrical, ventilating or lighting equipment.
	P242 - Use non-sparking tools.
	P243 - Take action to prevent static discharges.
	P240 - Ground and bond container and receiving equipment. P273 - Avoid release to the environment.
	P273 - Avoid release to the environment. P260 - Do not breathe vapor.
	P264 - Wash thoroughly after handling.
Deserves	
Response	P391 - Collect spillage.
	P320 - Specific treatment is urgent (see the label). P370 + P378 - In case of fire: Never use water to extinguish.
	P308 + P313 - IF exposed or concerned: Get medical advice or attention.
	P304 + P340, P310 - IF INHALED: Remove person to fresh air and keep
	comfortable for breathing. Immediately call a POISON CENTER or doctor.
	P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated
	clothing. Rinse skin with water or shower.
	P333 + P313 - If skin irritation or rash occurs: Get medical advice or attention.
	P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes.
	Remove contact lenses, if present and easy to do. Continue rinsing.
	P337 + P313 - If eye irritation persists: Get medical advice or attention.
Storage	: 🗗 403 + P233 - Store in a well-ventilated place. Keep container tightly closed.
Otorage	P403 + P235 - Keep cool.
Dispessi	•
Disposal	: P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.

C. Other hazards which do : None known. not result in classification

Korea (GHS) Page: 2/15

Product name AMERLOCK 2/400 GF BASE RAL 7035

Section 3. Composition/information on ingredients

CAS number/other identifiers

CAS number

: Not applicable.

Chemical name	Common name	Identifiers	%
	EPOXY RESIN	CAS: 25068-38-6	30 - <40
		EC: 500-033-5	
Talc , not containing asbestiform fibres	Talc, non-asbestos form	CAS: 14807-96-6 EC: 238-877-9	10 -<20
titanium dioxide	TITANIUM DIOXIDE	CAS: 13463-67-7 EC: 236-675-5	5 - <10
Xylene	XYLENES	CAS: 1330-20-7 EC: 215-535-7	1 - <5
1,2-benzenedicarboxylic acid, di- C9-11-branched alkyl ester, C10-rich	1.2 BENZENEDICARBOXYLIC ACID, DI-C9-C11-BRANCHED ALKYL ESTERS C10 RICH	CAS: 68515-49-1	1 - <5
		EC: 271-091-4	
Quaternary ammonium compounds, benzyl (hydrogenated tallow alkyl) dimethyl, stearates, salts with bentonite; Bentonite, benzyl(hydrogenated tallow alkyl) dimethylammonium stearate complex -	ORGANIC DERIVATIVE OF A MONTMORILLONITE CLAY	CAS: 121888-68-4	0.1 - <1

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Α.	Eye contact	:	Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice.
В.	Skin contact	:	Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.
C.	Inhalation	:	Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.
D.	Ingestion	:	If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting.
Е.	Notes to physician	:	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
	Specific treatments	:	No specific treatment.

Date of issue 3/19/2025 (month/day/year)

Product name AMERLOCK 2/400 GF BASE RAL 7035

Section 4. First aid measures

Protection of first-aiders : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

	The first sector is the first sector of the				
А.	Extinguishing media				
	Suitable extinguishing media	1	Use dry chemical, CO ₂ , water spray (fog) or foam.		
	Unsuitable extinguishing media	:	Do not use water jet.		
В.	Specific hazards arising from the chemical	:	Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. This material is toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.		
	Hazardous thermal decomposition products	:	Decomposition products may include the following materials: carbon oxides halogenated compounds metal oxide/oxides		
C.	Special equipment for fire-fighting	:	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.		
	Fire-fighting procedures	:	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.		
S	Section 6 Accidental release measures				

B. Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Collect spillage.

C. Methods and materials for containment and cleaning up

Date of issue 3/19/2025 (month/day/year)

Product name AMERLOCK 2/400 GF BASE RAL 7035

Section 6. Accidental release measures

Small spill	: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non- combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Α.	Precautions for safe handling	: Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container.
в.	Conditions for safe storage, including any incompatibilities	: Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Section 8. Exposure controls/personal protection

A. Occupational exposure limits

Ingredient name	Exposure limits
🗖 alc , not containing asbestiform fibres	ACGIH TLV (United States, 1/2024)
	TWA 8 hours: 2 mg/m ³ . Form: Respirable
	fraction.
titanium dioxide	ISHA Article 42 (Republic of Korea,
	1/2020)
	TWA 8 hours: 10 mg/m ³ .
Xylene	ISHA Article 42 (Republic of Korea,
	1/2020) [Xylene]
	Korea (GHS) Page: 5/15

Product name AMERLOCK 2/400 GF BASE RAL 7035

Section 8. Exposure controls/personal protection

				STEL 15 minutes: 150 ppm.
				TWA 8 hours: 100 ppm.
	Recommended monitoring procedures	:	Reference should be made to appropria national guidance documents for metho substances will also be required.	
В.	Appropriate engineering controls	:		to keep worker exposure to airborne or statutory limits. The engineering controls oncentrations below any lower explosive
	Environmental exposure controls	:		
C .	Personal protective equip	me	ent	
	Respiratory protection	:	hazards of the product and the safe we workers are exposed to concentrations appropriate, certified respirators. Use	known or anticipated exposure levels, the orking limits of the selected respirator. If a above the exposure limit, they must use a properly fitted, air-purifying or air-fed standard if a risk assessment indicates this is
	Eye protection	1	Chemical splash goggles.	
	Hand protection	:	be worn at all times when handling che this is necessary. Considering the para check during use that the gloves are st should be noted that the time to breakt	ers. In the case of mixtures, consisting of
	Gloves	1	butyl rubber	
	Body protection		being performed and the risks involved before handling this product. When the wear anti-static protective clothing. Fo discharges, clothing should include and	i-static overalls, boots and gloves.
	Hygiene measures	:	eating, smoking and using the lavatory Appropriate techniques should be used Contaminated work clothing should not	t to remove potentially contaminated clothing. t be allowed out of the workplace. Wash Ensure that eyewash stations and safety

Product name AMERLOCK 2/400 GF BASE RAL 7035

Section 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

Α.	Appearance			
	Physical state	1	Liquid.

Date of issue 3/19/2025 (month/day/year)

Version 19

Product name AMERLOCK 2/400 GF BASE RAL 7035

Section 10. Stability and reactivity

Α.	Chemical stability	:	The product is stable.
	Possibility of hazardous reactions	:	Under normal conditions of storage and use, hazardous reactions will not occur.
В.	Conditions to avoid	:	When exposed to high temperatures may produce hazardous decomposition products.
C.	Incompatible materials	:	Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.
D.	Hazardous decomposition products	:	Depending on conditions, decomposition products may include the following materials: carbon oxides halogenated compounds metal oxide/oxides

Section 11. Toxicological information

	formation on the like utes of exposure	ely	: Not available.

Section 11. Toxicological information

Reproductive toxicity

Conclusion/Summary : There are no data available on the mixture itself.

Teratogenicity

Conclusion/Summary : There are no data available on the mixture itself.

Specific target organ toxicity (single exposure)

Name	Classification	Route of exposure	Target organs
Alc , not containing asbestiform fibres	Category 3		Respiratory tract irritation
Xylene	Category 3	-	Narcotic effects

Specific target organ toxicity (repeated exposure)

Name	Classification	Route of exposure	Target organs
Kylene	Category 1	-	central nervous system (CNS), kidneys, liver
1,2-benzenedicarboxylic acid, di-C9-11-branched alkyl ester, C10-rich	Category 2	-	-

Aspiration hazard

Not available.

Potential chronic health effects

General	: May cause damage to organs through prolonged or repeated exposure. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.
Carcinogenicity	: May cause cancer. Risk of cancer depends on duration and level of exposure.

- : May cause cancer. Risk of cancer depends on duration and level of exposure.
- : No known significant effects or critical hazards.
- **Reproductive toxicity**
- : Suspected of damaging fertility or the unborn child.

Additional information

Mutagenicity

Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death.

Chemical name	Identifiers	GHS Classification

E. <u>Other adverse effects</u> : No known significant effects or critical hazards.

Section 13. Disposal considerations

Α.	Disposal methods	: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.
		should only be considered when recycling is not reasine.

B. Disposal precautions
 This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Product name AMERLOCK 2/400 GF BASE RAL 7035

Section 14. Transport information

Additional information

UN	: None identified.
IMDG	: The marine pollutant mark is not required when transported in sizes of \leq 5 L or \leq 5 kg.
ΙΑΤΑ	: The environmentally hazardous substance mark may appear if required by other transportation regulations.

F. Special precaution which a user to be aware of or needs to comply with in connection with transport or transportation

Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments

Section 15. Regulatory information

A. Regulation according to ISHA **ISHA article 117** : None of the components are listed. (Harmful substances prohibited from manufacture) **ISHA article 118** : None of the components are listed. (Harmful substances requiring permission) **Article 2 of Youth Protection** : It is not allowed to sell to persons under the age of 19. Act on Substances Hazardous to Youth **Exposure Limits of Chemical Substances and Physical Factors** The following components have an OEL: **ISHA Enforcement Regs** : None of the components are listed. **Annex 19 (Exposure** standards established for harmful factors) **ISHA Enforcement Regs** : The following components are listed: talc / soapstone, titanium dioxide, xylene Annex 11-5 (Harmful factors subject to Work Environment **Measurement**) **ISHA Enforcement Regs** : The following components are listed: Glass fiber dusts, Xylene Annex 22 (Harmful **Factors Subject to Special Health Check**up) : The following components are listed: titanium dioxide, xylene Standard of Industrial **Safety and Health** Annex 12 (Hazardous substances subject to control)
