# **SAFETY DATA SHEET**

Date of issue 20 December 2023

Version 6.02

### Section 1. Product and company identification

| Product name                  |
|-------------------------------|
| Product code                  |
| Other means of identification |
| Product type                  |

- : ABC#3 BLACK 283S5773 AF-NAVY
- : 00333511
- : Not available.
- : Liquid.

#### Relevant identified uses of the substance or mixture and uses advised against

#### **Identified uses**

Coating. Paints. Painting-related materials.

| Uses advised against | Reason |  |
|----------------------|--------|--|
| Not applicable.      |        |  |

| Supplier's details:        |   |
|----------------------------|---|
| Supplier                   | <ul> <li>PPG Industries Colombia Ltda<br/>Calle 51 # 40-13<br/>Municipio de Itagüí<br/>Antioquia, Colombia<br/>(57) (4) 3787400 (Porteria)</li> </ul> |
| Email address:             | : HazComLatam@ppg.com   |
| Emergency telephone number | :<br>Colombia: 01 8000 916012 (CISPROQUIM)<br>+ 571 288 6012 (CISPROQUIM)<br>Ecuador: 1800-59-3005 (CISPROQUIM)<br>Peru: 080-050-847 (CISPROQUIM)     |

### Section 2. Hazards identification

| ACUTE TOXICITY (dermal) - Category 5<br>ACUTE TOXICITY (inhalation) - Category 4<br>SKIN IRRITATION - Category 2<br>SERIOUS EYE DAMAGE - Category 1<br>SKIN SENSITIZATION - Category 1<br>CARCINOGENICITY - Category 2<br>AQUATIC HAZARD (ACUTE) - Category 1 | Classification of the substance or mixture | ACUTE TOXICITY (inhalation) - Category 4<br>SKIN IRRITATION - Category 2<br>SERIOUS EYE DAMAGE - Category 1<br>SKIN SENSITIZATION - Category 1<br>CARCINOGENICITY - Category 2 |
|---|--|--|
|---|--|--|

| Section 2. Hazards                                  | s identification   |
|---|--|
| Target organs                                       | : Contains material which causes damage to the following organs: brain.<br>Contains material which may cause damage to the following organs: blood, kidneys,<br>lungs, the nervous system, liver, digestive system, gastrointestinal tract, upper<br>respiratory tract, skin, central nervous system (CNS), ears, eye, lens or cornea.   |
|   | Percentage of the mixture consisting of ingredient(s) of unknown acute oral toxicity: 3.9%   |
|   | Percentage of the mixture consisting of ingredient(s) of unknown acute dermal toxicity: 11.2%  |
|   | Percentage of the mixture consisting of ingredient(s) of unknown acute inhalation toxicity: 15.9%  |
|   | Percentage of the mixture consisting of ingredient(s) of unknown hazards to the aquatic environment: 2.9%  |
| GHS label elements                                  |  |
| Hazard pictograms                                   |  |
| Signal word   | : Danger   |
| Hazard statements                                   | <ul> <li>Flammable liquid and vapor.<br/>Harmful if swallowed or if inhaled.<br/>May be harmful in contact with skin.<br/>Causes skin irritation.<br/>May cause an allergic skin reaction.<br/>Causes serious eye damage.<br/>Suspected of causing cancer.<br/>Very toxic to aquatic life with long lasting effects.</li> </ul>  |
| Precautionary statements                            |  |
| Prevention  | : Obtain special instructions before use. Wear protective gloves, protective clothing<br>and eye or face protection. Keep away from heat, hot surfaces, sparks, open<br>flames and other ignition sources. No smoking. Use explosion-proof electrical,<br>ventilating or lighting equipment. Use non-sparking tools. Take action to prevent<br>static discharges. Avoid release to the environment. Avoid breathing vapor. Do not<br>eat, drink or smoke when using this product. Wash thoroughly after handling.  |
| Response  | : Collect spillage. IF exposed or concerned: Get medical advice or attention. IF<br>INHALED: Call a POISON CENTER or doctor if you feel unwell. Take off<br>contaminated clothing and wash it before reuse. IF ON SKIN: Call a POISON<br>CENTER or doctor if you feel unwell. Wash with plenty of water. If skin irritation or<br>rash occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with<br>water for several minutes. Remove contact lenses, if present and easy to do.<br>Continue rinsing. Immediately call a POISON CENTER or doctor. |
| Storage   | : Store in a well-ventilated place. Keep cool.   |
| Disposal  | : Dispose of contents and container in accordance with all local, regional, national and international regulations.  |
| Other hazards which do not result in classification | : Prolonged or repeated contact may dry skin and cause irritation.   |

### Section 3. Composition/information on ingredients

#### Substance/mixture Other means of identification

**CAS number** 

: Mixture

: Not available.

#### **CAS number/other identifiers**

: Not applicable.

| Ingredient name                     | %          | CAS number |
|-------------------------------------|------------|------------|
| dicopper oxide                      | 30 - <60   | 1317-39-1  |
| zinc oxide                          | 10 - <12.5 | 1314-13-2  |
| butan-1-ol                          | 7 - <10    | 71-36-3    |
| rosin                               | 7 - <10    | 8050-09-7  |
| xylene                              | 7 - <10    | 1330-20-7  |
| N-ethyl-o(or p)-toluenesulphonamide | 2 - <3     | 8047-99-2  |
| copper oxide                        | 1 - <2     | 1317-38-0  |
| n-butyl acetate                     | 1 - <2     | 123-86-4   |
| copper                              | 1 - <2     | 7440-50-8  |
| ethylbenzene                        | 0.2 - <0.5 | 100-41-4   |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

### Section 4. First aid measures

| Description of necessary fi               | <u>st aid measures</u>  |
|---|---|
| Eye contact                               | <ul> <li>Check for and remove any contact lenses. Immediately flush eyes with running<br/>water for at least 15 minutes, keeping eyelids open. Seek immediate medical<br/>attention.</li> </ul>   |
| Inhalation                                | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is<br>irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by<br>trained personnel.  |
| Skin contact                              | : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.  |
| Ingestion                                 | : If swallowed, seek medical advice immediately and show this container or label.<br>Keep person warm and at rest. Do NOT induce vomiting.  |
| Indication of immediate me                | lical attention and special treatment needed, if necessary  |
| Notes to physician<br>Specific treatments | <ul> <li>In case of inhalation of decomposition products in a fire, symptoms may be delayed.</li> <li>The exposed person may need to be kept under medical surveillance for 48 hours.<br/>No specific treatment.</li> </ul>   |
| Protection of first-aiders                | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |
| Potential acute health effec              | <u>s</u>  |
| Eye contact                               | : Causes serious eye damage.  |
| Inhalation                                | : Harmful if inhaled.   |
| _   | English (US) Colombia 3/15  |

| Code        | 00333511 | Dat                          | te of issue | 20 December 2023                      | Version | 6.02 |

| Product nam | е        | ABC#3 BLACK 283S5773 AF-NAVY |             |                                       |         |      |
|             |          |                              |             | · · · · · · · · · · · · · · · · · · · |         |      |

### Section 4. First aid measures

Skin contact

Ingestion

May be harmful in contact with skin. Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction.
Harmful if swallowed.

See toxicological information (Section 11)

### Section 5. Fire-fighting measures

| Extinguishing media                            |  |
|--|--|
| Suitable extinguishing media                   | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.   |
| Unsuitable extinguishing media                 | : Do not use water jet.  |
| Specific hazards arising from the chemical     | : Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard.<br>In a fire or if heated, a pressure increase will occur and the container may burst,<br>with the risk of a subsequent explosion. This material is very toxic to aquatic life<br>with long lasting effects. Fire water contaminated with this material must be<br>contained and prevented from being discharged to any waterway, sewer or drain. |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon oxides<br>nitrogen oxides<br>sulfur oxides<br>metal oxide/oxides   |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.   |
| Special protective equipment for fire-fighters | <ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained<br/>breathing apparatus (SCBA) with a full face-piece operated in positive pressure<br/>mode.</li> </ul>  |

### Section 6. Accidental release measures

| Personal precautions, protec   | ive equipment and emergency procedures   |
|--------------------------------|--|
| For non-emergency<br>personnel | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Shut off all ignition sources.<br>No flares, smoking or flames in hazard area. Do not breathe vapor or mist. Provide<br>adequate ventilation. Wear appropriate respirator when ventilation is inadequate.<br>Put on appropriate personal protective equipment. |
| For emergency responders       | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| Environmental precautions      | Avoid dispersal of spilled material and runoff and contact with soil, waterways,<br>drains and sewers. Inform the relevant authorities if the product has caused<br>environmental pollution (sewers, waterways, soil or air). Water polluting material.<br>May be harmful to the environment if released in large quantities. Collect spillage.  |

#### Methods and materials for containment and cleaning up

| Section 6. Accidental release measures |   |  |
|--|---|--|
| Small spill                            | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools<br>and explosion-proof equipment. Dilute with water and mop up if water-soluble.<br>Alternatively, or if water-insoluble, absorb with an inert dry material and place in an<br>appropriate waste disposal container. Dispose of via a licensed waste disposal<br>contractor.  |  |
| Large spill                            | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools<br>and explosion-proof equipment. Approach release from upwind. Prevent entry into<br>sewers, water courses, basements or confined areas. Wash spillages into an<br>effluent treatment plant or proceed as follows. Contain and collect spillage with non-<br>combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth<br>and place in container for disposal according to local regulations (see Section 13).<br>Dispose of via a licensed waste disposal contractor. Contaminated absorbent<br>material may pose the same hazard as the spilled product. Note: see Section 1 for<br>emergency contact information and Section 13 for waste disposal. |  |

## Section 7. Handling and storage

| Precautions for safe :<br>handling                                   | Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|--|--|
| Conditions for safe storage, :<br>including any<br>incompatibilities | Do not store above the following temperature: 50°C (122°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.  |

### Section 8. Exposure controls/personal protection

**Control parameters Occupational exposure limits** 

6.02

# Section 8. Exposure controls/personal protection

| Ingredient name                   |   | Exposure limits  |  |  |
|-----------------------------------|---|--|--|--|
| dicopper oxide                    |   | ACGIH TLV (United States, 1/2023).<br>[Copper Fume]  |  |  |
| zinc oxide                        |   | TWA: 0.2 mg/m <sup>3</sup> 8 hours. Form: Fume<br><b>ACGIH TLV (United States, 1/2023).</b><br>STEL: 10 mg/m <sup>3</sup> 15 minutes. Form:<br>Respirable fraction<br>TWA: 2 mg/m <sup>3</sup> 8 hours. Form: Respirable<br>fraction                 |  |  |
| butan-1-ol                        |   | ACGIH TLV (United States, 1/2023).<br>TWA: 20 ppm 8 hours.   |  |  |
| rosin                             |   | ACGIH TLV (United States, 1/2023). [resin<br>acids as total Resin acids] Skin sensitizer.<br>Inhalation sensitizer.<br>TWA: 0.001 mg/m <sup>3</sup> , (as total Resin acids) 8   |  |  |
| xylene                            |   | hours. Form: Inhalable fraction<br>ACGIH TLV (United States, 1/2023). [p-<br>xylene and mixtures containing p-xylene]<br>Ototoxicant.<br>TWA: 20 ppm 8 hours.  |  |  |
| copper oxide                      |   | ACGIH TLV (United States, 1/2023).<br>[Copper Fume]<br>TWA: 0.2 mg/m <sup>3</sup> 8 hours. Form: Fume  |  |  |
| n-butyl acetate                   |   | ACGIH TLV (United States, 1/2023). [Butyl<br>acetates all isomers]<br>STEL: 150 ppm 15 minutes.<br>TWA: 50 ppm 8 hours.  |  |  |
| copper                            |   | ACGIH TLV (United States, 1/2023).<br>[Copper Dusts and mists, as Cu]<br>TWA: 1 mg/m <sup>3</sup> , (as Cu) 8 hours. Form:<br>Dust and mist<br>ACGIH TLV (United States, 1/2023).<br>[Copper Fume]<br>TWA: 0.2 mg/m <sup>3</sup> 8 hours. Form: Fume |  |  |
| Recommended monitoring procedures |   | oriate monitoring standards. Reference to tho the determination of hazardous   |  |  |
| Appropriate engineering controls  | Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment. |  |  |  |
| Environmental exposure controls   | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels.   |  |  |  |

#### Individual protection measures

| Section 8. Expos                         | ure controls/personal protection  |
|--|---|
| Hygiene measures                         | : Wash hands, forearms and face thoroughly after handling chemical products,<br>before eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Contaminated work clothing should not be allowed out of the workplace. Wash<br>contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location.   |
| Eye protection<br><u>Skin protection</u> | : Chemical splash goggles and face shield.  |
| Hand protection                          | : Chemical-resistant, impervious gloves complying with an approved standard should<br>be worn at all times when handling chemical products if a risk assessment indicates<br>this is necessary. Considering the parameters specified by the glove manufacturer,<br>check during use that the gloves are still retaining their protective properties. It<br>should be noted that the time to breakthrough for any glove material may be<br>different for different glove manufacturers. In the case of mixtures, consisting of<br>several substances, the protection time of the gloves cannot be accurately<br>estimated. |
| Gloves                                   | : butyl rubber  |
| Body protection                          | : Personal protective equipment for the body should be selected based on the task<br>being performed and the risks involved and should be approved by a specialist<br>before handling this product. When there is a risk of ignition from static electricity,<br>wear anti-static protective clothing. For the greatest protection from static<br>discharges, clothing should include anti-static overalls, boots and gloves.   |
| Other skin protection                    | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |
| Respiratory protection                   | : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.  |

# Section 9. Physical and chemical properties

| <u>Appearance</u>                            |                              |
|--|------------------------------|
| Physical state                               | : Liquid.                    |
| Color  | : Black.                     |
| Odor   | : Characteristic.            |
| рН   | : Not applicable.            |
| Melting point                                | : Not available.             |
| Boiling point                                | : >37.78°C (>100°F)          |
| Flash point                                  | : Closed cup: 28.33°C (83°F) |
| Evaporation rate                             | : 0.64 (butyl acetate = 1)   |
| Flammability (solid, gas)                    | : Not available.             |
| Lower and upper explosive (flammable) limits | : Not available.             |
| Vapor pressure                               | : 1.4 kPa (10.8 mm Hg)       |
| Vapor density                                | : Not available.             |
| Relative density                             | : 2.06                       |

6.02

### Section 9. Physical and chemical properties

| Solubility(ies)                            |   | Media Result                                  |
|--|---|---|
|  | 1 | old water Not soluble                         |
| Water Solubility at room temperature       | : | 1.4 g/l                                       |
| Partition coefficient: n-<br>octanol/water | : | Not applicable.                               |
| Auto-ignition temperature                  | : | Not available.                                |
| Decomposition temperature                  | : | Not available.                                |
| Viscosity                                  | : | Kinematic (40°C (104°F)): >21 mm²/s (>21 cSt) |

# Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.  |
|------------------------------------|---|
| Chemical stability                 | : The product is stable.  |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.   |
| Conditions to avoid                | : When exposed to high temperatures may produce hazardous decomposition products.   |
| Incompatible materials             | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.                      |
| Hazardous decomposition products   | : Depending on conditions, decomposition products may include the following materials: carbon oxides nitrogen oxides sulfur oxides metal oxide/oxides |

### Section 11. Toxicological information

#### Information on toxicological effects

Acute toxicity

| Product/ingredient name | Result                          | Species    | Dose                    | Exposure |
|-------------------------|---------------------------------|------------|-------------------------|----------|
| dícopper oxide          | LC50 Inhalation Dusts and mists | Rat        | 3.34 mg/l               | 4 hours  |

#### Specific target organ toxicity (repeated exposure)

| Name         |            | Route of<br>exposure | Target organs  |
|--------------|------------|----------------------|----------------|
| ethylbenzene | Category 2 | -                    | hearing organs |

#### Target organs

: Contains material which causes damage to the following organs: brain. Contains material which may cause damage to the following organs: blood, kidneys, lungs, the nervous system, liver, digestive system, gastrointestinal tract, upper respiratory tract, skin, central nervous system (CNS), ears, eye, lens or cornea.

#### Aspiration hazard

| Name | Result   |

|      | ASPIRATION HAZARD - Category 1<br>ASPIRATION HAZARD - Category 1 |

| Information on the likely<br>routes of exposure |     | Not available.  |
|---|-----|---|
| Potential acute health effects                  |     |   |
| Eye contact                                     | ÷   | Causes serious eye damage.  |
| Inhalation                                      | ÷   | Harmful if inhaled.   |
| Skin contact                                    | 1   | May be harmful in contact with skin. Causes skin irritation. Defatting to the skin.<br>May cause an allergic skin reaction. |
| Ingestion                                       | ÷   | Harmful if swallowed.   |
| Symptoms related to the physical                | sic | al, chemical and toxicological characteristics  |
| Eye contact                                     | :   | Adverse symptoms may include the following:<br>pain<br>watering<br>redness  |
| Inhalation                                      | :   | No specific data.   |
| Skin contact                                    | :   | Adverse symptoms may include the following:<br>pain or irritation<br>redness<br>dryness<br>cracking<br>blistering may occur |

### Section 11. Toxicological information

|           | _   |
|-----------|---|
| Ingestion | : Adverse symptoms may include the following: |
|           | stomach pains                                 |

#### Delayed and immediate effects and also chronic effects from short and long term exposure

| Conclusion/Summary             | : There are no data available on the mixture itself. Exposure to component solvent vapor concentrations in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of consciousness. Solvents may cause some of the above effects by absorption through the skin. There is some evidence that repeated exposure to organic solvent vapors in combination with constant loud noise can cause greater hearing loss than expected from exposure to noise alone. If splashed in the eyes, the liquid may cause irritation and reversible damage. Ingestion may cause nausea, diarrhea and vomiting. This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact. |
|--------------------------------|---|
| Short term exposure            |   |
| Potential immediate effects    | : There are no data available on the mixture itself.  |
| Potential delayed effects      | : There are no data available on the mixture itself.  |
| <u>Long term exposure</u>      |   |
| Potential immediate<br>effects | : There are no data available on the mixture itself.  |
| Potential delayed effects      | : There are no data available on the mixture itself.  |
| Potential chronic health eff   | <u>ects</u>   |
| Not available.                 |   |
| General                        | : Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/<br>or dermatitis. Once sensitized, a severe allergic reaction may occur when<br>subsequently exposed to very low levels.   |

- Carcinogenicity : Suspected of causing cancer. Risk of cancer depends on duration and level of exposure.
- **Mutagenicity** : No known significant effects or critical hazards.
- **Reproductive toxicity** : No known significant effects or critical hazards.

# Section 13. Disposal considerations

| Disposal methods | : The generation of waste should be avoided or minimized wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation<br>and any regional local authority requirements. Dispose of surplus and non-<br>recyclable products via a licensed waste disposal contractor. Waste should not be<br>disposed of untreated to the sewer unless fully compliant with the requirements of<br>all authorities with jurisdiction. Waste packaging should be recycled. Incineration<br>or landfill should only be considered when recycling is not feasible. This material<br>and its container must be disposed of in a safe way. Care should be taken when<br>handling emptied containers that have not been cleaned or rinsed out. Empty<br>containers or liners may retain some product residues. Vapor from product<br>residues may create a highly flammable or explosive atmosphere inside the<br>container. Do not cut, weld or grind used containers unless they have been<br>cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and |
|------------------|--|
|                  | contact with soil, waterways, drains and sewers.   |
