Section 2. Hazards identification

A. Hazard classification	 AMMABLE LIQUIDS - Category 3 SKIN IRRITATION - Category 2 EYE IRRITATION - Category 2A CARCINOGENICITY - Category 1A SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) - Category 2 SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Narcotic effects) - Category 3 SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 2 AQUATIC HAZARD (LONG-TERM) - Category 3 This product is classified in accordance with the Industrial Safety and Health Act and
	This product is classified in accordance with the Industrial Safety and Health Act and the Chemical Control Act.

B. GHS label elements, including precautionary statements Symbol :

Signal word

: Danger

Date of issue 3/19/2025 (month/day/year)

Product name SIGMAZINC9/DIMETCOTE 9 BIN OFFWHITE(K)

Section 2. Hazards identification

Hazard statements	 H226 - Flammable liquid and vapor. H315 - Causes skin irritation. H319 - Causes serious eye irritation. H336 - May cause drowsiness or dizziness. H350 - May cause cancer. H371 - May cause damage to organs. H373 - May cause damage to organs through prolonged or repeated exposure. (central nervous system (CNS), kidneys, liver) H412 - Harmful to aquatic life with long lasting effects.
Precautionary statements	S
Prevention	 P202 - Do not handle until all safety precautions have been read and understood. P280 - Wear protective gloves, protective clothing and eye or face protection. P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P241 - Use explosion-proof electrical, ventilating or lighting equipment. P241 - Use explosion-proof electrical, ventilating or lighting equipment. P242 - Use non-sparking tools. P243 - Take action to prevent static discharges. P240 - Ground and bond container and receiving equipment. P273 - Avoid release to the environment. P260 - Do not breathe vapor. P270 - Do not eat, drink or smoke when using this product. P264 - Wash thoroughly after handling.
Response	 P370 + P378 - In case of fire: Never use water to extinguish. P308 + P311 - IF exposed or concerned: Call a POISON CENTER or doctor. P304 + P312 - IF INHALED: Call a POISON CENTER or doctor if you feel unwell. P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337 + P313 - If eye irritation persists: Get medical advice or attention. P321 - Specific treatment (see the label).
Storage	 P403 + P233 - Store in a well-ventilated place. Keep container tightly closed. P403 + P235 - Keep cool.
Disposal	: P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.
Other hazards which do not result in	: Prolonged or repeated contact may dry skin and cause irritation.

classification

Section 3. Composition/information on ingredients

		EC: 231-639-5	-0.1
zinc chloride	ZINC CHLORIDE	CAS: 7646-85-7	<0.1
		EC: 231-592-0	

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Α.	Eye contact	:	Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice.
В.	Skin contact	:	Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.
C.	Inhalation	:	Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.
D.	Ingestion	:	If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting.
Е.	Notes to physician	:	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
	Specific treatments	:	No specific treatment.

Date of issue 3/19/2025 (month/day/year)

Product name SIGMAZINC9/DIMETCOTE 9 BIN OFFWHITE(K)

Section 4. First aid measures

Protection of first-aiders : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Α.	Extinguishing media		
	Suitable extinguishing media	:	Use dry chemical, CO ₂ , water spray (fog) or foam.
	Unsuitable extinguishing media	:	Do not use water jet.
в.	Specific hazards arising from the chemical	:	Another than the several problem of the sever
	Hazardous thermal decomposition products	:	Decomposition products may include the following materials: carbon oxides metal oxide/oxides
C.	Special equipment for fire-fighting	:	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
	Fire-fighting procedures	:	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.

Section 6. Accidental release measures

A. Personal precautions, protective equipment and emergency procedures	-	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
B. Environmental precautions	:	♥void dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material.

May be harmful to the environment if released in large quantities.

C. Methods and materials for containment and cleaning up

Date of issue 3/19/2025 (month/day/year)

Product name SIGMAZINC9/DIMETCOTE 9 BIN OFFWHITE(K)

Section 6. Accidental release measures

Small spill	: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non- combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Α.	Precautions for safe handling	: Put on appropriate personal protective equipment (see Section 8). Avoid exposure - obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container.
В.	Conditions for safe storage, including any incompatibilities	: Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not

store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Section 8. Exposure controls/personal protection

A. Occupational exposure limits

Ingredient name	Exposure limits
Propylene glycolmonomethyl ether	ISHA Article 42 (Republic of Korea,
	1/2020)
	STEL 15 minutes: 150 ppm.
	TWA 8 hours: 100 ppm.
crystalline silica, respirable powder (<10 microns)	ISHA Article 42 (Republic of Korea,
	1/2020)
	TWA 8 hours: 0.05 mg/m ³ . Form:
	Respirable fraction.
2-Butoxyethanol, EGBE	ISHA Article 42 (Republic of Korea,
	1/2020) Absorbed through skin.
	Korea (GHS) Page: 5/1

			TWA 8 hours: 1 mg/m ³ . Form: Fume.
	Recommended	: Reference should be made to appropriate	iate monitoring standards. Reference to
	monitoring procedures		nods for the determination of hazardous
		substances will also be required.	
	Appropriate engineering	: Use only with adequate ventilation. U	se process enclosures, local exhaust
	controls		Is to keep worker exposure to airborne
			d or statutory limits. The engineering controls
			concentrations below any lower explosive
		limits. Use explosion-proof ventilation	equipment.
	Environmental	: Emissions from ventilation or work pro	ocess equipment should be checked to ensure
	exposure controls		environmental protection legislation. In some
		cases, fume scrubbers, filters or engir	neering modifications to the process
		equipment will be necessary to reduce	e emissions to acceptable levels.
	Personal protective equip	ment	
	Respiratory protection	: Respirator selection must be based of	n known or anticipated exposure levels, the
			vorking limits of the selected respirator. If
		•	ns above the exposure limit, they must use
			a properly fitted, air-purifying or air-fed
			d standard if a risk assessment indicates this is
		necessary.	
	Eye protection	: Chemical splash goggles.

Version 6

Product name SIGMAZINC9/DIMETCOTE 9 BIN OFFWHITE(K)

Section 8. Exposure controls/personal protection

Hand protection	: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
Gloves	: For prolonged or repeated handling, use the following type of gloves: Recommended: polyvinyl alcohol (PVA), Viton®, butyl rubber, nitrile rubber
Body protection	: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear anti-static protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves.
Hygiene measures	: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Section 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

Α.	Appearance		
	Physical state	:	Liquid.

Section 11. Toxicological information

Potential chronic health effects

General	: May cause damage to organs through prolonged or repeated exposure. Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis.
Carcinogenicity	: May cause cancer. Risk of cancer depends on duration and level of exposure.
Mutagenicity	: No known significant effects or critical hazards.
Reproductive toxicity	: 📈 known significant effects or critical hazards.

Additional information

Prolonged or repeated contact may dry skin and cause irritation. Contains . methanol . Cannot be made nonpoisonous. May be fatal or cause blindness if swallowed. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing.

		CARCINOGENICITY - Category 1A				
zinc chloride	CAS: 7646-85-7	ACUTE TOXICITY (oral) - Category 4				
	EC: 231-592-0	SKIN CORROSION - Category 1				
		SERIOUS EYE DAMAGE - Category 1				
		AQUATIC HAZARD (ACUTE) - Category 1				
		AQUATIC HAZARD (LONG-TERM) - Category 1				

Section 12. Ecological information

A. Ecotoxicity

Product/ingredient name	Result	Species	Exposure
Propylene	Acute LC50 23300 mg/l	Daphnia	48 hours
glycolmonomethyl ether			
	Acute LC50 >4500 mg/l Fresh water	Fish	96 hours
2-Butoxyethanol, EGBE	Acute LC50 1474 mg/l	Fish	96 hours
	Chronic NOEC >100 mg/l	Fish	21 days
Ethanol	Acute EC50 7640 mg/l Fresh water	Daphnia - <i>Daphnia magna</i>	48 hours
Isopropyl alcohol	Acute EC50 10.1 g/L Fresh water	Daphnia - <i>Daphnia magna</i>	48 hours
ethylbenzene	Acute EC50 1.8 mg/l Fresh water	Daphnia	48 hours
	Chronic NOEC 1 mg/l Fresh water	Daphnia - Ceriodaphnia dubia	-
methyl alcohol	Acute LC50 13 mg/l Fresh water	Fish	96 hours
zinc chloride	Acute EC50 22 µg/l Fresh water	Algae - Raphidocelis	72 hours
		subcapitata - Exponential	
		growth phase	
	Acute EC50 5.64 mg/l Fresh water	Aquatic plants - Lemna minor	4 days
	Acute EC50 0.2 mg/l	Crustaceans	48 hours
	Acute LC50 0.14 mg/l Fresh water	Daphnia - <i>Daphnia galeata</i> -	48 hours
	5	Neonate	
	Acute LC50 0.4 to 2.2 mg/l	Fish	96 hours
	Chronic EC10 10 µg/l Fresh water	Algae - <i>Raphidocelis</i>	72 hours
		subcapitata - Exponential	
		growth phase	
	Chronic EC10 58 µg/l Fresh water	Daphnia - Daphnia magna -	21 days
		Juvenile (Fledgling, Hatchling,	21 days
		Weanling)

B. <u>Persistence and degradability</u>

Date of issue 3/19/2025 (month/day/year)

Product name SIGMAZINC9/DIMETCOTE 9 BIN OFFWHITE(K)

Section 12. Ecological information

Product/ingredient name	Test Result			Dose		Inoculum
ethylbenzene	- 79 % - Rea		adily - 10 days	-		-
Product/ingredient name	Aquatic half-life		Photolysis		Biodegradability	
₽-Butoxyethanol, EGBE Xylene Ethanol	- -		- -		Readily Readily Readily	
ethylbenzene	-		-		Readily	

C. Bioaccumulative potential

Product/ingredient name	LogPow	BCF	Potential
Propylene	<1	-	Low
glycolmonomethyl ether			
2-Butoxyethanol, EGBE	0.81	-	Low
Xylene	3.12	7.4 to 18.5	Low
Ethanol	-0.35	-	Low
Isopropyl alcohol	0.05	-	Low
ethylbenzene	3.6	79.43	Low
ETHYLCELLULOSE	5.5	-	High
methyl alcohol	-0.77	-	Low

D. Mobility in soil

Soil/Water partition : Not available. coefficient

E. <u>Other adverse effects</u> : No known significant effects or critical hazards.

Section 13. Disposal considerations

Α.	Disposal methods	: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.
		with jurisdiction. Waste packaging should be recycled. Incineration or landfill

B. Disposal precautions
 This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Date of issue 3/19/2025 (month/day/year)

Version 6

Product name SIGMAZINC9/DIMETCOTE 9 BIN OFFWHITE(K)

Section 14. Transport information

	UN	IMDG	ΙΑΤΑ
A. UN number	UN1263	UN1263	UN1263
B. UN proper shipping name	PAINT	PAINT	PAINT
C. Transport hazard class(es)	3	3	3
D. Packing group	III	III	III
Environmental hazards	No.	No.	No.
E. Marine pollutant substances	Not applicable.	Not applicable.	Not applicable.

Additional information

UN	: None identified.
IMDG	: None identified.
ΙΑΤΑ	: None identified.

F. Special precaution which a user to be aware of or needs to comply with in connection with transport or transportation

Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments

Section 15. Regulatory information

A.	Regulation according to ISHA						
	ISHA article 117 (Harmful substances prohibited from manufacture)	:	None of the components are listed.				
	ISHA article 118 (Harmful substances requiring permission)	:	None of the components are listed.				
	Article 2 of Youth Protection Act on Substances Hazardous to Youth	:	It is not allowed to sell to persons under the age of 19.				
	Exposure Limits of Chem	ica	I Substances and Physical Factors				
	The following components have an OEL:						
	ISHA Enforcement Regs Annex 19 (Exposure standards established for harmful factors)	:	The following components are listed: methanol, sulfuric acid				

Date of issue 3/19/2025 (month/day/year)

Product name SIGMAZINC9/DIMETCOTE 9 BIN OFFWHITE(K)

Section 15. Regulatory information

	ISHA Enforcement Regs Annex 11-5 (Harmful factors subject to Work Environment Measurement)	:	The following components are listed: silicates, quartz, 2-butoxyethanol / EGBE, xylene, isopropyl alcohol, mica, ethyl benzene, methanol				
	ISHA Enforcement Regs Annex 22 (Harmful Factors Subject to Special Health Check- up)	:	The following components are listed: 2-Butoxyethanol, Xylene, Isopropyl alcohol, Ethyl benzene, Methanol				
	Standard of Industrial Safety and Health Annex 12 (Hazardous substances subject to control)	:	The following components are listed: 2-butoxyethanol, xylene, isopropyl alcohol, ethyl benzene, methanol, sulfuric acid				
В.	Regulation according to C	Ch	emicals Control Act				
	Article 11 (TRI)	:	The following components are listed: Xylene including o-,m-,p- isomer, 2-Propanol, Ethylbenzene, Methyl alcohol				
	Article 18 Prohibited (K- Reach Article 27)	:	None of the components are listed.				
	Article 19 Subject to authorization (K-Reach Article 25)	:	None of the components are listed.				
	Article 20 Restricted (K- Reach Article 27)	:	None of the components are listed.				
	Article 20 Toxic Chemicals (K-Reach Article 20)	:	Not applicable				
	Korea inventory	:	All components are listed or exempted.				
	Article 39 (Accident Precaution Chemicals)	:	None of the components are listed.				
C.	Dangerous Materials Safety Management Act	:	Class: Class 4 - Flammable Liquid Item: 4. Class 2 petroleums - Water-insoluble liquid Threshold: 1000 L Danger category: III Signal word: Contact with sources of ignition prohibited				
D.	Wastes regulation	:	Dispose of contents and container in accordance with all local, regional, national and international regulations.				
Е.	Regulation according to o	Regulation according to other foreign laws					
	Safety, health and environmental regulations specific for the product	:	No known specific national and/or regional regulations applicable to this product (including its ingredients).				

Date of issue 3/19/2025 (month/day/year)

Product name SIGMAZINC9/DIMETCOTE 9 BIN OFFWHITE(K)
