# **SAFETY DATA SHEET**

### Conforms to Official Mexican Standard NOM-018-STPS-2015

Date of revision 18 June 2023

Version 6

Date of issue 18 June 2023

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

| Product name                                | : NOVAGUARD 810/810ER NEUTRAL CURE  |
|---|---|
| Product code                                | : 00396528  |
| Other means of<br>identification            | : Not applicable.   |
| Product type                                | : Liquid.   |
| Relevant identified uses o                  | f the substance or mixture and uses advised against   |
| Product use                                 | : Professional applications, Used by spraying.  |
| Use of the substance/<br>mixture            | : Coating.  |
| Uses advised against                        | : Not applicable.   |
| Manufacturer                                | : PPG Industries, Inc.<br>One PPG Place<br>Pittsburgh, PA 15272   |
| <u>Emergency telephone</u><br><u>number</u> | : (412) 434-4515 (U.S.)<br>(514) 645-1320 (Canada)<br>SETIQ Interior de la República: 800-00-214-00 (México)<br>SETIQ Ciudad de México: (55) 5559-1588 (México) |
| Technical Phone Number                      | : 888-977-4762  |
|   |   |

# **SECTION 2: Hazards identification**

| Classification of the substance or mixture | : FLAMMABLE LIQUIDS - Category 3<br>ACUTE TOXICITY (oral) - Category 4  |  |  |
|--|---|--|--|
|  | ACUTE TOXICITY (dermal) - Category 4  |  |  |
|  | ACUTE TOXICITY (inhalation) - Category 4  |  |  |
|  | SKIN CORROSION - Category 1A  |  |  |
|  | SERIOUS EYE DAMAGE - Category 1   |  |  |
|  | SKIN SENSITIZATION - Category 1   |  |  |
|  | SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract   |  |  |
|  | irritation) - Category 3  |  |  |
|  | Percentage of the mixture consisting of ingredient(s) of unknown acute toxicity:<br>1.3% (oral), 41.6% (dermal), 78.6% (inhalation) |  |  |
|  |   |  |  |
| GHS label elements                         |   |  |  |
| Hazard pictograms                          |   |  |  |

### Product name NOVAGUARD 810/810ER NEUTRAL CURE

# **SECTION 2: Hazards identification**

| Signal word   | : Danger  |
|---|---|
| Hazard statements                                   | <ul> <li>H226 - Flammable liquid and vapor.</li> <li>H302 + H312 + H332 - Harmful if swallowed, in contact with skin or if inhaled.</li> <li>H314 - Causes severe skin burns and eye damage.</li> <li>H317 - May cause an allergic skin reaction.</li> <li>H335 - May cause respiratory irritation.</li> </ul>  |
| Precautionary statements                            |   |
| Prevention  | <ul> <li>P280 - Wear protective gloves, protective clothing and eye or face protection.</li> <li>P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.</li> <li>P271 - Use only outdoors or in a well-ventilated area.</li> <li>P261 - Avoid breathing vapor.</li> <li>P270 - Do not eat, drink or smoke when using this product.</li> </ul>  |
|   | P264 - Wash thoroughly after handling.  |
|   | P272 - Contaminated work clothing should not be allowed out of the workplace.   |
| Response  | <ul> <li>P304 + P340, P310 - IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER or doctor.</li> <li>P301 + P310, P330, P331 - IF SWALLOWED: Immediately call a POISON CENTER or doctor. Rinse mouth. Do NOT induce vomiting.</li> <li>P303 + P361 + P353, P310 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. Immediately call a POISON CENTER or doctor.</li> <li>P363 - Wash contaminated clothing before reuse.</li> <li>P302 + P312, P352 - IF ON SKIN: Call a POISON CENTER or doctor if you feel unwell. Wash with plenty of water.</li> </ul> |
|   | P333 + P313 - If skin irritation or rash occurs: Get medical advice or attention.<br>P305 + P351 + P338, P310 - IF IN EYES: Rinse cautiously with water for several<br>minutes. Remove contact lenses, if present and easy to do. Continue rinsing.<br>Immediately call a POISON CENTER or doctor.  |
| Storage   | : P405 - Store locked up.<br>P403 + P233 - Store in a well-ventilated place. Keep container tightly closed.   |
| Disposal  | : P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.  |
| Other hazards which do not result in classification | : Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Trimethoxysilanes are capable of forming methanol if hydrolyzed or ingested. If swallowed, methanol may be harmful or fatal or cause blindness. Emits toxic fumes when heated.  |
| See toxicological information                       | (Section 11)  |

See toxicological information (Section 11)

# **SECTION 3: Composition/information on ingredients**

|                               | : Mixture<br>: NOVAGUARD 810/810ER NEUTRAL CURE |
|-------------------------------|---|
| Other means of identification | : Not applicable.                               |

#### Product name NOVAGUARD 810/810ER NEUTRAL CURE

## **SECTION 3: Composition/information on ingredients**

| Ingredient name   | %           | CAS number     |
|---|-------------|----------------|
| ✓alc , not containing asbestiform fibres                              | ≥20 - ≤50   | 14807-96-6     |
| 1,3-Cyclohexanedimethanamine  | ≥20 - ≤50   | 2579-20-6      |
| benzyl alcohol  | ≥10 - ≤20   | 100-51-6       |
| Formaldehyde, polymer with N,N-dimethyl-1,3-propanediamine and phenol | ≥5.0 - ≤10  | 445498-00-0    |
| N-(3-(trimethoxysilyl)propyl)ethylenediamine                          | ≥1.0 - ≤5.0 | 1760-24-3      |
|   | ≥1.0 - ≤3.0 | 90-72-2        |
| Alpha, Alpha"-(1,3-Xylenediyl)Bis(12-Hydroxy-Octadecanamide)          | ≥1.0 - ≤5.0 | Not available. |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### **SECTION 4: First aid measures**

#### Description of necessary first aid measures

| Eye contact  | <ul> <li>Check for and remove any contact lenses. Immediately flush eyes with running<br/>water for at least 15 minutes, keeping eyelids open. Seek immediate medical<br/>attention.</li> </ul>                            |
|--------------|--|
| Inhalation   | <ul> <li>Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is<br/>irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by<br/>trained personnel.</li> </ul> |
| Skin contact | <ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and<br/>water or use recognized skin cleanser. Do NOT use solvents or thinners.</li> </ul>   |
| Ingestion    | <ul> <li>If swallowed, seek medical advice immediately and show this container or label.</li> <li>Keep person warm and at rest. Do NOT induce vomiting.</li> </ul>   |

#### Most important symptoms/effects, acute and delayed

#### Potential acute health effects

| - otoritiar actato ricardi |   |
|----------------------------|---|
| Eye contact                | : Causes serious eye damage.  |
| Inhalation                 | : Harmful if inhaled. May cause respiratory irritation.                                   |
| Skin contact               | : Causes severe burns. Harmful in contact with skin. May cause an allergic skin reaction. |
| Ingestion                  | : Harmful if swallowed.   |

**Over-exposure signs/symptoms** 

See toxicological information (Section 11)

#### Indication of immediate medical attention and special treatment needed, if necessary

| Notes to physician         | <ul> <li>In case of inhalation of decomposition products in a fire, symptoms may be delayed.</li></ul>  |
|----------------------------|---|
| Specific treatments        | The exposed person may need to be kept under medical surveillance for 48 hours. <li>No specific treatment.</li>   |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

Version 6

#### Product name NOVAGUARD 810/810ER NEUTRAL CURE

### **SECTION 5: Firefighting measures**

| Extinguishing media                            |  |
|--|--|
| Suitable extinguishing media                   | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.   |
| Unsuitable extinguishing media                 | : Do not use water jet.  |
| Specific hazards arising from the chemical     | : Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard.<br>In a fire or if heated, a pressure increase will occur and the container may burst, with<br>the risk of a subsequent explosion.  |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon oxides<br>nitrogen oxides<br>metal oxide/oxides<br>Formaldehyde.   |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.  |

## **SECTION 6: Accidental release measures**

#### Personal precautions, protective equipment and emergency procedures

| For non-emergency<br>personnel | :   | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Shut off all ignition sources.<br>No flares, smoking or flames in hazard area. Do not breathe vapor or mist. Provide<br>adequate ventilation. Wear appropriate respirator when ventilation is inadequate.<br>Put on appropriate personal protective equipment.  |
|--------------------------------|-----|---|
| For emergency responders       | -   | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| Environmental precautions      | :   | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).   |
| Methods and materials for co   | ont | ainment and cleaning up   |
| Small spill                    | :   | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.  |
| Large spill                    | :   | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for |

Mexico Page: 4/13

#### Product name NOVAGUARD 810/810ER NEUTRAL CURE

### **SECTION 6: Accidental release measures**

emergency contact information and Section 13 for waste disposal.

# **SECTION 7: Handling and storage**

| Precautions for safe handling                                      | g |   |
|--|---|---|
| Protective measures  | : | Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container. |
| Special precautions  | : | Vapors may accumulate in low or confined areas or travel a considerable distance to<br>a source of ignition and flash back. Vapors are heavier than air and may spread<br>along floors. If this material is part of a multiple component system, read the Safety<br>Data Sheet(s) for the other component or components before blending as the<br>resulting mixture may have the hazards of all of its parts.   |
| Advice on general occupational hygiene                             | : | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |
| Conditions for safe storage,<br>including any<br>incompatibilities | : | Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.   |

# **SECTION 8: Exposure controls/personal protection**

#### **Control parameters**

#### **Occupational exposure limits**

| Ingredient name   | Exposure limits   |
|---|---|
| Image: A start of the star | NOM-010-STPS-2014 (Mexico, 4/2016).<br>[Talc (without asbestos fibres)]<br>STEL: 2 mg/m <sup>3</sup> 15 minutes. Form:<br>Respirable<br>None. |
| benzyl alcohol  | IPEL (-).<br>TWA: 5 ppm<br>STEL: 10 ppm   |
| Formaldehyde, polymer with N,N-dimethyl-1,3-propanediamine and phenol   | None.   |
|   | Mexico Page: 5/13   |

SECTION 8: Exposure controls/personal protection N-(3-(trimethoxysilyl)propyl)ethylenediamine None. 2,4,6-tris(dimethylaminomethyl)phenol None. Alpha, Alpha"-(1,3-Xylenediyl)Bis(12-Hydroxy-Octadecanamide) None. Key to abbreviations С STEL = Ceiling Limit = Short term exposure limit IPFI = Internal Permissible Exposure Limit TLV = Threshold Limit Value TWA = Time Weighted Average Consult local authorities for acceptable exposure limits. **Recommended monitoring** : Reference should be made to appropriate monitoring standards. Reference to procedures national guidance documents for methods for the determination of hazardous substances will also be required. Appropriate engineering : Use only with adequate ventilation. Use process enclosures, local exhaust controls ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment. **Environmental exposure** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some controls cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. Individual protection measures Hygiene measures : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. Eye/face protection : Chemical splash goggles and face shield. Skin protection Hand protection : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. Gloves nitrile neoprene **Body protection** Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear anti-static protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves. : Appropriate footwear and any additional skin protection measures should be Other skin protection selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Respirator selection must be based on known or anticipated exposure levels, the **Respiratory protection** ÷. hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.

Respiratory tract

irritation

#### Product name NOVAGUARD 810/810ER NEUTRAL CURE

### **SECTION 11: Toxicological information**

#### Specific target organ toxicity (repeated exposure)

#### Not available.

Target organs

: Contains material which causes damage to the following organs: blood, liver, heart, brain.

Contains material which may cause damage to the following organs: kidneys, lungs, mucous membranes, cardiovascular system, upper respiratory tract, skin, eyes, central nervous system (CNS).

#### Aspiration hazard

| Name                        |  | Result   |  |  |

Soil/water partition coefficient (Koc)

: Not available.

Other adverse effects

: No known significant effects or critical hazards.

### **SECTION 13: Disposal considerations**

| Disposal methods               | : The generation of waste should be avoided or minimized wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation<br>and any regional local authority requirements. Dispose of surplus and non-<br>recyclable products via a licensed waste disposal contractor. Waste should not be<br>disposed of untreated to the sewer unless fully compliant with the requirements of<br>all authorities with jurisdiction. Waste packaging should be recycled. Incineration or<br>landfill should only be considered when recycling is not feasible. This material and<br>its container must be disposed of in a safe way. Care should be taken when<br>handling emptied containers that have not been cleaned or rinsed out. Empty<br>containers or liners may retain some product residues. Vapor from product residues<br>may create a highly flammable or explosive atmosphere inside the container. Do<br>not cut, weld or grind used containers unless they have been cleaned thoroughly<br>internally. Avoid dispersal of spilled material and runoff and contact with soil,<br>waterways, drains and sewers. |
|--------------------------------|--|
| Discussed also suid by in some | handling emptied containers that have not been cleaned or rinsed out. Empty<br>containers or liners may retain some product residues. Vapor from product residues<br>may create a highly flammable or explosive atmosphere inside the container. Do<br>not cut, weld or grind used containers unless they have been cleaned thoroughly   |

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures
