SAFETY DATA SHEET

Date of issue 8/19/2022 (month/day/year)

Version 13

Section 1. Chemical product and company identification

A. Product name	: PPG AQUACOVER 25 BUFF	
Product code	: 00173148	

B. Relevant identified uses of the substance or mixture and uses advised against

Product use	: Professional applications, Used by spraying.
Use of the substance/ mixture	: Coating.
Uses advised against	: Product is not intended, labelled or packaged for consumer use.
C. Supplier's or Importer's information	 PPG SSC (680-090) 19, Yeocheon-ro 217beon-gil, Nam-gu, Ulsan, Korea Tel: +82-52-210-8222 Korea.MSDS@PPG.COM
Email Address	Kolea.INSDS@FFG.COM
Emergency telephone number:	: +82-52-210-8222

Section 2. Hazards identification

- A. Hazard classification : EYE IRRITATION Category 2A CARCINOGENICITY - Category 2 AQUATIC HAZARD (LONG-TERM) - Category 2 This product is classified in accordance with the Industrial Safety and Health Act and the Chemical Control Act.
- B. GHS label elements, including precautionary statements

Symbol		
Signal word	ning	
Hazard statements	9 - Causes serious eye irritation. 1 - Suspected of causing cancer. 1 - Toxic to aquatic life with long lasting effec	cts.
Precautionary statements		
Prevention	 2 - Do not handle until all safety precautions 0 - Wear protective gloves, protective clothin 3 - Avoid release to the environment. 	

Section 2. Hazards identification			
Response		 P391 - Collect spillage. P308 + P313 - IF exposed or concerned: Get medical advice or attention. P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337 + P313 - If eye irritation persists: Get medical advice or attention. 	
Storage	:	Not applicable.	
Disposal	:	P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.	
C. Other hazards which do	:	Contains isothiazolinones. May cause allergic reaction.	

not result in classification

Section 3. Composition/information on ingredients

CAS number/other identifiers

CAS number : Not applicable.

Chemical name	Common name	Identifiers	%
Itanium dioxide Talc , not containing asbestiform fibres barium diboron tetraoxide trizinc bis(orthophosphate) 2-(2-butoxyethoxy)ethanol zinc oxide Poly(oxy-1,2-ethanediyl), α-sulfo-ω- (nonylphenoxy)-, branched, ammonium salt	TITANIUM DIOXIDE Talc, non-asbestos form BARIUM METABORATE ZINC ORTHOPHOSPHATE 2-(2-BUTOXYETHOXY)ETHANOL ZINC OXIDE AMMONIUM NONYPHENOLETHER SULFATE	CAS: 13463-67-7 CAS: 14807-96-6 CAS: 13701-59-2 CAS: 7779-90-0 CAS: 112-34-5 CAS: 1314-13-2 CAS: 68649-55-8	10 -<20 5 - <10 1 - <5 1 - <5 1 - <5 1 - <5 0.1 - <1
reaction mass of: 5-chloro-2-methyl- 4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1)	ISOTHIAZOLONE SOLUTION	CAS: 55965-84-9	<0.1

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Α.	Eye contact	1	Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice.
В.	Skin contact	:	Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.
C.	Inhalation	:	Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.

Section 4. First aid measures		
Product name PPG AQUACOVER 25 BUFF		
Product code 00173148	Date of issue 8/19/2022 (month/day/year)	Version 13

-				
D.	Ingestion	:	If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting.	
Ε.	Notes to physician	:	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.	
	Specific treatments	:	No specific treatment.	
	Protection of first-aiders	:	No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.	

See toxicological information (Section 11)

S	Section 5. Fire-fighting measures			
Α.	Extinguishing media			
	Suitable extinguishing media	1	Use an extinguishing agent suitable for the surrounding fire.	
	Unsuitable extinguishing media	:	None known.	
в.	Specific hazards arising from the chemical	:	In a fire or if heated, a pressure increase will occur and the container may burst. This material is toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.	
	Hazardous thermal decomposition products	:	Decomposition products may include the following materials: carbon oxides phosphorus oxides metal oxide/oxides	
C.	Special equipment for fire-fighting	:	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.	
	Fire-fighting procedures	:	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.	

Section 6. Accidental release measures

 A. Personal precautions, protective equipment and emergency procedures
 No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
 B. Environmental precautions
 Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Collect spillage.

C. Methods and materials for containment and cleaning up

Product name PPG AQUACOVER 25 BUFF

Section 6. Accidental release measures

Small spill	: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

A. Precautions for safe handling
 Put on appropriate personal protective equipment (see Section 8). Avoid exposure obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Avoid release to the environment. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

B. Conditions for safe storage, including any incompatibilities
 Store between the following temperatures: 5 to 35°C (41 to 95°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Section 8. Exposure controls/personal protection

A. Occupational exposure limits

Ingredient name	Exposure limits
titanium dioxide	Ministry of Employment and Labor
	(Republic of Korea, 1/2020).
	TWA: 10 mg/m ³ 8 hours. Form: total dust
	with less than 1% of free SiO2
Talc , not containing asbestiform fibres	Ministry of Employment and Labor
-	(Republic of Korea, 1/2020).
	TWA: 2 mg/m ³ 8 hours. Form: fibers
barium diboron tetraoxide	Ministry of Employment and Labor
	(Republic of Korea, 1/2020). [Barium and
	soluble compounds]
	TWA: 0.5 mg/m³, (as Ba) 8 hours.
2-(2-butoxyethoxy)ethanol	Ministry of Employment and Labor
	(Republic of Korea, 1/2020).
	TWA: 10 ppm 8 hours.
zinc oxide	Ministry of Employment and Labor
	Korea (GHS) Page: 4/12

Section 8. Exposure controls/personal protection

			nethyl-4-isothiazolin-3-one [EC no. sothiazol-3-one [EC no. 220-239-6] (3:	(Republic of Korea, 1/2020). TWA: 2 mg/m ³ 8 hours. Form: Respirable dust STEL: 10 mg/m ³ 15 minutes. TWA: 5 mg/m ³ 8 hours. Ministry of Employment and Labor (Republic of Korea, 1/2020). TWA: 0.1 mg/m ³ 8 hours. Form: inhalable fraction
	Recommended monitoring procedures	:		ay be required to determine the effectiveness ures and/or the necessity to use respiratory and be made to appropriate monitoring ance documents for methods for the
В.	Appropriate engineering controls	:		s, gas, vapor or mist, use process enclosures, eering controls to keep worker exposure to mmended or statutory limits.
	Environmental exposure controls	:	Emissions from ventilation or work pro	cess equipment should be checked to ensure environmental protection legislation. In some eering modifications to the process
C.	Personal protective equip	me	ent	
	Respiratory protection		Respirator selection must be based of hazards of the product and the safe w workers are exposed to concentration appropriate, certified respirators. Use	n known or anticipated exposure levels, the rorking limits of the selected respirator. If s above the exposure limit, they must use a properly fitted, air-purifying or air-fed d standard if a risk assessment indicates this is
	Eye protection	1	Safety glasses with side shields.	
	Hand protection	:	be worn at all times when handling ch this is necessary. Considering the par check during use that the gloves are s should be noted that the time to break	s complying with an approved standard should emical products if a risk assessment indicates rameters specified by the glove manufacturer, still retaining their protective properties. It through for any glove material may be rers. In the case of mixtures, consisting of the of the gloves cannot be accurately
	Gloves	:	For prolonged or repeated handling, u	se the following type of gloves:
			Recommended: nitrile rubber, Chlorop	prene, Viton®, butyl rubber
	Body protection	:		body should be selected based on the task d and should be approved by a specialist
	Hygiene measures	:	Wash hands, forearms and face thoro eating, smoking and using the lavator Appropriate techniques should be use	bughly after handling chemical products, before y and at the end of the working period. In the remove potentially contaminated clothing. Busing. Ensure that eyewash stations and tation location.

Section 10. Stability and reactivity

Α.	Chemical stability	1	The product is stable.
	Possibility of hazardous reactions	:	Under normal conditions of storage and use, hazardous reactions will not occur.

B. Conditions to avoid : When exposed to high temperatures may produce hazardous decomposition products.

Product code 00173148	Date of issue 8/19/2022 (month/day/year)	Version 13				
Product name PPG AQUACOVER 25 BUFF						
Section 10. Stability and re	activity					
C. Incompatible materials : Keep away	<i>r</i> from the following materials to prevent strong exothern	nic reactions:				

oxidizing agents, strong alkalis, strong acids.

D. Hazardous decomposition products : Depending on conditions, decomposition products may include the following materials: carbon oxides phosphorus oxides metal oxide/oxides

Section 11. Toxicological information

A. Information on the routes of exposure	•
Potential acute healt	h effects
Inhalation	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Eye contact	: 🖉 auses serious eye irritation.
Over-exposure signs	:/symptoms
Inhalation	: No specific data.
Ingestion	: No specific data.
Skin contact	: No specific data.
Eve contact	: Adverse symptoms may include the following:

Eye contact : Adverse symptoms may include the following: pain or irritation watering redness

B. Health hazards

Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
inanium dioxide	LC50 Inhalation Dusts and	Rat	>6.82 mg/l	4 hours
	mists			
	LD50 Dermal	Rabbit	>5000 mg/kg	-

Section 11. Toxicological information

Irritation/Corrosion Conclusion/Summary Skin Eyes Respiratory	 There are no data available on the mixture itself. There are no data available on the mixture itself. There are no data available on the mixture itself.
<u>Sensitization</u> <u>Conclusion/Summary</u> Skin	: There are no data available on the mixture itself.
Respiratory	: There are no data available on the mixture itself.
<u>Mutagenicity</u> Conclusion/Summary	: There are no data available on the mixture itself.
<u>Carcinogenicity</u> Conclusion/Summary	: There are no data available on the mixture itself.
Reproductive toxicity Conclusion/Summary	: There are no data available on the mixture itself.
Teratogenicity	

Conclusion/Summary : There are no data available on the mixture itself.

Specific target organ toxicity (single exposure)

Name	Classification	Route of exposure	Target organs
Talc , not containing asbestiform fibres	Category 3	-	Respiratory tract irritation

Specific target organ toxicity (repeated exposure)

Not available.

Aspiration hazard

Not available.

Potential chronic health effects

General	: No known significant effects or critical hazards.		
Carcinogenicity	: Suspected of causing cancer. Risk of cancer depends on duration and level of exposure.		
Mutagenicity	: No known significant effects or critical hazards.		
Reproductive toxicity	: No known significant effects or critical hazards.		

Additional information

Sanding and grinding dusts may be harmful if inhaled. Contains isothiazolinones. May cause allergic reaction.

Product name PPG AQUACOVER 25 BUFF

- : Not available.
- E. Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

- : The generation of waste should be avoided or minimized wherever possible. A. Disposal methods Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.
- : This material and its container must be disposed of in a safe way. Care should be **B.** Disposal precautions taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

Additional information

UN	: This product is not regulated as a dangerous good when transported in sizes of ≤5 L or ≤5 kg, provided the packagings meet the general provisions of 4.1.1.1, 4.1.1.2 and 4.1.1.4 to 4.1.1.8.
IMDG	: This product is not regulated as a dangerous good when transported in sizes of ≤5 L or ≤5 kg, provided the packagings meet the general provisions of 4.1.1.1, 4.1.1.2 and 4.1.1.4 to 4.1.1.8.
ΙΑΤΑ	: This product is not regulated as a dangerous good when transported in sizes of ≤5 L or ≤5 kg, provided the packagings meet the general provisions of 5.0.2.4.1, 5.0.2.6.1.1 and 5.0.2.8.

Product name PPG AQUACOVER 25 BUFF

Section 14. Transport information

F. Special precaution which a user to be aware of or needs to comply with in connection with transport or transportation

Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments

Section 15. Regulatory information

Α.	Regulation according to ISHA					
	ISHA article 117 (Harmful substances prohibited from manufacture)	: None of the components are listed.				
	ISHA article 118 (Harmful substances requiring permission)	: None of the components are listed.				
	Article 2 of Youth Protection Act on Substances Hazardous to Youth	: It is not allowed to sell to persons under the age of 19.				
	Exposure Limits of Chem	cal Substances and Physical Factors				
	The following components Manium dioxide Talc, not containing asbest barium diboron tetraoxide 2-(2-butoxyethoxy)ethanol zinc oxide reaction mass of: 5-chloro [EC no. 220-239-6] (3:1)					
	ISHA Enforcement Regs Annex 19 (Exposure standards established for harmful factors)	: None of the components are listed.				
	ISHA Enforcement Regs Annex 21 (Harmful factors subject to Work Environment Measurement)	: The following components are listed: titanium dioxide, talc / soapstone, barium and its soluble compounds, zinc oxide				
	ISHA Enforcement Regs Annex 22 (Harmful Factors Subject to Special Health Check- up)	: The following components are listed: Zinc oxide				
	Standard of Industrial Safety and Health Annex 12 (Hazardous substances subject to control)	: The following components are listed: titanium dioxide, barium and its soluble compounds, zinc and its compounds, zinc and its compounds				
в	Regulation according to (themicals Control Act				

B. Regulation according to Chemicals Control Act

Section 15. Regulatory information

	~		-
	Article 11 (TRI)	:	The following components are listed: Barium and its compounds, Zinc and its compounds, Zinc and its compounds
	Article 18 Prohibited (K- Reach Article 27)	:	None of the components are listed.
	Article 19 Subject to authorization (K-Reach Article 25)	-	None of the components are listed.
	Article 20 Restricted (K- Reach Article 27)	1	The following components are listed: nonylphenol
	Article 20 Toxic Chemicals (K-Reach Article 20)	-	Not applicable
	Korea inventory	:	All components are listed or exempted.
	Article 39 (Accident Precaution Chemicals)	1	The following components are listed: nonylphenol and its mixture containing 0.1% or more than 0.1%
C.	Dangerous Materials Safety Management Act	-	Not applicable.
D.	Wastes regulation	:	Dispose of contents and container in accordance with all local, regional, national and international regulations.
Ε.	Regulation according to other foreign laws		
	Safety, health and environmental regulations specific for the product	-	No known specific national and/or regional regulations applicable to this product (including its ingredients).
