# SAFETY DATA SHEET

Date of issue 3/19/2025 (month/day/year)

Version 3

### Section 1. Chemical product and company identification

Α.	Product name	1	SIGMAPRIME 700 BASE GREY
	Product code	4	00445351

#### B. Relevant identified uses of the substance or mixture and uses advised against

Product use	: Professional applications, Used by spraying.
Use of the substance/ mixture	: Coating.
Uses advised against	: Product is not intended, labelled or packaged for consumer use.
C. Supplier's or Importer's information	: PPG SSC (680-090) 19, Yeocheon-ro 217beon-gil, Nam-gu, Ulsan, Korea Tel: +82-52-210-8222
Email Address	Korea.MSDS@PPG.COM
Emergency telephone number:	: +82-52-210-8331

# Section 2. Hazards identification

A. Hazard classification	<ul> <li>LAMMABLE LIQUIDS - Category 3 SKIN IRRITATION - Category 2 EYE IRRITATION - Category 2A SKIN SENSITIZATION - Category 1 CARCINOGENICITY - Category 1A SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract irritation) - Category 3 SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 1 AQUATIC HAZARD (LONG-TERM) - Category 2</li> </ul>
	This product is classified in accordance with the Industrial Safety and Health Act and the Chemical Control Act.

B. GHS label elements, including precautionary statements

Signal word

**Symbol** 

: Danger

Date of issue 3/19/2025 (month/day/year)

Product name SIGMAPRIME 700 BASE GREY

### Section 2. Hazards identification

Hazard statements	<ul> <li>226 - Flammable liquid and vapor.</li> <li>2315 - Causes skin irritation.</li> <li>2317 - May cause an allergic skin reaction.</li> <li>2319 - Causes serious eye irritation.</li> <li>2335 - May cause respiratory irritation.</li> <li>2350 - May cause cancer.</li> <li>2372 - Causes damage to organs through prolonged or repeated exposure.</li> <li>2372 - Causes damage to organs through prolonged or repeated exposure.</li> <li>2372 - Causes damage to organs through prolonged or repeated exposure.</li> <li>2372 - Causes damage to organs through prolonged or repeated exposure.</li> <li>2372 - Causes damage to organs through prolonged or repeated exposure.</li> <li>2372 - Causes damage to organs through prolonged or repeated exposure.</li> </ul>	(central
Precautionary statements		
Prevention	<ul> <li>202 - Do not handle until all safety precautions have been read and undersite</li> <li>203 - Wear protective gloves, protective clothing and eye or face protection</li> <li>204 - Keep away from heat, hot surfaces, sparks, open flames and other ig</li> <li>205 urces. No smoking.</li> <li>204 - Use explosion-proof electrical, ventilating or lighting equipment.</li> <li>204 - Use non-sparking tools.</li> <li>204 - Ground and bond container and receiving equipment.</li> <li>205 - Avoid release to the environment.</li> <li>206 - Do not breathe vapor.</li> <li>207 - Do not eat, drink or smoke when using this product.</li> <li>208 - Wash thoroughly after handling.</li> </ul>	l.
Response	<ul> <li>Apple - Collect spillage.</li> <li>Apple - Collect spillage.</li> <li>Apple - P378 - In case of fire: Never use water to extinguish.</li> <li>Apple - P378 - In case of fire: Never use water to extinguish.</li> <li>Apple - P313 - IF exposed or concerned: Get medical advice or attention.</li> <li>Apple - P312 - IF INHALED: Call a POISON CENTER or doctor if you feel ur</li> <li>Apple - P361 + P353 - IF ON SKIN (or hair): Take off immediately all contame of thing. Rinse skin with water or shower.</li> <li>Apple - P313 - If skin irritation or rash occurs: Get medical advice or attention attention of the state of the s</li></ul>	n.
Storage	03 + P233 - Store in a well-ventilated place. Keep container tightly closed. 03 + P235 - Keep cool.	
Disposal	501 - Dispose of contents and container in accordance with all local, region tional and international regulations.	al,
C. Other hazards which do not result in classification	olonged or repeated contact may dry skin and cause irritation. Contains a bstance that may emit formaldehyde if stored beyond its shelf life and/or d re at curing temperatures greater than 60C ( 140F).	uring

# Section 3. Composition/information on ingredients

#### **CAS number/other identifiers**

**CAS** number

: Not applicable.

### Section 3. Composition/information on ingredients

Chemical name	Common name	Identifiers	%
✓alc , not containing asbestiform fibres	Talc, non-asbestos form	CAS: 14807-96-6	20 -
			<30
		EC: 238-877-9	
Silicon oxide (crystalline quartz)	QUARTZ (>10 microns)	CAS: 14808-60-7	20 -
			<30

Isobutyl alcohol	ISOBUTYL ALCOHOL	CAS: 78-83-1	1 - <5
		EC: 201-148-0	
Cashew, nutshell liq.; Oil of cashew	CASHEW NUTSHELL LIQUID	CAS: 8007-24-7	1 - <5
nutshell -			
		EC: 232-355-4	
Urea, polymer with formaldehyde,	urea, polymer with formaldehyde,	CAS: 68002-18-6	1 - <5
isobutylated	isobutylated		
titanium dioxide	TITANIUM DIOXIDE	CAS: 13463-67-7	1 - <5
		EC: 236-675-5	

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

Α.	Eye contact	:	Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Seek immediate medical attention.
В.	Skin contact	:	Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.
C.	Inhalation	:	Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.
			Korea (GHS) Page: 3/16

### Section 4. First aid measures

D.	Ingestion	:	If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting.
Е.	Notes to physician	:	In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
	Specific treatments	1	No specific treatment.
	Protection of first-aiders	:	No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

#### See toxicological information (Section 11)

### Section 5. Fire-fighting measures

Α.	Extinguishing media		
	Suitable extinguishing media	:	Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.
	Unsuitable extinguishing media	:	Do not use water jet.
В.	Specific hazards arising from the chemical	:	Fammable liquid and vapor. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. This material is toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.
	Hazardous thermal decomposition products	:	Decomposition products may include the following materials: carbon oxides nitrogen oxides halogenated compounds metal oxide/oxides Formaldehyde.
C.	Special equipment for fire-fighting	:	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
	Fire-fighting procedures	:	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.

# Section 6. Accidental release measures

A. Personal precautions,	3	$\mathbf{N}$ o action shall be taken involving any personal risk or without suitable training.
protective equipment and		Evacuate surrounding areas. Keep unnecessary and unprotected personnel from
emergency procedures		entering. Do not touch or walk through spilled material. Shut off all ignition sources.
<b>- - - - - - - - - -</b>		No flares, smoking or flames in hazard area. Avoid breathing vapor or mist.
		Provide adequate ventilation. Wear appropriate respirator when ventilation is
		inadequate. Put on appropriate personal protective equipment.

### Section 6. Accidental release measures

B. Environmental	: Kovid dispersal of spilled material and runoff and contact with soil, waterways,
precautions	drains and sewers. Inform the relevant authorities if the product has caused
	environmental pollution (sewers, waterways, soil or air). Water polluting material.
	May be harmful to the environment if released in large quantities. Collect spillage.

#### C. Methods and materials for containment and cleaning up

Small spill	: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non- combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

### Section 7. Handling and storage

A. Precautions for safe : Put on appropriate personal protective equipment (see Section 8). Persons with a handling history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container.

B. Conditions for safe storage, including any incompatibilities
 Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

## Section 8. Exposure controls/personal protection

### A. Occupational exposure limits

Ingredient name	Exposure limits		
$ ilde{T}$ alc , not containing asbestiform fibres	ACGIH TLV (United States, 1/2024) TWA 8 hours: 2 mg/m <sup>3</sup> . Form: Respirable		
Silicon oxide (crystalline quartz)	fraction. ISHA Article 42 (Republic of Korea, 1/2020)		
	TWA 8 hours: 0.05 mg/m³. Form: Respirable fraction.		
Xylene	ISHA Article 42 (Republic of Korea, 1/2020) [Xylene]		
	STEL 15 minutes: 150 ppm. TWA 8 hours: 100 ppm.		
Aluminum	ISHA Article 42 (Republic of Korea,		
Propylene glycolmonomethyl ether	1/2020) TWA 8 hours: 10 mg/m³. Form: Dust. ISHA Article 42 (Republic of Korea,		
	<b>1/2020)</b> STEL 15 minutes: 150 ppm.		
ethylbenzene	TWA 8 hours: 100 ppm. ISHA Article 42 (Republic of Korea, 1/2020)		
	STEL 15 minutes: 125 ppm. TWA 8 hours: 100 ppm.		
Isobutyl alcohol	ISHA Article 42 (Republic of Korea, 1/2020)		
titanium dioxide	TWA 8 hours: 50 ppm. ISHA Article 42 (Republic of Korea, 1/2020)		
	TWA 8 hours: 10 mg/m <sup>3</sup> .		
	made to appropriate monitoring standards. Reference to cuments for methods for the determination of hazardous be required.		
Appropriate engineering controls : Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering control also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.			

Environmental	: Emissions from ventilation or work process equipment should be checked to ensure
exposure controls	they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process
	equipment will be necessary to reduce emissions to acceptable levels.

#### C. Personal protective equipment

В.

Respiratory protection	: Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.
------------------------	--

Korea (GHS) Page: 6/16

### Section 8. Exposure controls/personal protection

Eye protection	: Chemical splash goggles and face shield.
Hand protection	: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
Gloves	: butyl rubber
Body protection	: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear anti-static protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves.
Hygiene measures	: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

# Section 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

# Section 10. Stability and reactivity

Α.	Chemical stability	1	The product is stable.
	Possibility of hazardous reactions	:	Under normal conditions of storage and use, hazardous reactions will not occur.
В.	Conditions to avoid	:	When exposed to high temperatures may produce hazardous decomposition products.
C.	Incompatible materials	:	Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.
D.	Hazardous decomposition products	:	Depending on conditions, decomposition products may include the following materials: carbon oxides nitrogen oxides halogenated compounds Formaldehyde. metal oxide/oxides

# Section 11. Toxicological information

<ul> <li>Information on the routes of exposur</li> </ul>	
Potential acute healt	th effects
Inhalation	: May cause respiratory irritation.
Ingestion	: No known significant effects or critical hazards.
Skin contact	: Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction.
Eye contact	: 🗭 auses serious eye irritation.
Over-exposure signs	s/symptoms
Inhalation	: Adverse symptoms may include the following: respiratory tract irritation coughing

Version 3

Product name SIGMAPRIME 700 BASE GREY

## Section 11. Toxicological information

Ingestion	: No specific data.
Skin contact	: Adverse symptoms may include the following: irritation redness dryness cracking
Eye contact	: Adverse symptoms may include the following: pain or irritation watering redness

	ASPIRATION HAZARD - Category 1 ASPIRATION HAZARD - Category 1

Version 3

Product name SIGMAPRIME 700 BASE GREY

## Section 11. Toxicological information

#### Potential chronic health effects

General	: Causes damage to organs through prolonged or repeated exposure. Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.
Carcinogenicity	: May cause cancer. Risk of cancer depends on duration and level of exposure.
Mutagenicity	: No known significant effects or critical hazards.
Reproductive toxicity	: No known significant effects or critical hazards.

#### **Additional information**

Prolonged or repeated contact may dry skin and cause irritation. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Contains a substance that may emit formaldehyde if stored beyond its shelf life and/or during cure at curing temperatures greater than 60C (140F). Avoid contact with skin and clothing.

# Section 12. Ecological information

#### A. Ecotoxicity

Product/ingredient name	Result	Species	Exposure
OLVENT NAPHTHA (PETROLEUM), HEAVY AROMATIC	NOEL 0.48 mg/l Fresh water	Daphnia	21 days
C12-C14 ALKYL GLYCIDYL ETHER	EC50 844 mg/l	Algae	72 hours
	EC50 7.2 mg/l	Daphnia	48 hours
	LC50 >1.8 mg/l	Fish	96 hours
Propylene glycolmonomethyl ether	Acute LC50 23300 mg/l	Daphnia	48 hours
	Acute LC50 >4500 mg/l Fresh water	Fish	96 hours
ethylbenzene	Acute EC50 1.8 mg/l Fresh water	Daphnia	48 hours
-	Chronic NOEC 1 mg/l Fresh water	Daphnia - Ceriodaphnia dubia	-
Isobutyl alcohol	Acute EC50 1100 mg/l	Daphnia	48 hours
titanium dioxide	Acute LC50 >100 mg/l Fresh water	Daphnia - <i>Daphnia magna</i>	48 hours

Korea (GHS) Page: 12/16

### Section 12. Ecological information

Product name SIGMAPRIME 700 BASE GREY

#### B. Persistence and degradability

Product/ingredient name	Test	Result		Dose		Inoculum
Ø12-C14 ALKYL GLYCIDYL ETHER	OECD Ready Biodegradability - Manometric Respirometry Test	87 % - Rea	adily - 28 days	-		-
ethylbenzene	-	79 % - Rea	adily - 10 days	-		-
Product/ingredient name	Aquatic half-life		Photolysis		Biodeg	gradability
Vene C12-C14 ALKYL GLYCIDYL ETHER ethylbenzene	-		-		Readily Readily Readily	/

#### C. Bioaccumulative potential

Product/ingredient name	LogPow	BCF	Potential
<b>X</b> ylene	3.12	7.4 to 18.5	Low
Phenol, methylstyrenated	3.627	-	Low
SOLVENT NAPHTHA	2.8 to 6.5	-	High
(PETROLEUM), HEAVY			-
AROMATIC			
C12-C14 ALKYL	3.77	160 to 263	Low
GLYCIDYL ETHER			
Propylene	<1	-	Low
glycolmonomethyl ether			
ethylbenzene	3.6	79.43	Low
Isobutyl alcohol	1	-	Low
Cashew, nutshell liq.; Oil of cashew nutshell -	>4.78	-	High
cashew nuishell -			

#### D. Mobility in soil

Soil/Water partition : Not available. coefficient

E. <u>Other adverse effects</u> : No known significant effects or critical hazards.

### Section 13. Disposal considerations

 A. Disposal methods
 The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

### Section 13. Disposal considerations

- **B.** Disposal precautions
- : This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

### Section 14. Transport information

	UN	IMDG	ΙΑΤΑ
A. UN number	UN1263	UN1263	UN1263
B. UN proper shipping name	PAINT	PAINT	PAINT
C. Transport hazard class(es)	3	3	3
D. Packing group	III	III	II
Environmental hazards	No.	No.	No.
E. Marine pollutant substances	Not applicable.	Not applicable.	Not applicable.

#### Additional information

UN: None identified.IMDG: None identified.IATA: None identified.

# F. Special precaution which a user to be aware of or needs to comply with in connection with transport or transportation

**Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments

# Section 15. Regulatory information

A. Regulation according to ISHA

ISHA article 117 (Harmful substances prohibited from manufacture)	: None of the components are listed.
ISHA article 118 (Harmful substances requiring permission)	: None of the components are listed.

Date of issue 3/19/2025 (month/day/year)

Product name SIGMAPRIME 700 BASE GREY

### Section 15. Regulatory information

Article 2 of Youth Protection Act on Substances Hazardous to Youth : It is not allowed to sell to persons under the age of 19.

#### **Exposure Limits of Chemical Substances and Physical Factors**

The following components have an OEL:

	The following components have an OEL.				
	ISHA Enforcement Regs Annex 19 (Exposure standards established for harmful factors)	:	None of the components are listed.		
	ISHA Enforcement Regs Annex 11-5 (Harmful factors subject to Work Environment Measurement)	:	The following components are listed: talc / soapstone, quartz, xylene, aluminum and its compounds, ethyl benzene, isobutyl alcohol, titanium dioxide		
	ISHA Enforcement Regs Annex 22 (Harmful Factors Subject to Special Health Check- up)	:	The following components are listed: Xylene, Aluminum and its compounds, Ethyl benzene, Isobutyl alcohol		
	Standard of Industrial Safety and Health Annex 12 (Hazardous substances subject to control)	:	The following components are listed: xylene, aluminum and its compounds, ethyl benzene, isobutyl alcohol, titanium dioxide		
В.	Regulation according to Chemicals Control Act				
	Article 11 (TRI)	;	The following components are listed: Xylene including o-,m-,p- isomer, Aluminium and its compounds, Ethylbenzene		
	Article 18 Prohibited (K- Reach Article 27)	1	None of the components are listed.		
	Article 19 Subject to authorization (K-Reach Article 25)	:	None of the components are listed.		
	Article 20 Restricted (K- Reach Article 27)	:	None of the components are listed.		
	Article 20 Toxic Chemicals (K-Reach Article 20)	:	Not applicable		
	Korea inventory	:	All components are listed or exempted.		
	Article 39 (Accident Precaution Chemicals)	1	None of the components are listed.		
C.	Dangerous Materials Safety Management Act	:	Class: Class 4 - Flammable Liquid Item: 4. Class 2 petroleums - Water-insoluble liquid Threshold: 1000 L Danger category: III Signal word: Contact with sources of ignition prohibited		
D.	Wastes regulation	:	Dispose of contents and container in accordance with all local, regional, national and international regulations.		
	Population according to other foreign laws				

E. <u>Regulation according to other foreign laws</u>

Korea (GHS) Page: 15/16

Date of issue 3/19/2025 (month/day/year)

Version 3

Product name SIGMAPRIME 700 BASE GREY

### Section 15. Regulatory information

Safety, health and environmental regulations specific for the product : No known specific national and/or regional regulations applicable to this product (including its ingredients).

### Section 16. Other information
