# **SAFETY DATA SHEET**

Safety Data Sheet according to GB/T 16483-2008 and GB/T 17519-2013

Date of issue/Date of revision 8 February 2022

Version 7

| Section 1. Chemi   | cal product and company identification  |  |  |  |
|--|---|--|--|--|
| Product code   | : 00336053  |  |  |  |
| Product name   | : PSX 700 WHITE RESIN   |  |  |  |
| Product name   | : PSX 700 WHITE RESIN   |  |  |  |
| Product type   | : Liquid.   |  |  |  |
| Relevant identified uses of                                | Relevant identified uses of the substance or mixture and uses advised against   |  |  |  |
| Product use  | : Industrial applications, Used by spraying.  |  |  |  |
| Use of the substance/<br>mixture                           | : Coating.  |  |  |  |
| Uses advised against                                       | : Not applicable.   |  |  |  |
| Supplier's details   | : PPG Coatings (Kunshan) Co., Ltd<br>53 Jinyang Road, Lujia Town,<br>215331 Kunshan City, Jiangsu Province, P.R. China<br>Tel: 86 512 57678859 Fax: 86 512 57678857 |  |  |  |
| Emergency telephone<br>number (with hours of<br>operation) | : 00 86 532 83889090  |  |  |  |

# Section 2. Hazards identification

Classification of the substance or mixture according to GB 13690-2009 and GB 30000-2013

 

 Emergency overview

 Liquid.

 White.

 Characteristic.

 May cause an allergic skin reaction.

 Harmful to aquatic life.

 Harmful to aquatic life with long lasting effects.

 If skin irritation or rash occurs: Get medical advice or attention.

 See Section 12 for environmental precautions.

 Classification of the substance or mixture

 :
 SKIN SENSITIZATION - Category 1 AQUATIC HAZARD (ACUTE) - Category 3 AQUATIC HAZARD (LONG-TERM) - Category 3

Percentage of the mixture consisting of ingredient(s) of unknown hazards to the aquatic environment: 34.1%

#### **GHS label elements**

### Section 2. Hazards identification

| Hazard pictograms                                   |   |
|---|---|
| Signal word   | : Warning   |
| Hazard statements                                   | <ul> <li>May cause an allergic skin reaction.</li> <li>Harmful to aquatic life.</li> <li>Harmful to aquatic life with long lasting effects.</li> </ul>                |
| Precautionary statements                            |   |
| Prevention  | : Wear protective gloves. Avoid release to the environment. Avoid breathing vapor. Contaminated work clothing should not be allowed out of the workplace.             |
| Response  | : Fake off contaminated clothing and wash it before reuse. IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice or attention. |
| Suitable extinguishing media                        | : Use an extinguishing agent suitable for the surrounding fire.   |
| Storage   | : Not applicable.   |
| Disposal  | : Dispose of contents and container in accordance with all local, regional, national and international regulations.   |
| Physical and chemical hazards                       | : No known significant effects or critical hazards.   |
| Health hazards                                      | : May cause an allergic skin reaction.  |
| Symptoms related to the phy                         | sical, chemical and toxicological characteristics   |
| Eye contact   | : No specific data.   |
| Inhalation  | : No specific data.   |
| Skin contact  | : Adverse symptoms may include the following:<br>irritation<br>redness  |
| Ingestion   | : No specific data.   |
| Delayed and immediate effect                        | ts and also chronic effects from short and long term exposure   |
| <u>Short term exposure</u>                          |   |
| Potential immediate<br>effects                      | : Not available.  |
| Potential delayed effects                           | : Not available.  |
| Long term exposure                                  |   |
| Potential immediate effects                         | : Not available.  |
| Potential delayed effects                           | : Not available.  |
| Environmental hazards                               | : Harmful to aquatic life. Harmful to aquatic life with long lasting effects.   |
| Other hazards which do not result in classification | : None known.   |

Product name PSX 700 WHITE RESIN

# Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

### **CAS number/other identifiers**

| CAS number : Not applicable.   |          |            |
|--|----------|------------|
| Ingredient name  | %        | CAS number |
| 4.4'-Isopropylidenedicyclohexanol, oligomeric reaction products with 1-chloro-2,3-epoxypropane | 25 - <40 | 30583-72-3 |
| bis(1,2,2,6,6-pentamethyl-4-piperidyl) sebacate  | 1 - <10  | 41556-26-7 |
| methyl 1,2,2,6,6-pentamethyl-4-piperidyl sebacate  | 0.1 - <1 | 82919-37-7 |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

# Section 4. First aid measures

#### Description of necessary first aid measures

| Eye contact  | <ul> <li>Remove contact lenses, irrigate copiously with clean, fresh water, holding the<br/>eyelids apart for at least 10 minutes and seek immediate medical advice.</li> </ul>  |
|--------------|--|
| Inhalation   | <ul> <li>Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is<br/>irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by<br/>trained personnel.</li> </ul> |
| Skin contact | <ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and<br/>water or use recognized skin cleanser. Do NOT use solvents or thinners.</li> </ul>   |
| Ingestion    | <ul> <li>If swallowed, seek medical advice immediately and show this container or label.</li> <li>Keep person warm and at rest. Do NOT induce vomiting.</li> </ul>   |

#### Most important symptoms/effects, acute and delayed

| Potential acute health e  | ffects   |
|---------------------------|--|
| Eye contact               | : No known significant effects or critical hazards.  |
| Inhalation                | : No known significant effects or critical hazards.  |
| Skin contact              | : May cause an allergic skin reaction.   |
| Ingestion                 | : No known significant effects or critical hazards.  |
| Over-exposure signs/sy    | <u>mptoms</u>  |
| Eye contact               | : No specific data.  |
| Inhalation                | : No specific data.  |
| Skin contact              | : Adverse symptoms may include the following:<br>irritation<br>redness   |
| Ingestion                 | : No specific data.  |
| Indication of immediate I | medical attention and special treatment needed, if necessary   |
| Notes to physician        | : In case of inhalation of decomposition products in a fire, symptoms may be delayed.<br>The exposed person may need to be kept under medical surveillance for 48 hours. |
| Specific treatments       | : No specific treatment.   |
| Γ                         |  |

### Section 4. First aid measures

Protection of first-aiders

: No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

See toxicological information (Section 11)

### Section 5. Fire-fighting measures

| Extinguishing media                            |  |
|--|--|
| Suitable extinguishing media                   | : Use an extinguishing agent suitable for the surrounding fire.  |
| Unsuitable extinguishing media                 | : None known.  |
| Specific hazards arising from the chemical     | : In a fire or if heated, a pressure increase will occur and the container may burst.<br>This material is harmful to aquatic life with long lasting effects. Fire water<br>contaminated with this material must be contained and prevented from being<br>discharged to any waterway, sewer or drain. |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon oxides<br>nitrogen oxides<br>halogenated compounds<br>metal oxide/oxides   |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.  |
| Special protective equipment for fire-fighters | <ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained<br/>breathing apparatus (SCBA) with a full face-piece operated in positive pressure<br/>mode.</li> </ul>  |

### Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

| For non-emergency         | action shall be taken involving any personal risk or without   | 0  |
|---------------------------|--|--|
| personnel                 | acuate surrounding areas. Keep unnecessary and unproted<br>ering. Do not touch or walk through spilled material. Avoid<br>t. Provide adequate ventilation. Wear appropriate respirat<br>dequate. Put on appropriate personal protective equipmen               | breathing vapor or or or when ventilation is |
| For emergency responders  | pecialized clothing is required to deal with the spillage, take<br>rmation in Section 8 on suitable and unsuitable materials.<br>rmation in "For non-emergency personnel".   | 2  |
| Environmental precautions | oid dispersal of spilled material and runoff and contact with<br>ins and sewers. Inform the relevant authorities if the produ<br>rironmental pollution (sewers, waterways, soil or air). Wate<br>y be harmful to the environment if released in large quantiti | ct has caused<br>r polluting material.       |

### Methods and materials for containment and cleaning up

# Section 6. Accidental release measures

| Small spill | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop<br>up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry<br>material and place in an appropriate waste disposal container. Dispose of via a<br>licensed waste disposal contractor.  |
|-------------|---|
| Large spill | : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

# Section 7. Handling and storage

| Precautions for safe<br>handling                                   | : Fut on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.  |
|--|--|
| Conditions for safe storage,<br>including any<br>incompatibilities | : Do not store above the following temperature: 50°C (122°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

# Section 8. Exposure controls/personal protection

| Control parameters<br>Occupational exposure limits |   |
|--|---|
| None.  |   |
| Recommended monitoring :<br>procedures             | If this product contains ingredients with exposure limits, personal, workplace<br>atmosphere or biological monitoring may be required to determine the effectiveness<br>of the ventilation or other control measures and/or the necessity to use respiratory<br>protective equipment. Reference should be made to appropriate monitoring<br>standards. Reference to national guidance documents for methods for the<br>determination of hazardous substances will also be required. |
| Appropriate engineering :<br>controls              | Good general ventilation should be sufficient to control worker exposure to airborne contaminants.  |

Product code 00336053

### Product name PSX 700 WHITE RESIN

# Section 8. Exposure controls/personal protection

| 1 | Emissions from ventilation or work process equipment should be checked to ensure  |
|---|---|
|   | they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.   |
| S |   |
| : | Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Contaminated work clothing should not be allowed out of the workplace. Wash<br>contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location.   |
| : | Safety glasses with side shields.   |
|   |   |
| : | Chemical-resistant, impervious gloves complying with an approved standard should<br>be worn at all times when handling chemical products if a risk assessment indicates<br>this is necessary. Considering the parameters specified by the glove manufacturer,<br>check during use that the gloves are still retaining their protective properties. It<br>should be noted that the time to breakthrough for any glove material may be<br>different for different glove manufacturers. In the case of mixtures, consisting of<br>several substances, the protection time of the gloves cannot be accurately<br>estimated. |
|   | butyl rubber  |
| • | Personal protective equipment for the body should be selected based on the task<br>being performed and the risks involved and should be approved by a specialist<br>before handling this product.   |
| : | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |
| : | Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.  |

# Section 9. Physical and chemical properties

| Appearance                                   |   |
|--|---|
| Physical state                               | : Liquid.   |
| Color  | : White.  |
| Odor   | : Characteristic.                                   |
| Boiling point                                | : >37.78°C (>100°F)                                 |
| Flash point                                  | : Closed cup: 97.22°C (207°F)                       |
| Evaporation rate                             | : 0.7 (butyl acetate = 1)                           |
| Lower and upper explosive (flammable) limits | : Not available.                                    |
| Vapor pressure                               | : <mark>₮</mark> .6 kPa (12 mm Hg)                  |
| Relative density                             | : 1.46  |
| Solubility                                   | : Insoluble in the following materials: cold water. |
|  |   |

# Product code 00336053

Date of issue 8 February 2022 Version 7

Product name PSX 700 WHITE RESIN

# Section 9. Physical and chemical properties

Viscosity

: Kinematic (40°C): >21 mm<sup>2</sup>/s

# Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.   |
|------------------------------------|--|
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.  |
| Conditions to avoid                | : When exposed to high temperatures may produce hazardous decomposition products.  |
| Incompatible materials             | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.                               |
| Hazardous decomposition products   | : Depending on conditions, decomposition products may include the following materials: carbon oxides nitrogen oxides halogenated compounds metal oxide/ oxides |

### Section 11. Toxicological information

### Information on toxicological effects

#### Acute toxicity

| Product/ingredient name                               | Result    | Species | Dose       | Exposure |

Not available.

#### **Bioaccumulative potential**

Not available.

#### Mobility in soil

Soil/water partition: Not available.coefficient (Koc)

**Other adverse effects** 

: No known significant effects or critical hazards.

# Section 13. Disposal considerations

| Disposal methods | : The generation of waste should be avoided or minimized wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation<br>and any regional local authority requirements. Dispose of surplus and non-<br>recyclable products via a licensed waste disposal contractor. Waste should not be<br>disposed of untreated to the sewer unless fully compliant with the requirements of<br>all authorities with jurisdiction. Waste packaging should be recycled. Incineration or<br>landfill should only be considered when recycling is not feasible. This material and<br>its container must be disposed of in a safe way. Care should be taken when<br>handling emptied containers that have not been cleaned or rinsed out. Empty<br>containers or liners may retain some product residues. Avoid dispersal of spilled<br>material and runoff and contact with soil, waterways, drains and sewers. |
