# SAFETY DATA SHEET

**United Arab Emirates** 

#### Date of issue/Date of revision

: 21 October 2023

Version

: 3.02

| SECTION 1: Identifi undertaking           | cation of the substance/mixture and of the company/               |
|---|---|
| 1.1 Product identifier                    |   |
| Product name                              | : SIGMADUR 550 Y BASE BLACK                                       |
| Product code                              | : 00427143  |
| Other means of identifica                 | tion  |
| Not available.                            |   |
| 1.2 Relevant identified use               | s of the substance or mixture and uses advised against            |
| Product use                               | : Professional applications, Used by spraying.                    |
| Use of the substance/<br>mixture          | : Coating.  |
| Uses advised against                      | : Product is not intended, labelled or packaged for consumer use. |
| 1.3 Details of the supplier of            | of the safety data sheet  |
| Sigma Paint Saudi Arabia L<br>PO Box 7509 | td.   |
| Dammam 31472                              |   |
| Saudi Arabia<br>Tel: 00966 138 47 31 00   |   |
| Fax: 00966 138 47 17 34                   |   |
| e-mail address of person                  | : ndpic@sfda.gov.sa   |
| responsible for this SDS                  |   |
| 1.4 Emergency telephone                   | : 00966 138473100 extn 1001                                       |
| number                                    |   |

# **SECTION 2: Hazards identification**

2.1 Classification of the substance or mixture **Product definition** : Mixture Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS] Flam. Liq. 3, H226 Skin Irrit. 2, H315 Skin Sens. 1, H317 STOT SE 3, H336 STOT RE 2, H373 Aquatic Chronic 3, H412 The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

See Section 16 for the full text of the H statements declared above. See Section 11 for more detailed information on health effects and symptoms.

#### 2.2 Label elements

| Code : 00427143   |            | Date of issue/Date of revision : 21 October 2023  |  |  |
|---|------------|---|--|--|
| SIGMADUR 550 Y BASE BLACK   |            |   |  |  |
| SECTION 2: Hazards identification   |            |   |  |  |
| Hazard pictograms   | :          |   |  |  |
| Signal word   | :          | Warning   |  |  |
| Hazard statements   | :          | Flammable liquid and vapour.<br>Causes skin irritation.<br>May cause an allergic skin reaction.<br>May cause drowsiness or dizziness.<br>May cause damage to organs through prolonged or repeated exposure.<br>Harmful to aquatic life with long lasting effects.                   |  |  |
| Precautionary statements  |            |   |  |  |
| Prevention  | :          | Wear protective gloves. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not breathe vapour.   |  |  |
| Response  | :          | Get medical advice/attention if you feel unwell.  |  |  |
| Storage   | :          | Store in a well-ventilated place. Keep container tightly closed.  |  |  |
| Disposal  | :          | Dispose of contents and container in accordance with all local, regional, national and international regulations.<br>P280, P210, P260, P314, P403 + P233, P501  |  |  |
| Hazardous ingredients   | :          | Solvent naphtha (petroleum), light arom. Nota(s) P<br>Hydrocarbons, C9, aromatics > 0.1% cumene<br>crystalline silica, respirable powder (<10 microns)<br>Reaction mass of bis(1,2,2,6,6-pentamethyl-4-piperidyl) sebacate and methyl<br>1,2,2,6,6-pentamethyl-4-piperidyl sebacate |  |  |
| Supplemental label elements   | :          | Not applicable.   |  |  |
| Annex XVII - Restrictions<br>on the manufacture,<br>placing on the market and<br>use of certain dangerous<br>substances, mixtures and<br>articles | :          | Not applicable.   |  |  |
| Special packaging requirem  | <u>ien</u> | <u>ts</u>   |  |  |
| Containers to be fitted<br>with child-resistant<br>fastenings   | :          | Not applicable.   |  |  |
| Tactile warning of danger   | :          | Not applicable.   |  |  |
| 2.3 Other hazards   |            |   |  |  |
| Product meets the criteria<br>for PBT or vPvB   | :          | This mixture does not contain any substances that are assessed to be a PBT or a vPv   |  |  |
| Other hazards which do not result in classification   | :          | Prolonged or repeated contact may dry skin and cause irritation.  |  |  |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

Xylene: Several REACH registrations cover the REACH registered substance with xylene isomers, ethylbenzene (and toluene). The other REACH Registrations include: 01-2119555267-33 reaction mass of ethylbenzene and m-xylene and p-xylene, 01-2119486136-34 Aromatic hydrocarbons, C8, 01-2119539452-40 reaction mass of ethylbenzene and xylene. Type

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

Date of issue/Date of revision

: 21 October 2023

Code

SIGMADUR 550 Y BASE BLACK

: 00427143

# **SECTION 3: Composition/information on ingredients**

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

# **SECTION 4: First aid measures**

### 4.1 Description of first aid measures

| Eye contact                | <ul> <li>Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids<br/>apart for at least 10 minutes and seek immediate medical advice.</li> </ul>   |
|----------------------------|---|
| Inhalation                 | <ul> <li>Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is<br/>irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained<br/>personnel.</li> </ul>  |
| Skin contact               | <ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water<br/>or use recognised skin cleanser. Do NOT use solvents or thinners.</li> </ul>  |
| Ingestion                  | <ul> <li>If swallowed, seek medical advice immediately and show the container or label. Keep<br/>person warm and at rest. Do NOT induce vomiting.</li> </ul>  |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

#### 4.2 Most important symptoms and effects, both acute and delayed Potential acute health effects Eye contact : No known significant effects or critical hazards. Inhalation : Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness. Skin contact : Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction. : Can cause central nervous system (CNS) depression. Ingestion **Over-exposure signs/symptoms Eye contact** : Adverse symptoms may include the following: pain or irritation watering redness Inhalation : Adverse symptoms may include the following: nausea or vomiting headache drowsiness/fatigue dizziness/vertigo unconsciousness Skin contact : Adverse symptoms may include the following: irritation redness dryness cracking Ingestion : No specific data. 4.3 Indication of any immediate medical attention and special treatment needed Notes to physician : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. **Specific treatments** : No specific treatment.

| SIGMADUR 550 Y BASE BLACK |                                |                   |
|---------------------------|--------------------------------|-------------------|
| Code : 00427143           | Date of issue/Date of revision | : 21 October 2023 |
|                           |                                |                   |

# SECTION 5: Firefighting measures

| 5.1 Extinguishing media<br>Suitable extinguishing<br>media | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.   |
|--|--|
| Unsuitable extinguishing media                             | : Do not use water jet.  |
| 5.2 Special hazards arising f                              | rom the substance or mixture   |
| Hazards from the substance or mixture                      | : Flammable liquid and vapour. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. This material is harmful to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain. |
| Hazardous combustion products                              | : Decomposition products may include the following materials:<br>carbon oxides<br>metal oxide/oxides   |
| 5.3 Advice for firefighters                                |  |
| Special precautions for fire-fighters                      | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.   |
| Special protective equipment for fire-fighters             | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.  |

# **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

|                                | ······································   |
|--------------------------------|--|
| For non-emergency<br>personnel | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilt material. Shut off all ignition sources. No<br>flares, smoking or flames in hazard area. Avoid breathing vapour or mist. Provide<br>adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put<br>on appropriate personal protective equipment. |
| For emergency responders       | : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| 6.2 Environmental precautions  | : Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.   |
| 6.3 Methods and material for   | containment and cleaning up  |
| Small spill                    | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |

Code: 00427143Date of issue/Date of revision: 21 October 2023

SIGMADUR 550 Y BASE BLACK

## **SECTION 6: Accidental release measures**

| Large spill                     | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilt product. |
|---------------------------------|--|
| 6.4 Reference to other sections | <ul> <li>See Section 1 for emergency contact information.</li> <li>See Section 8 for information on appropriate personal protective equipment.</li> <li>See Section 13 for additional waste treatment information.</li> </ul>  |

# **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

| Protective measures  | : Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not breathe vapour or mist. Do not ingest. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|--|--|
| Advice on general occupational hygiene                                 | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |
| 7.2 Conditions for safe<br>storage, including any<br>incompatibilities | : Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidising materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.   |

## 7.3 Specific end use(s)

See Section 1.2 for Identified uses.

Code: 00427143Date of issue/Date of revision: 21 October 2023SIGMADUR 550 Y BASE BLACK

# **SECTION 8: Exposure controls/personal protection**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 8.1 Control parameters

**Occupational exposure limits** 

| Product/ingredient name                             |  | Exposure limit values   |
|---|--|---|
| crystalline silica, respirable powder (>10 microns) |  | ACGIH TLV (United States, 1/2022). [Silica, crystalline] Notes:<br>Respirable fraction; see Appendix C, paragraph C.<br>TWA: 0.025 mg/m <sup>3</sup> 8 hours. Form: Respirable fraction   |
| xylene  |  | ACGIH TLV (United States, 1/2022). [p-xylene and mixtures<br>containing p-xylene] Ototoxicant.<br>TWA: 20 ppm 8 hours.  |
| carbon black, respirable pow                        | der  | ACGIH TLV (United States, 1/2022). Notes: Substance identified<br>by other sources as a suspected or confirmed human<br>carcinogen. 1996 Adoption Refers to Appendix A Carcinogens.<br>TWA: 3 mg/m <sup>3</sup> 8 hours. Form: Inhalable fraction   |
| 1,2,4-trimethylbenzene                              |  | ACGIH TLV (United States, 1/2022).<br>TWA: 10 ppm 8 hours.  |
| crystalline silica, respirable p                    | owder (<10 microns)  | ACGIH TLV (United States, 1/2022). [Silica, crystalline] Notes:<br>Respirable fraction; see Appendix C, paragraph C.<br>TWA: 0.025 mg/m <sup>3</sup> 8 hours. Form: Respirable  |
| ethylbenzene  |  | ACGIH TLV (United States, 1/2022). Ototoxicant. Notes:<br>Substances for which there is a Biological Exposure Index or<br>Indices 2002 Adoption.<br>TWA: 20 ppm 8 hours.  |
| Recommended monitoring procedures                   | Standard EN 689<br>by inhalation to c<br>strategy) Europe<br>application and u<br>biological agents<br>requirements for<br>agents) Referen | d be made to monitoring standards, such as the following: European<br>(Workplace atmospheres - Guidance for the assessment of exposure<br>hemical agents for comparison with limit values and measurement<br>ean Standard EN 14042 (Workplace atmospheres - Guide for the<br>use of procedures for the assessment of exposure to chemical and<br>) European Standard EN 482 (Workplace atmospheres - General<br>the performance of procedures for the measurement of chemical<br>ce to national guidance documents for methods for the determination<br>ostances will also be required. |
| 3.2 Exposure controls                               |  |   |
| Appropriate engineering<br>controls                 | other engineering<br>recommended of  | equate ventilation. Use process enclosures, local exhaust ventilation or<br>g controls to keep worker exposure to airborne contaminants below any<br>r statutory limits. The engineering controls also need to keep gas,<br>oncentrations below any lower explosive limits. Use explosion-proof<br>ment.  |
| Individual protection measu                         |  |   |
| Hygiene measures                                    | eating, smoking a<br>Appropriate tech<br>Contaminated wo<br>contaminated clo   | earms and face thoroughly after handling chemical products, before<br>and using the lavatory and at the end of the working period.<br>niques should be used to remove potentially contaminated clothing.<br>ork clothing should not be allowed out of the workplace. Wash<br>othing before reusing. Ensure that eyewash stations and safety<br>se to the workstation location.  |
| Eye/face protection<br>Skin protection              | : Chemical splash  | goggles.  |
| Hand protection                                     | :  |   |
| -   |  |   |

| Code : 00427143           | Date of issue/Date of revision | : 21 October 2023 |
|---------------------------|--------------------------------|-------------------|
| SIGMADUR 550 Y BASE BLACK |                                |                   |

| OIOMADON 350 T DAGE DEAGN            |  |
|--------------------------------------|--|
|                                      | Chemical-resistant, impervious gloves complying with an approved standard should be<br>worn at all times when handling chemical products if a risk assessment indicates this is<br>necessary. Considering the parameters specified by the glove manufacturer, check<br>during use that the gloves are still retaining their protective properties. It should be<br>noted that the time to breakthrough for any glove material may be different for different<br>glove manufacturers. In the case of mixtures, consisting of several substances, the<br>protection time of the gloves cannot be accurately estimated. When prolonged or<br>frequently repeated contact may occur, a glove with a protection class of 6<br>(breakthrough time greater than 480 minutes according to EN 374) is recommended.<br>When only brief contact is expected, a glove with a protection class of 2 or higher<br>(breakthrough time greater than 30 minutes according to EN 374) is recommended.<br>The user must check that the final choice of type of glove selected for handling this<br>product is the most appropriate and takes into account the particular conditions of use,<br>as included in the user's risk assessment. |
| Gloves :                             | For prolonged or repeated handling, use the following type of gloves:  |
|                                      | May be used: nitrile rubber<br>Recommended: natural rubber (latex), polyvinyl alcohol (PVA), Viton®  |
| Body protection :                    | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear anti-static protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves. Refer to European Standard EN 1149 for further information on material and design requirements and test methods.   |
| Other skin protection                | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Respiratory protection :             |  |
| Environmental exposure :<br>controls | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process equipment<br>will be necessary to reduce emissions to acceptable levels.  |

# **SECTION 9: Physical and chemical properties**

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

### 9.1 Information on basic physical and chemical properties

# **SECTION 11: Toxicological information**

| General               | : May cause damage to organs through prolonged or repeated exposure. Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels. |
|-----------------------|---|
| Carcinogenicity       | : No known significant effects or critical hazards.   |
| Mutagenicity          | : No known significant effects or critical hazards.   |
| Reproductive toxicity | : No known significant effects or critical hazards.   |
| Other information     | : Not available.  |

Prolonged or repeated contact may dry skin and cause irritation. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapour/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing.

**SECTION 12: Ecological information** 

| 12.4 Mobility in soil                  |                  |
|--|------------------|
| Soil/water partition coefficient (Koc) | : Not available. |
| Mobility                               | : Not available. |

### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

### 12.6 Endocrine disrupting properties

Not available.

### 12.7 Other adverse effects

No known significant effects or critical hazards.

# SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

### 13.1 Waste treatment methods

| <u>Product</u>      |   |
|---------------------|---|
| Methods of disposal | : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. |
| Hazardous waste     | : Yes.  |
|                     |   |

#### European waste catalogue (EWC)

| Waste code | Waste designation   |
|------------|---|
| 08 01 11*  | waste paint and varnish containing organic solvents or other hazardous substances |
| Packaging  |   |

# Methods of disposal

: The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

| Type of packaging   | European waste catalogue (EWC)   |  |
|---------------------|--|--|
| Container           | 15 01 06 mixed packaging   |  |
| Special precautions | : This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. |  |

Empty containers or liners may retain some product residues. Vapour from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

# **SECTION 15: Regulatory information**

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture <u>EU Regulation (EC) No. 1907/2006 (REACH)</u>

Annex XIV - List of substances subject to authorisation

Annex XIV

None of the components are listed.

Substances of very high concern

None of the components are listed.

Annex XVII - Restrictions : Not applicable. on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

Other national and international regulations.

#### Ozone depleting substances (1005/2009/EU)

Not listed.

15.2 Chemical safety

: No Chemical Safety Assessment has been carried out.
