# **SAFETY DATA SHEET**

**SIGMA ECOFLEET 290 A BROWN** 

#### Date of issue 6 March 2024

Version 3

| 1. Product and company identification |  |  |
|---------------------------------------|--|--|
| Product name                          | : SIGMA ECOFLEET 290 A BROWN   |  |
| Product code                          | : 000001020514   |  |
| Other means of<br>identification      | : 00269704   |  |
| Product type                          | : Liquid.  |  |
| Relevant identified uses              | of the substance or mixture and uses advised against   |  |
| Product use                           | : Professional applications, Used by spraying.   |  |
| Use of the substance/<br>mixture      | : Coating.; Antifouling products   |  |
| Uses advised against                  | : Not applicable.  |  |
| Supplier's details                    | : PPG PMC Japan Co., Ltd., 8F, Shintetsu Bldg., 1-1, Daikaidori 1-chome, Kobe 652-0803 Japan; Tel: +81-78-574-2777 |  |
| Emergency telephone<br>number         | : 078 574 2777   |  |

### 2. Hazards identification

| <b>GHS Classification</b> | : FLAMMABLE LIQUIDS - Category 3   |
|---------------------------|--|
|                           | ACUTE TOXICITY (oral) - Category 4   |
|                           | SKIN IRRITATION - Category 2<br>EYE IRRITATION - Category 2A   |
|                           | RESPIRATORY SENSITIZATION - Category 1   |
|                           | SKIN SENSITIZATION - Category 1  |
|                           | CARCINOGENICITY - Category 1A  |
|                           | TOXIC TO REPRODUCTION - Category 1B  |
|                           | SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) - Category 1  |
|                           | SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract<br>irritation) - Category 3  |
|                           | SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Narcotic effects) -  |
|                           | Category 3   |
|                           | SPEČIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 1<br>HAZARDOUS TO THE AQUATIC ENVIRONMENT - ACUTE HAZARD - Category 1<br>HAZARDOUS TO THE AQUATIC ENVIRONMENT - CHRONIC HAZARD - |
|                           | Category 1   |
| GHS label elements        |  |
| Hazard pictograms         |  |
|                           |  |
|                           |  |
|                           |  |
| Signal word               | : Danger   |
|                           |  |
|                           |  |

| L  |         |                |
|----|---------|----------------|
| 2. | Hazards | identification |
|    |         |                |

| Hazard statements                                   | Fammable liquid and vapor.  |  |
|---|---|--|
|   | Harmful if swallowed.   |  |
|   | Causes skin irritation.   |  |
|   | May cause an allergic skin reaction.  |  |
|   | Causes serious eye irritation.  |  |
|   | May cause allergy or asthma symptoms or breathing difficulties if inhaled.<br>May cause respiratory irritation.   |  |
|   | May cause drowsiness or dizziness.  |  |
|   | May cause cancer.   |  |
|   | May damage fertility or the unborn child.   |  |
|   | Causes damage to organs. (central nervous system (CNS), kidneys, liver, respiratory organs, systemic toxicity, whole body)  |  |
|   | Causes damage to organs through prolonged or repeated exposure. (hearing  |  |
|   | organs, nervous system, respiratory organs)   |  |
|   | Very toxic to aquatic life with long lasting effects.   |  |
| Precautionary statements                            |   |  |
| Prevention  | Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing and eye or face protection. Wear respiratory protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Do not breathe vapor. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace.  |  |
| Response  | Collect spillage. IF exposed or concerned: Call a POISON CENTER or doctor. IF<br>INHALED: Remove person to fresh air and keep comfortable for breathing. Call a<br>POISON CENTER or doctor if you feel unwell. If experiencing respiratory<br>symptoms: Call a POISON CENTER or doctor. IF SWALLOWED: Call a POISON<br>CENTER or doctor if you feel unwell. Rinse mouth. IF ON SKIN (or hair): Take off<br>immediately all contaminated clothing. Rinse skin with water. IF ON SKIN: Wash<br>with plenty of water. If skin irritation or rash occurs: Get medical advice or attention.<br>IF IN EYES: Rinse cautiously with water for several minutes. Remove contact<br>lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get<br>medical advice or attention. |  |
| Storage   | Store locked up. Store in a well-ventilated place. Keep container tightly closed.   |  |
| Disposal  | Dispose of contents and container in accordance with all local, regional, national and international regulations.   |  |
| Other hazards which do not result in classification | Prolonged or repeated contact may dry skin and cause irritation.  |  |

### 3. Composition/information on ingredients

Substance/mixture

: Mixture

#### **CAS number/other identifiers**

| CAS number  | : Not applicable. |
|-------------|-------------------|
| CSCL number | : Not available.  |

#### FIGULE I AME SIGMA ECOPLEET 250 A BROWN

### 3. Composition/information on ingredients

| Ingredient name   | %          | CAS number  | CSCL           |
|---|------------|-------------|----------------|
| dicopper oxide  | 25 - <50   | 1317-39-1   | 1-297          |
| Rosin   | 12.5 - <15 | 8050-09-7   | 7-935          |
| Xylene  | 10 - <12.5 | 1330-20-7   | 3-3; 3-60      |
| Zinc oxide  | 7 - <10    | 1314-13-2   | 1-561          |
| 5-Methyl-2-hexanone   | 5 - <7     | 110-12-3    | 2-542          |
| Diiron trioxide   | 5 - <7     | 1309-37-1   | 1-357; 5-5188  |
| Talc containing no asbestos or quartz   | 2 - <3     | 14807-96-6  | Not available. |
| Ethylbenzene  | 2 - <3     | 100-41-4    | 3-28; 3-60     |
| carbon black  | 1 - <2     | 1333-86-4   | 5-3328; 5-5222 |
| copper(II) oxide  | 1 - <2     | 1317-38-0   | 1-297          |
| 4,5-Dichloro-2-octylisothiazol-3(2H)-one  | 0.5 - <1   | 64359-81-5  | 5-6165         |
| Copper  | 0.5 - <1   | 7440-50-8   | Not available. |
| Reaction products of 12-hydroxyoctadecanoic<br>acid and octadecanoic acid and<br>1,3-phenylenedimethanamine | 0.5 - <1   | 911674-82-3 | Not available. |
| Cashew, nutshell liq.   | 0.5 - <1   | 8007-24-7   | Not available. |
| Silica silicon dioxide containing crystalline and amorphous   | 0.2 - <0.5 | 7631-86-9   | 1-548          |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

### 4. First aid measures

#### Description of necessary first aid measures

| Eye contact  | : Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Seek immediate medical attention.                            |
|--------------|--|
| Inhalation   | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |
| Skin contact | : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.   |
| Ingestion    | : If swallowed, seek medical advice immediately and show this container or label.<br>Keep person warm and at rest. Do NOT induce vomiting.   |

#### Most important symptoms/effects, acute and delayed

| Potential acute health effect |  |      |
|-------------------------------|--|------|
| Eye contact                   | causes serious eye irritation.   |      |
| Inhalation                    | can cause central nervous system (CNS) depression. May cause drowsiness o<br>izziness. May cause respiratory irritation. May cause allergy or asthma symptor<br>r breathing difficulties if inhaled. |      |
| Skin contact                  | auses damage to organs following a single exposure in contact with skin. Cau kin irritation. Defatting to the skin. May cause an allergic skin reaction.   | ises |
| Ingestion                     | larmful if swallowed. Causes damage to organs following a single exposure if wallowed. Can cause central nervous system (CNS) depression.  |      |
| Over-exposure signs/sympto    |  |      |
| Eye contact                   | dverse symptoms may include the following:<br>ain or irritation<br>/atering<br>edness  |      |

| Product code 00000102051   |  |
|----------------------------|--|
| Product name SIGMA ECOP    | LEET 290 A BROWN   |
| 4. First aid measu         | ires   |
| Inhalation                 | : Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing<br>wheezing and breathing difficulties<br>asthma<br>nausea or vomiting<br>headache<br>drowsiness/fatigue<br>dizziness/vertigo<br>unconsciousness<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations   |
| Skin contact               | : Adverse symptoms may include the following:<br>irritation<br>redness<br>dryness<br>cracking<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations  |
| Ingestion                  | : Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations  |
| Indication of immediate me | dical attention and special treatment needed, if necessary   |
| Notes to physician         | : Treat symptomatically. Contact poison treatment specialist immediately if large<br>quantities have been ingested or inhaled.   |
| Specific treatments        | : No specific treatment.   |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. If is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

See toxicological information (Section 11)

### 5. Fire-fighting measures

| : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.   |
|--|
| : Do not use water jet.  |
| : Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. This material is very toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain. |
| : Decomposition products may include the following materials:<br>carbon oxides<br>metal oxide/oxides<br>oxides of lead   |
|  |

## 5. Fire-fighting measures

| Special protective actions<br>for fire-fighters | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. |
|---|--|
| Special protective equipment for fire-fighters  | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.  |

### 6. Accidental release measures

| Personal precautions, protective equipment and emergency procedures |   |
|---|---|
| For non-emergency<br>personnel                                      | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Shut off all ignition sources.<br>No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide<br>adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put<br>on appropriate personal protective equipment. |
| For emergency responders  | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| Environmental precautions   | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to<br>the environment if released in large quantities. Collect spillage.   |
| Methods and materials for co  | ntainment and cleaning up   |
| Small spill   | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and   |

|             | explosion-proof equipment. Dilute with water and mop up if water-soluble.<br>Alternatively, or if water-insoluble, absorb with an inert dry material and place in an<br>appropriate waste disposal container. Dispose of via a licensed waste disposal<br>contractor.  |
|-------------|--|
| Large spill | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

### 7. Handling and storage

Precautions for safe handling
Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems or asthma, allergies or chronic or recurrent respiratory disease should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source.

### 7. Handling and storage

Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container.

Conditions for safe storage : Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

### 8. Exposure controls/personal protection

#### Control parameters

#### **Occupational exposure limits**

| Exposure limits   |
|---|
| Japan Society for Occupational Health<br>(Japan, 9/2022). [Copper and compounds]<br>Skin sensitizer.  |
| Japan Society for Occupational Health (Japan, 9/2022). Skin sensitizer.   |
| Inhalation sensitizer.<br>Industrial Safety and Health Act (Japan,<br>6/2020). [xylene]<br>TWA: 50 ppm 8 hours.   |

| Other skin protection             | : Appropriate footwear and any additional selected based on the task being performapproved by a specialist before handling the selected based on the task before handling approved by a specialist before handling the selected based on the task based on the task before handling the selected based on the task based on the task before handling the selected based on the task based on task based on the task based on the task based on task based on task based on the task based on task bask based | rmed and the risks involved and should be  |

### 8. Exposure controls/personal protection

**Respiratory protection** : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessarv.

### 9. Physical and chemical properties

#### **Appearance Physical state** : Liquid. Color : Various Odor : Aromatic. : >37.78°C (>100°F) **Boiling point** : Closed cup: 36°C (96.8°F) **Flash point** : 1.78 **Relative density** Media Result Solubility(ies) Not soluble cold water

### 10. Stability and reactivity

| -                                  |  |
|------------------------------------|--|
| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.                                     |
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.  |
| Conditions to avoid                | : When exposed to high temperatures may produce hazardous decomposition products.  |
| Incompatible materials             | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids. |
| Hazardous decomposition products   | : Depending on conditions, decomposition products may include the following materials: carbon oxides metal oxide/oxides          |

### 11. Toxicological information

| 5                     |  |
|-----------------------|--|
| General               | : Causes damage to organs through prolonged or repeated exposure. Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels. |
| Carcinogenicity       | : May cause cancer. Risk of cancer depends on duration and level of exposure.  |
| Mutagenicity          | : No known significant effects or critical hazards.  |
| Reproductive toxicity | : May damage fertility or the unborn child.  |

#### Other information

Prolonged or repeated contact may dry skin and cause irritation. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing.

| Other adverse effects                     | : No known significant effects or critical hazards. |

### 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or
