# SAFETY DATA SHEET

Date of issue 1/3/2020 (month/day/year)

Version 7.06

### Section 1. Chemical product and company identification

: SIGMAGUARD 750 BIN GREY(SHI) A. Product name

**Product code** : 00243712

B. Relevant identified uses of the substance or mixture and uses advised against

**Product use** : Professional applications, Used by spraying. : Coating. Paint. Painting-related materials. Use of the substance/

mixture

**Uses advised against** : Product is not intended, labelled or packaged for consumer use.

C. Supplier's information : PPG SSC

(680-090)

19, Yeocheon-ro 217beon-gil, Nam-gu,

Ulsan, Korea

Tel: +82-52-210-8222 Korea.MSDS@PPG.COM

**Emergency telephone** 

number:

**Email Address** 

: +82-52-210-8222

### Section 2. Hazards identification

A. Hazard classification : FLAMMABLE LIQUIDS - Category 2

SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2

**CARCINOGENICITY - Category 1A** 

TOXIC TO REPRODUCTION (Fertility) - Category 1B TOXIC TO REPRODUCTION (Unborn child) - Category 1B

SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Narcotic effects) -

Category 3

SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) (central nervous

system (CNS), kidneys, liver) - Category 2

This product is classified in accordance with the Industrial Safety and Health Act and the Chemical Control Act.

B. GHS label elements, including precautionary statements

**Symbol** 

Signal word : Danger

> Korea (GHS) Page: 1/16

**Product name SIGMAGUARD 750 BIN GREY(SHI)** 

### Section 2. Hazards identification

**Hazard statements**: H225 - Highly flammable liquid and vapor.

H319 - Causes serious eye irritation.

H350 - May cause cancer.

H360 - May damage fertility or the unborn child. H336 - May cause drowsiness or dizziness.

H373 - May cause damage to organs through prolonged or repeated exposure.

(central nervous system (CNS), kidneys, liver)

#### **Precautionary statements**

**Prevention** 

: P201 - Obtain special instructions before use.

P202 - Do not handle until all safety precautions have been read and understood.

P280 - Wear protective gloves. Wear eye or face protection. Wear protective clothing.

P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

P241 - Use explosion-proof electrical, ventilating, lighting and all material-handling equipment.

P242 - Use only non-sparking tools.

P243 - Take precautionary measures against static discharge.

P233 - Keep container tightly closed.

P271 - Use only outdoors or in a well-ventilated area.

P260 - Do not breathe vapor.

P264 - Wash hands thoroughly after handling.

P240 - Ground/bond container and receiving equipment.

Response : P314 - Get medical attention if you feel unwell.

P308 + P313 - IF exposed or concerned: Get medical attention.

P304 + P340 + P312 - IF INHALED: Remove person to fresh air and keep

comfortable for breathing. Call a POISON CENTER or physician if you feel unwell. P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated

clothing. Rinse skin with water or shower.

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do. Continue rinsing. P337 + P313 - If eye irritation persists: Get medical attention.

Storage : P405 - Store locked up.

P403 - Store in a well-ventilated place. P233 - Keep container tightly closed.

P235 - Keep cool.

**Disposal** : P501 - Dispose of contents and container in accordance with all local, regional,

national and international regulations.

C. Other hazards which do

not result in classification

: Prolonged or repeated contact may dry skin and cause irritation.

### Section 3. Composition/information on ingredients

#### **CAS** number/other identifiers

**CAS number** : Not applicable.

Korea (GHS) Page: 2/16

Product code 00243712 Date of issue 1/3/2020 (month/day/year) Version 7.06
Product name SIGMAGUARD 750 BIN GREY(SHI)

### Section 3. Composition/information on ingredients

| Chemical name                              | Common name                 | Identifiers     | %        |
|--|-----------------------------|-----------------|----------|
| ∭ilicic acid, ethyl ester                  | ETHYL SILICATE POLYMER      | CAS: 11099-06-2 | 10 -<20  |
| 1-methoxy-2-propanol                       | PROPYLENE GLYCOL MONOMETHYL | CAS: 107-98-2   | 10 -<20  |
|  | ETHER                       |                 |          |
| Isopropyl alcohol                          | ISOPROPYL ALCOHOL           | CAS: 67-63-0    | 10 -<20  |
| Kaolin                                     | ALUMINUM SILICATE           | CAS: 1332-58-7  | 10 -<20  |
| Xylene                                     | Xylene                      | CAS: 1330-20-7  | 5 - <10  |
| ethanol                                    | ETHYL ALCOHOL               | CAS: 64-17-5    | 5 - <10  |
| crystalline silica, respirable powder (<10 | QUARTZ (<10 microns)        | CAS: 14808-60-7 | 5 - <10  |
| microns)                                   |                             |                 |          |
| Mica-group minerals                        | MICA                        | CAS: 12001-26-2 | 1 - <5   |
| tetraethyl silicate                        | Tetraethyl Silicate         | CAS: 78-10-4    | 1 - <5   |
| ethylbenzene                               | ETHYLBENZENE                | CAS: 100-41-4   | 1 - <5   |
| Cellulose, ethyl ether                     | ETHYL CELLULOSE             | CAS: 9004-57-3  | 1 - <5   |
| Methyl alcohol                             | Methyl alcohol              | CAS: 67-56-1    | 0.1 - <1 |
| trimethyl borate                           | trimethyl borate            | CAS: 121-43-7   | 0.1 - <1 |
| titanium dioxide                           | TITANIUM DIOXIDE            | CAS: 13463-67-7 | 0.1 - <1 |
| Sulfuric acid                              | Sulfuric acid               | CAS: 7664-93-9  | 0.1 - <1 |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

### Section 4. First aid measures

| A. Eye contact | : Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids |
|----------------|--|
|                | apart for at least 10 minutes and seek immediate medical advice.                         |

- B. Skin contact : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.
- C. Inhalation : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.
- D. Ingestion : If swallowed, seek medical advice immediately and show this container or label.
   Keep person warm and at rest. Do NOT induce vomiting.
- E. Notes to physician
   : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
   : No specific treatment.

Protection of first-aiders: No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly

with water before removing it, or wear gloves.

#### See toxicological information (Section 11)

Korea (GHS) Page: 3/16

**Product name SIGMAGUARD 750 BIN GREY(SHI)** 

### Section 5. Fire-fighting measures

#### A. Extinguishing media

Suitable extinguishing media

: Use dry chemical, CO2, water spray (fog) or foam.

Unsuitable extinguishing media

: Do not use water jet.

B. Specific hazards arising from the chemical

: Highly flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion.

Hazardous thermal decomposition products

: Decomposition products may include the following materials:

carbon oxides metal oxide/oxides

C. Special equipment for fire-fighting

: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

**Fire-fighting procedures** 

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.

### Section 6. Accidental release measures

A. Personal precautions, protective equipment and emergency procedures : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

B. Environmental precautions

: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

#### C. Methods and materials for containment and cleaning up

**Small spill** 

: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Large spill

: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Korea (GHS) Page: 4/16

**Product name SIGMAGUARD 750 BIN GREY(SHI)** 

### Section 7. Handling and storage

#### A. Precautions for safe handling

- : Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use non-sparking tools. Take precautionary measures against electrostatic discharges. To avoid fire or explosion, dissipate static electricity during transfer by grounding and bonding containers and equipment before transferring material. Empty containers retain product residue and can be hazardous. Do not reuse container.
- B. Conditions for safe storage, including any incompatibilities
- : Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

### Section 8. Exposure controls/personal protection

#### A. Occupational exposure limits

| Ingredient name                                     | Exposure limits                            |
|---|--|
| <b></b> rmethoxy-2-propanol                         | Ministry of Employment and Labor           |
|   | (Republic of Korea, 7/2018).               |
|   | STEL: 150 ppm 15 minutes.                  |
|   | TWA: 100 ppm 8 hours.                      |
| Isopropyl alcohol                                   | Ministry of Employment and Labor           |
|   | (Republic of Korea, 7/2018).               |
|   | STEL: 400 ppm 15 minutes.                  |
|   | TWA: 200 ppm 8 hours.                      |
| Kaolin  | Ministry of Employment and Labor           |
|   | (Republic of Korea, 7/2018).               |
|   | TWA: 2 mg/m³ 8 hours. Form: Respirable     |
|   | fraction                                   |
| Xylene  | Ministry of Employment and Labor           |
|   | (Republic of Korea, 7/2018).               |
|   | STEL: 150 ppm 15 minutes.                  |
|   | TWA: 100 ppm 8 hours.                      |
| ethanol   | Ministry of Employment and Labor           |
|   | (Republic of Korea, 7/2018).               |
|   | TWA: 1000 ppm 8 hours.                     |
| crystalline silica, respirable powder (<10 microns) | Ministry of Employment and Labor           |
|   | (Republic of Korea, 7/2018).               |
|   | TWA: 0.05 mg/m <sup>3</sup> 8 hours. Form: |
|   | Respirable fraction                        |

**Product name SIGMAGUARD 750 BIN GREY(SHI)** 

### Section 8. Exposure controls/personal protection

(Republic of Korea, 7/2018).

TWA: 3 mg/m<sup>3</sup> 8 hours. Form: Respirable

fraction

tetraethyl silicate Ministry of Employment and Labor

(Republic of Korea, 7/2018). TWA: 10 ppm 8 hours.

ethylbenzene Ministry of Employment and Labor

(Republic of Korea, 7/2018). STEL: 125 ppm 15 minutes. TWA: 100 ppm 8 hours.

Methyl alcohol Ministry of Employment and Labor

(Republic of Korea, 7/2018). Absorbed

through skin.

STEL: 250 ppm 15 minutes. TWA: 200 ppm 8 hours. ACGIH TLV (United States).

STEL: 6 mg/m<sup>3</sup> TWA: 2 mg/m<sup>3</sup>

titanium dioxide Ministry of Employment and Labor

(Republic of Korea, 7/2018).

TWA: 10 mg/m³ 8 hours. Form: total dust

with less than 1% of free SiO2

Ministry of Employment and Labor

(Republic of Korea, 7/2018).

TWA: 0.2 mg/m³ 8 hours. Form: Thoracic

fraction

STEL: 0.6 mg/m<sup>3</sup> 15 minutes. Form:

Thoracic fraction

Recommended monitoring procedures

trimethyl borate

Sulfuric acid

If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

B. Appropriate engineering controls

: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.

**Environmental exposure** controls

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

#### C. Personal protective equipment

**Respiratory protection** 

: Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.

**Eye protection** 

: Chemical splash goggles.

Korea (GHS) Page: 6/16

**Product name SIGMAGUARD 750 BIN GREY(SHI)** 

### Section 8. Exposure controls/personal protection

**Hand protection** 

: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

**Gloves** 

: For prolonged or repeated handling, use the following type of gloves:

Recommended: polyvinyl alcohol (PVA), Viton®, nitrile rubber, butyl rubber

**Body protection** 

Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear anti-static protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves.

**Hygiene measures** 

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

### Section 9. Physical and chemical properties

A. Appearance

Physical state : Liquid.
Color : Gray.

B. Odor : Aromatic.
C. Odor threshold : Not available.
D. pH : Not available.
E. Melting/freezing point : Not available.
F. Boiling point/boiling : >37.78°C (>100°F)

range

G. Flash point : Closed cup: 20°C (68°F)

H. Evaporation rate : Not available.I. Flammability (solid, gas) : Not available.

J. Lower and upper explosive (flammable)

rtoravanabio

limits

: Greatest known range: Lower: 1.3% Upper: 23% (tetraethyl silicate)

K. Vapor pressure : Not available.

L. Solubility : Insoluble in the following materials: cold water.

M. Vapor density : Not available.

N. Relative density : 1.08

O. Partition coefficient: n-octanol/water

: Not available.

P. Auto-ignition

: Not available.

temperature Q. Decomposition

: Not available.

temperature

i Not available

Korea (GHS) Page: 7/16

**Product name SIGMAGUARD 750 BIN GREY(SHI)** 

### Section 9. Physical and chemical properties

R. Viscosity : Kinematic (40°C (104°F)): >0.21 cm²/s (>21 cSt)

S. Molecular weight : Not applicable.

### Section 10. Stability and reactivity

A. Chemical stability

: The product is stable.

Possibility of hazardous

: Under normal conditions of storage and use, hazardous reactions will not occur.

reactions

B. Conditions to avoid : When exposed to high temperatures may produce hazardous decomposition

products.

**C.** Incompatible materials : Keep away from the following materials to prevent strong exothermic reactions:

oxidizing agents, strong alkalis, strong acids.

D. Hazardous decomposition products

: Depending on conditions, decomposition products may include the following

materials: carbon oxides metal oxide/oxides

### Section 11. Toxicological information

A. Information on the likely routes of exposure

: Not available.

#### Potential acute health effects

Inhalation : Can cause central nervous system (CNS) depression. May cause drowsiness or

dizziness.

**Ingestion** : Can cause central nervous system (CNS) depression.

**Skin contact**: Defatting to the skin. May cause skin dryness and irritation.

**Eye contact** : Causes serious eye irritation.

#### Over-exposure signs/symptoms

**Inhalation** : Adverse symptoms may include the following:

nausea or vomiting

headache

drowsiness/fatigue dizziness/vertigo unconsciousness reduced fetal weight increase in fetal deaths skeletal malformations

**Ingestion**: Adverse symptoms may include the following:

reduced fetal weight increase in fetal deaths skeletal malformations

**Skin contact**: Adverse symptoms may include the following:

irritation dryness cracking

reduced fetal weight increase in fetal deaths skeletal malformations

Korea (GHS) Page: 8/16

**Product name SIGMAGUARD 750 BIN GREY(SHI)** 

## **Section 11. Toxicological information**

Eye contact

: Adverse symptoms may include the following: pain or irritation

watering redness

### B. Health hazards

#### **Acute toxicity**

| Product/ingredient name       | Result                    | Species | Dose                     | Exposure |

### **Section 11. Toxicological information**

**Conclusion/Summary** 

Skin : There are no data available on the mixture itself.Respiratory : There are no data available on the mixture itself.

**Mutagenicity** 

**Conclusion/Summary**: There are no data available on the mixture itself.

**Carcinogenicity** 

**Conclusion/Summary**: There are no data available on the mixture itself.

**Reproductive toxicity** 

**Conclusion/Summary**: There are no data available on the mixture itself.

**Teratogenicity** 

**Conclusion/Summary**: There are no data available on the mixture itself.

#### Specific target organ toxicity (single exposure)

| Name  | Classification           | Route of exposure | Target organs  |
|---|--------------------------|-------------------|--|
| methoxy-2-propanol Isopropyl alcohol Xylene tetraethyl silicate | Category 3<br>Category 3 | Not applicable.   | Narcotic effects Narcotic effects Narcotic effects Respiratory tract |
| Methyl alcohol trimethyl borate                                 | Category 1               |                   | irritation Not determined optic nerve                                |

#### Specific target organ toxicity (repeated exposure)

| Name   | Classification | Route of exposure | Target organs   |
|--------|----------------|-------------------|---|
| ⊠ylene | Category 1     |                   | central nervous<br>system (CNS),<br>kidneys and liver |

#### **Aspiration hazard**

| Name | Result   |
|------|--|
|      | ASPIRATION HAZARD - Category 2<br>ASPIRATION HAZARD - Category 1 |

#### Potential chronic health effects

General : May cause damage to organs through prolonged or repeated exposure. Prolonged or

repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis.

**Carcinogenicity** : May cause cancer. Risk of cancer depends on duration and level of exposure.

**Mutagenicity**: No known significant effects or critical hazards.

**Teratogenicity**: May damage the unborn child.

**Developmental effects**: No known significant effects or critical hazards.

Fertility effects : May damage fertility.

Product name SIGMAGUARD 750 BIN GREY(SHI)

### **Section 11. Toxicological information**

#### **Additional information**

Sanding and grinding dusts may be harmful if inhaled. This product contains crystalline silica which can cause lung cancer or silicosis. The risk of cancer depends on the duration and level of exposure to dust from sanding surfaces or mist from spray applications. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing. Wash thoroughly after handling. Emits toxic fumes when heated.

| Methyl alcohol          | -0.77  | -           | low       |
| trimethyl borate        | -1.9   | -           | low       |

D. Mobility in soil

Soil/water partition coefficient (Koc)

: Not available.

**E.** Other adverse effects : No known significant effects or critical hazards.

### Section 13. Disposal considerations

#### A. Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

#### **B.** Disposal precautions

: This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

**Product name SIGMAGUARD 750 BIN GREY(SHI)** 

### **Section 14. Transport information**

#### **Additional information**

UN : None identified.IMDG : None identified.IATA : None identified.

# F. Special precaution which a user to be aware of or needs to comply with in connection with transport or transportation

**Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

### **Section 15. Regulatory information**

#### A. Regulation according to ISHA

ISHA article 37 (Harmful substances prohibited from manufacture)

: None of the components are listed.

ISHA article 38 (Harmful substances requiring

: None of the components are listed.

Article 2 of Youth Protection

Act on Substances Hazardous to Youth

: It is not allowed to sell to persons under the age of 19.

#### **Exposure Limits of Chemical Substances and Physical Factors**

The following components have an OEL:

1/methoxy-2-propanol

Isopropyl alcohol

Kaolin

permission)

**Xylene** 

ethanol

crystalline silica, respirable powder (<10 microns)

Mica-group minerals

tetraethyl silicate

ethylbenzene

Methyl alcohol

trimethyl borate

titanium dioxide

Sulfuric acid

ISHA Enforcement Regs Annex 11-3 (Exposure standards established

for harmful factors)

ISHA Enforcement Regs Annex 11-5 (Harmful factors subject to Work

**Environment Measurement**)

: None of the components are listed.

: The following components are listed: Isopropyl alcohol Preparations containing material at weight ratio of 1% or more, Silicates less than 1% crystalline silica; (Mineral dust), Quartz (Mineral dust), Mica less than 1% crystalline silica; (Mineral dust), Xylene, o,m,p-isomers Preparations containing material at weight ratio of 1% or more, Ethylbenzene Preparations containing material at weight ratio of 1% or more

**Product name SIGMAGUARD 750 BIN GREY(SHI)** 

### Section 15. Regulatory information

Annex 12-2 (Harmful **Factors Subject to** 

**Special Health Check-up)** 

**Standard of Industrial Safety and Health Annex** 

12 (Hazardous

substances subject to

control)

ISHA Enforcement Regs : The following components are listed; Isopropyl alcohol, Xylene, Ethylbenzene

The following components are listed: isopropyl alcohol, xylene, ethyl benzene,

sulfuric acid

: Not applicable

Ethylbenzene

B. Regulation according to Chemicals Control Act

**CCA Article 20 Toxic** 

**Chemicals (K-Reach** 

Article 20)

**CCA Article 18 Prohibited (K-Reach** 

Article 27)

**CCA Article 20 Restricted (K-Reach** 

Article 27)

CCA Article 11 (TRI)

Korea inventory

CCA Article 39 (Accident **Precaution Chemicals**)

C. Dangerous Materials Safety Management Act

: Class 4 - Flammable Liquid

: None of the components are listed.

: All components are listed or exempted.

: None of the components are listed.

: None of the components are listed.

Item: 2. Class 1 petroleums - Water-insoluble liquid

Threshold: 200 L Danger category: II

**Signal word:** Contact with sources of ignition prohibited

: Dispose of contents and container in accordance with all local, regional, national and D. Wastes regulation international regulations.

E. Regulation according to other foreign laws

Safety, health and environmental regulations specific for the product

: No known specific national and/or regional regulations applicable to this product

: The following components are listed: 2-Propanol, Xylene including o-,m-,p- isomer,

(including its ingredients).
