SAFETY DATA SHEET

Conforms to Official Mexican Standard NOM-018-STPS-2015

Date of revision 23 June 2023

Version 16

Date of issue 23 June 2023

SECTION 1: Identification of the substance/mixture and of the company/undertaking

| Product name | : AMERSHIELD VOC BAS DEEP TINT |
|----------------------------------|---|
| Product code | : 00333850 |
| Other means of identification | : Not applicable. |
| Product type | : Liquid. |
| Relevant identified uses o | f the substance or mixture and uses advised against |
| Product use | : Professional applications, Used by spraying. |
| Use of the substance/ mixture | : Coating. |
| Uses advised against | : Not applicable. |
| Manufacturer | : PPG Industries, Inc. One PPG Place Pittsburgh, PA 15272 |
| Emergency telephone number | : (412) 434-4515 (U.S.) (514) 645-1320 (Canada) SETIQ Interior de la República: 800-00-214-00 (México) SETIQ Ciudad de México: (55) 5559-1588 (México) |
| Technical Phone Number | : 888-977-4762 |

SECTION 2: Hazards identification

| Classification of the substance or mixture | FLAMMABLE LIQUIDS - Category 3 SKIN IRRITATION - Category 3 CARCINOGENICITY - Category 1A TOXIC TO REPRODUCTION - Category 2 Percentage of the mixture consisting of ingredient(s) of unknown acute toxicity: 61.4% (oral), 70.1% (dermal), 51% (inhalation) |
|--|---|
| GHS label elements | |
| Hazard pictograms | |
| Signal word | : Danger |

Product name AMERSHIELD VOC BAS DEEP TINT

SECTION 2: Hazards identification

| Hazard statements | : | H226 - Flammable liquid and vapor. H316 - Causes mild skin irritation. H350 - May cause cancer. H361 - Suspected of damaging fertility or the unborn child. |
|---|---|--|
| Precautionary statements | | |
| Prevention | : | P201 - Obtain special instructions before use. P202 - Do not handle until all safety precautions have been read and understood. P280 - Wear protective gloves, protective clothing and eye or face protection. P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. |
| Response | : | P308 + P313 - IF exposed or concerned: Get medical advice or attention. P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. P332 + P313 - If skin irritation occurs: Get medical advice or attention. |
| Storage | 1 | P405 - Store locked up. |
| Disposal | : | P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations. |
| Other hazards which do not result in classification | : | Sanding and grinding dusts may be harmful if inhaled. Prolonged or repeated contact may dry skin and cause irritation. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. This product contains crystalline silica which can cause lung cancer or silicosis. The risk of cancer depends on the duration and level of exposure to dust from sanding surfaces or mist from spray applications. Emits toxic fumes when heated. |
| See toxicological information (Section 11) | | |

See toxicological information (Section 11)

SECTION 3: Composition/information on ingredients

| Substance/mixture Product name | : Mixture : AMERSHIELD VOC BAS DEEP TINT |
|----------------------------------|---|
| Other means of identification | : Not applicable. |

| Ingredient name | % | CAS number |
|---|-------------|------------|
| Wollastonite | ≥20 - ≤50 | 13983-17-0 |
| titanium dioxide | ≥10 - ≤20 | 13463-67-7 |
| tert-butyl acetate | ≥5.0 - ≤10 | 540-88-5 |
| methyl acetate | ≥1.0 - ≤6.3 | 79-20-9 |
| 4-chloro-α,α,α-trifluorotoluene | ≥1.0 - ≤3.6 | 98-56-6 |
| n-butyl acetate | ≥1.0 - ≤5.0 | 123-86-4 |
| bis(1,2,2,6,6-pentamethyl-4-piperidyl) sebacate | <1.0 | 41556-26-7 |
| crystalline silica, respirable powder (<10 microns) | <1.0 | 14808-60-7 |
| naphthalene | <1.0 | 91-20-3 |
| methyl 1,2,2,6,6-pentamethyl-4-piperidyl sebacate | <1.0 | 82919-37-7 |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Product name AMERSHIELD VOC BAS DEEP TINT

SECTION 4: First aid measures

Description of necessary first aid measures

| Eye contact | Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice. |
|--------------|--|
| Inhalation | Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |
| Skin contact | Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners. |
| Ingestion | If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting. |

Most important symptoms/effects, acute and delayed

Potential acute health effects

| Eye contact | : No known significant effects or critical hazards. |
|--------------|---|
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : Causes mild skin irritation. Defatting to the skin. |
| Ingestion | : No known significant effects or critical hazards. |

Over-exposure signs/symptoms

See toxicological information (Section 11)

Indication of immediate medical attention and special treatment needed, if necessary

| Notes to physician | In case of inhalation of decomposition products in a fire, symptoms may be delayed. |
|----------------------------|---|
| Specific treatments | The exposed person may need to be kept under medical surveillance for 48 hours. No specific treatment. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

SECTION 5: Firefighting measures

| Extinguishing media | |
|--|--|
| Suitable extinguishing media | : Use dry chemical, CO ₂ , water spray (fog) or foam. |
| Unsuitable extinguishing media | : Do not use water jet. |
| Specific hazards arising from the chemical | : Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. |
| Hazardous thermal decomposition products | : Decomposition products may include the following materials: carbon oxides halogenated compounds carbonyl halides metal oxide/oxides |
| Special protective actions for fire-fighters | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. |
| | Mexico Page: 3/13 |

Product name AMERSHIELD VOC BAS DEEP TINT

SECTION 5: Firefighting measures

Special protective equipment for fire-fighters

: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

SECTION 6: Accidental release measures

| <u>ive equipment and emergency procedures</u> |
|--|
| : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. |
| : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| ntainment and cleaning up |
| : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |
| |

SECTION 7: Handling and storage

Precautions for safe handling

Protective measures
 Put on appropriate personal protective equipment (see Section 8). Avoid exposure - obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container.

Product name AMERSHIELD VOC BAS DEEP TINT

SECTION 7: Handling and storage

| Special precautions | : Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. Vapors are heavier than air and may spread along floors. If this material is part of a multiple component system, read the Safety Data Sheet(s) for the other component or components before blending as the resulting mixture may have the hazards of all of its parts. |
|--|---|
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |
| Conditions for safe storage, including any incompatibilities | : Do not store above the following temperature: 50°C (122°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. |

SECTION 8: Exposure controls/personal protection

Control parameters

Occupational exposure limits

| Ingredient name | Exposure limits |
|---|---|
| Wollastonite | ACGIH TLV (United States, 1/2022). |
| | TWA: 1 mg/m ³ 8 hours. Form: Inhalable |
| | fraction |
| titanium dioxide | NOM-010-STPS-2014 (Mexico, 4/2016). |
| | TWA: 10 mg/m ³ 8 hours. |
| tert-butyl acetate | NOM-010-STPS-2014 (Mexico, 4/2016). |
| | TWA: 200 ppm 8 hours. |
| methyl acetate | NOM-010-STPS-2014 (Mexico, 4/2016). |
| | STEL: 250 ppm 15 minutes. |
| | TWA: 200 ppm 8 hours. |
| 4-chloro-α,α,α-trifluorotoluene | IPEL (-). |
| | TWA: 0.57 ppm |
| | STEL: 1.71 ppm |
| n-butyl acetate | NOM-010-STPS-2014 (Mexico, 4/2016). |
| | STEL: 200 ppm 15 minutes. |
| | TWA: 150 ppm 8 hours. |
| bis(1,2,2,6,6-pentamethyl-4-piperidyl) sebacate | None. |
| crystalline silica, respirable powder (<10 microns) | NOM-010-STPS-2014 (Mexico, 4/2016). |
| | TWA: 0.025 mg/m ³ 8 hours. Form: |
| | Respirable |
| naphthalene | NOM-010-STPS-2014 (Mexico, 4/2016). |
| | Absorbed through skin. |
| | STEL: 15 ppm 15 minutes. |
| | TWA: 10 ppm 8 hours. |
| methyl 1,2,2,6,6-pentamethyl-4-piperidyl sebacate | None. |
| Key to abbreviations | 3 |
| C = Ceiling Limit | STEL = Short term exposure limit |
| IPEL = Internal Permissible Exposure Limit | TLV = Threshold Limit Value |

Product name AMERSHIELD VOC BAS DEEP TINT

SECTION 8: Exposure controls/personal protection

TWA = Time Weighted Average

Consult local authorities for acceptable exposure limits.

| Recommended monitoring : procedures | Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required. |
|--|---|
| Appropriate engineering : controls | Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment. |
| Environmental exposure : controls | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. |
| Individual protection measures | |
| | Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
| Eye/face protection : | Safety glasses with side shields. |
| Skin protection | |
| Hand protection : | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. |
| Gloves : | For prolonged or repeated handling, use the following type of gloves: |
| | May be used: butyl rubber Not recommended: nitrile rubber |
| Body protection : | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear anti-static protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves. |
| Other skin protection : | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Respiratory protection : | Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. |

Product name AMERSHIELD VOC BAS DEEP TINT

SECTION 9: Physical and chemical properties

Appearance

| Physical state | : | Liquid. | | | |
|--|---|---|--|--|--|
| Color | : | White. | | | |
| Odor | : | Characteristic. | | | |
| Odor threshold | : | ot available. | | | |
| Molecular weight | 1 | ot applicable. | | | |
| рН | ÷ | Not applicable. | | | |
| Melting point | 4 | Not available. | | | |
| Boiling point | 1 | >37.78°C (>100°F) | | | |
| Flash point | 1 | Closed cup: 45.56°C (114°F) | | | |
| Auto-ignition temperature | : | Not available. | | | |
| Decomposition temperature | | Not available. | | | |
| Flammability | 4 | Not available. | | | |
| Lower and upper explosive (flammable) limits | 1 | Not available. | | | |
| Evaporation rate | 1 | 0.31 (butyl acetate = 1) | | | |
| Vapor pressure | 1 | 1.5 kPa (11 mm Hg) | | | |
| Vapor density | : | Not available. | | | |
| Relative density | : | 1.4 | | | |
| Density(lbs / gal) | : | 1.68 | | | |
| 0 - 1 | | Media Result | | | |
| Solubility(ies) | 1 | cold water Not soluble | | | |
| Solubility in water | : | 0.9 g/l | | | |
| Partition coefficient: n- octanol/water | : | Not applicable. | | | |
| Viscosity | : | Kinematic (40°C (104°F)): >21 mm²/s (>21 cSt) | | | |
| Volatility | 1 | 3 4% (v/v), 22.79% (w/w) | | | |
| % Solid. (w/w) | 1 | 77.21 | | | |
| | | | | | |

SECTION 10: Stability and reactivity

| | Mexico Page: 7/13 |
|------------------------------------|---|
| Hazardous decomposition products | Depending on conditions, decomposition products may include the following materials: carbon oxides halogenated compounds carbonyl halides metal oxide/oxides |
| Incompatible materials | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids. |
| Conditions to avoid | When exposed to high temperatures may produce hazardous decomposition products. Refer to protective measures listed in sections 7 and 8. |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. |
| Chemical stability | : The product is stable. |
| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. |

Product name AMERSHIELD VOC BAS DEEP TINT

SECTION 11: Toxicological information

Information on toxicological effects

Acute toxicity

| crystalline silica, respirable powder (<10 microns) naphthalene | Category 1 Category 2 | inhalation - | - |

Target organs

: Contains material which causes damage to the following organs: brain, central nervous system (CNS).

Contains material which may cause damage to the following organs: lungs, liver, upper respiratory tract, skin, adrenal, eye, lens or cornea, optic nerve.

Aspiration hazard

Not available.

Information on the likely routes of exposure

Potential acute health effects

| Eye contact | 1 | No known significant effects or critical hazards. |
|-----------------------------|----|---|
| Inhalation | ÷ | No known significant effects or critical hazards. |
| Skin contact | ÷ | Causes mild skin irritation. Defatting to the skin. |
| Ingestion | ÷ | No known significant effects or critical hazards. |
| Over-exposure signs/sympton | ms | <u>5</u> |
| Eye contact | : | Adverse symptoms may include the following: pain or irritation watering redness |
| Inhalation | : | Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations |

| Product code 00333850 Product name AMERSHIE | LD V | Date of issue 23 June 2023 Version 16 /OC BAS DEEP TINT |
|---|--|---|
| | | ogical information |
| Skin contact | i r c r i | Adverse symptoms may include the following: irritation redness dryness cracking reduced fetal weight increase in fetal deaths skeletal malformations |
| Ingestion | r i | Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations |
| Delayed and immediate effe | cts a | nd also chronic effects from short and long term exposure |
| Conclusion/Summary | s d a fo p a a roce s th h c a o h th d ir | There are no data available on the mixture itself. This product contains crystalline silica which can cause lung cancer or silicosis. The risk of cancer depends on the duration and level of exposure to dust from sanding surfaces or mist from spray applications. For many products, TiO2 is utilized as a raw material in a liquid coating formulation. In this case, the TiO2 particles are bound in a matrix with no meaningfue optimations may be harmful depending on the duration and level of exposure and equire the use of appropriate personal protective equipment and/or engineering controls (see Section 8). Exposure to component solvent vapor concentrations in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on he kidneys, liver and central nervous system. Symptoms and signs include neadache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of consciousness. Solvents may cause some of the above effects by absorption through the skin. There is some evidence that repeated exposure to organic solvent vapors in combination with constant loud noise can cause greater hearing loss than expected from exposure to noise alone. If splashed in the eyes, he liquid may cause irritation and reversible damage. Ingestion may cause nausea diarrhea and vomiting. This takes into account, where known, delayed and mmediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact. |
| Short term exposure Potential immediate | . т | There are no data available on the mixture itself. |
| effects | | |
| Potential delayed effects | : Т | There are no data available on the mixture itself. |
| Long term exposure Potential immediate | : Т | There are no data available on the mixture itself. |
| effects Potential delayed effects | : Т | There are no data available on the mixture itself. |
| Potential chronic health effe | ects | |
| General | : 1 | Prolonged or repeated contact can defat the skin and lead to irritation, cracking and or dermatitis. |
| Carcinogenicity | : 1 | May cause cancer. Risk of cancer depends on duration and level of exposure. |
| Mutagenicity | | No known significant effects or critical hazards. |
| Reproductive toxicity | | Suspected of damaging fertility or the unborn child. |
| | | |

Mobility in soil

Soil/water partition coefficient (Koc)

: Not available.

Other adverse effects

: No known significant effects or critical hazards.

Product name AMERSHIELD VOC BAS DEEP TINT

SECTION 13: Disposal considerations

Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures

SECTION 14: Transport information

| | Mexico Classification | IMDG | ΙΑΤΑ |
|-----------------------------------|-----------------------|-----------------|-----------------|
| UN number | UN1263 | UN1263 | UN1263 |
| UN proper shipping name | PAINT | PAINT | PAINT |
| Transport hazard class(es) | 3 | 3 | 3 |
| Packing group | III | III | III |
| Environmental hazards | No. | No. | No. |
| Marine pollutant substances | Not applicable. | Not applicable. | Not applicable. |

Additional information

- : None identified. **Mexico** IMDG : None identified. ΙΑΤΑ : None identified.
- Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments

Version 16

Product name AMERSHIELD VOC BAS DEEP TINT

SECTION 15: Regulatory information

Mexico

Classification

Flammability : 2 Health : 2 Reactivity : 0

International regulations

Montreal Protocol

Not listed.

Stockholm Convention on Persistent Organic Pollutants

Not listed.

Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

SECTION 16: Other information

Hazardous Material Information System (U.S.A.)

Health : 2 * Flammability : 2 Physical hazards : 0

(*) - Chronic effects

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.
