SAFETY DATA SHEET

Conforms to Official Mexican Standard NOM-018-STPS-2015

Date of revision 15 March 2022

Version 8.01

Date of issue 15 March 2022

SECTION 1: Identification of the substance/mixture and of the company/undertaking

| Product name | : K&L KEELOCK HI-SOLIDS EPOXY DEEP YELLOW-A |
|--------------------------------------|---|
| Product code | : KL96000445/01 |
| Other means of identification | : Not applicable. |
| Product type | : Liquid. |
| Relevant identified uses o | f the substance or mixture and uses advised against |
| Product use | : Industrial applications, Used by spraying. |
| Use of the substance/ mixture | : Coating. |
| Uses advised against | : Not applicable. |
| Manufacturer | : PPG Industries, Inc. One PPG Place Pittsburgh, PA 15272 |
| <u>Emergency telephone</u> number | (412) 434-4515 (U.S.) (514) 645-1320 (Canada) SETIQ Interior de la República: 800-00-214-00 (México) SETIQ Ciudad de México: (55) 5559-1588 (México) |
| Technical Phone Number | : 888-977-4762 |

SECTION 2: Hazards identification

| Classification of the substance or mixture | : FLAMMABLE LIQUIDS - Category 3 SKIN IRRITATION - Category 2 EYE IRRITATION - Category 2A SKIN SENSITIZATION - Category 1 CARCINOGENICITY - Category 1A SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 1 Percentage of the mixture consisting of ingredient(s) of unknown acute toxicity: 38.8% (oral), 54.8% (dermal), 90.6% (inhalation) |
|--|---|
| GHS label elements | |
| Hazard pictograms | |
| Signal word | : Danger |

Product name K&L KEELOCK HI-SOLIDS EPOXY DEEP YELLOW-A

SECTION 2: Hazards identification

| Hazard statements | : | H226 - Flammable liquid and vapor. H315 - Causes skin irritation. H317 - May cause an allergic skin reaction. H319 - Causes serious eye irritation. H350 - May cause cancer. H372 - Causes damage to organs through prolonged or repeated exposure. |
|---|---|--|
| Precautionary statements | | |
| Prevention | - | P201 - Obtain special instructions before use. P202 - Do not handle until all safety precautions have been read and understood. P280 - Wear protective gloves, protective clothing and eye or face protection. P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P260 - Do not breathe vapor. P270 - Do not eat, drink or smoke when using this product. P264 - Wash thoroughly after handling. P272 - Contaminated work clothing should not be allowed out of the workplace. |
| Response | : | P308 + P313 - IF exposed or concerned: Get medical advice or attention. P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. P302 + P352 - IF ON SKIN: Wash with plenty of water. P333 + P313 - If skin irritation or rash occurs: Get medical advice or attention. P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337 + P313 - If eye irritation persists: Get medical advice or attention. |
| Storage | : | P405 - Store locked up. |
| Disposal | : | P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations. |
| Other hazards which do not result in classification | : | Sanding and grinding dusts may be harmful if inhaled. Prolonged or repeated contact may dry skin and cause irritation. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. This product contains crystalline silica which can cause lung cancer or silicosis. The risk of cancer depends on the duration and level of exposure to dust from sanding surfaces or mist from spray applications. Emits toxic fumes when heated. |

See toxicological information (Section 11)

SECTION 3: Composition/information on ingredients

| Substance/mixture | : Mixture |
|----------------------------------|---|
| Product name | : K&L KEELOCK HI-SOLIDS EPOXY DEEP YELLOW-A |
| Other means of identification | : Not applicable. |

Product name K&L KEELOCK HI-SOLIDS EPOXY DEEP YELLOW-A

SECTION 3: Composition/information on ingredients

| Ingredient name | % | CAS number |
|---|-------------|------------|
| pís-[4-(2,3-epoxipropoxi)phenyl]propane | ≥20 - ≤50 | 1675-54-3 |
| antimony nickel titanium oxide yellow | ≥20 - ≤50 | 8007-18-9 |
| crystalline silica, respirable powder (<10 microns) | ≥10 - ≤20 | 14808-60-7 |
| oxirane, mono[(C12-14-alkyloxy)methyl] derivs. | ≥5.0 - ≤10 | 68609-97-2 |
| 1-methoxy-2-propanol | ≥1.0 - ≤5.0 | 107-98-2 |
| n-butyl acetate | ≥1.0 - ≤5.0 | 123-86-4 |
| ethylbenzene | <1.0 | 100-41-4 |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SECTION 4: First aid measures

Description of necessary first aid measures

| Eye contact | Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice. |
|--------------|--|
| Inhalation | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |
| Skin contact | Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners. |
| Ingestion | If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting. |

Most important symptoms/effects, acute and delayed

Potential acute health effects

| Eye contact | : Causes serious eye irritation. |
|---------------------------|--|
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact Ingestion | Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction. No known significant effects or critical hazards. |
| ingestion | . No known significant effects of childa hazards. |

Over-exposure signs/symptoms

See toxicological information (Section 11)

Indication of immediate medical attention and special treatment needed, if necessary

| Notes to physician Specific treatments | In case of inhalation of decomposition products in a fire, symptoms may The exposed person may need to be kept under medical surveillance for No specific treatment. | |
|---|---|--------------------|
| Protection of first-aiders | No action shall be taken involving any personal risk or without suitable tra is suspected that fumes are still present, the rescuer should wear an app mask or self-contained breathing apparatus. It may be dangerous to the providing aid to give mouth-to-mouth resuscitation. Wash contaminated thoroughly with water before removing it, or wear gloves. | ropriate person |

Product name K&L KEELOCK HI-SOLIDS EPOXY DEEP YELLOW-A

SECTION 5: Firefighting measures

| Extinguishing media | |
|--|--|
| Suitable extinguishing media | : Use dry chemical, CO ₂ , water spray (fog) or foam. |
| Unsuitable extinguishing media | : Do not use water jet. |
| Specific hazards arising from the chemical | : Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. |
| Hazardous thermal decomposition products | : Decomposition products may include the following materials: carbon oxides nitrogen oxides halogenated compounds metal oxide/oxides |
| Special protective actions for fire-fighters | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

| For non omorgonov | | No action shall be taken involving any personal risk or without suitable training |
|--------------------------------|-----|---|
| For non-emergency personnel | | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. |
| | | Provide adequate ventilation. Wear appropriate respirator when ventilation is |
| For emergency responders | : | inadequate. Put on appropriate personal protective equipment. If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| Environmental precautions | : | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| Methods and materials for co | ont | ainment and cleaning up |
| Small spill | | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| Large spill | : | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non- combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth |

and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent

material may pose the same hazard as the spilled product. Note: see Section 1 for **Mexico**

Page: 4/14

Product name K&L KEELOCK HI-SOLIDS EPOXY DEEP YELLOW-A

SECTION 6: Accidental release measures

emergency contact information and Section 13 for waste disposal.

SECTION 7: Handling and storage

| Precautions for safe handling | L | |
|--|---|--|
| Protective measures | : | Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container. |
| Special precautions | : | Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. Vapors are heavier than air and may spread along floors. If this material is part of a multiple component system, read the Safety Data Sheet(s) for the other component or components before blending as the resulting mixture may have the hazards of all of its parts. |
| Advice on general occupational hygiene | : | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |
| Conditions for safe storage, including any incompatibilities | : | Do not store above the following temperature: 50°C (122°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. |

SECTION 8: Exposure controls/personal protection

| Other skin protection | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
|------------------------|--|
| Respiratory protection | : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. |

SECTION 9: Physical and chemical properties

| Appearance | |
|--|---|
| Physical state | : Liquid. |
| Color | : Not available. |
| Odor | : Characteristic. |
| Odor threshold | : Not available. |
| Molecular weight | : Not applicable. |
| рН | : Not applicable. |
| Melting point | : Not available. |
| Boiling point | : >37.78°C (>100°F) |
| Flash point | : Closed cup: 36.67°C (98°F) |
| Auto-ignition temperature | : Not available. |
| Decomposition temperature | : Not available. |
| Flammability (solid, gas) | : Not available. |
| Lower and upper explosive (flammable) limits | : Not available. |
| Evaporation rate | : 0.81 (butyl acetate = 1) |
| Vapor pressure | : 1.5 kPa (11.1 mm Hg) |
| Vapor density | : Not available. |
| Relative density | : 1.48 |
| Density(Ibs / gal) | : 12.35 |
| Solubility | : Insoluble in the following materials: cold water. |
| Solubility in water | : 4.4 g/l |
| Partition coefficient: n- | : Not applicable. |
| octanol/water | |
| Viscosity | : Kinematic (40°C (104°F)): >21 mm²/s (>21 cSt) |
| Volatility | : 15% (v/v), 9.028% (w/w) |
| % Solid. (w/w) | : 90.972 |

SECTION 10: Stability and reactivity

| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. |
|------------------------------------|--|
| Chemical stability | : The product is stable. |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. |

Version 8.01

Product name K&L KEELOCK HI-SOLIDS EPOXY DEEP YELLOW-A

SECTION 10: Stability and reactivity

| Conditions to avoid | 1 | When exposed to high temperatures may produce hazardous decomposition products. |
|----------------------------------|---|--|
| | | Refer to protective measures listed in sections 7 and 8. |
| Incompatible materials | : | Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids. |
| Hazardous decomposition products | : | Depending on conditions, decomposition products may include the following materials carbon oxides nitrogen oxides halogenated compounds metal oxide/oxides |

SECTION 11: Toxicological information

| Product/ingredient name | Test | Result | Dose | Inoculum |
|---|-----------------------|--------------------------|------|--------------------|
| -butyl acetate | TEPA and OECD 301D | 83 % - Readily - 28 days | - | - |
| ethylbenzene | - | 79 % - Readily - 10 days | - | - |
| Product/ingredient name | Aquatic half-life | Photo | ysis | Biodegradability |
| øĩs-[4-(2,3-epoxipropoxi) phenyl]propane | - | - | | Not readily |
| n-butyl acetate ethylbenzene | - | - - | | Readily Readily |

Bioaccumulative potential

Date of issue 15 March 2022

Version 8.01

Product name K&L KEELOCK HI-SOLIDS EPOXY DEEP YELLOW-A

SECTION 12: Ecological information

| Product/ingredient name | LogPow | BCF | Potential |
|---|------------|------------|------------|
| øxirane, mono[(C12-14-alkyloxy)methyl] derivs. | 3.77 | - | low |
| 1-methoxy-2-propanol | <1 | - | low |
| n-butyl acetate ethylbenzene | 2.3 3.6 | - 79.43 | low low |

Mobility in soil

| Soil/water partition | : Not available. |
|----------------------|------------------|
| coefficient (Koc) | |

Other adverse effects : No known significant effects or critical hazards.

SECTION 13: Disposal considerations

| Disposal methods | : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non- recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with |
|------------------|---|
| | thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures

SECTION 14: Transport information

| | Mexico Classification | IMDG | ΙΑΤΑ |
|-------------------------------|--|--------|--|
| UN number | UN1263 | UN1263 | UN1263 |
| UN proper shipping name | PAINT | PAINT | PAINT |
| Transport hazard class(es) | 3 | 3 | 3 |
| Packing group | | III | III |
| Environmental hazards | Yes. The environmentally hazardous substance mark is not required. | Yes. | Yes. The environmentally hazardous substance mark is not required. |

Date of issue 15 March 2022

Version 8.01

Product name K&L KEELOCK HI-SOLIDS EPOXY DEEP YELLOW-A

SECTION 14: Transport information

| Marine pollutant substances | Not applicable. | (bis-[4-(2,3-epoxipropoxi) phenyl]propane) | Not applicable. |
|-----------------------------------|-----------------|---|-----------------|
| Product RQ (lbs) | Not applicable. | Not applicable. | Not applicable. |
| RQ substances | Not applicable. | Not applicable. | Not applicable. |

Additional information

| Mexico | : None identified. |
|--------|--|
| IMDG | : The marine pollutant mark is not required when transported in sizes of \leq 5 L or \leq 5 kg. |
| ΙΑΤΑ | : The environmentally hazardous substance mark may appear if required by other transportation regulations. |

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments

SECTION 15: Regulatory information

<u>Mexico</u>

Classification

Flammability : 3 Health : 2 Reactivity : 1

International regulations

Montreal Protocol

Not listed.

Stockholm Convention on Persistent Organic Pollutants

Not listed.

Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

SECTION 16: Other information

Hazardous Material Information System (U.S.A.)

```
Health: 2 * Flammability: 3 Physical hazards: 1
```

(*) - Chronic effects

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.
