# SAFETY DATA SHEET

The information in this Safety Data Sheet is required pursuant to GHS UN rev. 7

Date of issue/Date of revision 17 August 2023 Version 10

# Section 1. Identification

| Product code                                    | : | 00254142   |
|---|---|--|
| Product name                                    | : | SIGMARINE 48 KOBELCO GREEN   |
| Product type                                    | : | Liquid.  |
| Other means of identification<br>Not available. | l |  |
| Relevant identified uses of th                  | e | substance or mixture and uses advised against  |
| Product use                                     | 1 | Coating.<br>Professional applications, Used by spraying.   |
| Uses advised against                            | 1 | Product is not intended, labelled or packaged for consumer use.                                      |
| Supplier's information                          | : | PPG Asian Paints Private Limited<br>6A Shanti Nagar<br>Santa Cruz (East)<br>Mumbai - 400055<br>India |
| Emergency telephone<br>number:                  | : | +91 22 6815 8700   |

# Section 2. Hazards identification

| Classification of the<br>substance or mixture | <ul> <li>FLAMMABLE LIQUIDS - Category 3<br/>SKIN CORROSION/IRRITATION - Category 3<br/>REPRODUCTIVE TOXICITY - Category 1B<br/>SPECIFIC TARGET ORGAN TOXICITY - SINGLE EXPOSURE (Narcotic effects) -<br/>Category 3<br/>SPECIFIC TARGET ORGAN TOXICITY - REPEATED EXPOSURE - Category 1<br/>SHORT-TERM (ACUTE) AQUATIC HAZARD - Category 3<br/>LONG-TERM (CHRONIC) AQUATIC HAZARD - Category 2<br/>Percentage of the mixture consisting of ingredient(s) of unknown hazards to the<br/>aquatic environment: 40.5%</li> </ul> |
|---|--|
| GHS label elements                            | aqualic environment: 40.5%   |

Hazard pictograms

| Signal word       | : Danger   |
|-------------------|--|
| Hazard statements | <ul> <li>Fammable liquid and vapour.<br/>Causes mild skin irritation.<br/>May cause drowsiness or dizziness.<br/>May damage fertility or the unborn child.<br/>Causes damage to organs through prolonged or repeated exposure. (central nervous system (CNS))<br/>Harmful to aquatic life.<br/>Toxic to aquatic life with long lasting effects.</li> </ul> |

# Section 2. Hazards identification

| Precautionary statements   |   |
|----------------------------|---|
| Prevention                 | : Øbtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing and eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Do not breathe vapour. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. |
| Response                   | : Collect spillage. IF exposed or concerned: Get medical advice or attention. IF<br>INHALED: Remove person to fresh air and keep comfortable for breathing. Call a<br>POISON CENTER or doctor if you feel unwell. IF ON SKIN (or hair): Take off<br>immediately all contaminated clothing. Rinse skin with water. If skin irritation occurs:<br>Get medical advice or attention.  |
| Storage                    | : Store locked up. Store in a well-ventilated place. Keep container tightly closed.   |
| Disposal                   | : Dispose of contents and container in accordance with all local, regional, national and international regulations.   |
| Other hazards which do not | : Prolonged or repeated contact may dry skin and cause irritation.  |

Other hazards which do n result in classification

# Section 3. Composition/information on ingredients

| Substance/mixture | 1 |
|-------------------|---|
|                   |   |

: Mixture

### CAS number/other identifiers

| CAS number | : Not applicable. |
|------------|-------------------|
|            |                   |

| Ingredient name                              | %          | CAS number |
|--|------------|------------|
| Maphtha (petroleum), hydrodesulfurized heavy | 25 - <50   | 64742-82-1 |
| Talc , not containing asbestiform fibres     | 3 - <5     | 14807-96-6 |
| 2-ethylhexanoic acid, zirconium salt         | 1 - <3     | 22464-99-9 |
| Solvent naphtha (petroleum), light aromatic  | 1 - <3     | 64742-95-6 |
| xylene                                       | 1 - <3     | 1330-20-7  |
| 1,2,4-trimethylbenzene                       | 1 - <3     | 95-63-6    |
| nonane                                       | 0.3 - <1   | 111-84-2   |
| 2-ethylhexanoic acid, cobalt salt            | 0.3 - <1   | 13586-82-8 |
| calcium bis(2-ethylhexanoate)                | 0.1 - <0.3 | 136-51-6   |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

# Section 4. First aid measures

| <b>Description of necess</b> | ary first aid measures   |
|------------------------------|--|
| Eye contact                  | <ul> <li>Remove contact lenses, irrigate copiously with clean, fresh water, holding the<br/>eyelids apart for at least 10 minutes and seek immediate medical advice.</li> </ul>  |
| Inhalation                   | <ul> <li>Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is<br/>irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by<br/>trained personnel.</li> </ul> |
| Skin contact                 | : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognised skin cleanser. Do NOT use solvents or thinners.   |
| Ingestion                    | : If swallowed, seek medical advice immediately and show the container or label.<br>Keep person warm and at rest. Do NOT induce vomiting.  |

# Section 4. First aid measures

| Most important symptoms/                          | effects, acute and delayed  |
|---|---|
| Potential acute health effe                       | <u>cts</u>  |
| Eye contact                                       | : No known significant effects or critical hazards.   |
| Inhalation  | : Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness.   |
| Skin contact                                      | : Causes mild skin irritation. Defatting to the skin.   |
| Ingestion   | : Can cause central nervous system (CNS) depression.  |
| <u>Over-exposure signs/sym</u>                    | <u>ptoms</u>  |
| Eye contact                                       | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness  |
| Inhalation  | : Adverse symptoms may include the following:<br>nausea or vomiting<br>headache<br>drowsiness/fatigue<br>dizziness/vertigo<br>unconsciousness<br>reduced foetal weight<br>increase in foetal deaths<br>skeletal malformations   |
| Skin contact                                      | : Adverse symptoms may include the following:<br>irritation<br>redness<br>dryness<br>cracking<br>reduced foetal weight<br>increase in foetal deaths<br>skeletal malformations   |
| Ingestion   | : Adverse symptoms may include the following:<br>reduced foetal weight<br>increase in foetal deaths<br>skeletal malformations   |
| Indication of immediate me                        | dical attention and special treatment needed, if necessary  |
| Notes to physician                                | : In case of inhalation of decomposition products in a fire, symptoms may be delayed.<br>The exposed person may need to be kept under medical surveillance for 48 hours.  |
| Specific treatments<br>Protection of first-aiders | <ul> <li>No specific treatment.</li> <li>No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.</li> </ul> |

See toxicological information (Section 11)

# Section 5. Firefighting measures

| Extinguishing media            |  |
|--------------------------------|--|
| Suitable extinguishing media   | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam. |
| Unsuitable extinguishing media | : Do not use water jet.  |

# Section 5. Firefighting measures

| Hazardous thermal<br>decomposition products: Decomposition products may include the following materials:<br>carbon oxides<br>nitrogen oxides<br>halogenated compounds<br>metal oxide/oxidesSpecial protective actions<br>for fire-fighters: Promptly isolate the scene by removing all persons from the vicinity of the incident if<br>there is a fire. No action shall be taken involving any personal risk or without<br>suitable training. Move containers from fire area if this can be done without risk.<br>Use water spray to keep fire-exposed containers cool.Special protective<br>equipment for fire-fighters: Fire-fighters should wear appropriate protective equipment and self-contained<br>breathing apparatus (SCBA) with a full face-piece operated in positive pressure<br>mode. | Specific hazards arising from the chemical | : Flammable liquid and vapour. Runoff to sewer may create fire or explosion hazard.<br>In a fire or if heated, a pressure increase will occur and the container may burst, with<br>the risk of a subsequent explosion. This material is toxic to aquatic life with long<br>lasting effects. Fire water contaminated with this material must be contained and<br>prevented from being discharged to any waterway, sewer or drain. |
|---|--|--|
| <ul> <li>for fire-fighters</li> <li>there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.</li> <li>Special protective equipment for fire-fighters</li> <li>Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure</li> </ul>  |  | carbon oxides<br>nitrogen oxides<br>halogenated compounds  |
| <b>Special protective</b><br>equipment for fire-fighters should wear appropriate protective equipment and self-contained<br>breathing apparatus (SCBA) with a full face-piece operated in positive pressure   |  | there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk.   |
|   |  | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure  |

# Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures For non-emergency : No action shall be taken involving any personal risk or without suitable training

| <ul> <li>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br/>entering. Do not touch or walk through spilt material. Shut off all ignition sources.<br/>No flares, smoking or flames in hazard area. Avoid breathing vapour or mist.<br/>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br/>inadequate. Put on appropriate personal protective equipment.</li> </ul>   |
|--|
| : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| : Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air). Water polluting material. May be harmful<br>to the environment if released in large quantities. Collect spillage.  |
| tainment and cleaning up   |
| : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |
| : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spill product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |
|  |

Product code 00254142 Product name SIGMARINE 48 KOBELCO GREEN

# Section 7. Handling and storage

| Precautions for safe handling                                      | 1 |  |
|--|---|--|
| Protective measures  | : | Fut on appropriate personal protective equipment (see Section 8). Avoid exposure -<br>obtain special instructions before use. Avoid exposure during pregnancy. Do not<br>handle until all safety precautions have been read and understood. Do not get in<br>eyes or on skin or clothing. Do not breathe vapour or mist. Do not ingest. Avoid<br>release to the environment. Use only with adequate ventilation. Wear appropriate<br>respirator when ventilation is inadequate. Do not enter storage areas and confined<br>spaces unless adequately ventilated. Keep in the original container or an approved<br>alternative made from a compatible material, kept tightly closed when not in use.<br>Store and use away from heat, sparks, open flame or any other ignition source. Use<br>explosion-proof electrical (ventilating, lighting and material handling) equipment.<br>Use only non-sparking tools. Take precautionary measures against electrostatic<br>discharges. Empty containers retain product residue and can be hazardous. Do not<br>reuse container.<br>Materials such as cleaning rags, paper wipes and protective clothing, which are<br>contaminated with the product may spontaneously self-ignite some hours later. To<br>avoid the risks of fires, all contaminated materials should be stored in purpose-built<br>containers or in metal containers with tight-fitting, self-closing lids. Contaminated<br>materials should be removed from the workplace at the end of each working day<br>and be stored outside. |
| Advice on general occupational hygiene                             | : | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |
| Conditions for safe storage,<br>including any<br>incompatibilities | : | Storage temperature: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidising materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.  |

# Section 8. Exposure controls/personal protection

### **Control parameters**

### **Occupational exposure limits**

| Exposure limits                                    |
|--|
| ACGIH TLV (United States, 1/2022).                 |
| TWA: 2 mg/m <sup>3</sup> 8 hours. Form: Respirable |
| ACGIH TLV (United States, 1/2022).                 |
| [Zirconium and compounds as Zr]                    |
| STEL: 10 mg/m³, (as Zr) 15 minutes.                |
| TWA: 5 mg/m³, (as Zr) 8 hours.                     |
| ACGIH TLV (United States, 1/2022). [p-             |

|-----------------------------------|-----------|---|---|--|--|
| Recommended monitoring procedures | :         |   | riate monitoring standards. Reference to nods for the determination of hazardous  |  |  |
| Appropriate engineering controls  | :         | contaminants below any recommende   | Is to keep worker exposure to airborne<br>ed or statutory limits. The engineering controls<br>concentrations below any lower explosive  |  |  |
| Environmental exposure controls   | :         | Emissions from ventilation or work pro  | bcess equipment should be checked to ensure<br>environmental protection legislation. In some<br>neering modifications to the process  |  |  |
| Individual protection measur      | <u>es</u> |   |   |  |  |
| Hygiene measures                  | :         | eating, smoking and using the lavator.<br>Appropriate techniques should be use  | bughly after handling chemical products, before<br>y and at the end of the working period.<br>In the remove potentially contaminated clothing.<br>Busing. Ensure that eyewash stations and<br>tation location.  |  |  |
| Eye/face protection               | :         | Safety eyewear complying with an app<br>assessment indicates this is necessar<br>gases or dusts. If contact is possible,  | broved standard should be used when a risk<br>y to avoid exposure to liquid splashes, mists,<br>the following protection should be worn,<br>gher degree of protection: chemical splash  |  |  |
| Skin protection                   |           |   |   |  |  |
| Hand protection                   | :         | be worn at all times when handling ch<br>this is necessary. Considering the par<br>check during use that the gloves are s<br>should be noted that the time to break | s complying with an approved standard should<br>emical products if a risk assessment indicates<br>rameters specified by the glove manufacturer,<br>still retaining their protective properties. It<br>through for any glove material may be<br>rers. In the case of mixtures, consisting of<br>the of the gloves cannot be accurately |  |  |
| Gloves                            | :         | For prolonged or repeated handling, u   | se the following type of gloves:  |  |  |
|                                   |           | Recommended: polyvinyl alcohol (PV/<br>May be used: nitrile rubber  | A), Viton®  |  |  |
| Body protection                   | :         | being performed and the risks involve   |   |  |  |
| Other skin protection             | :         | Appropriate footwear and any addition   | al skin protection measures should be<br>ormed and the risks involved and should be   |  |  |

### Product code 00254142 Product name SIGMARINE 48 KOBELCO GREEN

# Section 8. Exposure controls/personal protection

**Respiratory protection** 

: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

# Section 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

| <u>Appearance</u>                                       |   |   |          |           |            |          |            |              |

# Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.   |
|------------------------------------|--|
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.  |
| Conditions to avoid                | : When exposed to high temperatures may produce hazardous decomposition products.  |
| Incompatible materials             | : Keep away from the following materials to prevent strong exothermic reactions: oxidising agents, strong alkalis, strong acids.                               |
| Hazardous decomposition products   | : Depending on conditions, decomposition products may include the following materials: carbon oxides nitrogen oxides halogenated compounds metal oxide/ oxides |
| Hazardous polymerisation           | : Under normal conditions of storage and use, hazardous polymerisation will not occur.   |

### **Conclusion/Summary** : There are no data available on the mixture itself.

### Specific target organ toxicity (single exposure)

| Name   | Category   | Route of exposure | Target organs                |
|--|------------|-------------------|------------------------------|
| Naphtha (petroleum), hydrodesulfurized heavy | Category 3 | -                 | Narcotic effects             |
| Talc , not containing asbestiform fibres     | Category 3 | -                 | Respiratory tract irritation |
| Solvent naphtha (petroleum), light aromatic  | Category 3 | -                 | Narcotic effects             |
| xylene                                       | Category 3 | -                 | Respiratory tract irritation |
| 1,2,4-trimethylbenzene                       | Category 3 | -                 | Respiratory tract irritation |
| nonane                                       | Category 3 | -                 | Narcotic effects             |

### Specific target organ toxicity (repeated exposure)

| Name   |            | Route of exposure | Target organs                   |
|--|------------|-------------------|---------------------------------|
| Naphtha (petroleum), hydrodesulfurized heavy | Category 1 |                   | central nervous<br>system (CNS) |

### Aspiration hazard

| Name   | Result                         |
|--|--------------------------------|
| Naphtha (petroleum), hydrodesulfurized heavy | ASPIRATION HAZARD - Category 1 |
| Solvent naphtha (petroleum), light aromatic  | ASPIRATION HAZARD - Category 1 |
| xylene                                       | ASPIRATION HAZARD - Category 1 |
| nonane                                       | ASPIRATION HAZARD - Category 1 |

# Information on likely routes<br/>of exposure: Not available.Potential acute health effectsEye contact<br/>Inhalation: No known significant effects or critical hazards.Skin contact<br/>Ingestion: Can cause central nervous system (CNS) depression. May cause drowsiness or<br/>dizziness.Skin contact<br/>Ingestion: Causes mild skin irritation. Defatting to the skin.Ingestion: Can cause central nervous system (CNS) depression.

### Symptoms related to the physical, chemical and toxicological characteristics

# Section 11. Toxicological information

|              | —   |
|--------------|---|
| Eye contact  | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness  |
| Inhalation   | : Adverse symptoms may include the following:<br>nausea or vomiting<br>headache<br>drowsiness/fatigue<br>dizziness/vertigo<br>unconsciousness<br>reduced foetal weight<br>increase in foetal deaths<br>skeletal malformations |
| Skin contact | : Adverse symptoms may include the following:<br>irritation<br>redness<br>dryness<br>cracking<br>reduced foetal weight<br>increase in foetal deaths<br>skeletal malformations   |
| Ingestion    | <ul> <li>Adverse symptoms may include the following:<br/>reduced foetal weight<br/>increase in foetal deaths<br/>skeletal malformations</li> </ul>  |

| Delayed and immediate effect | <u>ts:</u> | as well as chronic effects from short and long-term exposure   |
|------------------------------|------------|--|
| <u>Short term exposure</u>   |            |  |
| Potential immediate effects  | 1          | Not available.   |
| Potential delayed effects    | :          | Not available.   |
| Long term exposure           |            |  |
| Potential immediate effects  | :          | Not available.   |
| Potential delayed effects    | :          | Not available.   |
| Potential chronic health eff | ect        | is a second s  |
| Not available.               |            |  |
| General                      | :          | Causes damage to organs through prolonged or repeated exposure. Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis. |
| Carcinogenicity              | :          | No known significant effects or critical hazards.  |
| Mutagenicity                 | :          | No known significant effects or critical hazards.  |
| Reproductive toxicity        | :          | $\overline{M}$ ay damage fertility or the unborn child.  |

### Numerical measures of toxicity

### Acute toxicity estimates

| Route                        | ATE value       |
|------------------------------|-----------------|
| Øral                         | 141861.79 mg/kg |
| Dermal                       | 14214.12 mg/kg  |
| Inhalation (vapours)         | 170.61 mg/l     |
| Inhalation (dusts and mists) | 18.79 mg/l      |

### Product code 00254142 Product name SIGMARINE 48 KOBELCO GREEN

# Section 11. Toxicological information

### Other information

Prolonged or repeated contact may dry skin and cause irritation. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapour/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing.

# Section 12. Ecological information

### Mobility in soil

Soil/water partition: Not available.coefficient (Koc)

Other adverse effects

: No known significant effects or critical hazards.

# Section 13. Disposal considerations

: The generation of waste should be avoided or minimised wherever possible. **Disposal methods** Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapour from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

# Section 14. Transport information

|                                | UN   | IMDG   | IATA   |

| Marine pollutant<br>substances | Not applicable.  | (Naphtha (petroleum),<br>hydrodesulfurized heavy,<br>Solvent naphtha (petroleum),<br>light aromatic) | Not applicable.  |

### **Additional information**

UN

IMDG

- : None identified.
- : The marine pollutant mark is not required when transported in sizes of  $\leq$ 5 L or  $\leq$ 5 kg.
- **IATA** : The environmentally hazardous substance mark may appear if required by other transportation regulations.
- **Special precautions for user** :**Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments

# Section 15. Regulatory information

### International regulations

Montreal Protocol

Not listed.

Stockholm Convention on Persistent Organic Pollutants Not listed.
