# SAFETY DATA SHEET

The information in this Safety Data Sheet is required pursuant to GHS UN rev. 7

Date of issue/Date of revision 7 March 2024 Version 1

# Section 1. Identification

| Product code                                    | : 00445534   |
|---|--|
| Product name                                    | : SIGMACOVER 380 BASE YELLOWGREEN  |
| Product type                                    | : Liquid.  |
| Other means of identification<br>Not available. |  |
| Relevant identified uses of th                  | e substance or mixture and uses advised against  |
| Product use                                     | : Coating.<br>Professional applications, Used by spraying.   |
| Uses advised against                            | : Product is not intended, labelled or packaged for consumer use.                                      |
| Supplier's information                          | : PPG Asian Paints Private Limited<br>6A Shanti Nagar<br>Santa Cruz (East)<br>Mumbai - 400055<br>India |
| Emergency telephone<br>number:                  | : +91 22 6815 8700   |

# Section 2. Hazards identification

| Classification of the substance or mixture | : FLAMMABLE LIQUIDS - Category 3<br>ACUTE TOXICITY (oral) - Category 5                                     |
|--|--|
|  | ACUTE TOXICITY (dermal) - Category 5<br>SKIN CORROSION/IRRITATION - Category 2                             |
|  | SKIN CORROSION/IRRITATION - Category 2<br>SERIOUS EYE DAMAGE/EYE IRRITATION - Category 1                   |
|  | SKIN SENSITISATION - Category 1  |
|  | REPRODUCTIVE TOXICITY - Category 2   |
|  | SPECIFIC TARGET ORGAN TOXICITY - SINGLE EXPOSURE (Respiratory tract<br>irritation) - Category 3            |
|  | SHORT-TERM (ACUTE) AQUATIC HAZARD - Category 1   |
|  | LONG-TERM (CHRONIC) AQUATIC HAZARD - Category 1  |
|  | Percentage of the mixture consisting of ingredient(s) of unknown acute oral toxicity: 21.9%                |
|  | Percentage of the mixture consisting of ingredient(s) of unknown acute dermal toxicity: 59.1%              |
|  | Percentage of the mixture consisting of ingredient(s) of unknown hazards to the aquatic environment: 51.3% |
| GHS label elements                         |  |
| Hazard pictograms                          |  |
|  | $\vee$ $\vee$ $\vee$ $\vee$  |
| Signal word                                | : Danger   |
|  |  |

Product code 00445534

Date of issue 7 March 2024

# Product name SIGMACOVER 380 BASE YELLOWGREEN

| Hazard statements          | : | Flammable liquid and vapour.<br>May be harmful if swallowed or in contact with skin.<br>Causes skin irritation.<br>May cause an allergic skin reaction.<br>Causes serious eye damage.<br>May cause respiratory irritation.<br>Suspected of damaging fertility or the unborn child.<br>Very toxic to aquatic life with long lasting effects.  |
|----------------------------|---|--|
| Precautionary statements   |   |  |
| Prevention                 | : | Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing and eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Avoid breathing vapour. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace.  |
| Response                   | : | Collect spillage. IF exposed or concerned: Get medical advice or attention. IF<br>INHALED: Remove person to fresh air and keep comfortable for breathing. Call a<br>POISON CENTER or doctor if you feel unwell. IF SWALLOWED: Call a POISON<br>CENTER or doctor if you feel unwell. IF ON SKIN (or hair): Take off immediately all<br>contaminated clothing. Rinse skin with water. IF ON SKIN: Call a POISON<br>CENTER or doctor if you feel unwell. Wash with plenty of water. If skin irritation or<br>rash occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with<br>water for several minutes. Remove contact lenses, if present and easy to do.<br>Continue rinsing. Immediately call a POISON CENTER or doctor. |
| Storage                    | 1 | Store locked up. Store in a well-ventilated place. Keep container tightly closed.  |
| Disposal                   | : | Dispose of contents and container in accordance with all local, regional, national and international regulations.  |
| Other hazards which do not |   | Prolonged or repeated contact may dry skin and cause irritation.   |

result in classification

# Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

#### CAS number/other identifiers

**CAS number** : Not applicable.

| Ingredient name   | %        | CAS number |
|---|----------|------------|
| Talc , not containing asbestiform fibres  | 20 - <25 | 14807-96-6 |
| reaction product: bisphenol-A-(epichlorhydrin); epoxy resin                           | 10 - <20 | 25068-38-6 |
| xylene  | 5 - <10  | 1330-20-7  |
| nonylphenol   | 3 - <5   | 25154-52-3 |
| Epoxy Resin (700 <mw<=1100)< td=""><td>3 - &lt;5</td><td>25036-25-3</td></mw<=1100)<> | 3 - <5   | 25036-25-3 |
| Phenol, methylstyrenated  | 3 - <5   | 68512-30-1 |
| 2-methylpropan-1-ol   | 1 - <3   | 78-83-1    |
| Solvent naphtha (petroleum), heavy arom.  | 1 - <3   | 64742-94-5 |
| ethylbenzene  | 1 - <3   | 100-41-4   |
| p-nonylphenol   | <0.1     | 104-40-5   |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

### Section 4. First aid measures

| Description of necessary first aid measures |  |  |
|---|--|--|
| Eye contact                                 | <ul> <li>Check for and remove any contact lenses. Immediately flush eyes with running<br/>water for at least 15 minutes, keeping eyelids open. Seek immediate medical<br/>attention.</li> </ul>  |  |
| Inhalation                                  | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |  |
| Skin contact                                | <ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and<br/>water or use recognised skin cleanser. Do NOT use solvents or thinners.</li> </ul>                       |  |
| Ingestion                                   | <ul> <li>If swallowed, seek medical advice immediately and show the container or label.<br/>Keep person warm and at rest. Do NOT induce vomiting.</li> </ul>                                     |  |

| Most important symptoms/       | effects, acute and delayed  |
|--------------------------------|---|
| Potential acute health effe    | <u>cts</u>  |
| Eye contact                    | : Causes serious eye damage.  |
| Inhalation                     | : May cause respiratory irritation.   |
| Skin contact                   | : May be harmful in contact with skin. Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction.  |
| Ingestion                      | : May be harmful if swallowed.  |
| <u>Over-exposure signs/sym</u> | <u>otoms</u>  |
| Eye contact                    | : Adverse symptoms may include the following:<br>pain<br>watering<br>redness  |
| Inhalation                     | : Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing<br>reduced foetal weight<br>increase in foetal deaths<br>skeletal malformations                                     |
| Skin contact                   | : Adverse symptoms may include the following:<br>pain or irritation<br>redness<br>dryness<br>cracking<br>blistering may occur<br>reduced foetal weight<br>increase in foetal deaths<br>skeletal malformations |
| Ingestion                      | : Adverse symptoms may include the following:<br>stomach pains<br>reduced foetal weight<br>increase in foetal deaths<br>skeletal malformations  |
| Indication of immediate me     | dical attention and special treatment needed, if necessary  |
| Notes to physician             | : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.   |
| Specific treatments            | : No specific treatment.  |
| Protection of first-aiders     | : No action shall be taken involving any personal risk or without suitable training. If it  |

| is suspected that fumes are still present, the rescuer should wear an appropria<br>mask or self-contained breathing apparatus. It may be dangerous to the perso |    |
|---|----|
|   | te |
|   | n  |
| providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothin   | ۱g |
| thoroughly with water before removing it, or wear gloves.   | -  |

#### Date of issue 7 March 2024

### Section 4. First aid measures

See toxicological information (Section 11)

### Section 5. Firefighting measures

| Extinguishing media                               |   |
|---|---|
| Suitable extinguishing media                      | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.  |
| Unsuitable extinguishing media                    | : Do not use water jet.   |
| Specific hazards arising from the chemical        | : Flammable liquid and vapour. Runoff to sewer may create fire or explosion hazard.<br>In a fire or if heated, a pressure increase will occur and the container may burst, with<br>the risk of a subsequent explosion. This material is very toxic to aquatic life with<br>long lasting effects. Fire water contaminated with this material must be contained<br>and prevented from being discharged to any waterway, sewer or drain. |
| Hazardous thermal decomposition products          | : Decomposition products may include the following materials:<br>carbon oxides<br>halogenated compounds<br>metal oxide/oxides   |
| Special protective actions for fire-fighters      | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.  |
| Special protective<br>equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.   |

### Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

| For non-emergency<br>personnel | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilt material. Shut off all ignition sources.<br>No flares, smoking or flames in hazard area. Do not breathe vapour or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment. |
|--------------------------------|---|
| For emergency responders       | : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| Environmental precautions      | : Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air). Water polluting material. May be harmful<br>to the environment if released in large quantities. Collect spillage.   |
| Methods and material for con   | tainment and cleaning up  |

Small spill: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and<br/>explosion-proof equipment. Dilute with water and mop up if water-soluble.<br/>Alternatively, or if water-insoluble, absorb with an inert dry material and place in an<br/>appropriate waste disposal container. Dispose of via a licensed waste disposal<br/>contractor.

### Section 6. Accidental release measures

| Large spill | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-   |
|-------------|---|
|             | combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth<br>and place in container for disposal according to local regulations (see Section 13).<br>Dispose of via a licensed waste disposal contractor. Contaminated absorbent<br>material may pose the same hazard as the spilt product. Note: see Section 1 for<br>emergency contact information and Section 13 for waste disposal. |

# Section 7. Handling and storage

| Precautions for safe handling                                      | l |  |
|--|---|--|
| Protective measures  | : | Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapour or mist. Do not ingest. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container. |
| Advice on general<br>occupational hygiene                          | : | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |
| Conditions for safe storage,<br>including any<br>incompatibilities | : | Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidising materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.   |

# Section 8. Exposure controls/personal protection

#### **Control parameters**

```
Occupational exposure limits
```

| Ingredient name                          | Exposure limits   |
|--|---|
| Talc , not containing asbestiform fibres | ACGIH TLV (United States, 1/2023).<br>TWA: 2 mg/m <sup>3</sup> 8 hours. Form: Respirable                          |
| xylene                                   | ACGIH TLV (United States, 1/2023). [p-<br>xylene and mixtures containing p-xylene]                                |
| 2-methylpropan-1-ol                      | Ototoxicant.<br>TWA: 20 ppm 8 hours.<br>ACGIH TLV (United States, 1/2023).<br>TWA: 152 mg/m <sup>3</sup> 8 hours. |

# Section 8. Exposure controls/personal protection

| ethylbenzene                      |           |   | TWA: 50 ppm 8 hours.<br>ACGIH TLV (United States, 1/2023).<br>Ototoxicant.<br>TWA: 20 ppm 8 hours.   |
|-----------------------------------|-----------|---|--|
| Recommended monitoring procedures | :         |   | riate monitoring standards. Reference to nods for the determination of hazardous   |
| Appropriate engineering controls  | :         | contaminants below any recommende   | Is to keep worker exposure to airborne<br>ed or statutory limits. The engineering controls<br>concentrations below any lower explosive   |
| Environmental exposure controls   | :         | Emissions from ventilation or work pro  | bcess equipment should be checked to ensure<br>environmental protection legislation. In some<br>neering modifications to the process   |
| Individual protection measure     | <u>es</u> |   |  |
| Hygiene measures                  | :         | eating, smoking and using the lavator<br>Appropriate techniques should be use<br>Contaminated work clothing should no   | bughly after handling chemical products, before<br>y and at the end of the working period.<br>In the the end of the working period.<br>The to remove potentially contaminated clothing.<br>The allowed out of the workplace. Wash<br>Ensure that eyewash stations and safety<br>ocation.   |
| Eye/face protection               | :         | Safety eyewear complying with an app<br>assessment indicates this is necessar<br>gases or dusts. If contact is possible,<br>unless the assessment indicates a hig   | broved standard should be used when a risk<br>ry to avoid exposure to liquid splashes, mists,<br>the following protection should be worn,<br>gher degree of protection: chemical splash<br>on hazards exist, a full-face respirator may be   |
| Skin protection                   |           | - 1   |  |
| Hand protection                   | -         | be worn at all times when handling ch<br>this is necessary. Considering the par<br>check during use that the gloves are s<br>should be noted that the time to break | s complying with an approved standard should<br>emical products if a risk assessment indicates<br>rameters specified by the glove manufacturer,<br>still retaining their protective properties. It<br>athrough for any glove material may be<br>rers. In the case of mixtures, consisting of<br>the of the gloves cannot be accurately |
| Gloves                            |           | butyl rubber  |  |
| Body protection                   | •         | being performed and the risks involve   |  |
| Other skin protection             | :         |   | nal skin protection measures should be<br>formed and the risks involved and should be<br>ing this product.   |
| Respiratory protection            | :         | appropriate standard or certification.  | exposure, select a respirator that meets the<br>Respirators must be used according to a<br>ure proper fitting, training, and other important   |

# Section 9. Physical and chemical properties

Product name SIGMACOVER 380 BASE YELLOWGREEN

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

| <u>Appearance</u>                            |    |                                   |                           |         |               |          |          |            |              |

|------------------------------|--------------------------------|
| Oral<br>Dermal               | 4098.47 mg/kg<br>2730.62 mg/kg |
| Inhalation (vapours)         | 47.83 mg/l                     |
| Inhalation (dusts and mists) | 6.14 mg/l                      |

#### **Other information**

Toxicity

Prolonged or repeated contact may dry skin and cause irritation. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapour/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing.

#### Mobility in soil

| Soil/water partition | : Not available. |
|----------------------|------------------|
| coefficient (Koc)    |                  |

#### Other adverse effects

: No known significant effects or critical hazards.

### Section 13. Disposal considerations

#### **Disposal methods**

: The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapour from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

### Section 14. Transport information

|                               | UN   | IMDG  | ΙΑΤΑ   |
|-------------------------------|--|---|--|

| Marine pollutant substances   | Not applicable.  | (reaction product: bisphenol-A-<br>(epichlorhydrin); epoxy resin) | Not applicable.  |

India

Product code 00445534

Product name SIGMACOVER 380 BASE YELLOWGREEN

### Section 14. Transport information

#### **Additional information**

| UN   | : None identified.   |
|------|--|
| IMDG | : The marine pollutant mark is not required when transported in sizes of ≤5 L or ≤5 kg.                    |
| ΙΑΤΑ | : The environmentally hazardous substance mark may appear if required by other transportation regulations. |

**Special precautions for user** :**Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments

### Section 15. Regulatory information

#### International regulations

**Montreal Protocol** 

Not listed.

#### Stockholm Convention on Persistent Organic Pollutants Not listed.

### Section 16. Other information

| <u>History</u>                 |   |

#### Procedure used to derive the classification

| Classification   | Justification         |
|--|-----------------------|
| FLAMMABLE LIQUIDS - Category 3   | On basis of test data |
| ACUTE TOXICITY (oral) - Category 5   | Calculation method    |
| ACUTE TOXICITY (dermal) - Category 5   | Calculation method    |
| SKIN CORROSION/IRRITATION - Category 2   | Calculation method    |
| SERIOUS EYE DAMAGE/EYE IRRITATION - Category 1   | Calculation method    |
| SKIN SENSITISATION - Category 1  | Calculation method    |
| REPRODUCTIVE TOXICITY - Category 2   | Calculation method    |
| SPECIFIC TARGET ORGAN TOXICITY - SINGLE EXPOSURE (Respiratory tract irritation) - Category 3 | Calculation method    |
| SHORT-TERM (ACUTE) AQUATIC HAZARD - Category 1   | Calculation method    |

# Section 16. Other information

LONG-TERM (CHRONIC) AQUATIC HAZARD - Category 1

Calculation method
