# **SAFETY DATA SHEET**

Date of issue/Date of revision 12 July 2023 Version 6.02

# Section 1. Identification of the substance/mixture and of the company/undertaking

| Product code                     | : 00191490                  |
|----------------------------------|-----------------------------|
| Product name                     | : PPG AQUACOVER 45 (TINTED) |
| Other means of<br>identification | : Not available.            |
| Product type                     | : Liquid.                   |

| Relevant identified | uses of the | substance | or mixture | and uses | advised ag | <u>jainst</u> |
|---------------------|-------------|-----------|------------|----------|------------|---------------|
| Product use         |             | Conting   |            |          |            |               |

| Product use  | <ul> <li>Coating.</li> <li>₱rofessional applications, Used by spraying.</li> </ul>   |
|--|--|
| Uses advised against                                       | : Product is not intended, labelled or packaged for consumer use.  |
| Supplier's details   | : PPG Coatings (Thailand) Co., Ltd.<br>15 Rama 9 Road, Kwaeng Huamark,<br>Khet Bangkapi, Bangkok 10240 Thailand<br>T: 662-319-4190 #224<br>F: 662-319-4189 |
| Emergency telephone<br>number (with hours of<br>operation) | : CHEMTREC 001-800-13-203-9987 (CCN 17704)   |

### Section 2. Hazards identification

| Classification of the substance or mixture     | : AQUATIC HAZARD (ACUTE) - Category 2<br>AQUATIC HAZARD (LONG-TERM) - Category 2<br>Percentage of the mixture consisting of ingredient(s) of unknown hazards to the<br>aquatic environment: 1.4% |
|--|--|
| <u>GHS label elements</u><br>Hazard pictograms |  |
| Signal word<br>Hazard statements               | <ul><li>No signal word.</li><li>Toxic to aquatic life with long lasting effects.</li></ul>   |

### Section 2. Hazards identification

| Precautionary statements                            |   |  |
|---|---|--|
| Prevention  | : | Avoid release to the environment.  |
| Response  | : | Collect spillage.  |
| Storage   | : | Not applicable.  |
| Disposal  | : | Dispose of contents and container in accordance with all local, regional, national and international regulations.        |
| Other hazards which do not result in classification | : | Prolonged or repeated contact may dry skin and cause irritation. Contains isothiazolinones. May cause allergic reaction. |

### Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

#### CAS number/other identifiers

| CAS number : Not applicable.   |  |  |
|--|--|--|
| Ingredient name  | %  | CAS number   |
| Sobutyric acid, monoester with 2,2,4-trimethylpentane-1,3-diol<br>tetraamminezinc(2+) carbonate<br>propylidynetrimethanol<br>ammonia<br>4,5-dichloro-2-octyl-2H-isothiazol-3-one<br>3-iodo-2-propynyl butylcarbamate<br>octamethylcyclotetrasiloxane | 1- <3<br>0.1- <0.3<br>0.1- <0.3<br>0.1- <0.3<br><0.1<br><0.1<br><0.1 | 25265-77-4<br>38714-47-5<br>77-99-6<br>1336-21-6<br>64359-81-5<br>55406-53-6<br>556-67-2 |
| pyrithione zinc  | <0.1   | 13463-41-7   |

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

### Section 4. First aid measures

#### Description of necessary first aid measures

| Eye contact  | <ul> <li>Remove contact lenses, irrigate copiously with clean, fresh water, holding the<br/>eyelids apart for at least 10 minutes and seek immediate medical advice.</li> </ul>  |
|--------------|--|
| Inhalation   | <ul> <li>Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is<br/>irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by<br/>trained personnel.</li> </ul> |
| Skin contact | <ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and<br/>water or use recognized skin cleanser. Do NOT use solvents or thinners.</li> </ul>   |
| Ingestion    | <ul> <li>If swallowed, seek medical advice immediately and show this container or label.</li> <li>Keep person warm and at rest. Do NOT induce vomiting.</li> </ul>   |

| Most important symptoms/effects, acute and delayed |   |  |
|--|---|--|
| Potential acute healt                              | th effects  |  |
| Eye contact  | : No known significant effects or critical hazards. |  |
| Inhalation   | : No known significant effects or critical hazards. |  |

#### **Skin contact** : Defatting to the skin. May cause skin dryness and irritation.

### Section 4. First aid measures

| Ingestion                      | : No known significant effects or critical hazards.  |
|--------------------------------|--|
| <u>Over-exposure signs/sym</u> | <u>ptoms</u>   |
| Eye contact                    | : No specific data.  |
| Inhalation                     | : No specific data.  |
| Skin contact                   | : Adverse symptoms may include the following:<br>irritation<br>dryness<br>cracking   |
| Ingestion                      | : No specific data.  |
| Indication of immediate me     | dical attention and special treatment needed, if necessary   |
| Notes to physician             | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul>                          |
| Specific treatments            | : No specific treatment.   |
| Protection of first-aiders     | : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. |
|                                |  |

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

| Extinguishing media                            |  |
|--|--|
| Suitable extinguishing media                   | : Use an extinguishing agent suitable for the surrounding fire.  |
| Unsuitable extinguishing media                 | : None known.  |
| Specific hazards arising from the chemical     | In a fire or if heated, a pressure increase will occur and the container may burst.<br>This material is toxic to aquatic life with long lasting effects. Fire water<br>contaminated with this material must be contained and prevented from being<br>discharged to any waterway, sewer or drain. |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon oxides<br>metal oxide/oxides   |
| Special protective actions for fire-fighters   | <ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if<br/>there is a fire. No action shall be taken involving any personal risk or without<br/>suitable training.</li> </ul>  |
| Special protective equipment for fire-fighters | <ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained<br/>breathing apparatus (SCBA) with a full face-piece operated in positive pressure<br/>mode.</li> </ul>  |

### Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

| For non-emergency<br>personnel                            | : | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Avoid breathing vapor or<br>mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment. |
|---|---|--|
| For emergency responders                                  | : | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| Environmental precautions<br>Methods and materials for co | : | drains and sewers. Inform the relevant authorities if the product has caused<br>environmental pollution (sewers, waterways, soil or air). Water polluting material.<br>May be harmful to the environment if released in large quantities. Collect spillage.  |

| Small spill | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |
|-------------|---|
| Large spill | : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

### Section 7. Handling and storage

| Precautions for safe<br>handling                                   | : | Put on appropriate personal protective equipment (see Section 8). Do not ingest.<br>Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Avoid<br>release to the environment. Keep in the original container or an approved<br>alternative made from a compatible material, kept tightly closed when not in use.<br>Empty containers retain product residue and can be hazardous. Do not reuse<br>container.   |
|--|---|--|
| Conditions for safe storage,<br>including any<br>incompatibilities | : | Store between the following temperatures: 5 to 35°C (41 to 95°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

### Section 8. Exposure controls/personal protection

#### **Control parameters**

#### **Occupational exposure limits**

| Ingredient name                   |     |   | Exposure limits   |  |  |
|-----------------------------------|-----|---|---|--|--|
| ammonia                           |     |   | Ministry of Labor (Thailand, 8/2017).<br>[ammonia]<br>TWA: 50 ppm 8 hours.  |  |  |
| Recommended monitoring procedures | :   | Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.   |   |  |  |
| Appropriate engineering controls  | :   | Good general ventilation should be su contaminants.   | ifficient to control worker exposure to airborne  |  |  |
| Environmental exposure controls   | :   | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels. |   |  |  |
| ndividual protection measur       | res |   |   |  |  |
| Hygiene measures                  | :   | eating, smoking and using the lavator<br>Appropriate techniques should be use   | bughly after handling chemical products, before<br>y and at the end of the working period.<br>ed to remove potentially contaminated clothing.<br>eusing. Ensure that eyewash stations and<br>tation location.   |  |  |
| Eye protection                    | :   | Safety glasses with side shields.   |   |  |  |
| Skin protection                   |     |   |   |  |  |
| Hand protection                   | :   | be worn at all times when handling ch<br>this is necessary. Considering the pa<br>check during use that the gloves are s<br>should be noted that the time to break  | s complying with an approved standard should<br>emical products if a risk assessment indicates<br>rameters specified by the glove manufacturer,<br>still retaining their protective properties. It<br>withrough for any glove material may be<br>rers. In the case of mixtures, consisting of<br>the of the gloves cannot be accurately |  |  |
| Gloves                            | :   | For prolonged or repeated handling, use the following type of gloves:   |   |  |  |
|                                   |     | Recommended: butyl rubber, Viton®,  | nitrile rubber  |  |  |
| Body protection                   | :   | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |   |  |  |
| Other skin protection             | :   |   | nal skin protection measures should be<br>formed and the risks involved and should be<br>ing this product.  |  |  |

### Section 8. Exposure controls/personal protection

Respiratory protection : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.

### Section 9. Physical and chemical properties

| Appearance                                   |   |  |
|--|---|--|
| Physical state                               | : | Liquid.  |
| Color  | : | Various  |
| Odor   | : | Amine-like.  |
| Odor threshold                               | : | Not available.   |
| рН   | : | 8  |
| Melting point                                | : | May start to solidify at the following temperature: 0°C (32°F) This is based on data for the following ingredient: water. Weighted average: -9.31°C (15.2°F) |
| Boiling point                                | : | >37.78°C (>100°F)  |
| Flash point                                  | : | Closed cup: 120°C (248°F)  |
| Evaporation rate                             | : | Highest known value: 0.02 ((2-methoxymethylethoxy)propanol) Weighted average: 0.02compared with butyl acetate  |
| Flammability (solid, gas)                    | : | liquid   |
| Lower and upper explosive (flammable) limits | : | Greatest known range: Lower: 1.1% Upper: 14% ((2-methoxymethylethoxy) propanol)  |
| Vapor pressure                               | : | Ħ́ighest known value: 2.3 kPa (17.5 mm Hg) (at 20°C) (water). Weighted average:<br>1.97 kPa (14.78 mm Hg) (at 20°C)  |
| Vapor density                                | : | Highest known value: 7.5 (Air = 1) (isobutyric acid, monoester with 2,2,4-trimethylpentane-1,3-diol). Weighted average: 5.35 (Air = 1)                       |
| Relative density                             | : | 1.25   |
|  |   | Media Result   |
| Solubility(ies)                              | : | cold water Partially soluble   |
| Partition coefficient: n-<br>octanol/water   | : | Not applicable.  |
| Auto-ignition temperature                    | : | 207°C  |
| Decomposition temperature                    | : | Stable under recommended storage and handling conditions (see Section 7).  |
| Viscosity                                    | : | Kinematic (40°C): >21 mm²/s  |
| Viscosity                                    | : | 60 - 100 s (ISO 6mm)   |
|  |   |  |

### Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.  |
|------------------------------------|---|
| Chemical stability                 | : The product is stable.  |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.   |
| Conditions to avoid                | : When exposed to high temperatures may produce hazardous decomposition products.   |
| Incompatible materials             | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.              |
| Hazardous decomposition products   | <ul> <li>Depending on conditions, decomposition products may include the following<br/>materials: carbon oxides metal oxide/oxides</li> </ul> |

### Section 11. Toxicological information

#### Information on toxicological effects

#### Acute toxicity

| Product/ingredient name  | Result                          | Species | Dose        | Exposure |
|--|---------------------------------|---------|-------------|----------|
| sobutyric acid, monoester with 2,2,4-trimethylpentane-1,3-diol | LD50 Dermal                     | Rabbit  | >15.2 g/kg  | -        |
|  | LD50 Oral                       | Rat     | 6.5 g/kg    | -        |
| propylidynetrimethanol   | LD50 Dermal                     | Rabbit  | 10 g/kg     | -        |
|  | LD50 Oral                       | Rat     | 14000 mg/kg | -        |
| ammonia  | LD50 Oral                       | Rat     | 350 mg/kg   | -        |
| 4,5-dichloro-2-octyl-2H-isothiazol-<br>3-one                   | LC50 Inhalation Dusts and mists | Rat     | 0.16 mg/l   | 4 hours  |
|  | LD50 Dermal                     | Rabbit  | 3.9 g/kg    | -        |
|  | LD50 Oral                       | Rat     | 567 mg/kg   | -        |
| 3-iodo-2-propynyl butylcarbamate                               | LC50 Inhalation Dusts and mists | Rat     | 0.67 mg/l   | 4 hours  |
|  | LD50 Dermal                     | Rabbit  | >2 g/kg     | -        |
|  | LD50 Oral                       | Rat     | 1470 mg/kg  | -        |
| octamethylcyclotetrasiloxane                                   | LC50 Inhalation Vapor           | Rat     | 36 g/m³     | 4 hours  |
|  | LD50 Dermal                     | Rat     | >2375 mg/kg | -        |
|  | LD50 Oral                       | Rat     | >4800 mg/kg | -        |
| pyrithione zinc  | LC50 Inhalation Dusts and mists | Rat     | 0.14 mg/l   | 4 hours  |
|  | LD50 Dermal                     | Rabbit  | >2 g/kg     | -        |
|  | LD50 Oral                       | Rat     | 177 mg/kg   | -        |

**Conclusion/Summary** : There are no data available on the mixture itself.

#### Irritation/Corrosion

| Product/ingredient name           | Result                 | Species | Score | Exposure | Observation |
|-----------------------------------|------------------------|---------|-------|----------|-------------|
| iodo-2-propynyl<br>butylcarbamate | Eyes - Severe irritant | Rabbit  | -     | -        | -           |
| pyrithione zinc                   | Eyes - Cornea opacity  | Rabbit  | 4     | 24 hours | 24 hours    |

| <u>Long term exposure</u>                         |  |  |  |
| Potential immediate<br>effects                    | : Not available.   |  |  |
| Potential delayed effects                         | : Not available.   |  |  |
| Potential chronic health effects                  |  |  |  |
| General   | : Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/<br>or dermatitis. |  |  |
| Carcinogenicity                                   | : No known significant effects or critical hazards.  |  |  |
| Mutagenicity                                      | : No known significant effects or critical hazards.  |  |  |
| Reproductive toxicity                             | : No known significant effects or critical hazards.  |  |  |

#### Numerical measures of toxicity

#### Acute toxicity estimates

Not available.

#### Other information

Prolonged or repeated contact may dry skin and cause irritation. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Contains isothiazolinones. May cause allergic reaction. Avoid contact with skin and clothing.

#### Mobility in soil

| Soil/water partition<br>coefficient (Koc) | : Not available.                                    |
|---|---|
| Other adverse effects                     | : No known significant effects or critical hazards. |

### Section 13. Disposal considerations

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

### Section 14. Transport information

#### Additional information

### Section 14. Transport information

| UN              | : This product is not regulated as a dangerous good when transported in sizes of ≤5 L or ≤5 kg, provided the packagings meet the general provisions of 4.1.1.1, 4.1.1.2 and 4.1.1.4 to 4.1.1.8.                             |
|-----------------|---|
| IMDG            | : This product is not regulated as a dangerous good when transported in sizes of ≤5 L or ≤5 kg, provided the packagings meet the general provisions of 4.1.1.1, 4.1.1.2 and 4.1.1.4 to 4.1.1.8.                             |
| ΙΑΤΑ            | : This product is not regulated as a dangerous good when transported in sizes of ≤5 L or ≤5 kg, provided the packagings meet the general provisions of 5.0.2.4.1, 5.0.2.6.1.1 and 5.0.2.8.                                  |
| Special precaut | tions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage. |

Transport in bulk according : Not applicable. to IMO instruments

### Section 15. Regulatory information

Harmful Chemicals List

: Listed

Safety, health and

environmental regulations specific for the product

: No known specific national and/or regional regulations applicable to this product (including its ingredients).

**International regulations** 

**Montreal Protocol** 

Not listed.

#### **Stockholm Convention on Persistent Organic Pollutants**

Not listed.
