SAFETY DATA SHEET

Safety Data Sheet according to GB/T 16483-2008 and GB/T 17519-2013

Date of issue/Date of revision 1 March 2022

Version 6

| Section 1. Chem | ical product and company identification |
|--|---|
| Product code | : 00327674 |
| Product name | : SIGMARINE 48 YELLOW 30756-69 |
| Product name | : SIGMARINE 48 YELLOW 30756-69 |
| Product type | : Liquid. |
| Relevant identified uses of | f the substance or mixture and uses advised against |
| Product use | : Professional applications, Used by spraying. |
| Use of the substance/ mixture | : Coating. |
| Uses advised against | : Not applicable. |
| Supplier's details | : PPG Coatings (Kunshan) Co., Ltd 53 Jinyang Road, Lujia Town, 215331 Kunshan City, Jiangsu Province, P.R. China Tel: 86 512 57678859 Fax: 86 512 57678857 |
| Emergency telephone number (with hours of operation) | : 00 86 532 83889090 |

Section 2. Hazards identification

Classification of the substance or mixture according to GB 13690-2009 and GB 30000-2013

Emergency overview Liquid.

Yellow.

Aromatic.

Mammable liquid and vapor.

May cause drowsiness or dizziness.

Causes damage to organs through prolonged or repeated exposure. (central nervous system (CNS)) Toxic to aquatic life with long lasting effects.

Prolonged or repeated contact may dry skin and cause irritation.

Set medical advice or attention if you feel unwell. IF INHALED: Call a POISON CENTER or doctor if you feel unwell. See Section 12 for environmental precautions.

| Classification of the substance or mixture | AMMABLE LIQUIDS - Category 3 SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Narcotic effects) - Category 3 SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 1 AQUATIC HAZARD (LONG-TERM) - Category 2 |
|--|---|
| | Percentage of the mixture consisting of ingredient(s) of unknown hazards to the aquatic environment: 51.7% |

| Hazard statements : Fammable liquid and vapor. May cause drowsiness or dizziness. Causes damage to organs through prolonged or repeated exposure. (central nervous system (CNS)) Toxic to aquatic life with long lasting effects. Precautionary statements Prevention : Wear protective gloves, protective clothing and eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use explosion-proof electrical, ventilating or lighting equipment. Use non- sparking tools. Take action to prevent static discharges. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Do not beathe vapor. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Response : Collect spillage. Get medical advice or attention if you feel unwell. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor if you feel unwell. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. Suitable extinguishing modia : Use dry chemical, CO ₂ , water spray (fog) or foam. Storage : Store locked up. Store in a well-ventilated place. Keep container tightly closed. Keep cool. Disposal : Dispose of contents and container in accordance with all local, regional, national and international regulations. Physical and chemical hazards : May cause drowsiness or diziness. Causes damage to organs through prolonged or repeated exposure. Prolonged or repeated contact may dry skin and cause irritation. Symptoms related to the physical, chemical and toxicological characteristics Eye contact | | |
| May cause drowsiness or drizziness. Causes dramage to organs through prolonged or repeated exposure. (central nervous system (CNS)) Toxic to aquatic life with long lasting effects. Prevention : Wear protective gloves, protective clothing and eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use explosion-proof electrical, ventilating or lighting equipment. Use non-sparking tools. Take action to prevent static discharges. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Do not breath waps. Do not eat, drink or smoke when using this product. Wash throughly after handling. Call a POISON cENTER or doctor if you feel unwell. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rines skin with water. Suitable extinguishing media : Storage Storage : Store locked up. Store in a well-ventilated place. Keep container tightly closed. Keep cool. Disposal : Disposal Health hazards : Flammable liquid and vapor. storage : Flammable liquid and vapor. storage : No specific data. Inhalation : Avge areas or vomiting headache equipment sets or vomiting headache equipment sets or vomiting headache equipment sets or vomiting headache nerves : Nay cause drowsiness or dizziness. Causes damage to organs through prolonged or repeated exposure. Prolonged or repeated contact may dry skin and cause irritation. Product code 00327674

Product name SIGMARINE 48 YELLOW 30756-69

Section 2. Hazards identification

Delayed and immediate effects and also chronic effects from short and long term exposure

| Other hazards which do not result in classification | : Prolonged or repeated contact may dry skin and cause irritation. |
|---|--|
| Environmental hazards | : Foxic to aquatic life with long lasting effects. |
| Potential delayed effects | : Not available. |
| Potential immediate effects | : Not available. |
| Long term exposure | |
| Potential delayed effects | : Not available. |
| Potential immediate effects | : Not available. |
| <u>Short term exposure</u> | |

Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

CAS number/other identifiers

| CAS number : Not applicable. | | |
|--|----------|------------|
| Ingredient name | % | CAS number |
| Naphtha (petroleum), hydrodesulfurized heavy | 25 - <40 | 64742-82-1 |
| calcium carbonate | 1 - <10 | 471-34-1 |
| 2-ethylhexanoic acid, zirconium salt | 1 - <10 | 22464-99-9 |
| ethylbenzene | 0.1 - <1 | 100-41-4 |
| calcium bis(2-ethylhexanoate) | 0.1 - <1 | 136-51-6 |
| 2-ethylhexanoic acid, cobalt salt | 0.1 - <1 | 13586-82-8 |
| 2-ethylhexanoic acid | 0.1 - <1 | 149-57-5 |
| | | |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

Section 4. First aid measures

| Eye contact | : Remove contact lenses, irrigate copiously with clean, fresh water, holding the |
|--------------|--|
| | eyelids apart for at least 10 minutes and seek immediate medical advice. |
| Inhalation | Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |
| Skin contact | Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners. |
| Ingestion | : If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting. |
| | China Page: 3/1 |

Product code 00327674

Version 6

Product name SIGMARINE 48 YELLOW 30756-69

Section 4. First aid measures

Most important symptoms/effects, acute and delayed

| Potential acute health effec | <u>ts</u> | |
|------------------------------|------------|--|
| Eye contact | : | No known significant effects or critical hazards. |
| Inhalation | 1 | Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness. |
| Skin contact | : | Defatting to the skin. May cause skin dryness and irritation. |
| Ingestion | : | Can cause central nervous system (CNS) depression. |
| Over-exposure signs/symp | ton | <u>15</u> |
| Eye contact | : | No specific data. |
| Inhalation | : | Adverse symptoms may include the following: nausea or vomiting headache drowsiness/fatigue dizziness/vertigo unconsciousness |
| Skin contact | : | Adverse symptoms may include the following: irritation dryness cracking |
| Ingestion | 1 | No specific data. |
| | | |
| Indication of immediate med | <u>ica</u> | l attention and special treatment needed, if necessary |
| Notes to physician | 1 | In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours. |
| Specific treatments | 1 | No specific treatment. |
| Protection of first-aiders | : | No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. |

See toxicological information (Section 11)

Section 5. Fire-fighting measures

| Extinguishing media | |
|--|---|
| Suitable extinguishing media | : Use dry chemical, CO ₂ , water spray (fog) or foam. |
| Unsuitable extinguishing media | : Do not use water jet. |
| Specific hazards arising from the chemical | : Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. This material is toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain. |

Section 5. Fire-fighting measures

| Hazardous thermal decomposition products | : Decomposition products may include the following materials: carbon oxides nitrogen oxides halogenated compounds metal oxide/oxides |
|--|--|
| Special protective actions for fire-fighters | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

Section 6. Accidental release measures

| Personal precautions, protective equipment and emergency procedures | | |
|---|-----|--|
| For non-emergency personnel | : | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. |
| For emergency responders | : | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| | | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Collect spillage. |
| Methods and materials for co | ont | ainment and cleaning up |
| Small spill | : | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| Large spill | : | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

Section 7. Handling and storage

| Precautions for safe : handling | Fut on appropriate personal protective equipment (see Section 8). Do not breathe vapor or mist. Do not ingest. Avoid contact with eyes, skin and clothing. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|--|---|
| | Materials such as cleaning rags, paper wipes and protective clothing, which are contaminated with the product may spontaneously self-ignite some hours later. To avoid the risks of fires, all contaminated materials should be stored in purpose-built containers or in metal containers with tight-fitting, self-closing lids. Contaminated materials should be removed from the workplace at the end of each working day and be stored outside. |
| Conditions for safe storage, : including any incompatibilities | Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

| Ingredient name | Exposure limits | |
|--------------------------------------|---|--|
| zalcium carbonate | ACGIH TLV (United States). | |
| | TWA: 3 mg/m ³ Form: Respirable | |
| | TWA: 10 mg/m ³ Form: Total dust | |
| 2-ethylhexanoic acid, zirconium salt | GBZ 2.1 (China, 8/2019). | |
| - | PC-STEL: 10 mg/m ³ , (as Zr) 15 minutes. | |
| | PC-TWA: 5 mg/m³, (as Zr) 8 hours. | |
| ethylbenzene | GBZ 2.1 (China, 8/2019). | |
| • | PC-STEL: 150 mg/m ³ 15 minutes. | |
| | PC-TWA: 100 mg/m ³ 8 hours. | |
| 2-ethylhexanoic acid, cobalt salt | ACGIH TLV (United States, 1/2021). Skin | |
| • | sensitizer. Inhalation sensitizer. | |
| | TWA: 0.02 mg/m³, (as Co) 8 hours. | |
| 2-ethylhexanoic acid | ACGIH TLV (United States, 1/2021). | |
| | TWA: 5 mg/m ³ 8 hours. Form: Inhalable | |
| | fraction and vapor | |

Individual protection measures

Product name SIGMARINE 48 YELLOW 30756-69

Section 8. Exposure controls/personal protection

| Recommended monitoring procedures | If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required. |
|------------------------------------|---|
| Appropriate engineering controls | Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment. |
| Environmental exposure controls | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. |

Hygiene measures
 Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
 Eye protection
 Skin protection

- Hand protection
 Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
 - Gloves : For prolonged or repeated handling, use the following type of gloves:

Recommended: nitrile rubber, natural rubber (latex)

- Body protection: Personal protective equipment for the body should be selected based on the task
being performed and the risks involved and should be approved by a specialist
before handling this product. When there is a risk of ignition from static electricity,
wear anti-static protective clothing. For the greatest protection from static
discharges, clothing should include anti-static overalls, boots and gloves.
- **Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- **Respiratory protection** : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.

Section 9. Physical and chemical properties

| <u>Appearance</u> | |
|--|--|
| Physical state | : Liquid. |
| Color | : Yellow. |
| Odor | : Aromatic. |
| Boiling point | : >37.78°C (>100°F) |
| Flash point | : Closed cup: 42°C (107.6°F) |
| Lower and upper explosive (flammable) limits | : Greatest known range: Lower: 1.4% Upper: 7.6% (Naphtha (petroleum), hydrodesulfurized heavy) |
| Relative density | : 1.02 |
| Solubility | : Insoluble in the following materials: cold water. |
| Viscosity | : Kinematic (40°C): >21 mm²/s |
| | |

Section 10. Stability and reactivity

| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. |
|------------------------------------|--|
| Chemical stability | : The product is stable. |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. |
| Conditions to avoid | : When exposed to high temperatures may produce hazardous decomposition products. |
| Incompatible materials | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids. |
| Hazardous decomposition products | : Depending on conditions, decomposition products may include the following materials: carbon oxides nitrogen oxides halogenated compounds metal oxide/ oxides |

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

| Product/ingredient name | Result | Species | Dose | Exposure |
|---------------------------------|-----------------------|---------|-------------|----------|

Section 11. Toxicological information

Irritation/Corrosion

Not available.

Sensitization Not available.

Mutagenicity

Not available.

Carcinogenicity

Not available.

Reproductive toxicity

Not available.

Teratogenicity

Not available.

Specific target organ toxicity (single exposure)

| Name | | Route of exposure | Target organs |
|--|------------|----------------------|------------------|
| Naphtha (petroleum), hydrodesulfurized heavy | Category 3 | - | Narcotic effects |

Specific target organ toxicity (repeated exposure)

| Name | Category | Route of exposure | Target organs |
|--|------------|-------------------|---------------------------------|
| Naphtha (petroleum), hydrodesulfurized heavy | Category 1 | - | central nervous system (CNS) |
| ethylbenzene | Category 2 | - | - |

Aspiration hazard

| Name | Result |
|------|--|
| | ASPIRATION HAZARD - Category 1 ASPIRATION HAZARD - Category 1 |

Information on the likely : Not available.

routes of exposure

Potential acute health effects

| Eye contact | : No known significant effects or critical hazards. |
|--------------|---|
| Inhalation | Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness. |
| Skin contact | : Defatting to the skin. May cause skin dryness and irritation. |
| Ingestion | : Can cause central nervous system (CNS) depression. |

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact : No specific data.

Section 11. Toxicological information

| Inhalation | : Adverse symptoms may include the following: nausea or vomiting headache drowsiness/fatigue dizziness/vertigo unconsciousness |
|--------------|---|
| Skin contact | : Roverse symptoms may include the following: irritation dryness cracking |
| Ingestion | : No specific data. |

Delayed and immediate effects and also chronic effects from short and long term exposure

| Short term exposure | |
|--------------------------------|--|
| Potential immediate effects | : Not available. |
| Potential delayed effects | : Not available. |
| <u>Long term exposure</u> | |
| Potential immediate effects | : Not available. |
| Potential delayed effects | : Not available. |
| Potential chronic health eff | <u>ects</u> |
| General | : Causes damage to organs through prolonged or repeated exposure. Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis. |
| Carcinogenicity | : No known significant effects or critical hazards. |
| Mutagenicity | : No known significant effects or critical hazards. |
| Reproductive toxicity | : No known significant effects or critical hazards. |

Numerical measures of toxicity

Acute toxicity estimates

| Product/ingredient name | Oral (mg/ kg) | Dermal (mg/kg) | | Inhalation (vapors) (mg/l) | Inhalation (dusts and mists) (mg/l) |

| ethylbenzene 2-ethylhexanoic acid, cobalt salt 2-ethylhexanoic acid | 3500 500 1600 | 17800 N/A 1260 | N/A N/A | 17.8 N/A N/A | 1.5 N/A N/A |

Other information

Prolonged or repeated contact may dry skin and cause irritation. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing.

Lovicity

Product name SIGMARINE 48 YELLOW 30756-69

Section 12. Ecological information

| TOXICILY | | | |
|---|--|---|----------------------|
| Product/ingredient name | Result | Species | Exposure |
| Alcium carbonate 2-ethylhexanoic acid, zirconium salt | Acute EC10 >14 mg/l Acute LC50 >100 mg/l | Algae Fish | 72 hours 96 hours |
| ethylbenzene | Acute EC50 1.8 mg/l Fresh water Chronic NOEC 1 mg/l Fresh water | Daphnia Daphnia - Ceriodaphnia dubia | 48 hours - |

Persistence/degradability

| Product/ingredient name | Test | Result | | Dose | | Inoculum |
|-------------------------|-------------------|------------|----------------|------|---------|------------|
| e thylbenzene | - | 79 % - Rea | dily - 10 days | - | | - |
| Product/ingredient name | Aquatic half-life | | Photolysis | | Biodeg | radability |
| e thylbenzene | - | | - | | Readily | / |

Bioaccumulative potential

| Product/ingredient name | LogPow | BCF | Potential | |
|-------------------------|--------|-------|-----------|--|
| €fhylbenzene | 3.6 | 79.43 | low | |
| 2-ethylhexanoic acid | 2.7 | - | low | |

Mobility in soil

Soil/water partition coefficient (Koc)

: Not available.

Other adverse effects

: No known significant effects or critical hazards.

Section 13. Disposal considerations

| Disposa | I methods |
|---------|-----------|
|---------|-----------|

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

| | China | UN | IMDG | ΙΑΤΑ |
|--------------------------------|---|---|--|---|
| UN number | UN1263 | UN1263 | UN1263 | UN1263 |
| UN proper shipping name | PAINT | PAINT | PAINT | PAINT |
| Transport hazard class(es) | 3 | 3 | 3 | 3 |
| Packing group | Ш | Ш | Ш | 111 |
| Environmental hazards | Yes. The environmentally hazardous substance mark is not required. | Yes. The environmentally hazardous substance mark is not required. | Yes. | Yes. The environmentally hazardous substance mark is not required. |
| Marine pollutant substances | Not applicable. | Not applicable. | (Naphtha (petroleum), hydrodesulfurized heavy) | Not applicable. |

Additional information

| CN | : | None identified. |
|------|---|--|
| UN | : | None identified. |
| IMDG | : | The marine pollutant mark is not required when transported in sizes of \leq 5 L or \leq 5 kg. |
| ΙΑΤΑ | : | The environmentally hazardous substance mark may appear if required by other transportation regulations. |
| | | |

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments

Section 15. Regulatory information

| China inventory (IECSC) | : All components are listed or exempted. |
|-------------------------|---|
| References | Production Safety Law of the People's Republic of China Code of Occupational Disease Prevention of the People's Republic of China Environmental Protection Law of the People's Republic of China Fire Control Law of the People's Republic of China Regulations on the Control over Safety of Dangerous Chemicals Occupational exposure limits for hazardous agents in the workplace chemical hazardous agents (GBZ2.1) General rule for classification and hazard communication of chemicals (GB13690) Safety data sheet for chemical products - Content and order of sections (GB/ T16483) Guidance on the compilation of safety data sheet for chemical products (GB/ T17519) General rule for preparation of precautionary label for chemicals (GB15258) Safety rules for classification, precautionary labeling and precautionary statements of chemicals (GB30000.2-29) |
