## **SAFETY DATA SHEET**

## Conforms to Official Mexican Standard NOM-018-STPS-2015

Date of revision 29 June 2021

Version 4

Date of issue 29 June 2021

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

| Product name                                | : MEGASEAL SL Neutral Base Comp A   |
|---|---|
| Product code                                | : 00338352  |
| Other means of<br>identification            | : Not applicable.   |
| Product type                                | : Liquid.   |
| Relevant identified uses o                  | f the substance or mixture and uses advised against   |
| Product use                                 | : Professional applications, Used by spraying.  |
| Use of the substance/<br>mixture            | : Coating.  |
| Uses advised against                        | Not applicable.   |
| Manufacturer                                | : PPG Industries, Inc.<br>One PPG Place<br>Pittsburgh, PA 15272   |
| <u>Emergency telephone</u><br><u>number</u> | : (412) 434-4515 (U.S.)<br>(514) 645-1320 (Canada)<br>SETIQ Interior de la República: 800-00-214-00 (México)<br>SETIQ Ciudad de México: (55) 5559-1588 (México) |
| Technical Phone Number                      | : 888-977-4762  |

## **SECTION 2: Hazards identification**

| Classification of the substance or mixture | : ACUTE TOXICITY (oral) - Category 5<br>ACUTE TOXICITY (dermal) - Category 5<br>SKIN IRRITATION - Category 2<br>EYE IRRITATION - Category 2A<br>SKIN SENSITIZATION - Category 1<br>CARCINOGENICITY - Category 1A<br>SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 1<br>Percentage of the mixture consisting of ingredient(s) of unknown acute toxicity: 28%<br>(oral), 41% (dermal), 93% (inhalation) |
|--|---|
| GHS label elements                         |   |
| Hazard pictograms                          |   |
| Signal word                                | : Danger  |
|  | Mexico Page: 1/13   |

## Product name MEGASEAL SL Neutral Base Comp A

## **SECTION 2: Hazards identification**

| Hazard statements                                   | : | <ul> <li>H303 + H313 - May be harmful if swallowed or in contact with skin.</li> <li>H315 - Causes skin irritation.</li> <li>H317 - May cause an allergic skin reaction.</li> <li>H319 - Causes serious eye irritation.</li> <li>H350 - May cause cancer.</li> <li>H372 - Causes damage to organs through prolonged or repeated exposure.</li> </ul>  |
|---|---|---|
| Precautionary statements                            |   |   |
| Prevention  | : | <ul> <li>P201 - Obtain special instructions before use.</li> <li>P202 - Do not handle until all safety precautions have been read and understood.</li> <li>P280 - Wear protective gloves, protective clothing and eye or face protection.</li> <li>P260 - Do not breathe vapor.</li> <li>P270 - Do not eat, drink or smoke when using this product.</li> <li>P264 - Wash thoroughly after handling.</li> <li>P272 - Contaminated work clothing should not be allowed out of the workplace.</li> </ul>   |
| Response  | : | <ul> <li>P308 + P313 - IF exposed or concerned: Get medical advice or attention.</li> <li>P301 + P312 - IF SWALLOWED: Call a POISON CENTER or doctor if you feel unwell.</li> <li>P362 + P364 - Take off contaminated clothing and wash it before reuse.</li> <li>P302 + P312, P352 - IF ON SKIN: Call a POISON CENTER or doctor if you feel unwell. Wash with plenty of water.</li> <li>P333 + P313 - If skin irritation or rash occurs: Get medical advice or attention.</li> <li>P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes.</li> <li>Remove contact lenses, if present and easy to do. Continue rinsing.</li> <li>P337 + P313 - If eye irritation persists: Get medical advice or attention.</li> </ul> |
| Storage   | : | ₽405 - Store locked up.   |
| Disposal  | : | 501 - Dispose of contents and container in accordance with all local, regional,<br>national and international regulations.  |
| Other hazards which do not result in classification | : | Sanding and grinding dusts may be harmful if inhaled. This product contains crystalline silica which can cause lung cancer or silicosis. The risk of cancer depends on the duration and level of exposure to dust from sanding surfaces or mist from spray applications. Emits toxic fumes when heated.   |

See toxicological information (Section 11)

## **SECTION 3: Composition/information on ingredients**

| Substance/mixture                | : Mixture                         |
|----------------------------------|-----------------------------------|
| Product name                     | : MEGASEAL SL Neutral Base Comp A |
| Other means of<br>identification | : Not applicable.                 |

| Ingredient name   | %          | CAS number |
|---|------------|------------|
| Peaction product: bisphenol-A-(epichlorhydrin); epoxy resin | ≥50 - ≤73  | 25068-38-6 |
| crystalline silica, respirable powder (<10 microns)         | ≥10 - ≤20  | 14808-60-7 |
| glass, oxide, chemicals                                     | ≥10 - ≤20  | 65997-17-3 |
| Talc, not containing asbestiform fibers                     | ≥5.0 - ≤10 | 14807-96-6 |
| oxirane, mono[(C12-14-alkyloxy)methyl] derivs.              | ≥5.0 - ≤10 | 68609-97-2 |

SUB codes represent substances without registered CAS Numbers.

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Version 4

Product name MEGASEAL SL Neutral Base Comp A

## **SECTION 3: Composition/information on ingredients**

Occupational exposure limits, if available, are listed in Section 8.

## **SECTION 4: First aid measures**

#### Description of necessary first aid measures

| Eye contact  | <ul> <li>Remove contact lenses, irrigate copiously with clean, fresh water, holding the<br/>eyelids apart for at least 10 minutes and seek immediate medical advice.</li> </ul>  |
|--------------|--|
| Inhalation   | <ul> <li>Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is<br/>irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by<br/>trained personnel.</li> </ul> |
| Skin contact | <ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and<br/>water or use recognized skin cleanser. Do NOT use solvents or thinners.</li> </ul>   |
| Ingestion    | <ul> <li>If swallowed, seek medical advice immediately and show this container or label.</li> <li>Keep person warm and at rest. Do NOT induce vomiting.</li> </ul>   |

#### Most important symptoms/effects, acute and delayed

#### Potential acute health effects

| Eye contact         | : Causes serious eye irritation.  |
|---------------------|---|
| Inhalation          | : No known significant effects or critical hazards.   |
| Skin contact        | : May be harmful in contact with skin. Causes skin irritation. May cause an allergic skin reaction. |
| Ingestion           | : May be harmful if swallowed.  |
| Over-exposure signs | /symptoms   |

## See toxicological information (Section 11)

#### Indication of immediate medical attention and special treatment needed, if necessary

| Notes to physician<br>Specific treatments | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.</li> <li>No specific treatment.</li> </ul>   |
|---|---|
| Protection of first-aiders                | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

## **SECTION 5: Firefighting measures**

| Extinguishing media                        |   |
|--|---|
| Suitable extinguishing media               | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media             | : None known.   |
| Specific hazards arising from the chemical | : In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous thermal decomposition products   | : Decomposition products may include the following materials:<br>carbon oxides<br>halogenated compounds<br>metal oxide/oxides |

## Product name MEGASEAL SL Neutral Base Comp A

## **SECTION 5: Firefighting measures**

| Special protective actions                        | 1 | Promptly isolate the scene by removing all persons from the vicinity of the incident if   |
|---|---|---|
| for fire-fighters                                 |   | there is a fire. No action shall be taken involving any personal risk or without suitable training.   |
| Special protective<br>equipment for fire-fighters | : | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

## **SECTION 6: Accidental release measures**

Personal precautions, protective equipment and emergency procedures

| For non-emergency<br>personnel | :          | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Avoid breathing vapor or<br>mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment.  |
|--------------------------------|------------|---|
| For emergency responders       | :          | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| Environmental precautions      | :          | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).   |
| Methods and materials for co   | <u>ont</u> | ainment and cleaning up   |
| Small spill                    | :          | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |
| Large spill                    | :          | Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

## **SECTION 7: Handling and storage**

#### Precautions for safe handling

Protective measures
 Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

## Product name MEGASEAL SL Neutral Base Comp A

## **SECTION 7: Handling and storage**

| Special precautions  | : | Vapors may accumulate in low or confined areas or travel a considerable distance to<br>a source of ignition and flash back. Vapors are heavier than air and may spread<br>along floors. If this material is part of a multiple component system, read the Safety<br>Data Sheet(s) for the other component or components before blending as the<br>resulting mixture may have the hazards of all of its parts.   |
|--|---|---|
| Advice on general occupational hygiene                             | : | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |
| Conditions for safe storage,<br>including any<br>incompatibilities | : | Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. |
|  |   |   |

## **SECTION 8: Exposure controls/personal protection**

#### **Control parameters**

#### **Occupational exposure limits**

| Ingredient name  | Exposure limits  |
|--|--|
| eaction product: bisphenol-A-(epichlorhydrin); epoxy resin crystalline silica, respirable powder (<10 microns) | None.<br>NOM-010-STPS-2014 (Mexico, 4/2016).           |
|  | TWA: 0.025 mg/m³ 8 hours. Form:<br>Respirable          |
| glass, oxide, chemicals  | NOM-010-STPS-2014 (Mexico, 4/2016).                    |
|  | TWA: 5 mg/m³ 8 hours. Form: Inhalable                  |
|  | fraction<br>TWA: 1 fibers/cm³ 8 hours. Form: Inhalable |
|  | fraction   |
|  | TWA: 1 fibers/cm <sup>3</sup> 8 hours.                 |
| Talc, not containing asbestiform fibers  | NOM-010-STPS-2014 (Mexico, 4/2016).                    |
|  | STEL: 2 mg/m <sup>3</sup> 15 minutes. Form:            |
|  | Respirable   |
| oxirane, mono[(C12-14-alkyloxy)methyl] derivs.   | None.  |

Key to abbreviations

C = Ceiling Limit IPEL = Internal Permissible Exposure Limit STEL = Short term exposure limit

TLV = Threshold Limit Value TWA = Time Weighted Average

#### Consult local authorities for acceptable exposure limits.

| Recommended monitoring procedures | : If this product contains ingredients with exposure limits, personal, workplace<br>atmosphere or biological monitoring may be required to determine the effectiveness<br>of the ventilation or other control measures and/or the necessity to use respiratory<br>protective equipment. Reference should be made to appropriate monitoring<br>standards. Reference to national guidance documents for methods for the<br>determination of hazardous substances will also be required. |
|-----------------------------------|---|
| Appropriate engineering controls  | local exhaust ventilation or other engineering controls to keep worker exposure to  |

## Product name MEGASEAL SL Neutral Base Comp A

## **SECTION 8: Exposure controls/personal protection**

| Environmental exposure<br>controls | <u>es</u> | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels.   |
|------------------------------------|-----------|---|
| Hygiene measures                   | :         | Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Contaminated work clothing should not be allowed out of the workplace. Wash<br>contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location.   |
| Eye/face protection                | ÷         | Chemical splash goggles.  |
| Skin protection                    |           |   |
| Hand protection                    | :         | Chemical-resistant, impervious gloves complying with an approved standard should<br>be worn at all times when handling chemical products if a risk assessment indicates<br>this is necessary. Considering the parameters specified by the glove manufacturer,<br>check during use that the gloves are still retaining their protective properties. It<br>should be noted that the time to breakthrough for any glove material may be<br>different for different glove manufacturers. In the case of mixtures, consisting of<br>several substances, the protection time of the gloves cannot be accurately<br>estimated. |
| Gloves                             | 1         | butyl rubber  |
| Body protection                    | :         | Personal protective equipment for the body should be selected based on the task<br>being performed and the risks involved and should be approved by a specialist<br>before handling this product.   |
| Other skin protection              | :         | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |
| Respiratory protection             | :         | Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.  |

## **SECTION 9: Physical and chemical properties**

## **Appearance**

| Physical state   | : | Liquid.                          |
|--|---|----------------------------------|
| Color  |   | Various                          |
| Odor   | : | Characteristic.                  |
| Odor threshold   | ÷ | Not available.                   |
| Molecular weight                                       | : | Not applicable.                  |
| рН   | : | Not applicable.                  |
| Melting point  | : | Not available.                   |
| Boiling point  | : | >37.78°C (>100°F)                |
| Flash point  | : | Closed cup: >93.33°C (>200°F)    |
| Auto-ignition temperature                              | : | Not available.                   |
| Decomposition temperature<br>Flammability (solid, gas) | : | Not available.<br>Not available. |

## Product name MEGASEAL SL Neutral Base Comp A

## **SECTION 9: Physical and chemical properties**

| Lower and upper explosive                  | : Not available.                                    |
|--|---|
| (flammable) limits                         |   |
| Evaporation rate                           | : Not available.                                    |
| Vapor pressure                             | : Not available.                                    |
| Vapor density                              | : Not available.                                    |
| Relative density                           | : 1.49  |
| Density(lbs / gal)                         | : 12.43   |
| Solubility                                 | : Insoluble in the following materials: cold water. |
| Solubility in water                        | : Not available.                                    |
| Partition coefficient: n-<br>octanol/water | : Not applicable.                                   |
| Viscosity                                  | : ₭nematic (40°C (104°F)): >21 mm²/s (>21 cSt)      |
| Volatility                                 | : 100% (v/v), 0% (w/w)                              |
| % Solid. (w/w)                             | : 100   |

## **SECTION 10: Stability and reactivity**

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.  |
|------------------------------------|---|
| Chemical stability                 | : The product is stable.  |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.   |
| Conditions to avoid                | : When exposed to high temperatures may produce hazardous decomposition products.<br>Refer to protective measures listed in sections 7 and 8. |
| Incompatible materials             | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.              |
| Hazardous decomposition products   | : Depending on conditions, decomposition products may include the following materials: carbon oxides halogenated compounds metal oxide/oxides |

## **SECTION 11: Toxicological information**

### Information on toxicological effects

| Product/ingredient name  | Result                  | Species                  | Dose        | Exposure |
|--|-------------------------|--------------------------|-------------|----------|
| reaction product: bisphenol-<br>A-(epichlorhydrin); epoxy<br>resin | LD50 Dermal             | Rabbit                   | >2 g/kg     | -        |
|  | LD50 Oral               | Rat                      | >2 g/kg     | -        |
| oxirane, mono[<br>(C12-14-alkyloxy)methyl]<br>derivs.              | LD50 Oral               | Rat                      | 17100 mg/kg | -        |
| Conclusion/Summary   | : There are no data ava | ailable on the mixture i | tself.      |          |
| rritation/Corrosion  |                         |                          |             |          |

# Reproductive toxicity Conclusion/Summary : There are no data available on the mixture itself. Teratogenicity : There are no data available on the mixture itself. Specific target organ toxicity (single exposure)

Product name MEGASEAL SL Neutral Base Comp A

## **SECTION 11: Toxicological information**

| Name | Category   | Route of exposure | Target organs                |
|------|------------|-------------------|------------------------------|
|      | Category 3 | -                 | Respiratory tract irritation |

## Specific target organ toxicity (repeated exposure)

| Name  |            | Route of<br>exposure | Target organs |
|---|------------|----------------------|---------------|
| crystalline silica, respirable powder (<10 microns) | Category 1 | inhalation           | -             |

Target organs

: Contains material which causes damage to the following organs: liver, spleen, bone marrow.

Contains material which may cause damage to the following organs: kidneys, lungs, cardiovascular system, upper respiratory tract, immune system, skin, eyes.

#### **Aspiration hazard**

Not available.

#### Information on the likely routes of exposure

#### Potential acute health effects

| Folential acute health enects |           |   |
|-------------------------------|-----------|---|
| Eye contact                   | :         | Causes serious eye irritation.  |
| Inhalation                    | 1         | No known significant effects or critical hazards.   |
| Skin contact                  | :         | May be harmful in contact with skin. Causes skin irritation. May cause an allergic skin reaction.   |
| Ingestion                     | 1         | May be harmful if swallowed.  |
| Over-exposure signs/sympto    | m         | <u>2</u>  |
| Eye contact                   | :         | Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness  |
| Inhalation                    | 1         | No specific data.   |
| Skin contact                  | :         | Adverse symptoms may include the following:<br>irritation<br>redness  |
| Ingestion                     | :         | No specific data.   |
| Delayed and immediate effec   | <u>ts</u> | and also chronic effects from short and long term exposure  |
| Conclusion/Summary            | :         | There are no data available on the mixture itself. This product contains crystalline silica which can cause lung cancer or silicosis. The risk of cancer depends on the duration and level of exposure to dust from sanding surfaces or mist from spray applications. If splashed in the eyes, the liquid may cause irritation and reversible damage. Ingestion may cause nausea, diarrhea and vomiting. This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact. |
| <u>Short term exposure</u>    |           |   |
| Potential immediate effects   | :         | There are no data available on the mixture itself.  |
| Potential delayed effects     | :         | There are no data available on the mixture itself.  |
| Long term exposure            |           |   |

Other adverse effects : No known significant effects or critical hazards.

## **SECTION 13: Disposal considerations**

| Disposal methods | : The generation of waste should be avoided or minimized wherever possible.   |
|------------------|---|
|                  | Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation<br>and any regional local authority requirements. Dispose of surplus and non-<br>recyclable products via a licensed waste disposal contractor. Waste should not be<br>disposed of untreated to the sewer unless fully compliant with the requirements of |
|                  | all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when  |
|                  | handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.  |

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures

#### Product name MEGASEAL SL Neutral Base Comp A

## **SECTION 14: Transport information**

#### **Additional information**

| Mexico  | The environmentally hazardous substance mark is not required when transported in sizes of ≤5 L or ≤5 kg.  |  |  |
|---|---|--|--|
| IMDG  | This product is not regulated as a dangerous good when transported in sizes of ≤5 L or ≤5 kg, provided the packagings meet the general provisions of 4.1.1.1, 4.1.1.2 and 4.1.1.4 to 4.1.1.8. |  |  |
| ΙΑΤΑ  | : This product is not regulated as a dangerous good when transported in sizes of ≤5 L or ≤5 kg, provided the packagings meet the general provisions of 5.0.2.4.1, 5.0.2.6.1.1 and 5.0.2.8.    |  |  |
| Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage. |   |  |  |

Transport in bulk according : Not applicable. to IMO instruments
