# **SAFETY DATA SHEET**

#### Conforms to Official Mexican Standard NOM-018-STPS-2015

Date of revision 15 December 2023

Version 10

Date of issue 15 December 2023

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

|   | _   |
|---|---|
| Product name                                | : PPG VIKOTE 56 BUFF 3142   |
| Product code                                | : 00154015  |
| Other means of<br>identification            | : Not applicable.   |
| Product type                                | : Liquid.   |
| Relevant identified uses of                 | the substance or mixture and uses advised against   |
| Product use                                 | : Professional applications, Used by spraying.  |
| Use of the substance/<br>mixture            | : Coating.  |
| Uses advised against                        | Not applicable.   |
| Manufacturer                                | : PPG Industries, Inc.<br>One PPG Place<br>Pittsburgh, PA 15272   |
| <u>Emergency telephone</u><br><u>number</u> | : (412) 434-4515 (U.S.)<br>(514) 645-1320 (Canada)<br>SETIQ Interior de la República: 800-00-214-00 (México)<br>SETIQ Ciudad de México: (55) 5559-1588 (México) |
| Technical Phone Number                      | : 888-977-4762  |

# **SECTION 2: Hazards identification**

| SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Narcotic effects)<br>Category 3<br>SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 2<br>Percentage of the mixture consisting of ingredient(s) of unknown acute toxicity: | :<br>- |
|--|--------|
| 24.7% (oral), 43.1% (dermal), 56.3% (inhalation)   |        |

#### **GHS label elements**

#### +ification CTION 2. Hazard -

| SECTION 2: Ha     | izaras | Identi | ficatio |
|-------------------|--------|--------|---------|
| Hazard pictograms | :      |        |         |

|   | $\bullet$ $\bullet$ $\bullet$   |
|---|---|
| Signal word   | : Danger  |
| Hazard statements                                   | <ul> <li>H226 - Flammable liquid and vapor.<br/>H313 - May be harmful in contact with skin.<br/>H315 - Causes skin irritation.<br/>H319 - Causes serious eye irritation.<br/>H332 - Harmful if inhaled.<br/>H335 - May cause respiratory irritation.<br/>H336 - May cause drowsiness or dizziness.<br/>H350 - May cause cancer.<br/>H373 - May cause damage to organs through prolonged or repeated exposure.<br/>(hearing organs)</li> </ul>   |
| Precautionary statements                            |   |
| Prevention  | <ul> <li>P201 - Obtain special instructions before use.</li> <li>P202 - Do not handle until all safety precautions have been read and understood.</li> <li>P280 - Wear protective gloves, protective clothing and eye or face protection.</li> <li>P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.</li> <li>P271 - Use only outdoors or in a well-ventilated area.</li> <li>P260 - Do not breathe vapor.</li> <li>P264 - Wash thoroughly after handling.</li> </ul>   |
| Response  | <ul> <li>P308 + P313 - IF exposed or concerned: Get medical advice or attention.</li> <li>P304 + P340, P312 - IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor if you feel unwell.</li> <li>P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water.</li> <li>P302 + P312, P352 - IF ON SKIN: Call a POISON CENTER or doctor if you feel unwell.</li> <li>Wash with plenty of water.</li> <li>P332 + P313 - If skin irritation occurs: Get medical advice or attention.</li> <li>P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</li> <li>P337 + P313 - If eye irritation persists: Get medical advice or attention.</li> </ul> |
| Storage   | <ul> <li>P405 - Store locked up.</li> <li>P403 + P233 - Store in a well-ventilated place. Keep container tightly closed.</li> </ul>   |
| Disposal  | : P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.  |
| Other hazards which do not result in classification | : Sanding and grinding dusts may be harmful if inhaled. Prolonged or repeated contact may dry skin and cause irritation. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Emits toxic fumes when heated.   |

See toxicological information (Section 11)

# **SECTION 3: Composition/information on ingredients**

| Substance/mixture |  |  |
|-------------------|--|--|
| Product name      |  |  |
| Other means of    |  |  |

- : Mixture : PPG VIKOTE 56 BUFF 3142
- : Not applicable.

| iden | tifica | ation |
|------|--------|-------|
| luen | unce   |       |

| Ingredient name                             | %           | CAS number |
|---|-------------|------------|
| Solvent naphtha (petroleum), light aromatic | ≥20 - ≤44   | 64742-95-6 |
| xylene                                      | ≥10 - ≤15   | 1330-20-7  |
| 1,2,4-trimethylbenzene                      | ≥5.0 - ≤10  | 95-63-6    |
| titanium dioxide                            | ≥5.0 - ≤10  | 13463-67-7 |
| ethylbenzene                                | ≥1.0 - ≤3.5 | 100-41-4   |
| mesitylene                                  | ≥1.0 - ≤3.7 | 108-67-8   |
| propylbenzene                               | ≥1.0 - ≤5.0 | 103-65-1   |
| 1,2,3-trimethylbenzene                      | ≥1.0 - ≤5.0 | 526-73-8   |
| cumene                                      | <1.0        | 98-82-8    |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

# **SECTION 4: First aid measures**

#### Description of necessary first aid measures

| Eye contact  | <ul> <li>Remove contact lenses, irrigate copiously with clean, fresh water, holding the<br/>eyelids apart for at least 10 minutes and seek immediate medical advice.</li> </ul>                  |
|--------------|--|
| Inhalation   | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |
| Skin contact | : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.   |
| Ingestion    | : If swallowed, seek medical advice immediately and show this container or label.<br>Keep person warm and at rest. Do NOT induce vomiting.   |

#### Most important symptoms/effects, acute and delayed

| Potential acute health eff | <u>ects</u>   |
|----------------------------|---|
| Eye contact                | : Causes serious eye irritation.  |
| Inhalation                 | : Harmful if inhaled. Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness. May cause respiratory irritation. |
| Skin contact               | : May be harmful in contact with skin. Causes skin irritation. Defatting to the skin.   |
| Ingestion                  | : Can cause central nervous system (CNS) depression.  |
| Over-exposure signs/syn    | notoms  |

Over-exposure signs/symptoms

See toxicological information (Section 11)

#### Indication of immediate medical attention and special treatment needed, if necessary

| Notes to physician  | : In case of inhalation of decomposition products in a fire, symptoms may be delayed.                     |
|---------------------|---|
| Specific treatments | The exposed person may need to be kept under medical surveillance for 48 hours.<br>No specific treatment. |

Product name PPG VIKOTE 56 BUFF 3142

# **SECTION 4: First aid measures**

| <ul> <li>Protection of first-aiders</li> <li>No action shall be taken involving any personal risk or without suitable training. If is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.</li> </ul> | Protection of first-aiders |
|--|----------------------------|
|--|----------------------------|

# **SECTION 5: Firefighting measures**

| Extinguishing media                            |  |
|--|--|
| Suitable extinguishing media                   | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.   |
| Unsuitable extinguishing media                 | : Do not use water jet.  |
| Specific hazards arising from the chemical     | : Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard.<br>In a fire or if heated, a pressure increase will occur and the container may burst, with<br>the risk of a subsequent explosion.  |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon oxides<br>halogenated compounds<br>carbonyl halides<br>metal oxide/oxides  |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.  |

# **SECTION 6: Accidental release measures**

| Personal precautions, protect  | tiv  | e equipment and emergency procedures  |
|--------------------------------|------|---|
| For non-emergency<br>personnel | :    | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Shut off all ignition sources.<br>No flares, smoking or flames in hazard area. Avoid breathing vapor or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment. |
| For emergency responders       | :    | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| Environmental precautions      | :    | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).   |
| Methods and materials for con  | onta | ainment and cleaning up   |
| Small spill                    | :    | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.  |
|                                |      | Mexico Page: 4/14   |

### **SECTION 6: Accidental release measures**

Large spill : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with noncombustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

# **SECTION 7: Handling and storage**

#### Precautions for safe handling

| Protective measures  | Put on appropriate personal protective equipment (see Section 8). Avo<br>bbain special instructions before use. Do not handle until all safety pre-<br>ave been read and understood. Do not get in eyes or on skin or clothi-<br>reathe vapor or mist. Do not ingest. Use only with adequate ventilation<br>ppropriate respirator when ventilation is inadequate. Do not enter stor<br>and confined spaces unless adequately ventilated. Keep in the original<br>in approved alternative made from a compatible material, kept tightly c<br>ot in use. Store and use away from heat, sparks, open flame or any o<br>ource. Use explosion-proof electrical (ventilating, lighting and materia<br>equipment. Use only non-sparking tools. Take precautionary measure<br>electrostatic discharges. Empty containers retain product residue and o<br>azardous. Do not reuse container. | ecautions<br>ing. Do not<br>on. Wear<br>rage areas<br>container or<br>losed when<br>ther ignition<br>I handling)<br>s against |
|--|--|---|
| Special precautions  | apors may accumulate in low or confined areas or travel a considerab<br>source of ignition and flash back. Vapors are heavier than air and ma<br>long floors. If this material is part of a multiple component system, rea<br>Data Sheet(s) for the other component or components before blending<br>esulting mixture may have the hazards of all of its parts.  | ay spread<br>ad the Safety  |
| Advice on general<br>occupational hygiene                          | ating, drinking and smoking should be prohibited in areas where this r<br>andled, stored and processed. Workers should wash hands and face<br>ating, drinking and smoking. Remove contaminated clothing and prote<br>quipment before entering eating areas. See also Section 8 for addition<br>formation on hygiene measures.  | before<br>ective  |
| Conditions for safe storage,<br>including any<br>incompatibilities | Store between the following temperatures: 0 to 35°C (32 to 95°F). Store<br>accordance with local regulations. Store in a segregated and approved<br>a original container protected from direct sunlight in a dry, cool and well<br>rea, away from incompatible materials (see Section 10) and food and<br>bocked up. Eliminate all ignition sources. Separate from oxidizing mater<br>ontainer tightly closed and sealed until ready for use. Containers that<br>pened must be carefully resealed and kept upright to prevent leakage.<br>tore in unlabeled containers. Use appropriate containment to avoid er<br>ontamination.   | l area. Store<br>Il-ventilated<br>drink. Store<br>erials. Keep<br>have been<br>. Do not                                       |

## **SECTION 8: Exposure controls/personal protection**

Control parameters

**Occupational exposure limits** 

# **SECTION 8: Exposure controls/personal protection**

| Ingredient name                                    | Exposure limits   |
|--|---|
| Solvent naphtha (petroleum), light aromatic xylene | None.<br>NOM-010-STPS-2014 (Mexico, 4/2016).<br>[Xylenes (mixed)]                         |
| 1,2,4-trimethylbenzene                             | STEL: 150 ppm 15 minutes.<br>TWA: 100 ppm 8 hours.<br>NOM-010-STPS-2014 (Mexico, 4/2016). |
| · , - , · · · · · · · · · · · · · · · ·            | [Trimethyl benzene, mixed isomers]<br>TWA: 25 ppm 8 hours.                                |
| titanium dioxide                                   | NOM-010-STPS-2014 (Mexico, 4/2016).<br>TWA: 10 mg/m <sup>3</sup> 8 hours.                 |
| ethylbenzene                                       | NOM-010-STPS-2014 (Mexico, 4/2016).<br>TWA: 20 ppm 8 hours.                               |
| mesitylene   | NOM-010-STPS-2014 (Mexico, 4/2016).<br>[Trimethyl benzene, mixed isomers]                 |
| propulhanzana                                      | TWA: 25 ppm 8 hours.<br>None.   |
| propylbenzene<br>1,2,3-trimethylbenzene            | NOM-010-STPS-2014 (Mexico, 4/2016).   |

| cumene   | <b>NOM-010-STPS-2014 (Mexico, 4/2016).</b><br>TWA: 50 ppm 8 hours.                        |

#### Key to abbreviations

| С    | = Ceiling Limit   | STEL | = Short term exposure limit               |
|------|---|------|---|
| IPEL | <ul> <li>Internal Permissible Exposure Limit</li> </ul> | TLV  | = Threshold Limit Value                   |
|      |   | TWA  | <ul> <li>Time Weighted Average</li> </ul> |

#### Consult local authorities for acceptable exposure limits.

| Recommended monitoring procedures   | : Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.   |
|-------------------------------------|---|
| Appropriate engineering<br>controls | : Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.         |
| Environmental exposure controls     | : Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels.   |
| Individual protection measure       | S   |
| Hygiene measures                    | Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
| Eye/face protection                 | : Chemical splash goggles.  |
| Skin protection                     |   |

# **SECTION 8: Exposure controls/personal protection**

| Hand protection        | : Chemical-resistant, impervious gloves complying with an approved standard should<br>be worn at all times when handling chemical products if a risk assessment indicates<br>this is necessary. Considering the parameters specified by the glove manufacturer,<br>check during use that the gloves are still retaining their protective properties. It<br>should be noted that the time to breakthrough for any glove material may be<br>different for different glove manufacturers. In the case of mixtures, consisting of<br>several substances, the protection time of the gloves cannot be accurately<br>estimated. |
|------------------------|---|
| Gloves                 | : For prolonged or repeated handling, use the following type of gloves:   |
|                        | May be used: nitrile rubber<br>Recommended: polyvinyl alcohol (PVA), Viton®   |
| Body protection        | : Personal protective equipment for the body should be selected based on the task<br>being performed and the risks involved and should be approved by a specialist<br>before handling this product. When there is a risk of ignition from static electricity,<br>wear anti-static protective clothing. For the greatest protection from static<br>discharges, clothing should include anti-static overalls, boots and gloves.   |
| Other skin protection  | <ul> <li>Appropriate footwear and any additional skin protection measures should be<br/>selected based on the task being performed and the risks involved and should be<br/>approved by a specialist before handling this product.</li> </ul>   |
| Respiratory protection | : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.  |

# **SECTION 9: Physical and chemical properties**

| <u>Appearance</u>         |           |                      |

# SECTION 10: Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.   |
|------------------------------------|--|
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.  |
| Conditions to avoid                | : When exposed to high temperatures may produce hazardous decomposition products.<br>Refer to protective measures listed in sections 7 and 8.                  |
| Incompatible materials             | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.                               |
| Hazardous decomposition products   | : Depending on conditions, decomposition products may include the following materials: carbon oxides halogenated compounds carbonyl halides metal oxide/oxides |

| propylbenzene                               | ASPIRATION HAZARD - Category 1 |
| cumene                                      | ASPIRATION HAZARD - Category 1 |

#### Information on the likely routes of exposure

| Potential acute health effects |    |   |
|--------------------------------|----|---|
| Eye contact                    | 1  | Causes serious eye irritation.  |
| Inhalation                     | :  | Harmful if inhaled. Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness. May cause respiratory irritation.   |
| Skin contact                   | 1  | May be harmful in contact with skin. Causes skin irritation. Defatting to the skin.   |
| Ingestion                      | 1  | Can cause central nervous system (CNS) depression.  |
| Over-exposure signs/sympto     | m  | <u>5</u>  |
| Eye contact                    | :  | Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness  |
| Inhalation                     | :  | Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing<br>nausea or vomiting<br>headache<br>drowsiness/fatigue<br>dizziness/vertigo<br>unconsciousness |
| Skin contact                   | :  | Adverse symptoms may include the following:<br>irritation<br>redness<br>dryness<br>cracking   |
| Ingestion                      | :  | No specific data.   |
| Delayed and immediate effec    | ts | and also chronic effects from short and long term exposure  |

#### Product name PPG VIKOTE 56 BUFF 3142

# **SECTION 11: Toxicological information**

| Conclusion/Summary             | :   | There are no data available on the mixture itself. For many products, TiO2 is utilized as a raw material in a liquid coating formulation. In this case, the TiO2 particles are bound in a matrix with no meaningful potential for human exposure to unbound particles of TiO2 when the product is applied with a brush or roller. Sanding the coating surface or mist from spray applications may be harmful depending on the duration and level of exposure and require the use of appropriate personal protective equipment and/or engineering controls (see Section 8). Exposure to component solvent vapor concentrations in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of consciousness. Solvents may cause some of the above effects by absorption through the skin. There is some evidence that repeated exposure to organic solvent vapors in combination with constant loud noise can cause greater hearing loss than expected from exposure to noise alone. If splashed in the eyes, the liquid may cause irritation and reversible damage. Ingestion may cause nausea, diarrhea and vomiting. This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact. |
|--------------------------------|-----|---|
| <u>Short term exposure</u>     |     | -   |
| Potential immediate effects    | :   | There are no data available on the mixture itself.  |
| Potential delayed effects      | :   | There are no data available on the mixture itself.  |
| Long term exposure             |     |   |
| Potential immediate<br>effects | :   | There are no data available on the mixture itself.  |
| Potential delayed effects      | 1   | There are no data available on the mixture itself.  |
| Potential chronic health effe  | cts |   |
| General                        | :   | May cause damage to organs through prolonged or repeated exposure. Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis.   |
| Carcinogenicity                | :   | May cause cancer. Risk of cancer depends on duration and level of exposure.   |
| Mutagenicity                   | :   | No known significant effects or critical hazards.   |
| Reproductive toxicity          | :   | No known significant effects or critical hazards.   |

#### **Bioaccumulative potential**

| Product/ingredient name | LogPow | BCF         | Potential |
|-------------------------|--------|-------------|-----------|
| <b>x</b> ylene          | 3.12   | 7.4 to 18.5 | Low       |
| 1,2,4-trimethylbenzene  | 3.63   | 120.23      | Low       |
| ethylbenzene            | 3.6    | 79.43       | Low       |
| mesitylene              | 3.42   | 186.21      | Low       |
| propylbenzene           | 3.69   | -           | Low       |
| 1,2,3-trimethylbenzene  | 3.66   | 194.98      | Low       |
| cumene                  | 3.55   | 35.48       | Low       |

#### Mobility in soil

Soil/water partition coefficient (Koc)

: Not available.

Other adverse effects

: No known significant effects or critical hazards.

## **SECTION 13: Disposal considerations**

| Disposal methods            | : The generation of waste should be avoided or minimized wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation<br>and any regional local authority requirements. Dispose of surplus and non-<br>recyclable products via a licensed waste disposal contractor. Waste should not be<br>disposed of untreated to the sewer unless fully compliant with the requirements of<br>all authorities with jurisdiction. Waste packaging should be recycled. Incineration or<br>landfill should only be considered when recycling is not feasible. This material and<br>its container must be disposed of in a safe way. Care should be taken when<br>handling emptied containers that have not been cleaned or rinsed out. Empty<br>containers or liners may retain some product residues. Vapor from product residues<br>may create a highly flammable or explosive atmosphere inside the container. Do<br>not cut, weld or grind used containers unless they have been cleaned thoroughly<br>internally. Avoid dispersal of spilled material and runoff and contact with soil,<br>waterways, drains and sewers. |
|-----------------------------|--|
| Dispessed should be in easy | ardenes with applicable regional national and local lows and regulations   |

Disposal should be in accordance with applicable regional, national and local laws and regulations.

#### Product name PPG VIKOTE 56 BUFF 3142

## **SECTION 13: Disposal considerations**

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures

# **SECTION 14: Transport information**

| RQ substances                     | Not applicable.  | Not applicable.                              | Not applicable.  |

#### Additional information

**Mexico** 

IMDG

: None identified.

- : The marine pollutant mark is not required when transported in sizes of  $\leq 5$  L or  $\leq 5$  kg.
- **IATA** : The environmentally hazardous substance mark may appear if required by other transportation regulations.

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments
