SAFETY DATA SHEET

Conforms to Official Mexican Standard NOM-018-STPS-2015

Date of revision 29 December 2021

Version 4

Date of issue 29 December 2021

SECTION 1: Identification of the substance/mixture and of the company/undertaking

Product name	: SIGMAGUARD CSF 575 HARDENER CLEAR
Product code	: 00171465
Other means of identification	: Not applicable.
Product type	: Liquid.
Relevant identified uses of	the substance or mixture and uses advised against
Product use	: Professional applications, Used by spraying.
Use of the substance/ mixture	: Coating.
Uses advised against	: Not applicable.
Manufacturer	: PPG Industries, Inc. One PPG Place Pittsburgh, PA 15272
<u>Emergency telephone</u> number	 [412) 434-4515 (U.S.) (514) 645-1320 (Canada) SETIQ Interior de la República: 800-00-214-00 (México) SETIQ Ciudad de México: (55) 5559-1588 (México)
Technical Phone Number	: 888-977-4762

SECTION 2: Hazards identification

Classification of the	: ACUTE TOXICITY (oral) - Category 4
substance or mixture	ACUTE TOXICITY (dermal) - Category 5
	ACUTE TOXICITY (inhalation) - Category 4
	SKIN CORROSION - Category 1
	SERIOUS EYE DAMAGE - Category 1
	SKIN SENSITIZATION - Category 1
	TOXIC TO REPRODUCTION - Category 2
	Percentage of the mixture consisting of ingredient(s) of unknown acute toxicity:
	1.6% (oral), 4.1% (dermal), 43.2% (inhalation)
GHS label elements	
Hazard pictograms	
Signal word	: Danger

Product name SIGMAGUARD CSF 575 HARDENER CLEAR

SECTION 2: Hazards identification

Hazard statements	7302 + H332 - Harmful if swallowed or if inhaled. 1313 - May be harmful in contact with skin. 1314 - Causes severe skin burns and eye damage. 1317 - May cause an allergic skin reaction. 1361 - Suspected of damaging fertility or the unborn child.	
Precautionary statements	_	
Prevention	201 - Obtain special instructions before use. 202 - Do not handle until all safety precautions have been read and underst 2280 - Wear protective gloves, protective clothing and eye or face protection 2271 - Use only outdoors or in a well-ventilated area. 2261 - Avoid breathing vapor. 2270 - Do not eat, drink or smoke when using this product. 2264 - Wash thoroughly after handling. 2272 - Contaminated work clothing should not be allowed out of the workplac	
Response	 ⁷308 + P313 - IF exposed or concerned: Get medical advice or attention. ⁷304 + P340, P310 - IF INHALED: Remove person to fresh air and keep omfortable for breathing. Immediately call a POISON CENTER or doctor. ⁷301 + P310, P330, P331 - IF SWALLOWED: Immediately call a POISON CENTER or doctor. Rinse mouth. Do NOT induce vomiting. ⁷303 + P361 + P353, P310 - IF ON SKIN (or hair): Take off immediately all ontaminated clothing. Rinse skin with water. Immediately call a POISON CI r doctor. ⁷363 - Wash contaminated clothing before reuse. ⁷303 + P312, P352 - IF ON SKIN: Call a POISON CENTER or doctor if you f nwell. Wash with plenty of water. ⁷333 + P313 - If skin irritation or rash occurs: Get medical advice or attentior ⁷305 + P351 + P338, P310 - IF IN EYES: Rinse cautiously with water for sev ninutes. Remove contact lenses, if present and easy to do. Continue rinsing. 	feel n. veral
Storage	2405 - Store locked up.	
Disposal	2501 - Dispose of contents and container in accordance with all local, region ational and international regulations.	al,
Other hazards which do not result in classification	Repeated exposure to high vapor concentrations may cause irritation of the espiratory system and permanent brain and nervous system damage. Inhal apor/aerosol concentrations above the recommended exposure limits cause eadaches, drowsiness and nausea and may lead to unconsciousness or de imits toxic fumes when heated.	es
See toxicological information	ction 11)	

SECTION 3: Composition/information on ingredients

Substance/mixture	: Mixture
Product name	: SIGMAGUARD CSF 575 HARDENER CLEAR
Other means of identification	: Not applicable.

SECTION 3: Composition/information on ingredients

Ingredient name	%	CAS number
S-aminomethyl-3,5,5-trimethylcyclohexylamine	≥20 - ≤39	2855-13-2
Phenol, methylstyrenated	≥20 - ≤31	68512-30-1
benzyl alcohol	≥20 - ≤24	100-51-6
2,4,6-tris(dimethylaminomethyl)phenol	≥10 - ≤12	90-72-2
salicylic acid	≥1.0 - ≤5.0	69-72-7
bis[(dimethylamino)methyl]phenol	≥1.0 - ≤5.0	71074-89-0

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SECTION 4: First aid measures

Description of necessary first aid measures

Eye contact	: Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Seek immediate medical attention.
Inhalation	 Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.
Skin contact	 Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.
Ingestion	 If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting.

Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact	: Causes serious eye damage.
Inhalation	: Harmful if inhaled.
Skin contact	: Causes severe burns. May be harmful in contact with skin. May cause an allergic skin reaction.
Ingestion	: Harmful if swallowed.

Over-exposure signs/symptoms

See toxicological information (Section 11)

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	 In case of inhalation of decomposition products in a fire, symptoms may be delayed.
Specific treatments	The exposed person may need to be kept under medical surveillance for 48 hours. No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

Product name SIGMAGUARD CSF 575 HARDENER CLEAR

SECTION 5: Firefighting measures

Extinguishing media	
Suitable extinguishing media	: Vise an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known.
Specific hazards arising from the chemical	: \mathbf{M} a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon oxides nitrogen oxides
Special protective actions for fire-fighters	: Fromptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

SECTION 6: Accidental release measures

Personal precautions, protec	equipment and emergency procedures	
For non-emergency personnel	No action shall be taken involving any personal risk or without suitable trainin Evacuate surrounding areas. Keep unnecessary and unprotected personnel entering. Do not touch or walk through spilled material. Do not breathe vapo mist. Provide adequate ventilation. Wear appropriate respirator when ventila inadequate. Put on appropriate personal protective equipment.	from or or
For emergency responders	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".	
Environmental precautions	Avoid dispersal of spilled material and runoff and contact with soil, waterways drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).	S,
Methods and materials for co	inment and cleaning up	
Small spill	Stop leak if without risk. Move containers from spill area. Dilute with water a up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert du material and place in an appropriate waste disposal container. Dispose of visilicensed waste disposal contractor.	ry .
Large spill	Stop leak if without risk. Move containers from spill area. Approach release upwind. Prevent entry into sewers, water courses, basements or confined ar Wash spillages into an effluent treatment plant or proceed as follows. Conta collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal accord local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as spilled product. Note: see Section 1 for emergency contact information and 13 for waste disposal.	reas. in and ing to the

Product name SIGMAGUARD CSF 575 HARDENER CLEAR

SECTION 7: Handling and storage

Precautions for safe handling	1	
Protective measures	:	Fut on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
Special precautions	:	Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. Vapors are heavier than air and may spread along floors. If this material is part of a multiple component system, read the Safety Data Sheet(s) for the other component or components before blending as the resulting mixture may have the hazards of all of its parts.
Advice on general occupational hygiene	:	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	:	Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

SECTION 8: Exposure controls/personal protection

Control parameters

Occupational exposure limits

exposure limit imit Value

TWA = Time Weighted Average

Consult local authorities for acceptable exposure limits.

Product name SIGMAGUARD CSF 575 HARDENER CLEAR

SECTION 8: Exposure controls/personal protection

Recommended monitoring procedures	:	If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.
Appropriate engineering controls	:	Se only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.
Environmental exposure controls	:	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.
Individual protection measure	20	
Hygiene measures		Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection	1	Chemical splash goggles and face shield.
Skin protection		
Hand protection	:	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
Gloves	÷	butyl rubber
Body protection	:	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	:	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	:	Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.

SECTION 9: Physical and chemical properties

		Mexico	Page: 6/13
Molecular weight	: Not applicable.		
Odor threshold	: Not available.		
Odor	: Amine-like.		
Color	: 🗹 ear.		
Physical state	: Liquid.		
<u>Appearance</u>			

SECTION 9: Physical and chemical properties

рН	: Not applicable.
Melting point	: Not available.
Boiling point	: >37.78°C (>100°F)
Flash point	:
Auto-ignition temperature	: Not available.
Decomposition temperature	: Not available.
Flammability (solid, gas)	: Not available.
Lower and upper explosive (flammable) limits	: Not available.
Evaporation rate	: Not available.
Vapor pressure	: Not available.
Vapor density	: Not available.
Relative density	: 0.99
Density(lbs / gal)	: 8.26
Bulk Density (g/cm³)	: 🕰.52
Solubility	: Insoluble in the following materials: cold water.
Solubility in water	: Not available.
Partition coefficient: n- octanol/water	: Not applicable.
Viscosity	: Kinematic (40°C (104°F)): >21 mm²/s (>21 cSt)
Volatility	: 21% (v/v), 21.775% (w/w)
% Solid. (w/w)	: 78.225

SECTION 10: Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: When exposed to high temperatures may produce hazardous decomposition products. Refer to protective measures listed in sections 7 and 8.
Incompatible materials	: Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.
Hazardous decomposition products	: Depending on conditions, decomposition products may include the following materials: carbon oxides nitrogen oxides

SECTION 13: Disposal considerations

Disposal methods	: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non- recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
Dispusai siludiu de ili accuru	ance with applicable regional, national and local laws and regulations.
