SAFETY DATA SHEET

Conforms to Official Mexican Standard NOM-018-STPS-2015

Date of revision 26 December 2023

Version 15

Date of issue 26 December 2023

SECTION 1: Identification of the substance/mixture and of the company/undertaking

| Product name | : AMERCOAT 235 DARK GRAY 26008 |
|---|---|
| Product code | : 00334066 |
| Other means of identification | : Not applicable. |
| Product type | : Liquid. |
| Relevant identified uses o | f the substance or mixture and uses advised against |
| Product use | : Industrial applications, Used by spraying. |
| Use of the substance/ mixture | : Coating. |
| Uses advised against | : Not applicable. |
| Manufacturer | : PPG Industries, Inc. One PPG Place Pittsburgh, PA 15272 |
| <u>Emergency telephone</u> <u>number</u> | : (412) 434-4515 (U.S.) (514) 645-1320 (Canada) SETIQ Interior de la República: 800-00-214-00 (México) SETIQ Ciudad de México: (55) 5559-1588 (México) |
| Technical Phone Number | : 888-977-4762 |

SECTION 2: Hazards identification

| Classification of the | : FLAMMABLE LIQUIDS - Category 3 |
|-----------------------|---|
| substance or mixture | SKIN IRRITATION - Category 2 |
| | SERIOUS EYE DAMAGE - Category 1 |
| | SKIN SENSITIZATION - Category 1 |
| | CARCINOGENICITY - Category 1B |
| | TOXIC TO REPRODUCTION - Category 2 |
| | SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract irritation) - Category 3 |
| | Percentage of the mixture consisting of ingredient(s) of unknown acute toxicity: |
| | 7.6% (oral), 55.7% (dermal), 63.2% (inhalation) |
| GHS label elements | |
| Hazard pictograms | |
| | |
| | |
| | |

Product name AMERCOAT 235 DARK GRAY 26008

SECTION 2: Hazards identification

| Signal word | - : | Danger |
|-------------------------------|------|---|
| Hazard statements | 1 | H226 - Flammable liquid and vapor. |
| | | H315 - Causes skin irritation. |
| | | H317 - May cause an allergic skin reaction. |
| | | H318 - Causes serious eye damage. |
| | | H335 - May cause respiratory irritation. H350 - May cause cancer. |
| | | H361 - Suspected of damaging fertility or the unborn child. |
| Precautionary statements | | hour - ouspected of damaging fertility of the dilborn office. |
| Prevention | ۰. | P201 - Obtain special instructions before use. |
| Prevention | | P201 - Obtain special instructions before use. P202 - Do not handle until all safety precautions have been read and understood. |
| | | P280 - Wear protective gloves, protective clothing and eye or face protection. |
| | | P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. |
| | | P271 - Use only outdoors or in a well-ventilated area. |
| | | P261 - Avoid breathing vapor. P264 - Wash thoroughly after handling. |
| | | P204 - Wash horodyny aller handling. P272 - Contaminated work clothing should not be allowed out of the workplace. |
| Bosponso | ۰. | P308 + P313 - IF exposed or concerned: Get medical advice or attention. |
| Response | | P304 + P340, P312 - IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor if you feel unwell. P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. |
| | | P302 + P352 - IF ON SKIN: Wash with plenty of water. P333 + P313 - If skin irritation or rash occurs: Get medical advice or attention. P305 + P351 + P338, P310 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor. |
| Storage | ۰. | P405 - Store locked up. |
| Storage | 1 | P403 - Store locked up. P403 + P233 - Store in a well-ventilated place. Keep container tightly closed. |
| Disposal | | P501 - Dispose of contents and container in accordance with all local, regional, |
| Disposal | 1 | national and international regulations. |
| Other hazards which do not | : | Sanding and grinding dusts may be harmful if inhaled. Prolonged or repeated |
| result in classification | | contact may dry skin and cause irritation. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Emits toxic fumes when heated. |
| See toxicological information | n (S | Section 11) |

See toxicological information (Section 11)

SECTION 3: Composition/information on ingredients

| Substance/mixture | : Mixture |
|----------------------------------|--------------------------------|
| Product name | : AMERCOAT 235 DARK GRAY 26008 |
| Other means of identification | : Not applicable. |

Product name AMERCOAT 235 DARK GRAY 26008

SECTION 3: Composition/information on ingredients

| Ingredient name | % | CAS number |
|---|--------------|----------------|
| alc , not containing asbestiform fibres | ≥20 - ≤50 | 14807-96-6 |
| bis-[4-(2,3-epoxipropoxi)phenyl]propane | ≥10 - ≤20 | 1675-54-3 |
| butan-1-ol | ≥5.0 - ≤8.8 | 71-36-3 |
| Solvent naphtha (petroleum), light aromatic | ≥5.0 - ≤8.3 | 64742-95-6 |
| titanium dioxide | ≥1.0 - ≤5.0 | 13463-67-7 |
| Polyisocyanate, Alkyl Phenol Blocked | ≥1.0 - ≤5.0 | Not available. |
| Mica-group minerals | ≥1.0 - ≤5.0 | 12001-26-2 |
| 1,2,4-trimethylbenzene | ≥1.0 - ≤5.0 | 95-63-6 |
| heptan-2-one | ≥0.10 - ≤2.8 | 110-43-0 |
| 4-nonylphenol, branched | <1.0 | 84852-15-3 |
| cumene | <1.0 | 98-82-8 |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SECTION 4: First aid measures

Description of necessary first aid measures

| Eye contact | : Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Seek immediate medical attention. |
|--------------|--|
| Inhalation | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |
| Skin contact | : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners. |
| Ingestion | : If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting. |

Most important symptoms/effects, acute and delayed

Potential acute health effects

| Eye contact Inhalation Skin contact Ingestion | Causes serious eye damage. May cause respiratory irritation. Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction. No known significant effects or critical hazards. |
|--|---|
| Ingestion | : No known significant effects or critical hazards. |

Over-exposure signs/symptoms

See toxicological information (Section 11)

| Indication of immediate med | ica | I attention and special treatment needed, if necessary |
|-----------------------------|-----|---|
| Notes to physician | : | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |
| Specific treatments | 1 | No specific treatment. |
| Protection of first-aiders | : | No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

Product name AMERCOAT 235 DARK GRAY 26008

SECTION 5: Firefighting measures

| Extinguishing media | |
|--|--|
| Suitable extinguishing media | : Use dry chemical, CO ₂ , water spray (fog) or foam. |
| Unsuitable extinguishing media | : Do not use water jet. |
| Specific hazards arising from the chemical | : Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. |
| Hazardous thermal decomposition products | : Decomposition products may include the following materials: carbon oxides metal oxide/oxides Cyanate and isocyanate. hydrogen cyanide |
| Special protective actions for fire-fighters | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

| For non-emergency personnel | | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Do not breathe vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. |
|--------------------------------|-----|--|
| For emergency responders | • | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| Environmental precautions | : | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| Methods and materials for co | ont | ainment and cleaning up |
| Small spill | : | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| Large spill | : | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non- |

and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for

combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth

Mexico Page: 4/15

Product name AMERCOAT 235 DARK GRAY 26008

SECTION 6: Accidental release measures

emergency contact information and Section 13 for waste disposal.

SECTION 7: Handling and storage

| Precautions for safe handling | 1 | |
|--|---|---|
| Protective measures | : | Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container. |
| Special precautions | : | Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. Vapors are heavier than air and may spread along floors. If this material is part of a multiple component system, read the Safety Data Sheet(s) for the other component or components before blending as the resulting mixture may have the hazards of all of its parts. |
| Advice on general occupational hygiene | : | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |
| Conditions for safe storage, including any incompatibilities | : | Do not store above the following temperature: 50°C (122°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. |

SECTION 8: Exposure controls/personal protection

Control parameters

| Ingredient name | Exposure limits | |
|---|--|--|
| ralc , not containing asbestiform fibres | NOM-010-STPS-2014 (Mexico, 4/2016). [Talc (without asbestos fibres)] STEL: 2 mg/m ³ 15 minutes. Form: Respirable | |
| bis-[4-(2,3-epoxipropoxi)phenyl]propane butan-1-ol | None. NOM-010-STPS-2014 (Mexico, 4/2016). Absorbed through skin. TWA: 20 ppm 8 hours. | |

Product name AMERCOAT 235 DARK GRAY 26008

SECTION 8: Exposure controls/personal protection

| None. |
|--|
| NOM-010-STPS-2014 (Mexico, 4/2016). |
| TWA: 10 mg/m ³ 8 hours. |
| None. |
| NOM-010-STPS-2014 (Mexico, 4/2016). |
| TWA: 3 mg/m ³ 8 hours. Form: Respirable |
| fraction |
| NOM-010-STPS-2014 (Mexico, 4/2016). |
| [Trimethyl benzene, mixed isomers] |
| TWA: 25 ppm 8 hours. |
| NOM-010-STPS-2014 (Mexico, 4/2016). |
| TWA: 50 ppm 8 hours. |
| None. |
| NOM-010-STPS-2014 (Mexico, 4/2016). |
| TWA: 50 ppm 8 hours. |
| |

Key to abbreviations

| | | That of 15 | |
|------|---------------------------------------|----------------------------------|---|
| С | = Ceiling Limit | STEL = Short term exposure limit | t |
| IPEL | = Internal Permissible Exposure Limit | TLV = Threshold Limit Value | |
| | | TWA = Time Weighted Average | |

Consult local authorities for acceptable exposure limits.

| Recommended monitoring procedures | : | Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required. |
|-------------------------------------|----|---|
| Appropriate engineering controls | : | Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment. |
| Environmental exposure controls | : | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. |
| Individual protection measure | es | |
| Hygiene measures | : | Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
| Eye/face protection | : | Chemical splash goggles and face shield. |
| Skin protection | | |
| Hand protection | : | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. |
| Gloves | : | butyl rubber |
| | | |

Product name AMERCOAT 235 DARK GRAY 26008

SECTION 8: Exposure controls/personal protection

| Body protection | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear anti-static protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves. |
|------------------------|--|
| Other skin protection | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Respiratory protection | : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. |

SECTION 9: Physical and chemical properties

| <u>Appearance</u> | | | | | |
|--|---|---------------------------------|---------------------------|--|--|
| Physical state | 1 | Liquid. | | | |
| Color | 1 | Dark grey. | | | |
| Odor | 1 | Characteristic. | | | |
| Odor threshold | 1 | Not available. | | | |
| Molecular weight | 4 | Not applicable. | | | |
| рН | ÷ | Not applicable. | | | |
| Melting point | | Not available. | | | |
| Boiling point | 1 | >37.78°C (>100°F) | | | |
| Flash point | 4 | Closed cup: 36.67°C (98°F) | | | |
| Auto-ignition temperature | 1 | Not available. | | | |
| Decomposition temperature | 4 | Not available. | | | |
| Flammability | 4 | Not available. | | | |
| Lower and upper explosive | ÷ | Not available. | | | |
| (flammable) limits Evaporation rate | | 0.36 (butyl acetate = 1) | | | |
| Vapor pressure | | 0.79 kPa (5.9 mm Hg) | | | |
| Vapor density | | Not available. | | | |
| Relative density | | 1.41 | | | |
| Density (lbs / gal) | : | 11.77 | | | |
| | | Media Resu | It | | |
| Solubility(ies) | 1 | | oluble | | |
| Solubility in water | : | 0.5 g/l | | | |
| Partition coefficient: n- | | Not applicable. | | | |
| octanol/water | | | | | |
| Viscosity | 4 | Kinematic (40°C (104°F)): >21 m | ¹ /s (>21 cSt) | | |
| Volatility | ÷ | 34% (v/v), 20.434% (w/w) | | | |
| % Solid. (w/w) | ÷ | 79.566 | | | |

Date of issue 26 December 2023 Version 15

Product name AMERCOAT 235 DARK GRAY 26008

SECTION 10: Stability and reactivity

| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. |
|------------------------------------|---|
| Chemical stability | : The product is stable. |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. |
| Conditions to avoid | : When exposed to high temperatures may produce hazardous decomposition products. Refer to protective measures listed in sections 7 and 8. |
| Incompatible materials | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids. |
| Hazardous decomposition products | : Depending on conditions, decomposition products may include the following mater Cyanate and isocyanate. carbon oxides nitrogen oxides hydrogen cyanide metal oxide/oxides |

SECTION 11: Toxicological information

Information on toxicological effects

Acute toxicity

| Product/ingredient name | Result | Species | Dose | Exposure |
|---|---------------------------------|---------|-------------------------|----------|
| bis-[4-(2,3-epoxipropoxi) | LD50 Dermal | Rabbit | 23000 mg/kg | - |
| phenyl]propane | | | | |

Product name AMERCOAT 235 DARK GRAY 26008

SECTION 11: Toxicological information

| Name | Category | Route of exposure | Target organs |
|---|------------|-------------------|---------------------------------|
| Talc , not containing asbestiform fibres | Category 3 | - | Respiratory tract irritation |
| butan-1-ol | Category 3 | - | Respiratory tract irritation |
| | Category 3 | | Narcotic effects |
| Solvent naphtha (petroleum), light aromatic | Category 3 | - | Narcotic effects |
| Polyisocyanate, Alkyl Phenol Blocked | Category 3 | - | Respiratory tract irritation |
| 1,2,4-trimethylbenzene | Category 3 | - | Respiratory tract irritation |
| heptan-2-one | Category 3 | - | Narcotic effects |
| cumene | Category 3 | - | Respiratory tract irritation |

Specific target organ toxicity (repeated exposure)

| Name | | Category | Route of exposure | Target organs |
|---------------|-----------------------------|----------------|---------------------|----------------------|
| cumene | | Category 2 | - | - |
| Target organs | : Contains material which c | auses damage f | to the following or | gans: brain, central |

nervous system (CNS). Contains material which may cause damage to the following organs: blood, kidneys, lungs, liver, peripheral nervous system, cardiovascular system, upper respiratory tract, skin, ears, eye, lens or cornea.

Aspiration hazard

| Name | Result |
|--------------|--|
| heptan-2-one | ASPIRATION HAZARD - Category 1 ASPIRATION HAZARD - Category 2 ASPIRATION HAZARD - Category 1 |

Information on the likely routes of exposure

| Potential acute health effects | | |
|--------------------------------|---|-----|
| Eye contact | uses serious eye damage. | |
| Inhalation | y cause respiratory irritation. | |
| Skin contact | uses skin irritation. Defatting to the skin. May cause an allergic skin reacti | on. |
| Ingestion | known significant effects or critical hazards. | |
| Over-exposure signs/sympto | | |
| Eye contact | verse symptoms may include the following: n tering Iness | |
| Inhalation | verse symptoms may include the following: piratory tract irritation ughing luced fetal weight rease in fetal deaths eletal malformations | |

Product name AMERCOAT 235 DARK GRAY 26008

SECTION 11: Toxicological information

| Skin contact | Adverse symptoms may include the following: pain or irritation redness dryness cracking blistering may occur reduced fetal weight increase in fetal deaths skeletal malformations Adverse symptoms may include the following: |
|--|--|
| - | stomach pains reduced fetal weight increase in fetal deaths skeletal malformations |
| Delayed and immediate effect | cts and also chronic effects from short and long term exposure |
| Conclusion/Summary | : There are no data available on the mixture itself. Based on the properties of the isocyanate components and considering toxicological data on similar mixtures, this mixture may cause acute irritation and/or sensitization of the respiratory system, leading to an asthmatic condition, wheezing and tightness of the chest. Repeated exposure may lead to permanent respiratory disability. For many products, TiO2 is utilized as a raw material in a liquid coating formulation. In this case, the TiO2 particles are bound in a matrix with no meaningful potential for human exposure to unbound particles of TiO2 when the product is applied with a brush or roller. Sanding the coating surface or mist from spray applications may be harmful depending on the duration and level of exposure and require the use of appropriate personal protective equipment and/or engineering controls (see Section 8). Carbon black is utilized as a raw material in many liquid coating formulations. In this case, the carbon black particles are bound in a matrix with no meaningful potential for human exposure to unbound particles of carbon black when the product is applied with a brush or roller. Sanding the coating surface or mist from spray applications may be harmful depending on the duration and level of exposure and require the use of appropriate personal protective equipment and/or engineering controls (see Section 8). Most carbon blacks contain trace quantities of polyaromatic hydrocarbons (PAH). PAHs are not expected to be released in biological fluids and are therefore not likely available for biological activity. Exposure to component solvent vapor concentrations in excess of the stated occupational exposure limit may result in adverse effects on the kidneys, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of consciousness. Solvents may cause some of the above effects by absorption through the skin. There is some evidence that repeated exposure to |
| <u>Short term exposure</u> | |
| Potential immediate effects | : There are no data available on the mixture itself. |
| Potential delayed effects | : There are no data available on the mixture itself. |
| Long term exposure Potential immediate effects | : There are no data available on the mixture itself. |

Product name AMERCOAT 235 DARK GRAY 26008

SECTION 11: Toxicological information

| Potential delayed effects : | | There are no data available on the mixture itself. |
|---------------------------------|---|---|
| Potential chronic health effect | S | |
| General | : | Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/ or dermatitis. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels. |
| Carcinogenicity | : | May cause cancer. Risk of cancer depends on duration and level of exposure. |
| Mutagenicity | ÷ | No known significant effects or critical hazards. |
| Reproductive toxicity | : | Suspected of damaging fertility or the unborn child. |

Numerical measures of toxicity

Acute toxicity estimates

| Product/ingredient name | Oral (mg/ kg) | Dermal (mg/kg) | Inhalation (gases) (ppm) | Inhalation (vapors) (mg/l) | Inhalation (dusts and mists) (mg/l) |
|---|------------------|-------------------|--------------------------------|----------------------------------|--|
| MERCOAT 235 DARK GRAY 26008 | 10234.1 | 12613.8 | N/A | 119.7 | 16.3 |
| bis-[4-(2,3-epoxipropoxi)phenyl]propane | 15000 | 23000 | N/A | N/A | N/A |
| butan-1-ol | 790 | 3400 | N/A | 24 | N/A |
| Solvent naphtha (petroleum), light aromatic | 8400 | 3480 | N/A | N/A | N/A |
| 1,2,4-trimethylbenzene | 5000 | N/A | N/A | 18 | 1.5 |
| heptan-2-one | 1600 | 10206 | N/A | 16.7 | N/A |
| 4-nonylphenol, branched | 1300 | 2140 | N/A | N/A | N/A |
| cumene | 2260 | 12300 | N/A | 39 | N/A |

SECTION 12: Ecological information

Toxicity

| Product/ingredient name | Result | Species | Exposure |
|---|--|--|----------------------|
| bis-[4-(2,3-epoxipropoxi) phenyl]propane | Acute LC50 1.8 mg/l Fresh water | Daphnia - <i>daphnia magna</i> | 48 hours |
| | Chronic NOEC 0.3 mg/l | Daphnia | 21 days |
| butan-1-ol | Acute LC50 1376 mg/l | Fish | 96 hours |
| Solvent naphtha (petroleum), light aromatic | Acute LC50 8.2 mg/l | Fish | 96 hours |
| titanium dioxide | Acute LC50 >100 mg/l Fresh water | Daphnia - <i>Daphnia magna</i> | 48 hours |
| heptan-2-one | Acute LC50 131 mg/l | Fish | 96 hours |
| 4-nonylphenol, branched | Acute EC50 0.044 mg/l Acute LC50 0.221 mg/l | Crustaceans - <i>Moina macrocopa</i> Fish | 48 hours 96 hours |

Persistence and degradability

| Product/ingredient name | Test | Result | | Dose | Inoculum |
|---|-------------------|---------------------|-----------|------|------------------------|
| heptan-2-one | OECD 310 | 69 % - Readily - 28 | days | - | - |
| Product/ingredient name | Aquatic half-life | | Photolysi | S | Biodegradability |
| bis-[4-(2,3-epoxipropoxi) phenyl]propane heptan-2-one | - | | - | | Not readily Readily |

Bioaccumulative potential

Product name AMERCOAT 235 DARK GRAY 26008

SECTION 12: Ecological information

| Product/ingredient name | LogPow | BCF | Potential |
|-------------------------|--------|--------|-----------|
| butan-1-ol | 1 | - | Low |
| 1,2,4-trimethylbenzene | 3.63 | 120.23 | Low |
| heptan-2-one | 2.26 | - | Low |
| 4-nonylphenol, branched | 5.4 | 251.19 | Low |
| cumene | 3.55 | 35.48 | Low |

Mobility in soil

| Soil/water partition | : Not available. |
|----------------------|------------------|
| coefficient (Koc) | |

Other adverse effects

: No known significant effects or critical hazards.

SECTION 13: Disposal considerations

| Disposal methods | : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non- recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |
|------------------|--|
| | |

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures

SECTION 14: Transport information

| Product RQ (lbs) | Not applicable. | Not applicable. | Not applicable. |
|------------------|-----------------|-----------------|-----------------|
| RQ substances | Not applicable. | Not applicable. | Not applicable. |

Additional information

IMDG

- : The marine pollutant mark is not required when transported in sizes of ≤ 5 L or ≤ 5 kg.
- **IATA** : The environmentally hazardous substance mark may appear if required by other transportation regulations.
- **Special precautions for user : Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments

SECTION 15: Regulatory information

Mexico Classification Flammability : 3 Health : 3 Reactivity : 0 International regulations Montreal Protocol Not listed. Stockholm Convention on Persistent Organic Pollutants Not listed. Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

SECTION 16: Other information

Hazardous Material Information System (U.S.A.)

Health : 3 * Flammability : 3 Physical hazards : 0 (*) - Chronic effects

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.
