# **SAFETY DATA SHEET**

Date of issue 5 April 2023

Version 1

| Section 1. Identification     |  |  |
|-------------------------------|--|--|
| Chemical name                 | : SIGMADUR 550 BASE 5B8/4  |  |
| GHS product identifier        | : SIGMADUR 550 BASE 5B8/4  |  |
| Code                          | : 00466179   |  |
| Relevant identified uses of   | f the substance or mixture and uses advised against  |  |
| Product use                   | Coating.<br>Professional applications, Used by spraying.   |  |
| Supplier's details            | : PPG Industries International Inc. Taiwan Branch.<br>No.209, Hong Tzuenn Rd Ping Chen City, Taoyuan County, Taiwan<br>Tel: 886 3 3663922<br>886 3 3751639 (Automotive OEM Coatings Products).<br>Fax: 886 3 2182667 |  |
| Emergency telephone<br>number | : North: +886-3-3663922<br>North : +886-911998320<br>South: +886-7-8718105<br>South : +886-932793707   |  |

# Section 2. Hazards identification

| Classification of the | : FLAMMABLE LIQUIDS - Category 3   |
|-----------------------|--|
| substance or mixture  | ACUTE TOXICITY (dermal) - Category 5   |
|                       | ACUTE TOXICITY (inhalation) - Category 4   |
|                       | SKIN CORROSION/IRRITATION - Category 2   |
|                       | SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A   |
|                       | SKIN SENSITIZATION - Category 1  |
|                       | SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract irritation) - Category 3               |
|                       | AQUATÍC TOXICITY (ACUTE) - Category 3  |
|                       | Percentage of the mixture consisting of ingredient(s) of unknown acute dermal toxicity: 34.6%              |
|                       | Percentage of the mixture consisting of ingredient(s) of unknown acute inhalation toxicity: 29.7%          |
|                       | Percentage of the mixture consisting of ingredient(s) of unknown hazards to the aquatic environment: 55.2% |
| GHS label elements    |  |
| Hazard pictograms     |  |
| nala protogranio      |  |
|                       |  |
|                       |  |

Version 1

Product name SIGMADUR 550 BASE 5B8/4

### Section 2. Hazards identification

| Signal word   | 1 | Warning   |
|---|---|---|
| Hazard statements                                   | : | Flammable liquid and vapor.<br>May be harmful in contact with skin.<br>Causes skin irritation.<br>May cause an allergic skin reaction.<br>Causes serious eye irritation.<br>Harmful if inhaled.<br>May cause respiratory irritation.<br>Harmful to aquatic life.  |
| Precautionary statements                            |   |   |
| Prevention  | : | Wear protective gloves, protective clothing and eye or face protection. Keep away<br>from heat, hot surfaces, sparks, open flames and other ignition sources. No<br>smoking. Use explosion-proof electrical, ventilating or lighting equipment. Use non-<br>sparking tools. Take action to prevent static discharges. Use only outdoors or in a<br>well-ventilated area. Avoid release to the environment. Avoid breathing vapor.<br>Wash thoroughly after handling. Contaminated work clothing should not be allowed<br>out of the workplace.  |
| Response  | : | IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call<br>a POISON CENTER or doctor if you feel unwell. IF ON SKIN (or hair): Take off<br>immediately all contaminated clothing. Rinse skin with water. IF ON SKIN: Call a<br>POISON CENTER or doctor if you feel unwell. Wash with plenty of water. If skin<br>irritation or rash occurs: Get medical advice or attention. IF IN EYES: Rinse<br>cautiously with water for several minutes. Remove contact lenses, if present and<br>easy to do. Continue rinsing. If eye irritation persists: Get medical advice or<br>attention. |
| Storage   | : | Store locked up. Store in a well-ventilated place. Keep container tightly closed. Keep cool.  |
| Disposal  | : | Dispose of contents and container in accordance with all local, regional, national and international regulations.   |
| Other hazards which do not result in classification | : | Prolonged or repeated contact may dry skin and cause irritation.  |

# Section 3. Composition/information on ingredients

| Substance/mixture : Mixture  |   |   |
|--|---|---|
| Hazardous ingredients  | <b>Concentration %</b>  | CAS number  |
| xylene<br>n-butyl acetate<br>Talc , not containing asbestiform fibres<br>ethylbenzene<br>Octadecanamide, N,N'-1,6-hexanediylbis<br>[12-hydroxy-<br>bis(1,2,2,6,6-pentamethyl-4-piperidyl) sebacate | 20 - <25<br>5 - <10<br>3 - <5<br>3 - <5<br>1 - <3<br>0.1 - <0.3 | 1330-20-7<br>123-86-4<br>14807-96-6<br>100-41-4<br>55349-01-4<br>41556-26-7 |

### Section 3. Composition/information on ingredients

| Hazardous ingredients  | Concentration %   | CAS number  |
|--|---|---|
| xylene<br>n-butyl acetate<br>Talc , not containing asbestiform fibres<br>ethylbenzene<br>Octadecanamide, N,N'-1,6-hexanediylbis<br>[12-hydroxy-<br>bis(1,2,2,6,6-pentamethyl-4-piperidyl) sebacate | 20 - <25<br>5 - <10<br>3 - <5<br>3 - <5<br>1 - <3<br>0.1 - <0.3 | 1330-20-7<br>123-86-4<br>14807-96-6<br>100-41-4<br>55349-01-4<br>41556-26-7 |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

| Description of necessar      | ry first aid measures  |
|------------------------------|--|
| Inhalation                   | <ul> <li>Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is<br/>irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by<br/>trained personnel.</li> </ul> |
| Ingestion                    | : If swallowed, seek medical advice immediately and show this container or label.<br>Keep person warm and at rest. Do NOT induce vomiting.   |
| Skin contact                 | : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.   |
| Eye contact                  | <ul> <li>Remove contact lenses, irrigate copiously with clean, fresh water, holding the<br/>eyelids apart for at least 10 minutes and seek immediate medical advice.</li> </ul>  |
| Most important sympto        | ms/effects, acute and delayed  |
| Potential acute health       | <u>effects</u>   |
| Eye contact                  | : Causes serious eye irritation.   |
| Inhalation                   | : Harmful if inhaled. May cause respiratory irritation.  |
| Skin contact                 | : May be harmful in contact with skin. Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction.   |
| Ingestion                    | : No known significant effects or critical hazards.  |
| <u>Over-exposure signs/s</u> | symptoms   |
| Eye contact                  | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness   |
| Inhalation                   | : Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing  |
| Skin contact                 | : Adverse symptoms may include the following:<br>irritation<br>redness<br>dryness<br>cracking  |
| Ingestion                    | : No specific data.  |
| 1                            | Taiwan GHS Page: 3/14  |

Date of issue 5 April 2023

Product name SIGMADUR 550 BASE 5B8/4

### Section 4. First aid measures

| Indication of immediate med | dical attention and special treatment needed, if necessary  |
|-----------------------------|---|
| Notes to physician          | : In case of inhalation of decomposition products in a fire, symptoms may be delayed.<br>The exposed person may need to be kept under medical surveillance for 48 hours.  |
| Specific treatments         | : No specific treatment.  |
| Protection of first-aiders  | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

See toxicological information (Section 11)

### Section 5. Fire-fighting measures

| Extinguishing media                            |   |
|--|---|
| Suitable                                       | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.  |
| Not suitable                                   | : Do not use water jet.   |
| Specific hazards arising from the chemical     | : Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard.<br>In a fire or if heated, a pressure increase will occur and the container may burst, with<br>the risk of a subsequent explosion. This material is harmful to aquatic life. Fire<br>water contaminated with this material must be contained and prevented from being<br>discharged to any waterway, sewer or drain. |
| Hazardous thermal decomposition products       | <ul> <li>Decomposition products may include the following materials:<br/>carbon oxides<br/>nitrogen oxides<br/>sulfur oxides<br/>metal oxide/oxides</li> </ul>  |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.  |
| Special protective equipment for fire-fighters | <ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained<br/>breathing apparatus (SCBA) with a full face-piece operated in positive pressure<br/>mode.</li> </ul>   |

### Section 6. Accidental release measures

| No flares, smoking or flam<br>Provide adequate ventilation | valk through spilled material. Shut off all ignition sources.<br>es in hazard area. Avoid breathing vapor or mist.<br>n. Wear appropriate respirator when ventilation is<br>riate personal protective equipment.    |
|--|---|
| drains and sewers. Inform<br>environmental pollution (se   | naterial and runoff and contact with soil, waterways,<br>the relevant authorities if the product has caused<br>wers, waterways, soil or air). Water polluting material.<br>ronment if released in large quantities. |

#### Methods and materials for containment and cleaning up

Product name SIGMADUR 550 BASE 5B8/4

### Section 6. Accidental release measures

| Large spill | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |
|-------------|--|
| Small spill | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |

# Section 7. Handling and storage

| Precautions for safe :<br>handling                                   | Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|--|--|
| Conditions for safe storage, :<br>including any<br>incompatibilities | Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.  |

### Section 8. Exposure controls/personal protection

#### **Control parameters**

**Occupational exposure limits** 

# Section 8. Exposure controls/personal protection

| Ingredient name                     |  | Exposure limits  |
|-------------------------------------|--|--|
| xylene                              |  | TW Minstry of Labor, labor permissible<br>workplace exposure standards, allowable<br>concentration (Taiwan, 3/2018). [xylenes]<br>STEL: 542.5 mg/m <sup>3</sup> 15 minutes.<br>STEL: 125 ppm 15 minutes.<br>TWA: 434 mg/m <sup>3</sup> 8 hours.<br>TWA: 100 ppm 8 hours. |
| n-butyl acetate                     |  | TW Minstry of Labor, labor permissible<br>workplace exposure standards, allowable<br>concentration (Taiwan, 3/2018).<br>STEL: 890 mg/m <sup>3</sup> 15 minutes.<br>STEL: 187.5 ppm 15 minutes.<br>TWA: 712 mg/m <sup>3</sup> 8 hours.<br>TWA: 150 ppm 8 hours.           |
| Talc (Mg3H2(SiO3)4)                 |  | TW Minstry of Labor, labor permissible<br>workplace exposure standards, allowable<br>concentration (Taiwan, 3/2018).<br>STEL: 4 mg/m <sup>3</sup> 15 minutes.<br>TWA: 2 mg/m <sup>3</sup> 8 hours.   |
| ethylbenzene                        |  | TW Minstry of Labor, labor permissible<br>workplace exposure standards, allowable<br>concentration (Taiwan, 3/2018).<br>STEL: 542.5 mg/m <sup>3</sup> 15 minutes.<br>STEL: 125 ppm 15 minutes.<br>TWA: 434 mg/m <sup>3</sup> 8 hours.<br>TWA: 100 ppm 8 hours.           |
| Appropriate engineering<br>controls | ventilation or other engineering contr<br>contaminants below any recommend<br>also need to keep gas, vapor or dust<br>limits. Use explosion-proof ventilation  | Use process enclosures, local exhaust<br>rols to keep worker exposure to airborne<br>ded or statutory limits. The engineering controls<br>t concentrations below any lower explosive<br>on equipment.  |
| dividual protection meas            | ' <u>es</u>  |  |
| Respiratory protection              | Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. |  |
| Hand protection                     | : Chemical-resistant, impervious glove<br>be worn at all times when handling c<br>this is necessary. Considering the p   | es complying with an approved standard should<br>chemical products if a risk assessment indicates<br>parameters specified by the glove manufacturer  |
|                                     | should be noted that the time to bread<br>different for different glove manufact   | e still retaining their protective properties. It<br>akthrough for any glove material may be<br>turers. In the case of mixtures, consisting of<br>ime of the gloves cannot be accurately   |

Product name SIGMADUR 550 BASE 5B8/4

# Section 8. Exposure controls/personal protection

| Skin protection  | <ul> <li>Appropriate footwear and any additional skin protection measures should be<br/>selected based on the task being performed and the risks involved and should be<br/>approved by a specialist before handling this product.</li> </ul>   |
|------------------|---|
| Eye protection   | : Chemical splash goggles.  |
| Hygiene measures | : Wash hands, forearms and face thoroughly after handling chemical products,<br>before eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Contaminated work clothing should not be allowed out of the workplace. Wash<br>contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location. |

# Section 9. Physical and chemical properties

| <u>Appearance</u>                            |   |                             |
|--|---|-----------------------------|
| Physical state                               | 1 | Liquid.                     |
| Color  | 1 | Not available.              |
| Odor   | 1 | Characteristic.             |
| Odor threshold                               | 1 | Not available.              |
| рН   | 1 | Not applicable.             |
| Melting point                                | 1 | Not available.              |
| Boiling point                                | : | >37.78°C (>100°F)           |
| Flash point                                  | 1 | Closed cup: 25°C (77°F)     |
| Flammability (solid, gas)                    | 1 | Not available.              |
| Burning time                                 | 1 | Not applicable.             |
| Burning rate                                 | : | Not applicable.             |
| Decomposition temperature                    | : | Not available.              |
| Evaporation rate                             | : | Not available.              |
| Lower and upper explosive (flammable) limits | : | Not available.              |
| Vapor pressure                               | 1 | Not available.              |
| Vapor density                                | 1 | Not available.              |
| Relative density                             | 1 | 1.36                        |
| Solubility(ies)                              |   | Media Result                |
| Solubility(les)                              |   | Not available.              |
| Partition coefficient: n-<br>octanol/water   | : | Not applicable.             |
| Auto-ignition temperature                    | : | Not available.              |
| Viscosity                                    | : | Kinematic (40°C): >21 mm²/s |

### Section 10. Stability and reactivity

| Chamical stability  | The product is stable   |
|---|---|
| Chemical stability  | : The product is stable.  |
| Possibility of hazardous<br>reactions                           | : Under normal conditions of storage and use, hazardous reactions will not occur.   |
| Conditions to avoid   | : When exposed to high temperatures may produce hazardous decomposition products.   |
| Incompatible materials  | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.  |
| Hazardous decomposition<br>products<br>Hazardous polymerization | <ul> <li>Depending on conditions, decomposition products may include the following materials: carbon oxides nitrogen oxides sulfur oxides metal oxide/oxides</li> <li>Under normal conditions of storage and use, hazardous polymerization will not occur.</li> </ul> |

# Section 11. Toxicological information

#### Other information

1

Product name SIGMADUR 550 BASE 5B8/4

### Section 11. Toxicological information

Prolonged or repeated contact may dry skin and cause irritation. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing.

#### Mobility in soil

Soil/water partition coefficient (Koc)

: Not available.

Other adverse effects

: No known significant effects or critical hazards.

### Section 13. Disposal considerations

**Disposal methods** 

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

### Section 14. Transport information

#### **Additional information**

| UN   | : None identified. |
|------|--------------------|
| IMDG | : None identified. |
| ΙΑΤΑ | : None identified. |

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments

### Section 15. Regulatory information

#### **TCCSCA List of toxic chemicals**

Not applicable.

#### **TCCSCA List of concerned chemicals**

Not applicable.

#### List of chemicals for which manufacturing or handling is defined as "work specially hazardous to health"

- : This product contains substances "Specially hazardous to health": xylene, n-butyl
- acetate, 2-butoxyethanol, cyclohexanone, toluene, butan-1-ol, 2-methylpropan-1-ol, 1,4-dioxane, methanol.

**Regulations Applicable:** 

- 1. Rules for Occupational Safety and Health Facilities
- 2. Regulations for the Labeling and Hazard Communication of Hazardous Chemicals
- 3. Prevention Rules for Organic Solvent Intoxication/Poisoning.
- 4. Standards of Permissible Exposure Limits of Airborne Hazardous Substances in Workplace
- 5. Traffic Safety Regulation of Road.
