# **SAFETY DATA SHEET**

Date of issue/Date of revision 16 June 2021 Version 11

| Section 1. Identification                   |   |  |
|---|---|--|
| Product name                                | : TIDEGUARD 171A CURE USA   |  |
| Product code                                | : NU171-B/01  |  |
| Other means of<br>identification            | : Not available.  |  |
| Product type                                | : Liquid.   |  |
| Relevant identified uses of                 | the substance or mixture and uses advised against   |  |
| Product use                                 | : Industrial applications, Used by spraying.  |  |
| Use of the substance/<br>mixture            | : Coating.  |  |
| Uses advised against                        | : Not applicable.   |  |
| Manufacturer                                | : PPG Industries, Inc.<br>One PPG Place<br>Pittsburgh, PA 15272   |  |
| <u>Emergency telephone</u><br><u>number</u> | : (412) 434-4515 (U.S.)<br>(514) 645-1320 (Canada)<br>SETIQ Interior de la República: 800-00-214-00 (México)<br>SETIQ Ciudad de México: (55) 5559-1588 (México) |  |
| Technical Phone Number                      | : 888-977-4762  |  |

## Section 2. Hazards identification

| OSHA/HCS status                            | <ul> <li>This material is considered hazardous by the OSHA Hazard Communication Standard<br/>(29 CFR 1910.1200).</li> </ul>                |
|--|--|
| Classification of the substance or mixture | : ACUTE TOXICITY (oral) - Category 4<br>SKIN CORROSION - Category 1A<br>SERIOUS EYE DAMAGE - Category 1<br>SKIN SENSITIZATION - Category 1 |
|  | Percentage of the mixture consisting of ingredient(s) of unknown acute toxicity: 18.2% (oral), 100% (dermal), 100% (inhalation)            |
| GHS label elements                         |  |
| Hazard pictograms                          |  |
| Signal word                                | : Danger   |

Product name TIDEGUARD 171A CURE USA

### Section 2. Hazards identification

| Hazard statements                | : Harmful if swallowed.   |
|----------------------------------|---|
| Hazaru statements                | Causes severe skin burns and eye damage.  |
|                                  | May cause an allergic skin reaction.  |
|                                  | iviay cause an allergic skill reaction.   |
| Precautionary statements         |   |
| Prevention                       | : Wear protective gloves, protective clothing and eye or face protection. Avoid breathing vapor. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Contaminated work clothing must not be allowed out of the workplace.   |
| Response                         | : IF INHALED: Remove person to fresh air and keep comfortable for breathing.<br>Immediately call a POISON CENTER or doctor. IF SWALLOWED: Immediately call a<br>POISON CENTER or doctor. Rinse mouth. Do NOT induce vomiting. IF ON SKIN (or<br>hair): Take off immediately all contaminated clothing. Rinse skin with water.<br>Immediately call a POISON CENTER or doctor. Wash contaminated clothing before<br>reuse. IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Get<br>medical advice or attention. IF IN EYES: Rinse cautiously with water for several<br>minutes. Remove contact lenses, if present and easy to do. Continue rinsing.<br>Immediately call a POISON CENTER or doctor. |
| Storage                          | : Store locked up.  |
| Disposal                         | : Dispose of contents and container in accordance with all local, regional, national and international regulations.   |
| Supplemental label<br>elements   | : Do not taste or swallow. This product either contains formaldehyde or is capable of releasing formaldehyde above 0.5 ppm under certain conditions. Formaldehyde is a known cancer hazard, a skin sensitizer and a respiratory sensitizer. Wash thoroughly after handling. Emits toxic fumes when heated.  |
| Hazards not otherwise classified | : Causes digestive tract burns.   |

## Section 3. Composition/information on ingredients

| Substance/mixture | 1 | Mixture                 |
|-------------------|---|-------------------------|
| Product name      | 1 | TIDEGUARD 171A CURE USA |

| Ingredient name  | %                      | CAS number               |
|--|------------------------|--------------------------|
| 2-Propenenitrile, reaction products with 2,2,4(or 2,4,4)-trimethyl-<br>1,6-hexanediamine   | ≥50 - ≤75              | 90530-20-4               |
| Formaldehyde, polymer with 1,3-dimethylbenzene 2,2,4(or 2,4,4)-trimethylhexane-1,6-diamine | ≥10 - <20<br>≥10 - ≤20 | 26139-75-3<br>25513-64-8 |

SUB codes represent substances without registered CAS Numbers.

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

If ingestion, irritation, any type of overexposure or symptoms of overexposure occur during or persists after use of this product, contact a POISON CONTROL CENTER, EMERGENCY ROOM OR PHYSICIAN immediately; have Safety Data Sheet information available. Never give anything by mouth to an unconscious or convulsing person. Description of necessary first aid measures

| Eye contact  | : Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Seek immediate medical attention.  |
|--------------|--|
| Inhalation   | <ul> <li>Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is<br/>irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained<br/>personnel.</li> </ul> |
| Skin contact | <ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water<br/>or use recognized skin cleanser. Do NOT use solvents or thinners.</li> </ul>   |
| Ingestion    | <ul> <li>If swallowed, seek medical advice immediately and show this container or label. Keep<br/>person warm and at rest. Do NOT induce vomiting.</li> </ul>  |

### Most important symptoms/effects, acute and delayed

| Potential acute health effec | ts  |
|------------------------------|---|
| Eye contact                  | : Causes serious eye damage.  |
| Inhalation                   | : No known significant effects or critical hazards.   |
| Skin contact                 | : Causes severe burns. May cause an allergic skin reaction.   |
| Ingestion                    | : Harmful if swallowed. Corrosive to the digestive tract. Causes burns.   |
| Over-exposure signs/symp     | toms  |
| Eye contact                  | : Adverse symptoms may include the following:<br>pain<br>watering<br>redness  |
| Inhalation                   | : No specific data.   |
| Skin contact                 | : Adverse symptoms may include the following:<br>pain or irritation<br>redness<br>blistering may occur  |
| Ingestion                    | : Adverse symptoms may include the following: stomach pains   |
| Indication of immediate med  | ical attention and special treatment needed, if necessary   |
| Notes to physician           | <ul> <li>In case of inhalation of decomposition products in a fire, symptoms may be delayed.<br/>The exposed person may need to be kept under medical surveillance for 48 hours.</li> </ul>   |
| Specific treatments          | : No specific treatment.  |
| Protection of first-aiders   | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

See toxicological information (Section 11)

**United States** 

Page: 4/13

Product name TIDEGUARD 171A CURE USA

## Section 5. Fire-fighting measures

| Extinguishing media                            |   |
|--|---|
| Suitable extinguishing media                   | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                 | : None known.   |
| Specific hazards arising from the chemical     | In a fire or if heated, a pressure increase will occur and the container may burst. Vapors<br>may accumulate in low or confined areas or travel a considerable distance to a source<br>of ignition and flash back.      |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon oxides<br>nitrogen oxides<br>Formaldehyde.  |
| Special protective actions for fire-fighters   | <ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if<br/>there is a fire. No action shall be taken involving any personal risk or without suitable<br/>training.</li> </ul> |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.   |

## Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

| For non-emergency<br>personnel | :   | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Do not breathe vapor or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment.   |
|--------------------------------|-----|---|
| For emergency responders       | :   | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| Environmental precautions      | :   | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air).   |
| Methods and materials for co   | ont | ainment and cleaning up   |
| Small spill                    | :   | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |
| Large spill                    | :   | Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

Product name TIDEGUARD 171A CURE USA

## Section 7. Handling and storage

### Precautions for safe handling

| Protective measures  | : Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|--|--|
| Special precautions  | : Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. Vapors are heavier than air and may spread along floors. If this material is part of a multiple component system, read the Safety Data Sheet(s) for the other component or components before blending as the resulting mixture may have the hazards of all of its parts.  |
| Advice on general<br>occupational hygiene                          | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |
| Conditions for safe storage,<br>including any<br>incompatibilities | : Do not store above the following temperature: 50°C (122°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.  |

## Section 8. Exposure controls/personal protection

### **Control parameters**

#### **Occupational exposure limits**

| Ingredient name  |  | Exposure limits |  |  |  |
|--|--|-----------------|--|--|--|
| 2-Pro  | penenitrile, reaction products with 2,2,4(or 2,4,4)-trimethyl-                 | None            | e.   |  |  |
| 1.6-he   | exanediamine   |                 |  |  |  |
|  | aldehyde, polymer with 1,3-dimethylbenzene                                     | None            | e.   |  |  |
|  | or 2,4,4)-trimethylhexane-1,6-diamine  | None            | e.   |  |  |
|  | Key to abbreviations   |                 |  |  |  |
| А  | = Acceptable Maximum Peak  | S               | <ul> <li>Potential skin absorption</li> </ul>        |  |  |
| ACGIH  | <ul> <li>American Conference of Governmental Industrial Hygienists.</li> </ul> | SR              | <ul> <li>Respiratory sensitization</li> </ul>        |  |  |
| С  | = Ceiling Limit  | SS              | = Skin sensitization                                 |  |  |
| F  | = Fume   | STEL            | <ul> <li>Short term Exposure limit values</li> </ul> |  |  |
| IPEL = Internal Permissible Exposure Limit TD = Total dust           |  |                 |  |  |  |
| OSHA   | <ul> <li>Occupational Safety and Health Administration.</li> </ul>             | TLV             | = Threshold Limit Value                              |  |  |
| R = Respirable TWA = Time Weighted Average                           |  |                 |  |  |  |
| Z = OSHA 29 CFR 1910.1200 Subpart Z - Toxic and Hazardous Substances |  |                 |  |  |  |

Consult local authorities for acceptable exposure limits.

Product name TIDEGUARD 171A CURE USA

## Section 8. Exposure controls/personal protection

| Recommended monitoring procedures | :  | If this product contains ingredients with exposure limits, personal, workplace<br>atmosphere or biological monitoring may be required to determine the effectiveness of<br>the ventilation or other control measures and/or the necessity to use respiratory<br>protective equipment. Reference should be made to appropriate monitoring standards.<br>Reference to national guidance documents for methods for the determination of<br>hazardous substances will also be required.  |
|-----------------------------------|----|--|
| Appropriate engineering controls  | :  | If user operations generate dust, fumes, gas, vapor or mist, use process enclosures,<br>local exhaust ventilation or other engineering controls to keep worker exposure to<br>airborne contaminants below any recommended or statutory limits.   |
| Environmental exposure controls   | :  | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process equipment<br>will be necessary to reduce emissions to acceptable levels.  |
| Individual protection measur      | es |  |
| Hygiene measures                  | :  | Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Contaminated work clothing should not be allowed out of the workplace. Wash<br>contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location.  |
| Eye/face protection               | 1  | Chemical splash goggles and face shield.   |
| Skin protection                   |    |  |
| Hand protection                   | :  | Chemical-resistant, impervious gloves complying with an approved standard should be<br>worn at all times when handling chemical products if a risk assessment indicates this is<br>necessary. Considering the parameters specified by the glove manufacturer, check<br>during use that the gloves are still retaining their protective properties. It should be<br>noted that the time to breakthrough for any glove material may be different for different<br>glove manufacturers. In the case of mixtures, consisting of several substances, the<br>protection time of the gloves cannot be accurately estimated. |
| Gloves                            | 1  | nitrile neoprene   |
| Body protection                   | :  | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Other skin protection             | :  | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Respiratory protection            | :  | Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. The respiratory protection shall be in accordance to 29 CFR 1910.134.   |

## Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.  |
|------------------------------------|---|
| Chemical stability                 | : The product is stable.  |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.   |
| Conditions to avoid                | : When exposed to high temperatures may produce hazardous decomposition products.<br>Refer to protective measures listed in sections 7 and 8. |
| Incompatible materials             | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.              |
| Hazardous decomposition products   | : Depending on conditions, decomposition products may include the following materials: carbon oxides nitrogen oxides Formaldehyde.            |

Not available.

Target organs

: Contains material which may cause damage to the following organs: gastrointestinal tract, upper respiratory tract, skin, eyes.

## Section 11. Toxicological information

### Aspiration hazard

Not available.

### Information on the likely routes of exposure

### Potential acute health effects

| Eye contact                    | : Causes serious eye damage.  |  |  |  |
|--------------------------------|---|--|--|--|
| Inhalation                     | : No known significant effects or critical hazards.   |  |  |  |
| Skin contact                   | Causes severe burns. May cause an allergic skin reaction.   |  |  |  |
| Ingestion                      | : Harmful if swallowed. Corrosive to the digestive tract. Causes burns.   |  |  |  |
| Over-exposure signs/sympt      | <u>oms</u>  |  |  |  |
| Eye contact                    | : Adverse symptoms may include the following:<br>pain<br>watering   |  |  |  |
|                                | redness   |  |  |  |
| Inhalation                     | : No specific data.   |  |  |  |
| Skin contact                   | : Adverse symptoms may include the following:<br>pain or irritation<br>redness<br>blistering may occur  |  |  |  |
| Ingestion                      | : Adverse symptoms may include the following:   |  |  |  |
| ingestion                      | stomach pains   |  |  |  |
| Delayed and immediate effec    | ts and also chronic effects from short and long term exposure   |  |  |  |
| Conclusion/Summary             | : There are no data available on the mixture itself. This product either contains formaldehyde or is capable of releasing formaldehyde above 0.5 ppm under certain conditions. Formaldehyde is a known cancer hazard, a skin sensitizer and a respiratory sensitizer. If splashed in the eyes, the liquid may cause irritation and reversible damage. Ingestion may cause nausea, diarrhea and vomiting. This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact. |  |  |  |
| Short term exposure            |   |  |  |  |
| Potential immediate<br>effects | : There are no data available on the mixture itself.  |  |  |  |
| Potential delayed effects      | : There are no data available on the mixture itself.  |  |  |  |
| Long term exposure             |   |  |  |  |
| Potential immediate effects    | : There are no data available on the mixture itself.  |  |  |  |
| Potential delayed effects      | : There are no data available on the mixture itself.  |  |  |  |
| Potential chronic health effe  | ects  |  |  |  |
| General                        | : Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.   |  |  |  |
| Carcinogenicity                | : No known significant effects or critical hazards.   |  |  |  |
| Mutagenicity                   | : No known significant effects or critical hazards.   |  |  |  |
| Reproductive toxicity          | : No known significant effects or critical hazards.   |  |  |  |
| Numerical measures of toxic    |   |  |  |  |
| Acute toxicity estimates       |   |  |  |  |
|                                |   |  |  |  |

: Not available.

## Section 13. Disposal considerations

| Disposal methods | : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. |
|------------------|--|
|                  | cleaned of mised out. Empty containers of inters may retain some product residues.   |

United States Page: 10/13

Version 11

Product name TIDEGUARD 171A CURE USA

## Section 13. Disposal considerations

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures

| IMDG | : None identified. |
| ΙΑΤΑ | : None identified. |

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments

## Section 15. Regulatory information

÷

### **United States**

United States inventory (TSCA 8b) : All components are active or exempted.

**U.S. Federal regulations** 

SARA 302/304

**SARA 304 RQ** : Not applicable.

**Composition/information on ingredients** 

No products were found.

### SARA 311/312

Product name TIDEGUARD 171A CURE USA

### Section 15. Regulatory information

```
Classification
```

: ACUTE TOXICITY (oral) - Category 4 SKIN CORROSION - Category 1A SERIOUS EYE DAMAGE - Category 1 SKIN SENSITIZATION - Category 1 HNOC - Corrosive to digestive tract

#### **Composition/information on ingredients**

| Name                             | %         | Classification                                   |
|----------------------------------|-----------|--|
| 2-Propenenitrile, reaction       | ≥50 - ≤75 | ACUTE TOXICITY (oral) - Category 4               |
| products with 2,2,4(or 2,4,4)-   |           | SKIN CORROSION - Category 1B                     |
| trimethyl-1,6-hexanediamine      |           | SERIOUS EYE DAMAGE - Category 1                  |
|                                  |           | SKIN SENSITIZATION - Category 1B                 |
|                                  |           | HNOC - Corrosive to digestive tract              |
| Formaldehyde, polymer with       | ≥10 - <20 | SKIN IRRITATION - Category 2                     |
| 1,3-dimethylbenzene              |           | EYE IRRITATION - Category 2A                     |
|                                  |           | SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) |
|                                  |           | (Respiratory tract irritation) - Category 3      |
| 2,2,4(or 2,4,4)-trimethylhexane- | ≥10 - ≤20 | ACUTE TOXICITY (oral) - Category 4               |
| 1,6-diamine                      |           | SKIN CORROSION - Category 1A                     |
|                                  |           | SERIOUS EYE DAMAGE - Category 1                  |
|                                  |           | SKIN SENSITIZATION - Category 1A                 |
|                                  |           | HNOC - Corrosive to digestive tract              |

Additional environmental information is contained on the Environmental Data Sheet for this product, which can be obtained from your PPG representative.

## Section 16. Other information

Hazardous Material Information System (U.S.A.)

```
Health :
                     Flammability : 1 Physical hazards :
            3
                                                                  0
(*) - Chronic effects
```

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on MSDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.
