# **SAFETY DATA SHEET**

: 3.04

**United Arab** 

Date of issue/Date of revision

: 25 October 2023

Version

| 1.1 Product identifier   |   |
|--|---|
| Product name   | : PPG AQUACOVER 40 BASE L   |
| Product code   | : 00199310  |
| Other means of identificat<br>Not available.   | ion   |
| 1.2 Relevant identified uses   | of the substance or mixture and uses advised against              |
| Product use  | : Professional applications, Used by spraying.                    |
| Use of the substance/<br>mixture   | : Coating.  |
| Uses advised against   | : Product is not intended, labelled or packaged for consumer use. |
| 1.3 Details of the supplier o  | f the safety data sheet   |
| Sigma Paint Saudi Arabia Lt<br>PO Box 7509<br>Dammam 31472<br>Saudi Arabia<br>Tel: 00966 138 47 31 00<br>Fax: 00966 138 47 17 34 | d.  |

| 1.4 Emergency telephone number   | : 00966 138473100 extn 1001                                       |

# **SECTION 2: Hazards identification**

| 2.1 Classification of the substance or mixture   |
|--|
| Product definition : Mixture<br>Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]  |
| Skin Sens. 1, H317<br>Aquatic Chronic 2, H411  |
| The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.  |
| See Section 16 for the full text of the H statements declared above.<br>See Section 11 for more detailed information on health effects and symptoms. |
| 2.2 Label elements<br>Hazard pictograms :  |

Signal word

: Warning

| Code : 00199310   | Date of issue/Date of revision : 25 October 2023   |
|---|--|
| PPG AQUACOVER 40 BASE I   |  |
| SECTION 2: Hazards  | identification   |
| Hazard statements   | : May cause an allergic skin reaction.<br>Toxic to aquatic life with long lasting effects.   |
| Precautionary statements  |  |
| Prevention  | : Wear protective gloves. Avoid release to the environment. Avoid breathing vapour.  |
| Response  | : Collect spillage. Take off contaminated clothing and wash it before reuse.   |
| Storage   | : Not applicable.  |
| Disposal  | <ul> <li>Dispose of contents and container in accordance with all local, regional, national and<br/>international regulations.</li> <li>P280, P273, P261, P391, P362 + P364, P501</li> </ul> |
| Hazardous ingredients   | : reaction mass of 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-<br>3-one (3:1)  |
| Supplemental label elements   | : Warning! Hazardous respirable droplets may be formed when sprayed. Do not breathe spray or mist.   |
| Annex XVII - Restrictions<br>on the manufacture,<br>placing on the market and<br>use of certain dangerous<br>substances, mixtures and<br>articles | : Not applicable.  |
| Special packaging requirem  | ents   |
| Containers to be fitted<br>with child-resistant<br>fastenings   | : Not applicable.  |
| Tactile warning of danger   | : Not applicable.  |
| 2.3 Other hazards   |  |
| Product meets the criteria<br>for PBT or vPvB   | : This mixture does not contain any substances that are assessed to be a PBT or a vPvI   |
| Other hazards which do not result in classification   | : None known.  |

# **SECTION 3: Composition/information on ingredients**

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

Туре

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

This mixture contains  $\geq$  1% of titanium dioxide. The Annex VI classification of titanium dioxide does not apply to this mixture according to Note 10.

Occupational exposure limits, if available, are listed in Section 8.

#### SUB codes represent substances without registered CAS Numbers.

### **SECTION 4: First aid measures**

### 4.1 Description of first aid measures

| Eye contact                 | <ul> <li>Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids<br/>apart for at least 10 minutes and seek immediate medical advice.</li> </ul>   |
|-----------------------------|---|
| Inhalation                  | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is<br>irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained<br>personnel.  |
| Skin contact                | <ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water<br/>or use recognised skin cleanser. Do NOT use solvents or thinners.</li> </ul>  |
| Ingestion                   | <ul> <li>If swallowed, seek medical advice immediately and show the container or label. Keep person warm and at rest. Do NOT induce vomiting.</li> </ul>  |
| Protection of first-aiders  | : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |
| 4.2 Most important sympton  | ns and effects, both acute and delayed  |
| Potential acute health effe | <u>cts</u>  |
| Eye contact                 | : No known significant effects or critical hazards.   |
|                             |   |

| Inhalation | : No known significant effects or critical hazards. |
|------------|---|
|------------|---|

| Code : 00199310         | Date of issue/Date of revision | : 25 October 2023 |
|-------------------------|--------------------------------|-------------------|
| PPG AQUACOVER 40 BASE L |                                |                   |

# SECTION 4: First aid measures

| Skin contact         | : May cause an allergic skin reaction.                                 |
|----------------------|--|
| Ingestion            | : No known significant effects or critical hazards.                    |
| Over-exposure signs/ | /symptoms  |
| Eye contact          | : No specific data.  |
| Inhalation           | : No specific data.  |
| Skin contact         | : Adverse symptoms may include the following:<br>irritation<br>redness |
| Ingestion            | : No specific data.  |
|                      |  |

#### 4.3 Indication of any immediate medical attention and special treatment needed

| Notes to physician  | : Treat symptomatically. Contact poison treatment specialist immediately if large |
|---------------------|---|
|                     | quantities have been ingested or inhaled.   |
| Specific treatments | : No specific treatment.  |

# **SECTION 5: Firefighting measures**

| 5.1 Extinguishing media                           |   |
|---|---|
| Suitable extinguishing media                      | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                    | : None known.   |
| 5.2 Special hazards arising fr                    | rom the substance or mixture  |
| Hazards from the substance or mixture             | : In a fire or if heated, a pressure increase will occur and the container may burst. This material is toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.   |
| Hazardous combustion products                     | : Decomposition products may include the following materials:<br>carbon oxides<br>phosphorus oxides<br>metal oxide/oxides   |
| 5.3 Advice for firefighters                       |   |
| Special precautions for<br>fire-fighters          | <ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if<br/>there is a fire. No action shall be taken involving any personal risk or without suitable<br/>training.</li> </ul>   |
| Special protective<br>equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents. |

# SECTION 6: Accidental release measures

| 6.1 Personal precautions, pro  | tective equipment and emergency procedures  |
|--------------------------------|---|
| For non-emergency<br>personnel | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilt material. Avoid breathing vapour or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment. |
| For emergency responders       | : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |

Code: 00199310Date of issue/Date of revision: 25 October 2023PPG AQUACOVER 40 BASE L

**SECTION 6: Accidental release measures** 

| 6.2 Environmental precautions   | :  | Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Collect spillage.  |
|---------------------------------|----|---|
| 6.3 Methods and material for    | co | ntainment and cleaning up   |
| Small spill                     | :  | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |
| Large spill                     | :  | Stop leak if without risk. Move containers from spill area. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spill product. |
| 6.4 Reference to other sections | :  | See Section 1 for emergency contact information.<br>See Section 8 for information on appropriate personal protective equipment.<br>See Section 13 for additional waste treatment information.   |

## **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

| Protective measures  | : Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapour or mist. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.  |
|--|---|
| Advice on general<br>occupational hygiene                              | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |
| 7.2 Conditions for safe<br>storage, including any<br>incompatibilities | : Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

#### 7.3 Specific end use(s)

See Section 1.2 for Identified uses.

| PPG AQUACOVER 40 BASE     | L  |  |  |  |
| <b>SECTION 9: Physica</b> | al and chemical properties   |  |  |  |
| Vapour density            | : Highest known value: 7.5 (Air = 1) (isobutyric acid, monoester with 2,2,4-trimethylpentane-1,3-diol). Weighted average: 5.98 (Air = 1) |  |  |  |
| Explosive properties      | : The product itself is not explosive, but the formation of an explosible mixture of vapour or dust with air is possible.                |  |  |  |
| Oxidising properties      | : Product does not present an oxidizing hazard.  |  |  |  |
| Particle characteristics  |  |  |  |  |
| Median particle size      | : Not applicable.  |  |  |  |

#### 9.2 Other information

No additional information.

| SECTION 10: Stability and reactivity       |   |   |  |  |
|--|---|---|--|--|
| 10.1 Reactivity                            | : | No specific test data related to reactivity available for this product or its ingredients.  |  |  |
| 10.2 Chemical stability                    | : | The product is stable.  |  |  |
| 10.3 Possibility of<br>hazardous reactions | : | Under normal conditions of storage and use, hazardous reactions will not occur.   |  |  |
| 10.4 Conditions to avoid                   | : | When exposed to high temperatures may produce hazardous decomposition products.<br>Refer to protective measures listed in sections 7 and 8. |  |  |
| 10.5 Incompatible materials                | : | Keep away from the following materials to prevent strong exothermic reactions: oxidising agents, strong alkalis, strong acids.              |  |  |
| 10.6 Hazardous<br>decomposition products   | : | Depending on conditions, decomposition products may include the following materials: carbon oxides phosphorus oxides metal oxide/oxides     |  |  |

### **SECTION 11: Toxicological information**

| Potential immediate effects   | : Not available.  |
|-------------------------------|---|
| Potential delayed effects     | : Not available.  |
| Potential chronic health effe | ects  |
| Not available.                |   |
| Conclusion/Summary            | : Not available.  |
| General                       | : Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels. |
| Carcinogenicity               | : No known significant effects or critical hazards.   |
| Mutagenicity                  | : No known significant effects or critical hazards.   |
| Reproductive toxicity         | : No known significant effects or critical hazards.   |
| Other information             | : Not available.  |

Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapour/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Contains isothiazolinones. May cause allergic reaction.

#### 11.2 Information on other hazards

#### **11.2.1 Endocrine disrupting properties**

#### Not available.

#### **11.2.2 Other information**

Not available.

## **SECTION 12: Ecological information**

#### 12.1 Toxicity

| Product/ingredient name     | Result                  | Species           | Exposure |
|-----------------------------|-------------------------|-------------------|----------|
| zinc oxide                  | Acute EC50 0.17 mg/l    | Algae             | 72 hours |
|                             | Acute EC50 0.481 mg/l   | Daphnia - Daphnia | 48 hours |
|                             | Fresh water             | magna - Neonate   |          |
|                             | Chronic NOEC 0.017 mg/l | Algae             | 72 hours |
|                             | Fresh water             | 0                 |          |
| 2-butoxyethanol             | Acute LC50 1474 mg/l    | Fish              | 96 hours |
| ,                           | Chronic NOEC >100 mg/l  | Fish              | 21 days  |
| trizinc bis(orthophosphate) | Acute LC50 0.112 mg/l   | Fish              | 96 hours |
|                             | Chronic NOEC 0.026 mg/l | Fish              | 30 days  |

**Conclusion/Summary** : There are no data available on the mixture itself.

#### 12.2 Persistence and degradability

**Conclusion/Summary** : There are no data available on the mixture itself.

| Product/ingredient name | Aquatic half-life | Photolysis | Biodegradability |
|-------------------------|-------------------|------------|------------------|
| 2-butoxyethanol         | -                 | -          | Readily          |

#### 12.3 Bioaccumulative potential

| Product/ingredient name | LogPow | BCF | Potential |
|-------------------------|--------|-----|-----------|
| 2-butoxyethanol         | 0.81   | -   | Low       |

#### **12.4 Mobility in soil**

| Code      | : 00199310     | Date of issue/Date of revision | : 25 October 2023 |
|-----------|----------------|--------------------------------|-------------------|
| PPG AQUAC | OVER 40 BASE L |                                |                   |

### **SECTION 12: Ecological information**

Soil/water partition: Not available.coefficient (Koc)

Mobility

: Not available.

#### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

#### **12.6 Endocrine disrupting properties**

Not available.

#### **12.7 Other adverse effects**

No known significant effects or critical hazards.

### **SECTION 13: Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 13.1 Waste treatment methods

| J. I Waste treatment meth |   |  |
|---------------------------|---|--|
| Product                   |   |  |
| Methods of disposal       | : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. |  |
| Hazardous waste           | : Yes.  |  |
| European waste catalog    | ue (EWC)  |  |
| Waste code                | Waste designation   |  |
| 08 01 11*                 | waste paint and varnish containing organic solvents or other hazardous substances   |  |
| Packaging                 |   |  |
| Methods of disposal       | <ul> <li>The generation of waste should be avoided or minimised wherever possible. Waste<br/>packaging should be recycled. Incineration or landfill should only be considered when<br/>recycling is not feasible.</li> </ul>  |  |
| Type of packaging         | European waste catalogue (EWC)  |  |
| Container                 | 15 01 06 mixed packaging  |  |
| Special precautions       | : This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.   |  |
|                           |   |  |
